COMMUNITY INVOLVEMENT IN EDUCATION

The Board recognizes that the public has substantial resources of training and experience that could be useful to ASDB. The strength of ASDB is in large measure determined by the manner and degree to which these resources are utilized in an advisory capacity and to the degree that these resources are involved in supporting the improvement of the educational program.

The advice of the public will be given careful consideration. In the evaluation of such contributions, the first concern will be for the educational program as it affects the students. The final decision may depart from this advice when in the judgment of the leadership and the Board such advice is not consistent with goals adopted by the Board, consistent with current educational practice, or within the reach of the financial resources available.

Based on the philosophy of ASDB, it is the intent of the Board that parental involvement in ASDB be defined in the broadest possible terms.

The prohibition against sexual harassment does not include legitimate, nonsexual physical contact, such as the use of necessary restraints to avoid physical harm to persons or property, or conduct such as a teacher’s consoling hug of a young student, or one student’s demonstration of a sports move requiring contact with another student.

II. Definitions and Examples of Harassment

“Workplace harassment” means any unwelcome verbal, nonverbal, electronic written, or physical conduct that either denigrates or shows hostility or aversion towards an employee, applicant for employment, volunteer, vendor or contractor on the basis of race, color, national origin, age, sex, sexual orientation, religion, disability, marital status or pregnancy and that: (1) has the purpose or effect of creating an intimidating, hostile or offensive work environment; (2) has the purpose or effect of unreasonably interfering with an employee’s work performance; or (3) affects an employee’s employment opportunities or compensation. Workplace harassment includes sexual harassment.

“Sexual harassment” at work occurs whenever unwelcome conduct of a sexual nature affects a person’s job. Sexual harassment is defined as any unwelcome sexual advance, request for sexual favors or verbal, written or physical conduct of a sexual nature by an employee, volunteer, student, vendor, or contractor when:

- Submission to the conduct is made either explicitly or implicitly a term or condition of an individual’s employment, or
- Submission to or rejection of the conduct by an individual is used as a basis for employment decisions affecting such individual, or
- The conduct has the purpose or effect of unreasonably interfering with an employee’s work performance or creating an intimidating, hostile, or offensive working environment.
There are two types of unlawful sexual harassment:

- **“Quid pro quo”** – The first type involves harassment that results in a tangible employment known as “Quid pro quo” or “this for that.” This kind of unlawful sexual harassment can be committed only by someone who can make or effectively influence employment actions that will affect the victimized employee. This usually occurs when an administrator or other supervisory employee gives or withholds a work-related benefit in exchange for sexual favors. Typically, the harasser requires sexual favors from the victim, either rewarding or punishing the victim in some way.

  Behaviors may include:

  o Implying or withholding support for an appointment, promotion, or change of assignment; suggesting that a poor performance report will be prepared; suggesting that probation will be failed.

  o Coercive sexual behavior used to control, influence, or affect the career, salary, and/or work environment of another employee; or engaging in coercive sexual behavior to control, influence, or affect the educational opportunities, grades, and/or learning environment of a student.

  o Offering or granting favors or educational or employment benefits, such as grades or promotions, favorable performance evaluations, favorable assignments, favorable duties or shifts, recommendations, reclassifications, et cetera, in exchange for sexual favors.

- **“Hostile Environment”** – The second type of unlawful sexual harassment is referred to as “hostile environment.” Unlike a quid pro quo, which only a supervisor can impose, a hostile environment can result from a gender-based unwelcome conduct of supervisors, co-workers, customers, vendors, or anyone else with whom the victimized employee interacts on the job. This occurs when a victim is subjected to unwelcome and repeated sexual comments, innuendoes, touching or other conduct of a sexual nature which creates an intimidating or offensive place for employees to work. To create a sexually hostile environment, unwelcome conduct based on gender must meet two additional requirements:

  1. It must be subjectively abusive to the person(s) affected, and

  2. It must be objectively severe and pervasive enough to create a work environment that a reasonable person would find abusive.

  Behaviors may include:

  o Unfulfilled threats to impose a sexual quid pro quo.

  o Suggestive or obscene letters, notes, invitations, derogatory comments, slurs, jokes, epithets, assault, touching, impeding or blocking movement, leering, gestures, or display of sexually suggestive objects, pictures, or cartoons.
o Continuing to express sexual interest after being informed that the interest is unwelcome. (Reciprocal attraction between peers is not considered sexual harassment.)

o Discussing sexual activities;

o Telling off-color jokes;

o Unnecessary touching;

o Commenting on physical attributes;

o Displaying sexually suggestive pictures;

o Using demeaning or inappropriate terms, such as “Babe”;

o Using indecent gestures;

o Sabotaging the victim’s work;

o Engaging in hostile physical conduct;

o Granting job favors to those who participate in consensual sexual activity;

o Using crude and offensive language.

III. Reporting Harassment

ASDB is obligated to identify, investigate and document incidents and alleged incidents of possible workplace harassment, including sexual harassment, that comes to the attention of school or agency employees with or without a formal complaint. Anyone who is subject to workplace harassment, or who knows of the occurrence of such conduct, should take prompt action. All matters involving harassment complaints will remain confidential to the extent possible.

Any employee who believes they have been harassed by a supervisor, co-employee, student, volunteer, vendor or contractor with whom contact is made during ASDB related activities should promptly take one of the following actions:

- Informal Resolution

  If an employee is offended by what they believe to be gender-based or sexually oriented conduct, or finds any conduct unwelcome, the employee is encouraged, but not required, to make their displeasure clearly and promptly known. Tell the individual that the behavior is not acceptable, is unwelcomed by you, and ask the person to stop the behavior. If the harassment does not end, promptly, write a letter to the individual, asking the harasser to stop, and give a copy to your supervisor and the employee’s supervisor. Keep a copy of the letter. The employee is also encouraged to write and keep a statement about the incident of workplace harassment – indicating the date, time, summary of the conversation with the alleged harasser, the reaction of the person when confronted regarding the situation, and the names of any witnesses. If the immediate supervisor is the subject of the report, the
employee is encouraged to tell the next highest administrator and/or the Human Resources Director.

- **Formal Resolution/Report**
  
  If, for any reason, it is not an acceptable option to the employee to confront the person whose conduct is perceived as workplace harassment, or if the employee believes his or her attempt to informally resolve the situation has failed, the employee should immediately report the harassment directly to the employee’s immediate supervisor, or the next highest administrator if the supervisor is the subject of the report, or directly to the Human Resources Director and/or Superintendent. A complaint of harassment against the Superintendent is to be made to the ASDB Board of Directors by reporting the matter to the Board President.

**IV. Administrative Procedure for Dealing with Employee Report of Harassment**

- **Upon receipt of a report of harassment, the supervisor or administrator is to immediately contact the Superintendent and/or the Human Resources Director.** The supervisor may request, but may not insist upon, a written report preferably using form ACA-E. If the report is given verbally, the supervisor will promptly reduce it to writing using form ACA-E and provide a copy to the Principal or Director, the Superintendent, and the HR Director. A complaint of harassment against the Superintendent is to be made to the ASDB Board of Directors by reporting the matter to the Board President.

- **The Superintendent will provide for the adequate, reliable, and impartial investigation of all complaints within a reasonably prompt timeframe.**

- **Pending the outcome of the investigation, the Superintendent and/or the Human Resources Director will take interim preventive measures to ensure the safety of victims and of the larger ASDB community during the investigation, address potential ongoing harassment, and avoid retaliation against the reporting employee. On-going contact with the complainant(s) will be maintained throughout the investigation.**

- **The investigation will include the opportunity for parties to present witnesses and other evidence. Investigation of a report will normally include interviews of the alleged victim, alleged harasser and any other identified witnesses.**

- **The determination whether the alleged conduct creates an intimidating, offensive or hostile work environment will be made from the viewpoint of a reasonable person in the position of the alleged victim and will be based on the totality of the circumstances including:**
  - Whether the conduct was verbal or physical or both
  - How frequently the conduct was repeated;
  - Whether the conduct was hostile or patently offensive;
  - Whether others joined in perpetrating the harassment; and
  - Whether the harassment was directed at more than one individual.

- **The Superintendent may determine that workplace harassment occurred or did not occur, or may find the evidence is inconclusive. If it is found that workplace harassment occurred, immediate and appropriate remedial action will be taken to address and resolve the matter, including, as appropriate, provision of resources that may include counseling to the harasser as a means to prevent**
recurrence of future harassment, discipline of the harasser up to and including termination of employment, referral of the matter to law enforcement when appropriate, strategies to protect the victim and witnesses from retaliation, counseling for the victim, and any other necessary steps reasonably calculated to prevent future occurrences of harassment.

- Upon conclusion of the investigation, the Superintendent will provide written notice to the complainant of the findings of the investigation and the corrective action(s) taken if any.

- Within a reasonable period of time following conclusion of the investigation, the complainant will be contacted to assess whether there are further concerns of ongoing sexual harassment or retaliation, and to determine whether additional supportive measures are necessary.

If the Superintendent is the one alleged to have unlawfully discriminated, the complaint shall be filed with the President of the Board of Directors.

NON-DISCRIMINATION / EQUAL OPPORTUNITY

Compliance Officer
The Superintendent shall be the compliance officer. Any person who feels unlawfully discriminated against or to have been the victim of unlawful discrimination by an agent or employee of ASDB or who knows of such discrimination against another person should file a complaint with the Superintendent. If the Superintendent is the one alleged to have unlawfully discriminated, the complaint shall be filed with the President of the Board.

Complaint Procedure
ASDB is committed to investigating each complaint and to taking appropriate action on all confirmed violations of policy. The Superintendent shall investigate and document complaints filed pursuant to this regulation as soon as reasonable. In investigating the complaint, the Superintendent will maintain confidentiality to the extent reasonably possible. The Superintendent shall also investigate incidents of policy violation that are raised by the Board, even though no complaint has been made.

If after the initial investigation the Superintendent has reason to believe that a violation of policy has occurred, the Superintendent shall determine whether or not to hold an administrative hearing and/or to recommend bringing the matter before the Board. The Superintendent also may impose a suspension without pay, or recommend dismissal, or other appropriate discipline. If there is reason to believe that the Superintendent has violated policy, the complaint shall be made to the President of the Board.

If the person alleged to have violated policy is an employee, the due process provisions of Policy GCQF/GDQF shall apply, except that the supervising administrator may be assigned to conduct the hearing. In cases of serious misconduct, dismissal or suspension proceedings in accordance with policy GCQF/GDQF may be initiated.

If a student is alleged to have violated policy, the Superintendent may impose discipline in accordance with policies JK and JKD.

If the Superintendent’s investigation reveals no reasonable cause to believe that this procedure has been violated, the Superintendent shall so inform the complaining party in writing.
EDUCATIONAL PHILOSOPHY/ ASDB’S MISSION

Educational Philosophy

ASDB provides a framework for the promotion and maintenance of educational opportunities of adequate scope and quality to meet the diverse needs of the students served by ASDB. The goals for each student are to demonstrate academic achievement to their fullest potential; develop personal potential for independence and self-sufficiency; develop meaningful relationships with family members, friends, co-workers, and community members; and to function as a contributing member of society.

ASDB subscribes to the following concepts about learning for students:

- Learning occurs within a framework that is student initiated and student centered and where opportunities are provided for practice, application, and the transfer of general skills and knowledge to real life situations.
- Learning occurs in environments where risk taking is encouraged.
- Language and communication skills are central to learning.
- Self-initiated learning results in independent problem-solving and decision-making skills.
- Home-school collaboration is vital to the student’s learning, and actually directs the development of the student’s individual curriculum.
- Valuing the multiethnic and multicultural background of all students is practiced, modeled, and encouraged.
- Cooperative learning has a profound, positive impact upon students’ learning; the classroom becomes a community of learners, actively working together to enhance each person’s knowledge, proficiency, enjoyment, and self-esteem.

Teaching is a reciprocal process and as such is a responsibility shared by parents, students, and staff. Knowledge of the learning process and the content of instruction are essential. The components of successful teaching include:

- Ongoing formal and informal assessment of student strengths, knowledges, and needs.
- Selecting effective learning methods and materials for each student, based on individual strengths.
- Using a variety of approaches reflective of individual learning styles and real-life purposes.
- Recognizing all domains in an environment: affective, psychomotor, and cognitive.
- Integrating language and communication skills development into all aspects of instruction.

Student-centered teaching in a multicultural environment that promotes and respects the
language and heritage of all students results in:

- Thinking in an organized, focused manner.
- Understanding of interrelationships.
- Risk-taking, creativity, problem solving, and making choices.
- Developing independence and assuming responsibility for learning.
- Learning how to learn.
- Developing social skills and daily living skills in a natural setting.

The educational program reflects the needs of ASDB's diverse population of sensory-impaired students. The program will provide a variety of educational opportunities and, when appropriate, the expectations for hearing and sighted children of a similar age or level will be considered. The program may include formal documents, as well as instructional plans developed by individual departments and/or teachers for specific groups of students. The guidelines for developing a formal or informal educational program will incorporate the concepts within this document. The educational program will be:

- **Developmental.** In early-childhood education the educational program addresses the developmental functioning level of each student in terms of content presented, materials used, teaching and learning styles, and experiential needs.
- **Age appropriate.** The educational program emphasizes that the skills/concepts being taught and the materials used should be selected with consideration of the students’ chronological age, learning style, and need for the skills and concepts.
- **Functional.** The educational program addresses the students' need to apply learning to everyday situations.
- **Spiraled.** The educational program is conceptually spiraled so students are able to relate and accommodate new information into previously formed conceptual frameworks.
- **Conceptual.** The educational program provides a strong experiential foundation, coupled with questioning strategies and problem-solving techniques, to ensure concept formation and critical thinking.

**The Individual Education Program**

The individual education program (IEP) is related to the curriculum in the following ways:

- The educational program determines the context within which each student’s IEP skills are taught.
- Teacher plans reflect the infusion of IEP goals and objectives into the educational programs needed by individual students.
- The effectiveness of the educational program for the achievement of a student’s IEP goals and objectives is evaluated regularly by the IEP team.

*Adopted: July 9, 2015*

AGENDA ITEM/SUBJECT

NAME_________________________DATE________________

ADDRESS_________________________TELEPHONE__________

This is a legally convened meeting of the Board of Directors of the Arizona State Schools for the Deaf and the Blind, for which official minutes are kept. Any statements and/or transactions made at this meeting may be made a part of the public record and are subject to uses of such records as authorized by law.

Procedures to follow when appearing before the Board of Directors:

1. State your name and address.
2. Indicate the agenda item you wish to speak about.

Policy BEDH assigns to the Board President the responsibility for establishing time limits for public participation and for individual speakers. Unless modified by the President at a particular meeting, due to circumstances on that occasion, each speaker is limited to three (3) minutes.

It is the direction of the Governing Board that problems and concerns be first addressed, to the degree practicable, at the school, department, or facility level. If the problem is not satisfactorily resolved at this first level, the concern should be directed to the appropriate administrator or manager/supervisor. If further action is necessary, a problem or concern may be referred to the Superintendent. The Governing Board will not entertain or consider any recommendations, grievance, complaint, or petition from parents, students, employees or patrons of ASDB until such issues have first been pursued through the proper administrative channels without satisfactory resolution. This requirement is intended to help ensure that the Governing Board is fully informed and able to act without prejudice when acting in the role of the hearing body.

Speakers may offer such objective criticisms of ASDB operations and programs as concern them. But, in a public meeting, the Board will not hear personal complaints about ASBD employees nor against any person connected with ASDB. Other channels provide for Board consideration and disposition of legitimate complaints involving individuals.

NOTE: Please give this form to the Board Secretary and wait to be called by the Board to make your presentation.

- Following adoption by the Board, the Superintendent will send a copy of the adopted policy and the date of adoption to ASBA Policy Services.
- ASBA Policy Services will produce the final adopted copy of the policy and return the final copy to ASDB.

ASDB - BASED MANAGEMENT
(Shared Decision Making)

Research has identified characteristics of effective schools.

In response to such research, the Board endorses and supports shared decision making that provides the mechanism whereby the demonstrated characteristics of effective schools can be manifested. The Board approves the implementation of such shared decision making. The Superintendent is authorized to provide for the establishment of an effective plan for shared decision making.

This shared decision making shall not supersede Board/Superintendent decision-making responsibilities unless waived by the Board or Superintendent. The authority extended to ASDB is to design models that promote ASDB’s mission statement under direction of the Superintendent.

*Adopted: September 10, 2015*
Research makes it clear that the most influential unit of effective school change or improvement is the individual school demonstrating the following characteristics:

- Consensus on explicit instructional goals and beliefs (mission statement).
- ASDB support for school improvement; Board, administration, and staff commitment to current research; and ASDB's adopted mission statement.
- Ongoing staff development and training.
- High level of parental involvement and support.
- Individual school autonomy and flexibility in the development of new curricular and instructional designs.
- Collaborative, collegial instructional planning.
- A focus on basic skills acquisition.
- An emphasis upon higher-order cognitive skills.
- Teacher responsibility for effective instructional and classroom management decisions and practices.
- Teacher/parent accountability and acceptance of responsibility for student performances.
- A safe, orderly, and disciplined school climate.
- Strong instructional leadership.
- Frequent monitoring of student progress.
- Measurable student performance outcomes.

ASDB endorses shared decision making contingent upon the following elements:

- ASDB employee visions of excellence and implementation strategies must move toward fulfilling the mission statement and adopted beliefs of ASDB.
- The ASDB decision-making structure must represent a balance of all school and community constituencies.
- ASDB's decision-making structure should carefully follow the processes, including brainstorming, consensus building, and pyramiding. This is a "vision" creation, as opposed to a problem-solving process.
- Curricular and instructional implementation strategies/designs must flow from and support the mission statement and adopted beliefs of ASDB.
- When necessary, school and site training will be made available to all school site employees.
• ASDB’s employees must fully analyze and explore current resources and assess options for reaching their vision of excellence.

• ASDB’s employees will monitor and evaluate implemented plans on a scheduled basis, based on a written evaluation plan. The evaluation plan must include some demonstrably valid, quantifiable measures of progress.

• ASDB’s employees, with support from ASDB’s decision-making structure, is responsible for carrying out its own implementation strategies/designs.

• Composition, role, and responsibility of ASDB’s decision-making structure:
  - Advisory to ASDB’s administration.
  - A representative group that solicits input from parents, community, and employees.
  - The makeup of school teams is to include teachers, community members (parents, patrons), support employees, and administration. Student representation will be included when appropriate.
  - Reviews literature.
  - Makes recommendations for ASDB’s direction - goal areas.
  - Monitors implementation structure for new instructional designs.
  - Provides local leadership and representation in ASDB’s decision-making structure.

If a school employee’s curricular and/or instructional strategy/design plan conflicts with an existing Board-approved program or policy, the following steps can be taken:

• ASDB’s employee council shall attempt to design an alternative plan that arrives at the same intended outcomes without violation or conflict with the Board-approved program or policy.

• If this cannot be accomplished, ASDB’s employees may request a waiver for a strategy-design plan that conflicts with existing Board-approved programs or policies.

• If a plan requires waivers, it must be brought to the Superintendent and the Board for approval.

• Waivers will be granted for temporary and specific periods of time and will be evaluated in light of the plan’s ability to better comply with the mission statement and adopted beliefs of ASDB.
POLICY IMPLEMENTATION

The Superintendent has the responsibility for carrying out, through administrative regulations, the policies established by the ASDB Board. The administrative regulations shall specify required actions and reflect the detailed arrangement under which ASDB will be operated.

The policies adopted by the Board and the administrative regulations developed to implement policy are designed to promote an effective and efficient school system. All staff members and students shall comply with Board policies and administrative regulations.

Adopted: September 10, 2015
POLICY IMPLEMENTATION

Principals, directors, and others designated by the Superintendent shall establish procedures for conducting activities within their individual departments/programs that are consistent with administrative regulations and Board policies.

As long as a principal/director or manager/supervisor operates within the guidelines of policy and regulations, that principal/director or manager/supervisor may issue a school or department rule without prior approval of their immediate supervisor. The school or department rule shall not infringe on the job description or assignment of another principal/director or manager/supervisor, shall apply only to the school or department of that principal/director, or manager/supervisor, and shall be subject to review by the Superintendent.

Background

In addition to the other funds of ASDB, a permanent memorial fund ("Trust Funds") is established to receive bequests and other contributions for the general use and support of ASDB.

The ASDB Board directs a conservative approach toward the utilization of all funds, and towards the investment and reinvestment of the trust funds. The ASDB Board intends:

- That funds available to ASDB shall be prudently managed and that the trust fund investments shall be governed primarily by considerations of safety of principal and dependability of a reasonable return and not by hope or expectation of unusual gain through speculation.

- That trust funds be utilized for purposes which impact to the maximum extent on

students. Such activities shall include, but not necessarily be limited to:

- Assistive devices considered necessary for the students education but not required by law and which may not be affordable by a student's parents and not available through appropriated funds;

- Activities which will assist students in developing self-confidence and enhance their motivation for learning which are not required by law, which may not be affordable by parents, and are not available through appropriated funds (examples would include, but not be limited to, outdoor activities such as skiing, rafting, hiking, camping, et cetera);

- Staff development activities which encourage the development of new techniques and strategies which increase the effectiveness of ASDB programs in educating sensory impaired students including multiply disabled sensory impaired students; and

- Activities for parents which help them to understand and deal with being the parent of a sensory impaired child.

The ASDB Board intends to exercise its oversight responsibility as outlined herein and through other means as the ASDB Board determines by its motions, resolutions and policies as adopted from time to time.

- That the annual utilization of trust funds shall be not more than six percent (4%) of the principal, calculated annually on June 30.

This procedure defines the circumstances under which, requests for payments of earned salary are made.

Arizona law allows employers up to five (5) working days from the end of a pay period to pay wages. The Department of Administration (DOA) Revolving Fund operating policies allow an agency to pay an employee a portion of earned salary in advance of the scheduled pay day or when special pay warrants cannot otherwise be prepared. These instances are limited to errors in processing payrolls resulting in an incorrect paycheck and in some emergency situations.

Under no circumstances can an advance be issued as a loan against wages not yet earned, nor is this policy to be used to pay employees outside of the standard payroll procedures except as noted herein.

If payroll processing errors result in an incorrect paycheck on a normal pay date, a corrected paycheck will be issued on a supplemental payroll one (1) week later. If the employee's circumstances prohibit such a delay, an employee may request payment of earned salary from ASDB Revolving Fund. Handwrites resulting from a missed or incorrect paycheck are authorized by the Payroll Manager and processed directly with Human Resources Information Solutions (HRIS).

An employee may request advance payment of earned salary in emergency situations which are defined as unanticipated and uncontrollable expenses such as medical bills, travel due to family illness, and the like. Cash shortages due to imprudent financial management are not valid reasons for advance payment.

To request the advance payment, an employee must complete an Advanced Payment request indicating the reasons for the request and acknowledging understanding of this policy and the incorporated repayment procedure. The Payroll Office will note on the request the amount that represents the lesser of sixty percent (60%) of the gross wages earned or five hundred dollars ($500).

The Superintendent or Assistant Superintendent must approve all such requests for advance payment.

All requests for advance salary payment that are so approved will then be submitted to the DOA Assistant Director for Finance, or the Assistant Director's delegate, for final approval. No advance payment can be made without the prescribed DOA approval.

Approved payment will be made from ASDB Revolving Fund, and must be repaid in full on the same day the employee receives the regular paycheck for the wages advanced. This is accomplished through the employee's endorsement of the paycheck back to ASDB whereupon any amount due over the original amount of the interim paycheck is issued to the employee. Due to audit requirements there can be no exception to this repayment procedure.
The Superintendent shall establish procedures that conform to all requirements of the law and all policies of ASDB, and that ensure that employees receive paychecks not later than the stated payroll dates.

Involuntary Deductions (Public Record)
Federal and Arizona income taxes, Social Security (OASI/FICA), and employee contributions to the Arizona Retirement System will be deducted as mandated by state and federal statutes. All other deductions must be authorized by the Board and the employee unless ordered by a court of competent jurisdiction.

Voluntary Deductions and Redirections (Not Public Record)
The following deductions and redirections have been authorized by the Board:

- Insurance premiums for staff members or dependents who are being covered under Board-approved insurance programs.
- Direct deposits of net payroll with financial institutions.
- Tax-sheltered annuities for companies approved by ASDB.
- Credit union deposits.
- U.S. Savings Bonds.
- Professional Dues.

Purpose
The procedure is to establish methods for disposal of surplus material in accordance with state rules and regulations. Equipment acquired with cooperative programs tuition/membership funds or federal funds is covered under separate policy.

Definitions
- **Property** means any tangible supplies, materials, or equipment to which the state has acquired title by means of purchase, donation, dedication, transfer, exchange, or any other lawful means. It is classified as personal property.
- **Surplus** means material that has no known use/value in the operation of a Schools program.

Scope
This procedure shall apply to all surplus/scrap material.

Procedure
The Arizona Procurement Code states that "no agency, except the Department of Public Safety" shall transfer, sell, trade-in, condemn, or otherwise dispose of materials owned by the state without written authorization from the Department of Administration, surplus property manager.

All materials no longer needed by a department shall be reported to the Assistant Superintendent. The Assistant Superintendent shall determine whether the material is surplus and arrange for material to be collected in a designated area for inspection and disposition.

**Disposition:**
Only the Assistant Superintendent shall determine the exact disposition of the items. Transportation will be arranged to the surplus property department if the property is to be turned in. The Assistant Superintendent shall make the necessary advance arrangements for delivery of all surplus property.

If property has no apparent sales value (e.g., broken chairs) or has no sales value for the basic material content, the surplus property department may authorize destruction and abandonment. This means that ASDB will have the authority to dispose of the property appropriately (haul it to the dump, use it for spare parts, give it away, etcetera).
SUPPORT SERVICES GOALS / PRIORITY OBJECTIVES

In order to provide services that are supportive of the educational program, the ASDB Board establishes these broad goals:

- To provide a physical environment for teaching and learning that is safe and pleasant for students, employees, and the public.
- To provide safe transportation for students who ride the school bus to and from school.
- To provide services, resources, and assistance responsive to the needs of the educational programs.

Adopted: February 11, 2016
ENVIRONMENTAL AND SAFETY PROGRAM

The Superintendent will establish regulations to protect the safety of all students, staff members, visitors, and others present on ASDB property or at ASDB-sponsored events.

The practice of safety shall also be considered a facet of the instructional plan of ASDB by virtue of educational programs in sex offender awareness, traffic and pedestrian safety, driver education, fire prevention, indoor air quality (IAQ), and emergency procedures, appropriate for students at different grade levels. General areas of emphasis shall include, but not be limited to: in-service training; accident record keeping; plant inspection; driver and vehicle safety programs; fire prevention; school site selection; and emergency procedures and traffic safety problems relevant to students, staff members, and the community.

CROSS REF.: IKEA - Make Up Opportunities
Adequate and prompt accident reporting is essential if similar accidents are to be prevented. If there are injuries or property damage prompt reports are mandated to meet the requirements of a sound risk management program.

Reports shall be filed on accidents that take place on ASDB property or that involve school vehicles, students, or staff members on ASDB-sponsored trips, including staff members on authorized ASDB business trips, as soon as possible, but no later than twenty-four (24) hours of the incident’s occurrence. Such reports are required whether or not there are any immediately evident injuries or damage to property.

Any staff member of ASDB who suffers a job-related injury/accident must file a report with the ASDB human resources office within twenty-four (24) hours after the date of occurrence. Should circumstances render the individual unable to submit such a report within 24 hours, the time limit may be extended. Injury accidents should be promptly reported to the Arizona Department of Administration’s Risk Management Division.

The Superintendent or designee shall establish procedures for filing accident reports, and shall make sure reports include details that:

1. Might be helpful in preventing similar accidents in the future;
2. Are needed for filing risk management reports; and
3. Might be important in case of litigation.

Student Health Center Follow-Up ________________________________

revised 2/23/06 L.L.S.  Print on Canary  ASDB Form # 150
Employees are to report to the nurse or the Principal/Director’s office any accident involving a student who is at school.

For any student who is injured on school grounds, in a school building, or in connection with a school-related or approved activity, an accident report form is to be completed by an employee who is at the scene of the accident.

A student who is ill should be sent to the nurse or the Principal/Director’s office, with an appropriate pass. If a student is sent home (only with parent knowledge), the teacher will be notified. Students are discharged to go home only from the nurses’ office or the Principal/Director’s office.

Any special health concern should be reported to the nurse.

A written report of an accident shall be made by the employee to their Principal/Director and the Assistant Superintendent/Superintendent not later than noon of the school day following the incident. The insurance carrier shall be notified as appropriate.

After reviewing each accident report, the Principal/Director will forward the report to the school nurse, who will maintain a file of accident reports.
EMERGENCIES

The Superintendent or designee will develop and maintain emergency plans for each school, department and other facilities, and will coordinate such plans with the local law enforcement, fire, medical, and hospital authorities as necessary. Training components for staff members and students shall be included in the emergency plans.

Emergency response plans are confidential and exempt from public disclosure. ASDB shall not release emergency response plans to the public as part of a public records request (A.R.S. 41-1803(G)).

The plans will be in accordance with minimum standards developed jointly by the Department of Education and the Division of Emergency Management within the Department of Emergency and Military Affairs. The plans will designate specific emergency drills to be conducted. Local responders shall periodically be invited to review the plan(s).

Emergency plans developed by the Superintendent or designee will be presented annually to the ASDB Board.

Adopted: March 24, 2016
EMERGENCIES

The facilities/operations managers will develop emergency plans for fire or other threats. Such plans will be revised and submitted by September of each year. These plans will provide for:

- Inside emergencies, such as a fire, actual or potential explosion, lockdowns, medical emergencies, et cetera.
- Outside emergencies, such as animals, evacuations, etcetera.

The plans will specify the conditions under which evacuation of the building will occur and the procedures therefore. The plans will also designate specific emergency drills to be conducted. A diagram of floor plan will be posted in each room showing emergency exits to be used.
Emergency drills will be scheduled and conducted each month during the school year. The purpose of a drill is to train students, under employee direction, to move safely, quickly, and quietly from any location within the building to an assigned evacuation area outside.
If a student is injured or becomes ill during the school day or while attending an ASDB-sponsored activity, it is the responsibility of any staff member present to render assistance and to summon a school nurse/nurse aide. Upon arrival, the school nurse/nurse aide will direct all further first aid activities.

First aid procedures shall be based on the following fundamental concepts:

- ASDB is responsible for the emergency handling of accidents and sudden illness occurring at ASDB or on ASDB property. ASDB is not responsible for subsequent treatment.

- At the time of an emergency, ASDB has the responsibility for:
  - Caring for the student.
  - Notifying the student’s parents or guardian, or, if these cannot be reached, following directions given on the student’s enrollment card.
  - In extreme cases, getting the student under professional care with or without family permission.

- In the absence of family transportation or ambulance service, an authorized school employee may have to take the sick or injured student home, to the physician’s office, or to the hospital. A sick or injured student should be accompanied from ASDB by an adult. If the destination is the student’s place of residence, the adult shall have ascertained that a responsible person is at the place of residence to assume responsibility.

- In case of any serious injury or illness, the parent or responsible person should always be notified as soon as possible. Emergency care of the student has priority.

- Medication administered by any ASDB employee, including the nurse/nurse aide, shall be in compliance with JLCD and JLCD-R.

- A written report of an accident shall be made by the school Principal/Director to the Assistant Superintendent/Superintendent not later than noon of the school day following the incident.

CROSS REF.: JLCD - Administering Medicines to Students
In the event of an emergency, ASDB employees are to refer to the ASDB's site specific Emergency Response Plan, which is annually reviewed and updated.
In the event of an emergency, ASDB employees are to refer to the ASDB’s site specific Emergency Response Plan, which is annually reviewed and updated.
EMERGENCIES
(Procedures for Aftermath of Suicide, Suicide Attempt, or Other Tragedy)

In the event of an emergency, ASDB employees are to refer to the ASDB’s site specific Emergency Response Plan, which is annually reviewed and updated.
EMERGENCIES
(Life-Sustaining Emergency Care)

ASDB employees are authorized and encouraged to provide life-sustaining emergency care to any student on ASDB grounds in need of such care, and shall, as promptly as possible, contact 911 to secure the assistance of emergency medical technicians and the speedy transportation of the student to medical facilities.

It is the policy of ASDB not to comply with prehospital medical care directives authorized by A.R.S. 36-3251 or other directives or requests that life-sustaining emergency care be withheld from a student in need of such care while under the control and supervision of ASDB. Notwithstanding the above, if a student possesses a prehospital medical care directive authorized by A.R.S. 36-3251 (commonly referred to as an "orange card"), ASDB employees shall inform emergency medical employees of this fact both when making a 911 call for that student and when emergency medical employees arrive to assist the student.

For the purposes of this policy, life-sustaining emergency care means any procedure or intervention that is intended to prevent a student from dying who, without such procedure or intervention, faces a risk of imminent death, or reasonably appears to face such a risk. Life-sustaining emergency care procedures may be modified as appropriate to address the unique health and safety needs of particular students. Examples of life-sustaining emergency care include, but are not limited to, the following: efforts to stop bleeding, unblocking airways, mouth-to-mouth resuscitation and cardiopulmonary resuscitation (CPR).
In the event of an emergency, ASDB employees are to refer to the Tucson Campus Residential Handbook, which is annually reviewed and updated.
When a problem arises concerning weekend or evening transportation, the following response will be carried out:

- Calls will be directed to the Student Health Center.
- If the problem deals directly with a student, the Student Health Center will refer the call to the Duty Officer.
- Breakdown:
  - The vehicle should be parked as far to the right of the roadway as practical. The hazard lights should be turned on, and the reflective triangles (found in the emergency kit) should be set out [one (1) at the side of the vehicle, one (1) at approximately one hundred (100) feet to the rear, and one (1) about half way between]. Either raise the hood of the vehicle or tie a white cloth (to be found in emergency kit) to the antenna (if so equipped). If the vehicle is not completely and safely off the roadway, all passengers should be evacuated to a safe location.
  - If the vehicle is equipped with a telephone interconnect radio, instructions will be found on the clipboard.
  - If on-the-scene communication is not available, and the area is isolated, it is generally a better idea to wait for help to arrive rather than walk away from the vehicle. Under no circumstances should students be left unattended.
  - *Out of town.* Call any local repair facility to see if the problem can be corrected. If repair is not possible, have the vehicle towed to the repair facility for temporary storage.
  - *In town.* Call the towing service indicated on the clipboard. The towing service will perform minor repairs or, if necessary, tow the vehicle to ASDB’s garage.
- If necessary, the Student Health Center will dispatch the live-in driver To return students/staff to campus. NOTE: If more than eight (8) passengers are in the disabled vehicle, it will be necessary to dispatch two (2) vehicles to return the passengers.
WEATHER - RELATED AND EMERGENCY CLOSINGS

The decision to delay opening of school or to dismiss school early will be made by the Assistant Superintendent.

If possible, the Board President will be informed of such decision and will be notified when all students have departed from school.

Adopted: February 11, 2016
Delayed Opening
If the Superintendent decides to delay the opening of school, the police and the local broadcast media will be notified, requesting that they assist in disseminating the information.

All employees will report as assigned to assist in the supervision of students.

School Closing
If the Superintendent decides to cancel classes for the day, the police and local broadcast media will be notified and asked to assist in disseminating the information.

Early Dismissal
If the Superintendent decides to dismiss school early, the procedure shown below will be followed for early dismissal of students:

- Students will be released from school only after the Principal/Director has ascertained that appropriate notice has been given to parents and guardians. Employees may be released by the Principal/Director when they are no longer needed to supervise students.
- The Principal/Director will remain at school until all students have departed.
SECURITY

The Superintendent or designee will develop plans and procedures that will:

- Enhance the security of ASDB property.
- Minimize fire hazards.
- Provide for the keeping of records and funds in a safe place.
- Protect against vandalism and burglary.
- Provide for the prosecution of vandals.
- Provide for and encourage staff members’ responsibility for furniture, textbooks, reference material, and other ASDB materials, equipment, and supplies assigned to the staff member’s care.

Adopted: February 11, 2016
VANDALISM

The Superintendent or designee is authorized to sign a criminal complaint and to press charges against perpetrators of vandalism against ASDB property.

Persons who destroy ASDB property through vandalism or arson, or who create a hazard to the safety of other people on ASDB property, may be referred to law enforcement authorities. Students who are caught vandalizing ASDB property shall be subject to disciplinary action, including but not limited to suspension or placement in an alternative educational setting. A conference with the student’s parents will be required.

Parents and students shall be made aware that the law provides that parents are liable for the willful destruction of property by a minor in their custody or control.

ASDB may file suit to recover the cost of vandalism from the student and/or parent(s).

VANDALISM

The Principal/Director will establish a system through which students and members of the school community can report any instance of vandalism or suspected vandalism. Each employee of ASDB shall report to the Principal/Director or other administrator every perceived incident of vandalism and, if known, the names of those responsible.
SCHOOL AND PERSONAL PROPERTY REPLACEMENT / RESTITUTION
(Personal Property)

ASDB shall not assume responsibility for the loss of, or damage to, personal property stored, installed, or used on ASDB premises, whether the personal property was to be used for personal or business purposes.

Adopted: February 11, 2016
SECURITY

Access to school buildings and grounds will be established by the Superintendent in accordance with the following:

- Unlimited access - the Superintendent, Assistant Superintendent, operations manager, security employees, and other employees designated by the Superintendent.

- Limited access – Principals/Directors, teachers, custodians to their assigned buildings, extracurricular sponsors, counselors, supervisors for their respective areas or activities, and other employees designated by the Superintendent.

Possession of Keys

Possession of keys shall be in accordance with the following principles:

- A log of key assignments shall be maintained by the facilities department.

- Unassigned duplicate keys shall be maintained in a safe or a secured box.

- Individuals assigned keys may not duplicate or loan them.

- All keys must be surrendered when no longer needed or upon request by anyone in the employee’s supervisory chain of command.

- The loss of a key must be reported to the facilities/operations manager upon discovery of the loss, and the employee may be required to pay for rekeying or replacing all affected locks.

- Use of keys for unauthorized purposes will be cause for surrender of keys. Employees will be subject to discipline and/or dismissal for unauthorized use of keys.

- A set of master keys and/or duplicates of keys shall be kept in the custody of the facilities/operations manager.

- The employee will sign a receipt for keys assigned. The receipt will list the applicable rules.

Any person who, for oneself or for another, misuses a key to any building or other area owned, operated, or controlled by ASDB without authorization is guilty of a Class 3 misdemeanor. Misuse of such a key, in this regard, includes:

- Manufacturing or causing the manufacture of an ASDB key.

- Duplicating or causing the duplication of an ASDB key.

- Possessing an unauthorized ASDB key.
- Using an unauthorized ASDB key.
- Permitting the use of an ASDB key.

Employees and students who are in violation of the above are subject to disciplinary action.

**Identification Badges**

Considering the number of employees, volunteers, and visitors on ASDB campuses, some of which are twenty-four (24) hours a day, it is exceedingly difficult to identify the individuals authorized to be on campus. As a result, all employees, volunteers and visitors are required to obtain and display identification badges at all times while on ASDB campuses. The initial badge is issued at the ASDB's expense. Employees are required to pay five dollars ($5.00) per replacement badge.

Failure of employees and volunteers to display the badge will be cause for disciplinary action.

Employees and all others are to surrender their keys and identification badges when they leave ASDB employment.

Visitors are also required to obtain and wear a badge while on campus.
Adequate maintenance of buildings, grounds and property is essential to efficient management of ASDB.

The Board directs a continuous program of inspection and maintenance of ASDB buildings and equipment. Wherever possible, maintenance shall be preventive and will focus on providing an on-going healthy learning environment for both students and ASDB staff members. Emphasis will be placed on the implementation of ASDB Indoor Air Quality (IAQ) Management Plan in order to minimize indoor air pollution.

The Superintendent or designee shall appoint an ASDB IAQ Coordinator who will develop and implement inspection, maintenance, repair, use, and disposal schedules as applicable for buildings, HVAC systems, new construction and renovations, chemicals and other materials.

Routine preventative maintenance means services that are performed on a regular schedule at intervals ranging from four (4) times a year to once every three (3) years, or on the schedule of services recommended by the manufacturer of the specific building system or equipment.

The Superintendent or designee shall oversee the development and implementation of routine preventative maintenance guidelines covering ASDB’s:

- Plumbing systems,
- Electrical systems,
- Heating, ventilation and air conditioning systems,
- Special equipment and other systems, and
- Roofing systems, including visual inspections performed by ASDB staff members to search for signs of structural stress and weakness.

A roofing inspection is required to be:

- Accomplished prior to any repair or replacement of roof elements or roof mounted equipment performed in accordance with the requirements of the local building official requiring a permit.
- Conducted by a registered structural engineer or other professional with appropriate skills, training and certification.

ASDB preventative facilities maintenance guidelines shall be submitted to the Arizona Department of Administration’s Risk Management Division or review and approval.

*Adopted: February 11, 2016*
TRAFFIC AND PARKING PROCEDURES
(Traffic Controls)

The Superintendent or designee shall establish parking and traffic controls that provide for the safety of students.

Adopted: February 11, 2016
Parking

Parking is designated as follows:

- ASDB vehicles as marked.
- Superintendent as marked.
- Center Lot is designated for Visitors and Disabled parking from 8:00 a.m. to 5:00 p.m. Individuals designated by the Superintendent for having physical or health reasons may also use it.
- No parking in fire lanes (red paint areas, or signed “Fire Lane”).
- No parking in areas that are not designated for parking (i.e., grass, walkways, et cetera).

Inner Campus Traffic

The inner campus roadway is open to ASDB service and emergency vehicles only between 7:00 a.m. and 9:00 p.m. All employees, live-ins, delivery vehicles, et cetera, are to use the entrances designated for deliveries during the identified times. Those ASDB vehicles, which must use the restricted area, must follow these guidelines:

- Observe a five (5) mile per hour speed limit on ASDB grounds at all times except for the east drive that is fifteen (15) mile per hour.
- No parking adjacent to building doorways and normal crosswalks.
- Avoid using reverse.

For the safety of students and employees, the inner campus walkways are only open to emergency vehicles and ASDB service vehicles. Vehicles needing access to these areas must contact Security for an escort and must follow the above guidelines.

At all times, it is expected that drivers use the best judgment regarding the safety of students. Employees who observe visitors and delivery vehicles using the restricted area, are requested to direct them to the appropriate parking area or service entrance.
TRAFFIC AND PARKING PROCEDURES
(Parking and Inner Campus Traffic – Tucson and Phoenix Campuses)

ASDB endeavors to provide safe and accessible roadways and parking for students, employees and visitors to ASDB grounds. To that extent provisions include:

● Convenient visitor and disabled parking.

● Sufficient accessible parking spaces in all parking lots.

● Designated parking areas for live-ins and for employees who work evening/night shifts to maximize safety and convenience.

● Sufficient parking for all students/employees to minimize vehicular/pedestrian hazards.

● Issuance of parking stickers to employees at the Tucson Campus to assist security officers in identifying unauthorized vehicles and prompt notification of employees in the unfortunate case of vandalism, flat tire, lights left on, etc.

● No parking in unauthorized areas including fire lanes and roadways to ensure accessibility by emergency vehicles.

● Roadways to provide safe access for delivery vehicles.

● Fire lanes to provide clear accessibility routes to all buildings by emergency vehicles.

● State vehicle parking in designated lots/spaces.

● Employees are encouraged to contact the ASDB site security office if there is a need to be escorted to a vehicle. Every effort will be made to accommodate the request.

Parking

There are adequate spaces to handle parking needs on a daily basis.

● All ASDB employees (including substitutes) are required to obtain parking stickers for vehicles that will be parked on the Tucson Campus only. Failure to do so will be considered a violation of the Rules and Regulations. Vehicles not displaying a sticker or disabled permit, which are parked in spaces other than blue or open parking, will be cited by ASDB security. Stickers are issued by Human Resources Office. Stickers are issued in one (1) of three (3) colors depending on the employee’s work status as described below:

  ● Green Sticker - Issued to all Live-Ins. Entitles Live-Ins to park in spaces identified with a painted green bumper.
- **Yellow Sticker** - Issued to employees whose regular work schedule falls between the hours of 12:00 noon - 6:00 a.m. Entitles holder to park in any space identified with a painted yellow bumper.

- **Blue Sticker** - Issued to employees who are not eligible for a green or yellow sticker (see above). Displaying a blue sticker is mandatory. This entitles employee to park in any designated space not otherwise identified.

- When students are not in residence, i.e., school breaks or summer, yellow spaces are available for blue/open parking.

- Employees on overnight trips may park in yellow spaces or State vehicle parking lot provided they display appropriate placard issued by Transportation Department.

- Vehicles, not displaying stickers, that are parking in restricted areas, yellow, green, et cetera, will be subject to enforcement based upon license plate identification or parking sticker number.

- All stickers must be affixed to the inside of the lower driver’s side corner of the windshield or hung from the rear view mirror. Employees may be issued as many stickers as necessary to identify all their vehicles, which may be parked on campus.

- Stickers are issued to employees based upon their individual job circumstances. The vehicle serves only as a convenient place to display the sticker for that employee. For example, a yellow permit displayed on a vehicle does not entitle another employee whose hours, or a portion of their hours, of work fall outside of 12:00 noon to 6:00 a.m. timeframe to park in a yellow space.

- Vehicles that display a disabled license plate or placard issued by the State of Arizona, Department of Transportation or Motor Vehicle Division, are authorized to park in any designated disabled parking space on campus.

- Visitors to the ASDB-Tucson Campus are authorized to park in “Visitor Only” designated spaces or in any unmarked parking spaces on campus. Visitors to ASDB-Phoenix Campus are authorized to park in the “Visitor Only” lot located at the Hayward Ave. main gate.

- ASDB vehicles are authorized to park in the State vehicle parking lot or to load and unload in designated State vehicle spaces and in bus loading/unloading zones.

- Parking is expressly prohibited in any roadway, fire lane or undesignated parking area. City of Tucson has authority to ticket and tow vehicles that are inappropriately parked in disabled parking spaces or parked in a fire lane.

- Volunteers to the Tucson Campus are requested to park in the east parking lot next to the gymnasium. Volunteers to the Phoenix Campus are requested to park in the 19th Ave. Staff Parking Lot.

**Enforcement**
In order to assure compliance with ASDB traffic regulations, it is necessary that ASDB enforce the parking and speed limit provisions. A copy of all parking and speeding warnings/tickets will be sent to employees’ managers/supervisors for proper follow-up, including disciplinary actions.

The specific enforcement provisions include:

- **First (1st) Offense** - warning notice with copy to manager/supervisor.
- **Second (2nd) Offense (within the same school year)** - Violation ticket with copy to manager/supervisor.
- **Third (3rd) Offense (within the same school year)** – Violation ticket with a copy and a call to manager/supervisor.

**Campus Traffic**

All deliveries should be made through the entrances to campus designated for deliveries. Please notify vendors to utilize those entrances for the safety and welfare of students and employees.

Observe the maximum five (5) MPH speed limit on ASDB grounds at all times, except for the east drive that is fifteen (15) MPH.

Avoid using reverse.

Employees are to contact their manager/supervisor with any questions regarding this regulation.
MATERIALS AND EQUIPMENT MANAGEMENT

ASDB shall provide for the central purchasing, receiving, and distribution of supplies, equipment, and materials common to the requirements of all schools, departments, and programs.

Adopted: February 11, 2016
MAINTENANCE AND CONTROL OF MATERIALS AND EQUIPMENT

Staff members are responsible for the proper care of all ASDB facilities, equipment, and property in their custody or control.

Control of ASDB property shall be through, but not limited to, an accurate fixed inventory system of all furniture and equipment that exceeds five thousand dollars ($5,000) in value.

The Superintendent or designee may establish procedures for transferring surplus or other materials and equipment.

Preventive Maintenance

The Superintendent or designee shall establish a preventive-maintenance program that will extend the useful life for ASDB equipment.

The Superintendent or designee is authorized to use the services of specialists for such maintenance, and provision(s) shall be made in the annual budget for such services.

 Adopted: February 11, 2016
MAINTENANCE AND CONTROL OF INSTRUCTIONAL MATERIALS

Students using ASDB-provided textbooks, subject-matter materials, supplementary books, or instructional computer software are responsible for loss of or any damage to these items. A student who needs a second copy of a textbook shall be required to pay for it.

Monies collected for these items shall be used in addition to budgeted monies for purchase of new textbooks, subject-matter materials, supplementary books, or instructional computer software.

Adopted: February 11, 2016
MAINTENANCE AND CONTROL OF MATERIALS AND EQUIPMENT

Surplus Equipment

Property that is surplus at any unit shall be transferred to the warehouse for reassignment to other ASDB locations where a need may exist for the equipment.

Transfer of Equipment

All transfer of property within a school or other ASDB location must first have the approval of the purchasing agent. A move request shall be submitted to the housekeeping supervisor for all property transfers. Transfers of equipment from one school to another must be approved by the purchasing agent, whether the transfer is temporary or permanent.
Due to the large number of moves the Housekeeping staff must make campus wide, the following procedures shall be followed:

**Employee procedures for submitting move request and special meeting/setup request forms:**

- A written move Request must be completed for all moves. Notes, verbal requests, et cetera, will not be accepted. Moves may only be scheduled from 6:00 a.m. to 2:30 p.m.

- Setups are scheduled as required by a Special Meeting/Setup Request (ASDB No. 167).

- At least three (3) days prior notice must be given on a Move Request except for moves that will be contracted outside.

- Heavy items, such as pool tables, pianos, et cetera, may be contracted out for move by the Housekeeping Department. When requesting a move of such an item, please allow at least ten (10) working days prior to move date so appropriate arrangements can be made.

- The amount, type, and/or number of equipment must be on the Move Request.

- Completed Move Request and Setup Request forms must be submitted to the Housekeeping Department for approval.

**Employee procedure for approved move preparation:**

- Items such as paper, books, teaching tools, et cetera must be boxed prior to move.

- Bookcases must be emptied before being moved. Housekeeping will not be responsible for loading and unloading bookcases.

- Equipment such as desks and file cabinets must be emptied unless left unlocked so that drawers may be removed for transfer. If drawers cannot be removed, all items must be removed from drawers and boxed.

- When there are questions about a pending move or need assistance with the Move Request or Setup Request, ask the Facilities Department or Housekeeping Department for assistance.
Employee procedures for office moves:

- Major office moves require the approval of the Assistant Superintendent and the Superintendent.

Housekeeping Department procedures for submitted move requests and setup requests:

- The Housekeeping Department will review Move Requests and Setup Requests. Incomplete requests or those requiring additional information will be returned to the sender with explanation.

- When completed and reviewed by the Housekeeping Department, Move Requests that impact on long-range campus goals, costs, and the rationale of the move in relation to where other people are located on campus will be forwarded to the Superintendent for review. All other requests that do not have operational impacts will be approved and scheduled by the Housekeeping Department.

- Approved office moves will be returned to the Housekeeping Department for scheduling. Denied requests will be returned to the initiator of the Move Request with an explanation regarding the denial.

- Setup Requests will be scheduled as required. If setup is not feasible, the Housekeeping Department will contact the originator and a workable solution will be reached.
AUTHORIZED USE OF ASDB – OWNED MATERIALS AND EQUIPMENT

ASDB equipment may be used by outside agencies and individuals for purposes that are not in conflict with any Arizona Revised Statute(s), federal or state rules or regulations, or ASDB Board policies, subject to the following:

- ASDB shall not incur any expense due to the use of materials or equipment.
- The Superintendent or designee shall establish procedures for approval of the use of materials or equipment, or shall submit requests to the Board for review and action.

TRANSPORTATION SERVICES

In the budgeting process, the ASDB Board may allocate funds for transportation. Transportation is extended to all students in center-based programs.

ASDB will provide transportation services identified in a student’s Individual Education Program (IEP). In determining the least restrictive environment, the IEP team shall give careful consideration to the effects transportation may have on a student. As a consideration for the IEP team, students who attend the Tucson campus and whose residence is outside reasonable daily bus routes and for whom the daily one-way riding time exceeds a reasonable time, boarding shall be strongly recommended because of the potential harmful effect on the child.

Students who live within one hundred thirty (130) miles of Tucson, but outside the daily service area, will be transported to and from designated regional sites each weekend. Parents of students attending the Tucson campus are responsible for transporting the students at the beginning and the end of the school year.

The residence of a student for purposes of transportation services is the residence of the parent or legal guardian, unless indicated by a court order or placement/oversight by a Department of Economic Security Program.

The Superintendent or designee is responsible for the operation of student transportation services and for necessary procedures for implementing this policy.

Once the route begins, students shall not be put off the bus until reaching their destination, unless alternative arrangements have been made with the student's parents/guardians/designees, the school Principal, the Transportation Manager.

In addition to the regular state inspections, each school bus shall be inspected by the driver daily, before each use, to ascertain that it is in safe condition and equipped as required by all provisions of law, and that all equipment is in good working order.

Each school bus owned by, or contracted to, ASDB will conform to all applicable federal and state requirements as provided by the Commercial Motor Vehicle Safety Act of 1986 and A.A.C. Title 17, Chapter 9.

● The circumstances under which a driver will be tested for alcohol and/or controlled substances by rule.

● The procedures that will be used to test for the presence of alcohol and controlled substances, to protect the driver and the integrity of the testing processes, to safeguard the validity of the test results, and to ensure that the results are attributed to the correct driver.

● An explanation of what constitutes a refusal to submit to an alcohol or controlled substance test and the attendant consequences.

● The consequences for drivers found to have violated the rule, including requirements for removal from duty.

ASDB and all contractors who provide transportation services to ASDB shall comply with applicable provisions of the Commercial Motor Vehicle Safety Act of 1986 and all applicable requirements of the state of Arizona that pertain to vehicle standards, periodic inspection, and maintenance of school buses.

Adopted: February 11, 2016
STUDENT CONDUCT ON SCHOOL BUSES

Students are required to conduct themselves in the bus, prior to boarding the bus, and subsequent to leaving the bus in a manner consistent with established standards for classroom behavior.

When a student fails to practice proper conduct, the bus driver/Transportation Manager will inform the Principal/Director of the misconduct, which may then be brought to the attention of the parents.

Students who become serious disciplinary problems related to school transportation are subject to disciplinary action.

Students riding on special-activity buses are under the direct supervision of the bus driver in cooperation with sponsor(s). Students who do not conduct themselves properly will be denied the privilege of riding on special-activity buses.

*Adopted: February 11, 2016*
Arriving at pickup point:

- Be on time. Leave home in good time so that you will arrive at the pickup point before the school bus.
- If you have to walk along the road to reach the bus stop, walk on the left side facing oncoming traffic.

Board the bus:

- Wait until the bus comes to a complete stop before attempting to get on board.
- Board the bus quickly but without crowding or pushing.
- Never run on the bus, as the steps or floor may be slippery, especially in wintertime. Place your foot squarely on the step, not on the edge, and use the handrail.
- Be particularly careful if you are carrying books or parcels, as it is difficult to see the steps and to hold the handrail.
- Go directly to your seat and sit straight, well to the back of the seat, and face the front of the bus. (Always use seatbelts when available)

Conduct on the bus:

- The bus will not move until all passengers are seated with seatbelts fastened (when available).
- Remain seated throughout the trip, and leave your seat only when the bus has reached its destination and comes to a complete stop.
- Keep your books and parcels on your lap or put them under the seat or on the luggage rack.
- Keep the aisle clear.
- Do not talk to the driver except in case of emergency.
- Avoid doing anything that might disturb or interfere with the driver. Refrain from loud or boisterous talking or yelling.
- Never stick hands, arms, head, or feet out of the windows of the bus.
- Do not open windows without the driver’s permission.
- Do not throw anything within the bus or out of a window; you might injure a pedestrian or force a motorist to make a dangerous maneuver.
- Do not touch the emergency door or exit controls or any of the bus safety equipment.
- Do not discard refuse in the bus.
- Eat at home or school, but not on the bus.
- Obey promptly the directions and instructions of the school bus driver.

**Prohibited items:**

- Tobacco is not allowed in a school bus.
- Alcoholic beverages shall not be carried in a school bus.
- Insects, reptiles, or other animals shall not be transported in a school bus. [A.A.C. R17-9-104]
- No weapon, explosive device, harmful drug, or chemical shall be transported in a school bus.

**Exit from the bus:**

- Remain seated until the bus has reached its destination and comes to a complete stop.
- Do not push or crowd when leaving the bus.

**Crossing the highway:**

- If you must cross the road, walk to a point about ten (10) feet in front of bus but do not cross until you can see that the driver has indicated that it is safe to do so.
- As you cross the road, look continuously to the right and left. At an intersection, look in all directions.
- Cross at right angles. Never cross the highway diagonally.
- Walk briskly across the road, but do not run.
- Never cross the road behind the bus.

**Accident or other emergency:**

- In case of an accident or emergency, older students should help the driver to maintain order and assist younger students.
- Stay in the bus unless otherwise directed by the driver.
- If you have to leave the bus, stay in a group and obey the driver's instructions.
- Do not expose yourself or others to needless hazard.
Procedures followed upon student misbehavior on school bus:

- When a student misbehaves on a bus for the first time, the driver will explain to the offender the necessity for good behavior.

- If, after talks and warning, the rider continues to violate the rules, the driver will inform the student that the rule violation will be reported to the principal. This report will include the use of a written form that lists the offense and the action taken by the principal.

- Upon receiving the complaint and discussing it with the driver, the principal will then call the student to the office and warn the student that the parents must be notified that the student will be put off the bus if misbehavior reoccurs.

- If poor conduct continues, the driver will again report the incident to the principal. After discussion it will be decided whether to take disciplinary action against the student.

- When a student is not allowed transportation on an ASDB bus, the principal will inform the parents of the penalty, the reason for it, and how long the penalty will last. When alternative transportation arrangements are necessary, consultation with parents will occur and appropriate due process will be provided.

- A student who is put off one (1) bus will be refused transportation by all drivers for the specified period of time.

(This section on student misbehavior shall be made available to parents and students in copy form.)

- For each special trip involving students, including field trips, a special permit must be obtained in advance for the specific trip.

- Each employee authorized to use a private vehicle for school business purposes will be required to present proof of insurance to ASDB and a valid Arizona driver's license.

BUSINESS AND PERSONNEL TRANSPORTATION SERVICES  
(ASDB Travel Policy)  

Employee Travel  

This regulation enables ASDB to comply with laws governing travel on state business and provides an opportunity for fiscal planning and control of travel funds.  

Travel on ASDB business must be requested and approved in advance. To request permission for in-state travel and reimbursement of expenses, an In-state Travel Approval Request must be completed. The request must be approved by the manager/supervisor of the account that will fund the trip, or the employee supervisor if no funds are requested, and sent to the Accounting office at least fifteen (15) working days prior to the requested trip. All out-of-state travel requires the prior approval of the Superintendent, and special circumstances require further approval by the State of Arizona Department of Administration. The approvals for out-of-state travel apply even if the trip is funded through other organizations, or by the employee as a personal expense.  

ASDB does not ordinarily issue travel advances. Travelers may apply for a corporate credit card with ATM Access through the purchasing agent. If the credit card contractor is unable to provide a card prior to departure, a one-time-only advance may be requested using the Interim Travel Advance Request. Travel advances are considered loans to the employee, and must be repaid to ASDB within thirty (30) days of completion of the trip.  

Limitations and rates for reimbursement of travel expenses are determined by state guidelines. To be reimbursed for travel expenses, an Employee Travel Claim must be completed, approved at the supervisory level, and forwarded to the Accounting Office as soon as possible after the completion of the trip, but no longer than thirty (30) days after the completion of the trip. Travel Claims not submitted within thirty (30) days after the completion of the trip must be submitted to the Superintendent for payment approval.  

Once the Travel Claim is received by the Accounting Office, it is checked for compliance and entered into the state system for payment. The reimbursement check is issued by the Finance Division at the state capitol, sent to the Accounting office in Tucson, and then distributed to travelers. This process takes approximately five (5) working days.
Use of Vehicles on State Business

General provisions. All ASDB employees who use their personal vehicles or drive ASDB vehicles on ASDB business must comply with the following rules:

- The trip and use of vehicle must first be approved by the employee’s manager/supervisor.

  • Volunteers have been determined by the courts to be "agents of the State."
  • In terms of coverage, no distinction is made between employees and agents of the State.
  • Liability coverage under the Risk Management Program is extremely broad and covers property damage, bodily injury, and punitive damages.
  • Liability coverage applies only if the employee/volunteer is found to be at fault.
  • Liability coverage does not apply in cases of criminal negligence, but as the State is usually held responsible in litigation, it will defend the employee or volunteer.
  • The State is not required to, and does not provide uninsured motorist coverage. Any recovery would have to be provided by the employee’s/volunteer’s personal insurance carrier.
  • When an employee or volunteer is using a personal vehicle for state business; their personal insurance carrier has primary responsibility. Risk Management will only provide supplemental coverage.
  • The dollar amount of ASDB’s liability coverage should be considered unlimited.
Employees who are arranging travel plans as part of their work - attending workshops, training seminars, school visitations, conferences or conventions involving out-of-state travel will follow these steps in planning and securing travel approval:

**Travel Budgets**

Travel budgets must include those staff members who wish to travel at their own expense with ASDB paying for staff time, registration, or some other form of travel expense.

The Superintendent will develop an annual advanced approved travel plan. The travel plan will include staff representation in Superintendent approved national organizations.

Staff members presenting professional papers may request support for travel and expenses only when the Superintendent has given prior approval of the paper to be submitted. Approval and organizational acceptance of the paper does not guarantee travel support.

**Preparation of Travel Request Package**

Department travel requests will comply with the state of Arizona travel guidelines. Employees may consult with the ASDB Travel Coordinator.

Out-of-state travel with special circumstances requiring approval by the Arizona Department of Administration will be submitted to Accounting by the Superintendent no later than ten (10) working days prior to the expected departure date. Accounting will not accept travel packages until they are approved by the Superintendent.

Travel requests, which are submitted past planning deadlines, may not be processed except with written authorization of the Superintendent. The Superintendent will not approve late requests except when extenuating circumstances can be demonstrated.

For incidents involving an Authorized Driver’s POV (Personally Owned Vehicle), or privately leased or rented vehicle on State business, the Authorized Driver shall inform his/her immediate supervisor of the incident and shall make the notifications required by the driver's insurance provider as the driver's coverage will be the primary coverage for the claim. Submit the notice of injury and the written automobile loss report to agency Fleet Management within twenty-four (24) hours after the accident.

An Authorized Driver shall report all moving violations (speeding, parking, aggressive driving, etc.) involving an SOV or POV used on state business, to the supervisor prior to the end of shift or within twenty-four (24) hours after receiving the warning or ticket.

The Authorized Driver is responsible for supervisor notification or afterhours contact upon receiving
notice of canceled, suspended, or revoked driver’s license, or issuance of a citation resulting in six (6) or more total points, within twenty-four (24) hours of receiving notice.

6.1 Traffic Citations

An Authorized Driver is personally responsible for prompt reporting to their supervisor and payment of any fine for a moving or non-moving traffic violation, other than for mechanical failure, received while driving a vehicle in the course of state business.

a. If a citation is received for mechanical failure of a state-owned or leased vehicle the Authorized Driver shall contact the Fleet Management office for towing instructions and include a copy of the citation with the automobile loss report to be submitted to fleet management.

b. If a citation is received for mechanical failure of a personally-owned vehicle the Authorized Driver shall contact the Fleet Management office for towing instructions and include a copy of the citation with the automobile loss report to be submitted to fleet management.

c. If an Authorized Driver, while driving an SOV (state owned vehicle), or POV (personally owned vehicle) on state business, receives a traffic citation that results in the driver’s license being canceled, suspended, revoked or carrying 7 or more MVD points, and the driver fails to resolve the matter within ninety (90) calendar days of the citation, they shall lose their driving privileges for State business. Driving privilege will be reviewed by the Vehicle Incident Report Committee (VIRC) using the Conditional/High Risk Driver Review Form 16-001 – 2F. State driving privileges may be restored when the driver provides verification of license reinstatement.

d. Authorized Driver is responsible for the cost of all towing and storage if vehicle on state business is towed away due to illegal parking, DUls, etc.

7.0 Consequences for Non-compliance

Authorized Drivers who fail to comply with this policy may be subject to disciplinary measures including termination.

a. State Staff members – In accordance with ASDB policies regarding conduct and ethics requires that all staff members comply with Federal and State laws and rules, statewide policies and the staff member handbook, as well as agency policy and directives. In ASDB policies GBEA and GBEB, a staff member who fails to comply with standards of conduct requirements may be disciplined or terminated from State employment.

b. State Contractors - State contractors violating Federal or State laws or rules, statewide policies, or agency policies or directives may result in, but may not be limited to, immediate credential revocation, or termination of access to State vehicles. Vendors providing services under a contract are subject to the recommendations of vendor performance reports, and any contract terms and warranties, including potential damages.

8.0 Accident Review and Fleet Safety Advisory Committee

In compliance with A.A.C. R2-10-207.12(g), each Authorized Fleet shall ensure that ASDB’s motor fleet safety policy includes a Vehicle Incident Review Committee (VIRC). VIRC shall conduct a review of each incident that involves damage to determine the cause and preventability of the incident and recommend any corrective action to prevent recurrence.

VIRC activities are intended to ensure Authorized Drivers are held accountable for their operation of
SOVs (state owned vehicles), reduce vehicle incidents, and ensure that Authorized Drivers are aware that they have been entrusted by the public to operate SOVs safely and responsibly. Agencies using ADOA Fleet vehicles will participate in ADOA’s VIRC.

Preventable determinations are reported to the Superintendent and fleet administrator. Review of incidents is a critical element in a motor vehicle safety policy and often results in corrective actions, training, and other measures that emphasize the importance of safe driving.

Responsibilities of the VIRC include reviewing each incident that involves vehicle damage for the following:
   a. Evaluating the incident for cause
   b. Determining if the incident was preventable or non-preventable
   c. Drafting and sending the Determination Letter to the Superintendent/designee for dissemination to the driver

FOOD SERVICES
(EMPLOYEE MEALS)

The Food Service Department prepares and serves meals to ASDB employees when ASDB is in session. All employees may purchase meals from ASDB. The charge per meal is established by the Superintendent per Arizona Department of Education (EDA) guidelines. Additionally, certain employees are provided meals without charge in exchange for services that directly benefit ASDB.

- Employees may purchase meals to be consumed in the food service dining areas or on the school campus.
- The student cafeteria and student dining rooms are learning centers for eating skills, social development, and good nutritional experiences. All employees of the educational department(s) may participate in this learning experience for students. Employee may receive a free meal under the following circumstances:

Certain employees are hired to work at ASDB and receive accommodations and meals in lieu of monetary compensation. These employees are called “live ins” and their rights to free meals are contained in the contract each “live in” agrees to and signs.

- Live-ins should eat meals in the food service dining room during designated meal times.
- Live-ins are required to obtain a personal identification number to eat breakfast and lunch in the foodservice dining room.

An employee may be assigned, or otherwise required, to remain in their work area during the meal hour. When such a situation exists, such as the following, the employee may receive a meal without charge:
The student health center employees assigned to eat in their work area because they are required to treat and receive ill students during meal times.

The technical mechanical employee assigned to work alone in the powerhouse to monitor mechanical equipment essential to maintaining the physical environment of the school buildings is required to remain in his/her work area during meal times.

The employee supervising a student who is on restriction due to a behavior problem.

An emergency or otherwise unusual situation resulting in requiring an employee to remain in their work area during meal hours. The employee is eligible for a free meal if approved by the Superintendent.

The food service department employees are assigned to remain in their work area to serve students and employees during campus designated meal times. Food service employees are subject to call and sometimes receive no reasonable breaks due to fluctuations in the food production demands except during the designated food service employee lunch breaks.
The food service department provides food for residential student activities during the school year when school is in session. Food required for student activities must be approved by the department directors or their designees. The appropriate food request form must be completed and submitted to the food service department no later than 6:00 p.m. on Wednesday for food needed the following week (Monday through Sunday). The purpose of providing special diets or food substitutions is to meet the nutritional needs of students who require such accommodation.

The food service department shall provide special meals or food substitutions to students who are considered disabled and whose disability restricts their diet. A disabled child has been defined as one who has a physical or mental impairment which substantially limits one (1) or more major life activities such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

- The food(s) to be omitted and the food(s) that may be substituted

The statements from the licensed physicians or recognized medical authority must be sent to the student health center and maintained on file. The student health center must notify the food service department of the students who require special diets.

ASDB, not the food service manager, has the responsibility for providing assistance with feeding if the student cannot feed one's self, and special equipment, such as feeding utensils, as needed.
ASDB employees who restrict or provide foods to students without a statement from a recognized medical authority under this policy are violating the law.
The food service department provides food for student activities during the school year when ASDB is in session. Food required for student activities must be approved by the department directors or their designees. The Food Requisition/Request Form must be completed and submitted to the food service department no later than 6:00 p.m. on Wednesday for food needed the following week (Monday through Sunday). The food service department will provide sack lunches for field trips in lieu of the meal served in the cafeteria. The lunch is a reimbursable meal under the National School Lunch Program. Names of student and employees going on the field trip must be provided at pick up for sack lunch requests Monday through Friday to ensure an accurate meal count for reimbursement purposes. A completed Sack Lunch Request Form (Form 188) must be submitted on Wednesday for pick up the following week.

Educational staff may request ingredients from recipes they plan to use for learning experiences not normally available. Special projects should be planned in advance. Educational staff should contact the food service manager regarding the possibility of procuring the food item before completing the Food Requisition/Request Form (Form 193). The requesting department, group or class will be notified as soon as it is known when an item is not available.

The food service department may provide items used for consumption based on availability and cost. The cost of food items that will be used for classroom activities that will not be consumed, such as, but not limited to, ornaments and play dough, will be charged to the requesting department.

FOOD SERVICES

The food service department receives reimbursement from the School Breakfast and National School Lunch Programs for each reimbursable meal served to a student.

Family-Style Meal Service Guidelines for Employees Supervising Students at Breakfast and Lunch

Family style is a type of meal service, which allows children to serve themselves from common platters of food with assistance from a supervising adult setting the example. Family style may be useful when smaller children are being offered a component or when a new food item is being introduced.

In order to qualify for monetary reimbursement, the employee supervising the family style meal service is required to adhere to the following requirements:

- A sufficient amount of prepared food must be placed on each table to provide the full-required portions of each food item for all the children and adults who eat with the children at the table.
- The family style meal service allows children to make choices in selecting foods and the size of initial servings. Children should initially be offered the full-required portion of each menu item.
- During the course of the meal, it is the responsibility of the supervising adult(s) to actively encourage each child to accept the full required portion for each food item.

Offer vs. Serve

The Offer vs. Serve is a serving method designed to reduce plate waste by allowing students to choose only those foods they intend to consume. The following guidelines must be met:

**Breakfast**

- Offer a minimum of three (3) menu items.
- Students must select at least two (2) items.
- When more than three (3) menu items are offered, students may decline a maximum of one (1) item.

**Lunch**

- Offer a minimum of three (3) menu items.
- Students must select at least two (2) items.
- One (1) item must be an entree.
• When more than three (3) menu items are offered, students may decline a maximum of two (2) items.

The federal government prohibits any local educational agency from denying any child meals or milk as a method of disciplinary action.

**USDA’s Foods of Minimal Nutritional Value**

*Appendix C: Current Restricted Items (1977 – 7 CFE 210.11)*

Currently schools are required to follow FMNV regulations when participating in the National School Lunch Program. A goal of the FMNV regulation is to limit the amount of competitive foods that can be offered to students during the breakfast and lunch period.

Competitive foods are any foods sold in competition with meals served under the National School Lunch and School Breakfast Programs. Current federal regulations state that FMNV cannot be sold in the food service area where a reimbursable meal is sold or eaten. The list of FMNV includes but is not limited to soda, water ices, chewing gum, and certain candies. The listed products are in no way meant to be all inclusive or definitive, but rather to be used as an example that provides guidance when making determinations on new products or products not specifically listed.

Arizona Revised Statue 15-242 restricts all FMNV for the entire school day. All foods and beverages served/sold in vending machines, snack bars, a la carte, fundraisers and school events will be subject to the Arizona Nutrition Standards regardless if they are exempt from the FMNV food list by USDA.

**Guidelines for Student Behavior**

Food service employees view the student dining rooms as classrooms. Proper manners should be taught here as well as language skills. The following are some guidelines:

• Students should not enter the dining room until their adult supervisor is present.

• Students should be required to use the correct utensils for the food served.

• Students who require more supervision should remain seated at their tables until excused or asked by their adult supervisor to leave the table.

• Students should be taught to pick up after themselves: bus their tables, pick up food dropped on the floor and wipe up major spills.

• Student should make an effort to make one (1) trip through the serving line and ensure they get all items they need to avoid cutting in front of other students and interrupting the line.

• Students in high school may ask for double portions. It is required that all students are offered first full servings of a meal. Second servings may be available to all students when there are extra portions.
● Students are limited to taking up to two (2) milks, one (1) dessert if not a fruit, and two (2) juices, when made available.

● Students are required to wash their hands before eating.

● Students should not be rewarded, punished, or pacified with food.

● Students who are on detention should go through the serving line, get their meal and head straight to the detention area.

● Students and employees should remove their hats when dining in the cafeteria.

● Students should show respect and be polite at all times, and especially when going through the serving line.

Stricter rules may be imposed by educational staff members as necessary and appropriate.

Sanitation and health standards prohibit food service employees from cleaning up the dining areas after a child has vomited, urinated or defecated.
ASDB shall enter into an agreement with the Arizona Department of Education (ADE) to participate in the National School Lunch Program (NSLP), School Breakfast Program (SBP), and United States Department of Agriculture (USDA) Foods Program.

The Superintendent shall develop regulations as necessary with respect to determining eligibility of children for free and reduced-price meals, which follow federal regulations and state guidelines.

Adopted: March 26, 2015
FREE AND REDUCED - PRICE FOOD SERVICES

Free and reduced price meals will be provided to all students who are eligible. ASDB shall have an approved free and reduced-price policy statement on file at the Arizona Department of Education.

The manager/supervisor of the ASDB meal program is designated to determine which individual children are eligible for free or reduced price meals and to ensure compliance with all policies, rules and regulations of the United States Department of Agriculture and the Arizona Department of Education.

In providing free and reduced-price meals, ASDB shall:

**Provide for public announcements.** Near the beginning of the school year, an announcement must be made to notify the public of the availability of the National School Lunch Program (NSLP), the School Breakfast Program (SBP), and the Food Distribution Program (FDP). The notice must include the eligibility criteria for reduced price meals and/or milk. The public news release will be provided by the local news media. ASDB shall submit a public/press release to local employment offices and major employers contemplating layoffs in the attendance area of ASDB. Copies of the public release shall be made available upon request to any interested party.

**Send notices to households (Parent Letter).** A letter or notice informing households about the availability of the school meal program is to be distributed at the beginning of each school year.

The letter must state the option of free and reduced price benefits. An application form must be distributed to all households of children in attendance at ASDB who were not determined eligible through Direct Certification match results or from the migrant/homeless/runaway list. The application should not be distributed earlier than July 1, or no more than thirty (30) days prior to the beginning of the school year, whichever is later. New students enrolling in school after the school year begins must be provided a letter/notice and application form when they enroll.

Applications for free or reduced price meals program shall be available to students at all times during the regular school day.

**Provide for Foreign Language translations.** In schools where a significant number or proportion of the population eligible to be served needs information in a language other than English, ASDB must make reasonable efforts, considering the size and concentration of such population, to send appropriate non-English language household letters/notices and application forms to such households. ASDB will provide households with assistance in completing applications through the use of foreign language employees.
**Enforce Confidentiality/Disclosure of Eligibility.** All procedures shall insure that names of children eligible to receive free or reduced-price meals shall not be published, posted, or announced in any manner. Information such as family size, income, and social security numbers shall remain confidential and shall not be shared for any purpose. No individual indicators of participation shall be maintained in the permanent record of any pupil not otherwise allowed by law.

Disclosure may be made of aggregate information, such as the number of children eligible for free or reduced price meals, to any program or individual. Aggregate information shall not identify children.

**Ensure Nondiscrimination Practice.** There shall be no overt identification of any eligible children by use of special tickets, special tokens, serving lines, separate entrances, separate dining areas, or by any other means. When more than one (1) lunch, breakfast or type of milk is offered, the children shall have the same choice of meals that is available to those children who pay the full price. Children shall not work for their meals unless other children are required to do so as part of their educational training.

No child shall be discriminated against because of race, color, national origin, religion, age, sex or disability.

Parents/guardians who appeal the challenge of decisions on applications and school officials’ challenges to the correctness of information contained in an application or of continued eligibility of any students for free or reduced-price meals shall have a fair hearing. During an appeal and hearing, the student will continue to receive free or reduced-price meals.
FOOD SERVICE SANITATION PROGRAM

ASDB food service programs must meet all health and food safety regulations as required by the county, state, and federal health departments and inspection agencies. Cleanliness and sanitation shall be an integral part of food production, and shall receive the proper emphasis to ensure that food safety standards are high.

Adopted: March 26, 2015
FOOD SERVICES RECORDS AND REPORTS

The State Board of Education prescribes regulations for keeping food services records and providing annual reports. The accounts and records shall be available at all times for inspection and audit by authorized officials, and must be retained for five (5) years after the fiscal year for which they pertain and/or as required by the Arizona Department of Education Child Nutrition Programs. The School Breakfast Program (SBP), National School Lunch Program (NSLP), and United States Department of Agriculture (USDA) Foods Program will be administered according to appropriate state and federal provisions and the regulations made by the State Board. The Arizona Department of Education (ADE) conducts or causes to conduct audits, inspections, and administrative reviews of accounts, records, and operations.

The ASDB Board establishes these broad goals for development:

- To integrate facilities planning with other aspects of planning in a comprehensive educational program.
- To base educational specifications for ASDB buildings on identifiable learner needs.
- To design for sufficient flexibility to permit program modification or the installation of new programs.
- To design ASDB buildings as economically as feasible, providing that learner needs are effectively and adequately met by the design.
- To involve the community, ASDB staff members, available experts, and the latest in related current development and research in building plans and specifications.
- To analyze life-cycle costs as they compare with capital expenditures versus a maintenance and operations expense projection.

NAMING ASDB FACILITIES

In naming facilities, the ASDB Board of Directors will consider names derived from significant geographic locations, historical events, names associated with Arizona culture, plants or animals, events of community significance, as well as worthy individuals who have made unique contributions to ASDB. These contributions can be either non-monetary or monetary.

In this policy, the word facility refers to any school and or educational building, administration building, gymnasium, stadium, athletic field, performing arts center, residential building, food service center, or other support service building. Facility also refers to various areas within or surrounding the above-mentioned.

*Adopted: February 11, 2016*
NAMING FACILITIES

All interested persons may recommend to the Superintendent that facilities be named. At the first Board of Directors meeting following the submission of a recommendation to the Superintendent, the Superintendent shall advise the Board of the recommendation. Any follow-up by the Superintendent will be based upon Board advice and general parameters for the process of naming facilities established by the Board.

If the Board advises that the Superintendent not follow-up on the recommendation, the Superintendent shall notify the interested person(s) of the decision.

If the Board advises the Superintendent to follow-up on the recommendation, the Superintendent shall appoint a representative committee that may include, but not be limited to, alumni, employees (current or retired), parents, students, community leaders, and Board members.

The committee shall assist the Superintendent in gathering the following information, which will be considered in developing the Superintendent’s recommendation to the Board:

- Documentation of significance/contribution of the name. If the name is not an individual, then a historical perspective is important. If the name is an individual, then the focus should be on how the individual’s contribution has positively impacted ASDB students, and that the individual is held in high esteem. Other factors to consider would be length of service and current employment status.

- The committee may consider other names and may solicit nominations for any individual or group of individuals that are associated with or support the mission of ASDB.

- The Superintendent shall give the following charge to each committee: The dedication of a facility is an honor reserved for those special categories listed in Board Policy FF, and which have resulted in making ASDB a significantly better place for students. The ASDB Board of Directors bestows this honor without discrimination on the basis of disability, race, color, religion, national origin, sex, or age.

- The committee shall provide sufficient information so that the Superintendent can cause to be drafted a specification for the lettering or design to be placed on the building and/or the plaque. The prepared location of the exterior name should be prominent. Plaque information shall be in print and Braille.

- The committee shall not be rigidly bound by tradition, however, they shall be sensitive to the traditions and past practices of ASDB. The committee shall give consideration to the following:
• Facilities that primarily house classroom activities will be referred to as “schools” (i.e., Kachina Elementary School).

• Facilities that primarily house residential activities will be referred to as “halls” (i.e., Ocotillo Hall).

• Facilities or portions of facilities housing a variety of activities or support services will be referred to as “center” (i.e., Performing Arts Center).

  • ASDB facilities may carry Arizona tribal names.

• Residence halls historically housing students who are blind may carry names of desert plants.

• Residence halls historically housing students who are deaf may carry Arizona tribal names.

Changes in the laws and agency rules as well as in the needs, conditions, purposes and objectives of ASDB may result in revisions, additions to the policies. Personnel policies may be modified, amended or repealed at any time the Board determines to be in the best interest of ASDB.

Wherever inconsistencies of interpretation arise, the law and regulations prevail.

AMERICANS WITH DISABILITIES ACT (ADA)

ASDB provides equal employment opportunities, with reasonable accommodations when appropriate, to applicants and qualified employees with disabilities. ASDB also provides employees and members of the general public who have disabilities, equal access with reasonable accommodations and auxiliary aids, when appropriate, to enable them to have equal access to the ASDB’s programs, services and activities.

ASDB will not tolerate discrimination against qualified individuals with disabilities with regard to the terms and conditions of employment, including the application process, hiring, promotion/advancement, termination, training, compensation, benefits or any other term or condition of employment. An individual with a disability is considered qualified if the individual has the required skills, experience, education or other job-related qualifications of the position and if, with or without reasonable accommodations, the individual can perform the essential functions of the position.

**AMERICANS WITH DISABILITIES ACT (ADA)**

The Arizona State Schools for the Deaf and the Blind provides equal employment opportunities, with reasonable accommodations when appropriate, to applicants and qualified employees with disabilities. The Schools also provide employees and members of the general public who have disabilities equal access, reasonable accommodations, and auxiliary aids, when appropriate, to enable them to have equal access to the Schools’ programs, services, and activities.

The Schools prohibit and will not tolerate discrimination against qualified individuals with disabilities with regard to the terms and conditions of employment, including the application process, hiring, promotion/advancement, termination, training, compensation, benefits, or any other term or condition of employment. An individual with a disability is considered qualified if the individual has the required skills, experience, education or other job-related qualifications of the position and if, with or without reasonable accommodations, can perform the essential functions of the position.

**Definitions**

*Discrimination because of Disability:* Treating an individual with a disability less favorably than a similarly situated person without a disability; favoring a person with one disability over a person with a different disability; and, refusing to provide a reasonable accommodation, which is necessary to enable an individual with a disability to perform the essential functions of the job.

*Essential Functions of a Job:* The fundamental job duties of a position that employees in that position actually are required to perform and whose removal would fundamentally change the job.

*Individual with a Disability:* A person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment.

*Major Life Activities:* Activities such as walking, speaking, breathing, seeing, hearing, sitting, standing, caring for oneself, working.

*Medical Information:* Information about an employee’s health, including diagnosis, test results, interpretations of medical information, job restrictions and required job accommodations.

*Qualified Individual with a Disability:* A person with a disability who satisfies the requisite skill, experience, education and other job-related requirements of an employment position, and who, with or without reasonable accommodation, can perform the essential functions of the position. Any applicant or employee who is
currently engaging in the illegal use of drugs is not a qualified individual with a
disability.

**Reasonable Accommodation:** Any modification or adjustment to the job application
process that enables a qualified applicant with a disability to be considered for the
position; modifications or adjustments to the work environment or the circumstances
under which the position customarily is performed that allow a qualified individual with
a disability to perform the essential functions of the position or to enjoy equal benefits
and privileges of employment. Any accommodation that would cause undue hardship
or would pose an undue risk of harm to the employee or others is not a reasonable
accommodation.

**Undue Hardship:** An accommodation that would be unduly costly, substantial or
disruptive, or that would fundamentally alter the nature or operation of a division,
section, program, service, or activity.

**Obtaining a Reasonable Accommodation**

**Applicants for Employment**

Any applicant for employment who requires a reasonable accommodation in order to
apply, interview or otherwise compete for a position with the Schools should inform
the hiring supervisor, the ADA Coordinator and/or the Director of Human Resource
Management and Development (HRM&D) at the earliest possible time of the need for
an accommodation to an applicant when the accommodation sought is reasonably
necessary for the applicant to compete for the position on an equal basis with
applicants who do not have disabilities. At no time prior to an offer of employment will
the applicant be asked whether s/he has a disability, or any questions that would tend
to elicit such information. All applicants shall be considered and all hiring decisions will
be made on the basis of an applicant’s qualifications, and not on the basis of an
individual’s actual or perceived disability or whether or not the applicant will require an
accommodation if hired.

**Employees**

Any employee who requires a reasonable accommodation in order to perform the
essential functions of his or her job may request that accommodation by notifying the
employee’s supervisor, the ADA Coordinator, and/or the Director of HRM&D of the
need for a reasonable accommodation. The employee will be provided a Request for
Accommodation form, and should complete Sections A and B. If the employee has a
disability that precludes completing the form, it may be completed by providing the
required information orally to the supervisor, the ADA Coordinator or the Director of
HRM&D, who will transfer the information to the form.

Unless the requesting employee’s disability and need for reasonable accommodation
are obvious, the employee may be requested to provide reasonable documentation
from the employee’s physician or other health care provider about the nature of the
disability and the functional limitations that require accommodation. If requested, this
documentation must be provided to the supervisor, ADA Coordinator or Director
of HRM&D before the request for an accommodation will be granted. Any medical
documentation provided in response to the request for additional information will be
maintained in a confidential file separate from the employee’s personnel file, and will
not be provided to anyone except in the following situations: (1) First aid and safety
personnel may be informed when appropriate if the disability might require emergency
treatment; (2) Supervisors and managers may be informed regarding necessary
restrictions in the work or duties of the employee and of any reasonable
accommodations which are to be provided; and (3) Government officials investigating
compliance with the American With Disabilities Act shall be provided relevant
information upon request.

After any requested documentation is provided, the supervisor, ADA Coordinator
and/or the Director of HRM&D may meet with the employee requesting
accommodation to discuss the employee’s limitations and what the employee expects
to accomplish with the proposed accommodation. The supervisor, in consultation with
the ADA Coordinator, Director of HRM&D and/or the Arizona Office for Americans with
Disabilities, will determine whether the particular accommodation sought by the
employee is reasonable, and/or whether there are other accommodations that the
Agency can provide which will allow the employee to perform the essential functions
of the job at less cost or burden to the Agency. The supervisor’s recommendation
will be documented in section C of the Request for Accommodation form.

The Superintendent or designee shall review the request for accommodation and the
supervisor’s recommendation and shall approve or disapprove the recommended
accommodation in Section D of the Request for Accommodation form. The
Superintendent or designee shall notify the employee whether an accommodation will
be provided, the nature of the accommodation, and (if appropriate) when the
accommodation will be received. If the supervisor, the ADA Coordinator, the Director
of HRM&D and/or the Superintendent or designee determine that the accommodation
can be provided which would allow the employee to perform the essential functions of
the position, the Superintendent or designee shall notify the employee of that
determination and shall document all efforts made to find a reasonable

STAFF INVOLVEMENT IN DECISION MAKING

It shall be the policy of the Board to encourage employee participation in the decision making for ASDB. The Superintendent is authorized to establish such committees as necessary to recommend policies and procedures that will enhance the operation of ASDB.

In recommending policies to the Board and in the development of regulations for the operation of the ASDB, the Superintendent may involve at the planning stage, whenever feasible, any employees who may be affected by such provisions.

The Superintendent shall establish channels for the ready intercommunication of ideas and feelings regarding the operation of ASDB. The Superintendent shall weigh with care the counsel given by employees and inform the Board of such counsel in presenting recommendations for Board action.

STAFF ETHICS
(STATEMENT OF ETHICS FOR EMPLOYEES)

All staff members of ASDB are expected to maintain high standards in their school relationships. These standards must be idealistic and at the same time practical, so that they can apply reasonably to all staff members. The staff members acknowledge that ASDB belongs to the public they serve for the purpose of providing educational opportunities to all. However, every staff member assumes responsibility for providing leadership in ASDB and the community. This responsibility requires the staff member to maintain standards of exemplary conduct. It must be recognized that the staff member’s actions will be viewed and appraised by the community, associates, and students. To these ends, the Board adopts the following statements of standards.

ASDB’s staff member:
• Makes the well-being of students the fundamental value of all decision making and actions.

• Maintains just, courteous, and proper relationships with students, parents, staff members, and others.

• Strives for the maintenance of efficiency and knowledge of developments in the employee’s field of work.

• Fulfills job responsibilities with honesty and integrity.

• Directs any criticism of other staff members or of any department of the school system toward improving ASDB. Such constructive criticism is to be made directly to the school administrator who has the responsibility for improving the situation.

• Supports the principle of due process and protects the civil and human rights of all individuals.

• Obey local, state, and national laws and does not knowingly join or support organizations that advocate, directly or indirectly, the overthrow of the government.

• Implements the ASDB Board’s policies and administrative rules and regulations.

• Refrains from using school contacts and privileges to promote partisan politics, sectarian religious views, or selfish propaganda of any kind.

• Pursues appropriate measures to correct any laws, policies, or regulations that are not consistent with sound educational goals.
• Avoids using position for personal gain through political, social, religious, economic, or other influence.

• Maintains the standards and seeks to improve the effectiveness of the profession through research and continuing professional development.

• Stresses the proper use and protection of all ASDB properties, equipment, and materials.

• Honors all contracts until fulfillment or release.

In the performance of duties, staff members shall keep in confidence such information as they may secure unless disclosure serves ASDB purposes or is required by law. Discussion of students and their problems should be professional - limited to the principals or staff members concerned - not in unrestrained conversation at any time and place. Staff members who fail to observe this principle of ethics may subject themselves to progressive discipline, up to and including termination.

ASDB may acquire equipment, material, supplies, or services from its staff members only under an award or contract let after public competitive bidding [A.R.S. 38-503; A.G.O. 106-002]. STAFF CONDUCT
(NONMEDICAL USE OR ABUSE OF DRUGS AND/OR ALCOHOL)

Staff Member Drug Use, Abuse, or Possession

The nonmedical use, abuse, or possession of drugs and/or use or possession of alcohol is forbidden on ASDB property or at school-sponsored activities away from ASDB property. Staff members determined to be in possession of, using, or abusing drugs or alcohol shall be reported immediately to the staff member’s principal or supervisor. The Superintendent shall be notified immediately.

The Superintendent shall conduct an investigation in consultation with legal counsel as necessary. Staff members that violate this policy may be disciplined up to and including termination. If the investigation shows sufficient evidence to suggest that the staff member was involved with distribution or otherwise in violation of the law, law enforcement authorities shall be notified.

Medical Marijuana

ASDB recognized Arizona’s medical marijuana law and shall not discriminate against a person in hiring, termination or imposition of any term or condition of employment or otherwise penalize a person on the basis of the person’s status as an eligible medical marijuana cardholder, or as a registered qualifying patient, having a positive drug test for marijuana components or metabolites, unless the person used, possessed or was impaired by marijuana on ASDB property, at an ASDB event, or during the hours of the persons regular or extended hours of employment, or as otherwise prescribed by law.

STAFF CONDUCT
(NONMEDICAL USE OR ABUSE OF DRUGS AND/OR ALCOHOL)

An employee with an alcohol or drug problem may voluntarily seek assistance through the personnel manager. An employee who voluntarily seeks assistance, secures appropriate treatment, and thereafter demonstrates unimpaired job performance, shall not be subject to disciplinary action so long as any drug screen tests which may be required show no violation of school policy. The Schools shall provide assistance to an employee in seeking referral and treatment through local substance abuse programs, available employee assistance program, and/or health care providers. The costs of any treatment shall be the financial responsibility of the employee. Employees may be eligible for medical insurance benefits, depending upon coverage.

Employees voluntarily seeking assistance who require time for treatment and rehabilitation will be granted full consideration by the Superintendent for use of accrued leave time and leave without pay for a period not to exceed 90 days, except under extraordinary circumstances. Employees who have been granted leave time for purposes of treatment and rehabilitation shall be permitted to return to work upon presentation of a written release from the agency operating the treatment program, and upon execution of a written agreement win which the employee agrees to undergo future alcohol and drug screen testing in a manner determined by the Schools and for a duration determined by the Schools. Any subsequent alcohol or drug screen test results which indicate a violation of the prohibitions set out in the Schools policy shall constitute cause for dismissal from employment.

When reasonable suspicion exists that an employee has reported to work in violation of the prohibitions set out in School policy, the supervisor or co-worker shall report the basis for the reasonable suspicion to the Superintendent or designee immediately. Reasonable suspicion shall be based upon some work-related conduct of the employee, or some manifestation of the prohibited conduct in a work-related context. The personnel manager shall investigate the situation, and, if reasonable suspicion exists, the findings shall be immediately reported to the Superintendent. The Superintendent shall make a determination whether the employee shall be removed from the work site by being placed on administrative leave with pay, pending further investigation, and whether the employee shall be required to submit to a drug and/or alcohol screening test.

If it is determined, pursuant to the above paragraph, that a test shall be conducted, the affected employee shall be ordered to accompany the supervisor to the occupational health center or medical facility designated by the Schools for drug testing purposes, and to submit required specimens and to authorize the release of the test results to the Superintendent. Refusal of the employee to accompany the supervisor to the test facility, refusal to submit to the screening test, or refusal to authorize a release of the results shall constitute cause for dismissal of the employee.

The employee shall remain on administrative leave with pay until the investigation is concluded and/or until the alcohol and/or drug screening test results have been provided to the Superintendent. In the event of positive drug screen results the employee shall be notified that the laboratory performing the tests will retain the sample for six months. If the Superintendent determines that cause for dismissal exists, the Superintendent shall notify the employee in writing of the pending charges.
This procedure does not prohibit the use of any drug or substance by any employee pursuant to a lawful order of a licensed medical practitioner, unless such drug or substance impaired the employee’s ability to fulfill job responsibilities. This procedure does not prohibit the lawful use of a controlled substance; however, the lawful use of a controlled substance that affects the employee’s behavior or ability to perform assigned duties shall be reported to the immediate supervisor upon reporting for work.

A staff member must report any such accident immediately, as prescribed by Administrative Procedure EBBB-R, since a report on the time of the accident, persons involved, and how it happened is required.

Staff members may be required by the Superintendent, for purposes of employment or retention, to submit to such tests or examinations as a licensed physician deems appropriate.

When, in the opinion of the Superintendent, the staff member physical or emotional condition warrants, ASDB may require a complete examination, at ASDB’s expense, by a licensed physician selected by ASDB.

The Superintendent shall have procedures for complying with the requirements of the Occupational Safety and Health Administration (OSHA), including an exposure-control plan, methods of compliance, work-practice controls, post-exposure evaluation and follow-up, and administering vaccine to employees exposed to Hepatitis B virus.

All staff members who as a result of their employment have had significant exposure to blood-borne pathogens (Hepatitis B/Human Immunodeficiency Virus) are required to report the details of the exposure in writing to ASDB and are required to follow post-exposure evaluation and follow-up activities in accordance with Arizona and federal laws. The outbreak control measures and other directives of the Department of Health Services (DHS) and local health agencies shall be acted upon as the best medical knowledge and judgments with regard to the exclusion of a staff member who has a communicable disease that is addressed by DHS regulations. The communicable diseases specifically addressed by DHS regulations are listed at A.A.C. R9-6-203 et seq.

A staff member who has a chronic communicable disease, such as tuberculosis or HIV/AIDS, shall not be excluded unless a significant risk is presented to the health and safety of others, which cannot be eliminated by reasonable accommodation. The Superintendent shall consult with legal counsel and health professionals, as necessary, to ensure that exclusion of a staff member with a chronic communicable disease will not violate the staff member’s rights under the Americans with Disabilities Act or the Section 504 of the Rehabilitation Act.

ASDB may require a physician’s written medical release as a condition for the staff member’s return to work.

**Reporting and Notification**

ASDB shall report by telephone to its local health agency each diagnosed and suspected case of a communicable disease as set out in Regulation JLCB-R.

If an outbreak of a communicable disease occurs in a school setting, the Superintendents or the school nurse shall promptly inform staff members who are known to have special vulnerability to infection. ASDB does not assume any duty to notify a staff member of health risks caused by the presence of a communicable disease in the school setting unless the at-risk employee has notified ASDB of the conditions when notification is needed.

**Confidentiality**

ASDB shall make reasonable efforts to maintain the confidentiality of staff members’ medical conditions. All medical information relating to staff members is confidential. The identity of a staff member who has a communicable disease and/or the nature of the communicable disease may be disclosed only to:
• Staff members who must have such information to carry out their duties under this policy; or
• Staff members or students (or their parents/guardians) who must have such information to protect themselves from direct threat to their health or safety.

Inquiries or concerns by staff members or others regarding communicable diseases or a staff member who is known or believed to have a communicable disease shall be directed to the Superintendent or the school nurse.

**Universal Precautions**

ASDB shall follow the “Universal Precautions Standard” set forth in the attached Exhibit GBGCB-E to protect staff members who are at risk of being exposed to blood and body fluids in the course of their work.

**Food Service Workers**

ASDB shall follow the guidance of the U.S. Department of Health and Human Services concerning infectious and communicable diseases transmitted through the handling of food, and special precautions required for food service workers.

**HIV/AIDS**

Current medical information indicates that HIV can be transmitted by sexual intercourse with an infected partner, by injection of infected blood products, and by transmission from an infected mother to her child in utero or during the blood process. None of the identified cases of HIV infection in the United States are known to have been transmitted in a school setting or through any other casual person-to-person contact. There is no evidence that HIV is spread by sneezing, coughing, shaking hands, hugging, or sharing toilets, food, water, or utensils. According to best medical knowledge and judgments, the use of the “universal precautions” and other regulations that implement this policy are sufficient to protect employees and students from transmission of HIV at school.

**GBGCD-E Staff Health and Safety (Communicable Diseases)**
Handling Body Fluids in School

The following guidelines are meant to provide simple and effective precautions against transmission of disease for all people potentially exposed to the blood or body fluids of any person (student and/or staff member). No distinction is made between body fluids from persons with a known disease or those from persons without symptoms or with an undiagnosed disease.

The body fluids of all people should be considered to contain potentially infectious agents. The term body fluids includes blood, semen, drainage from scrapes and cuts, feces, urine, vomit, respiratory secretions (such as nasal discharge), and saliva.

- Whenever possible, avoid direct skin contact with body fluids. Disposable gloves are recommended when direct hand contact with body fluids is anticipated. If extensive contact is made with body fluids, hands must be washed afterwards. Gloves used for this purpose should be put in a plastic bag, secured, and disposed of daily.

- If direct skin contact does occur, hands and other affected skin areas of all exposed people shall be routinely washed with soap and water.

- Proper handwashing requires the use of soap and water and vigorous washing under a stream of running water for approximately 10 seconds.

- Clothing and other non-disposable items that are soaked through with body fluids should be rinsed and placed in plastic bags. If presoaking is required to remove stains, rinse or soak the item in cold water prior to bagging. Clothing should be sent home with the student for washing, with appropriate directions to parents and teachers (see laundry instructions below).

- Always wear gloves when handling items that have come in contact with body fluids.

- Contaminated disposable items shall be handled with disposable gloves, put in a plastic bag, secured, and disposed of daily.

- Body-fluid spills on hard surfaces (i.e., floors, countertops, books, etc.) shall be disinfected with bleach (diluted to ten parts water and one part bleach). Gloves shall always be worn during cleanup.

Cleaning equipment:

- Non-disposable cleaning equipment (such as dust pans, brooms, and buckets) shall be disinfected by thoroughly rinsing in diluted bleach (ten parts water and one part bleach). Mops shall be soaked in the disinfectant after use and then rinsed with hot water. The disinfectant solution shall be promptly disposed of down a drain pipe.
• Disposable cleaning equipment (such as paper towels, the vacuum bag, or sweepings) shall be placed in plastic bags, secured, and disposed of daily. No special handling is required for vacuuming equipment.

• Gloves shall always be used during cleanup.

Laundry instructions:

Clothing soaked with body fluids shall be washed separately from other items.

Presoaking may be required for heavily soiled clothing. Otherwise, wash and dry as usual.

• If the material can be bleached, add one-half cup of household bleach to the wash cycle.

• If the material is not colorfast, add one-half cup of all fabric bleach to the wash cycle.
WORKERS’ COMPENSATION

All staff members shall be covered by workers’ compensation insurance for any accident while on assignment, including an accident on ASDB property or while on official business of ASDB property. A staff member must report any such accident to the supervisor’s office immediately, since a report on the time of the accident, persons involved, and how it happened is required.

Adopted: July 12, 2018
Workers’ Compensation

Workers’ Compensation benefits are provided pursuant to Title 23 of the Arizona Revised Statutes. This coverage is the exclusive remedy for state staff members injured in the course and scope of their employment.

Any staff member who has an accident, no matter how slight, while on duty shall notify the supervisor immediately. Failure to follow this procedure could result in the loss of workers’ compensation benefits.

After being notified by a staff member, the supervisor shall complete and submit the Report of Industrial Injury to the human resources office.

The human resources office, upon receiving the supervisor's report, shall, within ten (10) days after notification, submit the Report of Industrial Injury to state risk management.

Temporary Total Disability: Total disability for eight or more consecutive calendar days where the attending physician declares a “no work” status.

- You may be paid 66-2/3% of your average monthly wage up to the maximum amount as set by the Arizona Legislature.

You are paid an additional $25.00 a month if you support one or more dependents.

Compensation Claims

When a job-related injury/accident requires medical attention and absence from the workplace, the following conditions shall apply:

- A staff member who sustains a job-related injury or disease may see an occupational health physician for diagnosis, treatment, and/or referral or they may see their personal physician. If a personal physician is used, the physician should be told that the injury/disease is job related so Workman's Compensation Claims can be made. Staff members with serious medical emergencies which may be life threatening are to be taken to the emergency room of the nearest hospital by medical personnel trained in emergency procedures (call 911). Staff members with medical emergencies that do not appear to be life threatening should be assisted for medical care by a staff person on site or as assigned by a supervisor.

- The physician will be responsible for reporting the circumstances of the injury to ASDB, the Industrial Commission, and state risk management.

- During the first seven (7) days of absence due to a job-related injury/accident, the staff member will be placed on sick leave, provided the staff member has accumulated sufficient sick leave.

- If a job-related injury/accident results in more than seven (7) days' absence,
the insurance carrier will be responsible for handling the claim for lost pay. During such period the staff member may be directed to:

- Endorse over to ASDB the payments received from risk management/insurance carrier, continue to receive a regular salary, and be charged sick leave. When the amount of the insurance payment is determined and received by ASDB, the staff member’s sick leave record will be adjusted for that fraction of the time paid by the insurance carrier (e.g., risk management pays one-half (1/2) of the normal salary of the staff member, the sick leave will be adjusted on a pro rata basis); or
- Draw compensation from risk management, provide ASDB with a record of such payment, and receive payment for sick leave pay for the uncompensated portion of missed time, up to the limit of accumulated sick leave.

- In no event will a staff member receive a combined salary and worker’s compensation in excess of the staff member’s regular salary.

- A staff member who has used all accumulated sick leave will be removed from the payroll and will receive only such amounts as are paid by risk management.

- A staff member who is on leave without pay due to an industrial disability may continue to participate in the Health Benefit Plan as provided by the State of Arizona. The staff member will pay only the staff member portion of premiums in order to maintain coverage during leave up to six (6) months. Over six (6) months the staff member must pay the entire premium, both staff member and State portions.

- A staff member who is on leave without pay may continue to participate in the Basic Life and Accidental Health and Dismemberment Insurance Plan by paying the state portion of the premium. A staff member who elects to continue in the basic plan may also continue any supplemental coverage which is in force at the beginning of the leave without pay by continuing to pay the premium.

- The insurance coverage of an individual on leave without pay who allows payment of the premiums or contributions to become delinquent shall terminate benefits coverage at 11:59 p.m. on the last day of the period covered by the last premium or contribution paid. Insurance coverage cannot be elected again until open enrollment or in the event of qualified life event.
GBJ: Personnel Records and Files

Professional staff members are required to supply ASDB with current and complete official transcripts of all college credits.

It is the duty and responsibility of each certificated/credentialed/licensed staff member to keep such certifications/credentials/licenses current.

ASDB will maintain a complete and current official personnel file for each staff member. Staff members will be advised of, and will be permitted to review and comment on, all information of a derogatory nature to be placed in their respective personnel files. The staff member may prepare a written reply to such information, and such reply, if any, will be appended to the information in the file.

Records reasonably necessary or appropriate to maintain an accurate knowledge of disciplinary actions regarding staff members and the staff members' responses will be maintained. Disciplinary action records shall be open to inspection and copying unless such inspection and disclosure of records or information in the records is contrary to law.

All documents within an official personnel file are confidential, and ASDB may create such sub-files within a personnel file as are appropriate to ensure confidentiality and the efficient use of the file. Access to official personnel files will be limited to authorized ASDB officials and staff members.

Staff members may review their own personnel files by making a written request to Human Resources. Confidential information obtained prior to employment shall not be available for review by the staff member.

Unless otherwise specifically provided by law, ASDB may not:

- Use an individual’s social security number on forms of identification.
- Transmit to another individual material that contains both the individual’s social security number and the individual’s financial institution account number. This does not preclude the transmission of documents for enrollment, amendment, termination, or contracting for financial services nor does it preclude transmitting documents confirming the accuracy of the numbers previously submitted.

The Superintendent shall prepare regulations to implement this policy and A.R.S. 44-1373, which restricts use of personal identifying information.

Documents within an official personnel file may be reviewed by the public only to the extent that disclosure is compelled as a public record.

Reference Requests

Requests for references on present or former staff members of the Schools addressed to an office of the Schools shall be considered official Schools communications and shall be completed under the following guidelines:

• All such requests shall be forwarded to the Human Resources office for the official Schools response
• The Human Resources office shall respond in writing to such requests, confirming dates of employment and other factual information.

Requests for references on present or former staff members that are addressed to a staff member at his/her personal residence shall be considered unofficial communications unless the staff member who receives such request of references chooses to consider it official and forward it to the personnel office as outlined above.

Reference requests that are not handled as official, in accordance with the above, are subject to the following:

• The response to such unofficial request may not be completed on an official letterhead, form, or document of the Schools.
• The response to such an unofficial request may not carry reference to the Schools.
• The response to such an unofficial request may not carry any Schools title.
• The response to such an unofficial request shall in every detail be a personal response.

Any staff member who responds to a request for a reference on a personal basis shall assume all liability for the consequences of such response.
Effective communication between ASDB staff members, the administrative staff, and the ASDB Board is essential for proper operation of ASDB. The ASDB Board, therefore, authorizes the Superintendent or designee to establish a grievance procedure for staff members as the prescribed means of resolving grievances at the earliest date and the lowest possible administrative level. The ASDB Board instructs the Superintendent or designee to develop and implement regulations and training for supervisors and staff members regarding ASDB’s strict prohibition on any form of retaliation against a staff member who in good faith makes a complaint, raises a concern, provides information, or otherwise assists in an investigation regarding any conduct that he or she reasonably believes to be in violation of ASDB’s policy manual, or applicable laws. The information noted below notes how staff members may submit formal grievances.

(It is recognized, however, that staff members may have concerns that they may not feel comfortable addressing via formal or informal interactions between ASDB staff members and themselves. To ensure robust addressing of concerns, ASDB provides an unbiased, neutral third-party channel for the public to seek guidance, ask questions, make comments, and report concerns through its Ombudsperson. For guidance on the Ombudsperson, please refer to ASDB Policy GBM and ASDB Regulation GBM-RA.)

**Formal Grievances**

Such procedure shall provide for ASDB Board review of any grievance of a policy that cannot be resolved at the administrative level. In such instances, the affected individual may request that the ASDB Board review the situation. Such request shall be in writing and shall contain the basis for the appeal, including the act or acts out of which the grievance arose, identification of the ASDB Board policies involved, and the remedy sought. After all earlier levels of seeking administrative relief have been exhausted, the request may, within ten (10) working days of the Superintendent's decision, be submitted to the ASDB Board through the Superintendent or designee. At the next regularly scheduled ASDB Board meeting, the ASDB Board shall review the grievance or refer it to a hearing officer who shall hold a hearing, if the hearing officer deems it to be necessary, within 10 working days. The hearing officer shall issue a recommendation to the ASDB Board within 10 working days after the hearings or issue a recommendation to the ASDB Board within 15 working days of the assignment.

The ASDB Board shall adopt, reject, modify the response of the hearing officer, or rehear the grievance and issue a response to the grievant at the next regularly scheduled ASDB Board meeting.

The decision of the ASDB Board is final.

GBK-R: Grievances

Introduction
Any staff member who has a concern that cannot be resolved informally may request in writing within forty five (45) calendar days of the event to have their grievance reviewed administratively.

A Grievance is defined as an allegation of a violation or misinterpretation of any ASDB policy that directly and specifically governs the staff member’s terms and conditions of employment. The term “Grievance” shall not apply to any matter for which the method of review is prescribed by law or the ASDB Board is without authority to act. The suspension or dismissal from employment of a staff member is governed by statute and applicable law and therefore is not a grievable matter. Assignment or transfer of a staff member to another position or duties is not grievable beyond the Superintendent or designee unless there is a reduction in compensation or the Superintendent or designee refers the matter to the ASDB Board.

Terms and conditions of employment means hours of employment, compensation, fringe benefits and the employer’s personnel policies directly affecting the staff member. A day is any day during which ASDB conducts business. “Immediate supervisor” is the lowest level administrator having line supervisory authority over the Grievant.

“Grievant” is any staff member of ASDB who files a grievance.

Grievable Matters

Grievance procedures may be used to resolve any claim that there has been a violation, misinterpretation, or inequitable application of ASDB policies as it directly affects their employment.

Non-Grievable Matters

Grievances may not be submitted challenging management's right to direct, hire, evaluate, promote, transfer, assign, retain, or set compensation of its staff members; to maintain efficiency of operations; or to determine methods, means, and personnel by which these operations are to be conducted, but a complainant may grieve the manner in which these actions are taken if that complainant believes that a violation, misinterpretation or inequitable application of the policy adversely affects the complainant.

Rights, Options and Requirements

- After an informal discussion with the immediate supervisor attempting to resolve
the issue that is giving rise to the grievance, a grievant may select a representative at any step in this procedure. Representatives may not participate in any proceeding but may observe and advise the grievant on proceedings. ASDB staff members requested to serve as a grievant's representative may not be a party to the grievance or in the grievant's supervisory chain. ASDB staff members serving as a grievant’s representative may observe and advise the grievant during proceedings during work time. Staff members serving as representatives are not permitted to assist the grievant in the preparation of grievance documents using work time.

- A grievant may have all meetings and hearings under this procedure conducted in private and may include only such parties in interest and/or their designated or selected representatives, heretofore referred to in this procedure, unless such practice adversely affects the statutory rights of another party at interest. However, parties against whom a grievance is filed may be present at all meetings and hearings in the grievance process.

- No retaliation of any kind will be taken by the ASDB Board, any member of the administration or any supervisor against any party in interest, or any participant in grievance procedures by reason of such participation.

- The Superintendent or designee shall develop and implement mandatory training for supervisors and staff members regarding ASDB’s strict prohibition on any form of retaliation against a staff member who in good faith makes a complaint, raises a concern, provides information, or otherwise assists in an investigation regarding any conduct that he or she reasonably believes to be in violation of ASDB’s policy manual, or applicable laws. This training shall be repeated on an annual basis for supervisors, and shall be a mandatory training for all newly hired or promoted supervisors.

- The filing or pendency of any grievance under the provisions of this policy shall in no way operate to impede, delay, or interfere with the jurisdiction of the ASDB Board or the Superintendent or designee.

- Failure at any step of this procedure to appeal a grievance to the next step within the specified time limits shall be deemed an acceptance of the decision rendered at that step, and there shall be no further right of appeal.

- Failure to file a grievance within forty five (45) calendar days after the employee knows, or should have known, of the circumstances upon which the grievance is based shall constitute a waiver of that grievance.

- All matters relating to a grievance will be handled confidentially, but all documents and records relating to a grievance may be subject to public records requests to the extent applicable by law.
Any additional information/material that does not change the substance of the original grievance or remedy that is added to the grievance package by either the grievant or a reviewer will be considered. This information must be sent to all parties concerned, including prior levels, to keep them informed. If this information brings an idea for resolution to a supervisor/administrator involved in any level of the grievance, then the grievant may be approached with this possible resolution.

In the event additional information substantively changes the initial grievance or remedy sought, the grievance will be remanded to Level One and be treated as a new grievance. The Superintendent or designee will resolve any questions of whether such changes warrant the matter being considered a new grievance.

Decisions rendered at all levels of the formal grievance procedure shall be in writing and/or in a form understood by the parties, set forth the decision and the reasons therefore and be transmitted promptly to all parties in interest to the grievance.

All documents, communications and records dealing with the processing of a grievance shall be filed in a separate grievance file, and shall not be kept in the personnel or student file of any participant.

Forms for filing formal grievances will be available in the Human Resources Office.

Formal Grievance Procedures

Level One (1):

• If a grievant is not satisfied with the resolution offered informally, a formal grievance may be filed with the immediate supervisor. Grievances must be filed within forty 45 (45) calendar days of the event precipitating the complaint. The grievant must describe the remedy sought. Grievances alleging non-compliance with a specific policy must specify the precise rule alleged to have been violated.

• Within ten (10) working days of receipt of the written grievance the immediate supervisor/designee will render a written decision in the matter to the grievant. The reviewer shall include information and any attempt at resolution of the grievance.

If the supervisor assigns the grievance to a third party investigator or process, the ten (10) day response requirement shall commence after the investigative process has concluded and the investigative findings are received.
Level Two (2):

- If the grievant is not satisfied with the disposition of the grievance at Level One, or if no decision has been rendered within the designated timeframe, the grievant may, within five (5) work days, refer the written grievance to the next supervisory level. In addition to information submitted at level one, the grievance must include the reasons why the response at the previous step was unsatisfactory.

- If the next supervisory level decides a conference is needed, it will be scheduled within ten (10) work days of the grievance referral. A written decision will be rendered within ten (10) work days of the conference or ten (10) work days of the referral if no conference is held.

- If the next supervisory level assigns the grievance to a third party investigator or process, the ten (10) day response requirement shall commence after the investigative process has concluded and the investigative findings are received.

Level Three (3):

- If the grievant is not satisfied with the disposition of the grievance at Level Two, or if no decision has been rendered within the designated timeframe, the grievant may, within five (5) work days, refer the written grievance to the Superintendent or designee. In addition to information submitted at lower levels, the grievance must include the reasons why the response at the previous step was unsatisfactory.

- If the Superintendent or designee decides a conference is needed, it will be scheduled within ten (10) work days of the grievance referral. A written decision will be rendered by the reviewer at this level within ten (10) work days of the conference or ten (10) work days of the referral if no conference is held.

- If the Superintendent or designee assigns the grievance to a third party investigator or process, the ten (10) day response requirement shall commence after the investigative process has concluded and the investigative findings are received.

Final level—the ASDB Board:

- If the Superintendent or designee's is unsatisfactory to the grievant, or if no decision is given within ten (10) work days, the written grievance may be referred by the grievant to the ASDB Board. If this action is deemed necessary by the grievant, the grievance is sent to the ASDB Board through the Superintendent or designee. Within ten (10) work days of receipt, the Superintendent or designee will transmit the grievance to the ASDB Board for action.

- The Superintendent or designee will arrange for the grievance to be put on the
agenda of the next regularly scheduled ASDB Board meeting that is scheduled to occur at least ten (10) days after receipt of the grievance. The ASDB Board may at its discretion elect to consider the grievance or refer it to a hearing officer who will:

(1) review the grievance,
(2) hold a hearing on the grievance within ten (10) work days if considered appropriate by the hearing officer and
(3) ten (10) work days after the hearing or fifteen (15) work days after receiving the assignment (whichever is later), issue a recommendation for action by the ASDB Board which recommends that the ASDB Board deny or uphold the grievance.

If the recommendation is that the ASDB Board uphold the grievance, it shall include recommendations as to what actions by the ASDB Board are appropriate and necessary to uphold the grievance. If the recommendation is that the ASDB Board deny the grievance, it shall include reason for the recommendation. If the hearing officer holds a hearing on the grievance all parties at interest shall be included in such hearings. The ASDB Board will issue its decision on the recommendation of the hearing officer at the following regularly scheduled ASDB Board meeting.

- If the ASDB Board elects to decide the grievance issue, the ASDB Board, at its discretion, may arrange for a special ASDB Board meeting to hear the complaint if more than thirty (30) calendar days will elapse before the next regularly scheduled meeting. The ASDB Board must have at least ten (10) work days to review the grievance package.

- The grievant and others involved will be advised when the ASDB Board will consider the grievance. The grievant may be requested to present the grievance orally to the ASDB Board, and be available to answer any questions that members of the ASDB Board may have. If such a request is made, the administrator or supervisor involved will be asked to present a response to the ASDB Board.

- The ASDB Board shall make their decision to resolve the grievance at the scheduled ASDB Board meeting unless further review is needed. If a grievance is tabled to a future date, a decision shall be rendered by the ASDB Board at the next regularly scheduled ASDB Board meeting.

Complaint Procedure

Such procedure shall provide that any individual with a complaint shall first attempt to resolve the complaint by informal discussion, and that any complaint not resolved through an informal discussion shall be filed in writing within 45 calendar-days of the incident or occurrence giving rise to the complaint. The complaint shall be in writing and shall contain the basis for the complaint, including the act, acts, and/or material omissions from which the complaint arose, identification of the administrative regulations or procedures allegedly violated, and the remedy sought. The complaint shall be filed with that individual’s supervisor, and the individual and supervisor shall meet and discuss the issue. If not resolved at that level, the matter may be appealed to the next administrative level. The appeal shall be in writing and shall list the grounds for disagreement with the supervisor’s decision. Any written request for appeal shall be reviewed on the written record and a decision issued. This decision shall be final.

If a complaint is filed with the Superintendent as supervisor, the complaint shall be reviewed by the Superintendent and may be appealed to the ASDB Board. Otherwise, complaints shall be reviewed and resolved at the lowest possible level, and shall be decided on appeal based upon review of the written record by an administrator at the next level above the administrator receiving the complaint.

Complaints shall address terms or conditions of employment directly affecting the staff member. Performance evaluations, disciplinary actions, or other situations which are subject to review under other law or policy may not serve as the subject of a complaint.

Adopted: June 14, 2018
COMPLAINTS

Complaints, whenever possible, are to be resolved closest to the source of the complaint. Complaints will be addressed professionally, competently, and in a timely manner. This policy serves as an alternative to be used for violations of ASDB regulations, procedures, and decisions which do not fall under the purview of ASDB Policy GBK (Grievances). A complaint is distinguished from a grievance as an informal procedure designed as a process for the resolution of workplace concerns that are not otherwise subject to the grievance procedure.

Procedural Fairness

The principles of procedural fairness apply to all complaints. Procedural fairness requires that parties to a complaint are:

- Treated impartially
- Informed of concerns or allegations being made
- Given the opportunity to respond
- Informed of the complaint process and review process.

Procedural fairness also requires that complaints are reviewed in a timely manner and that the appropriate written records of the complaint resolution process and outcomes are maintained.

No retaliation of any kind will be taken by any member of the administration or any supervisor against the complainant, or any participant in the complaint procedures by reason of such participation.

The Superintendent or designee shall develop and implement mandatory training for supervisors and staff members regarding ASDB’s strict prohibition on any form of retaliation against a staff member who in good faith makes a complaint, raises a concern, provides information, or otherwise assists in an investigation regarding any conduct that he or she reasonably believes to be in violation of ASDB’s regulations and/or procedures. This training shall be repeated on an annual basis for supervisors, and shall be a mandatory training for all newly hired or promoted supervisors.

Confidentiality

To maintain confidentiality insofar as that is reasonable, all participants in the process should restrict information about the complaint to those who need to know of the complaint in order to:

- Refer the complaint;
- Manage it;
- Provide advice and support in the process;
- Review and decide upon the appropriate complaint process;
- Manage the workplace;
- Apply the process.
Making and Receiving Complaints

- Most complaints will be resolved informally.
- Prior to filing a complaint, the complainant shall make good faith attempts to resolve the issue with his/her supervisor. Resolution attempts may include, but are not limited to, speaking personally with the supervisor to make the supervisor aware of the problem and give him/her an opportunity to respond. If the complaint is regarding a person other than the complainant’s supervisor, the complainant should still make good faith attempts to speak personally with his/her supervisor to make the supervisor aware of the problem and give him/her an opportunity to take steps towards resolving the complaint.
- Where a complaint cannot be resolved informally:
  - The complaint will be put in writing and given to the complainant’s supervisor within forty five (45) calendar days. The complaint should include all documentation regarding the efforts taken to first resolve the issue with the supervisor.
  - The supervisor will establish a process to deal with the complaint by:
    - Assessing the appropriateness of each option for resolution
    - Keeping the resolution as close to the source of the complaint as possible.
  - The supervisor shall:
    - Review all relevant materials
    - Make further inquiries, if necessary
    - Decide whether further action is necessary
    - Make a decision
    - Within 10 working days, advise the complainant in writing of the decision and the reasons for the decision. However, if the supervisor believes that a third party investigator is required to determine the facts of a complaint, the issuance of a decision shall be suspended until 10 working days after the investigator submits his/her findings.
- In some situations, having assessed the complaint, a supervisor may decide that an alternative person is best suited to deal with a particular set of circumstances and forward the complaint to that person. The supervisor shall inform the complainant of his/her decision to forward the complaint within 10 working days.
- If the supervisor determines that the subject matter of the complaint falls outside the scope of this Regulation but may be the subject of a Grievance (as defined in Policy GBK), the supervisor shall dismiss the complaint and instruct the complainant to file a grievance instead.

Assessing and Referring Complaints

The supervisor will assess and decide on the appropriate option for resolution of the complaint. The options for resolution of a complaint include, but may not be limited to:

- Informal options, such as
- Self-resolution (handling the issue personally)
- Assisted resolution (seeking resolution with the assistance of a colleague or manager)
- Facilitating communication and resolution
- Mediation
- Formal options, such as
- Intervention
- Investigation
- System Improvements

The supervisor may obtain advice, and, based on assessment, delegate the responsibility for handling the complaint to completion. The complainant and the supervisor responding may seek support. If meetings with the parties are held, the parties may have a support person present. The support person may not participate in the meeting but may observe and advise the complainant. An ASDB staff member serving as a complainant’s support person may observe and advise the complainant at meetings during work time.

**Administrative Review of Complaints**

Either party may request review of a decision. The review will be undertaken by the decision maker’s supervisor. If that person should be excluded on the grounds of procedural fairness, the Executive Director of the division affected by the complaint shall designate an appropriate person to conduct the review. If the Executive Director should be excluded on the grounds of procedural fairness, the Superintendent or designee shall designate an appropriate person to conduct the review.

The request for a review must be made within 10 working days from the date of the finding and detail the grounds for the request. The reviewer shall:
- Review all relevant material
- Make further inquiries, if necessary
- Decide whether further action is necessary
- Make a decision
- Within 10 working days, advise parties in writing of the decision and the reasons for the decision.

The person conducting the review will decide whether or not the decision that is being reviewed will be put on hold until the review is complete.
There is no option of review if the matter has been resolved by agreement of the parties. The reviewer’s decision is final.

**Resolving Concerns**

You can request assistance from the Ombudsman at any point in this process.

**Overview**

1. Why should I contact the Ombudsperson?

The Ombudsperson maintains confidentiality to the extent it is legally permissible. He works towards problem resolution based on the principles of fairness. The Ombudsperson does not take sides: the rights and interests of all parties will receive consideration. ASDB staff members should contact the Ombudsperson if he/she has a concern and:

- Doesn’t know where to go for help.
- Is reluctant to go through normal channels for assistance.

2. When should I contact the Ombudsperson? (Timelines)

ASDB has both informal and formal processes for responding to concerns and disagreements. If staff members believe they have a concern that they believe may require the neutral services of the Ombudsperson, they are encouraged to contact the Ombudsperson immediately to ensure a timely and equitable resolution of their concern.

The Ombudsperson has 30 calendar days to provide a response to the inquiry; this preserves the ASDB staff member’s ability to file a complaint (Policy GBL) or formal grievance (Policy GBK) in a timely manner.

It is important to note that neither informing the Ombudsperson in person or in writing about a concern constitutes “notice” to ASDB. Contacting the Ombudsperson is not a step in the Grievance (GBK) or Complaint (GBL) process. Anyone who wishes to “put ASDB on notice” should contact an administrator or invoke the formal grievance or informal complaint process.

1. How should I contact the Ombudsperson? (Guidelines)

- State your concerns in plain language
- Provide as much detailed information as possible (such as dates, what happened, and where an incident[s] took place)
- Tell the ombudsperson if you have previously raised this concern with management
- Provide a complete definition when using acronyms or abbreviations (example: SWR=Southwest Regional Cooperative)
- It is recommended that if you have a concern regarding confidentiality, that you do not tell your co-workers you are using the Ombudsperson program.
- Provide full name and contact information*

*All concerns will be reviewed by the third-party Ombudsperson. If confidentiality is a concern, the Ombudsperson will not disclose any part of the communication unless in the course of discussions the staff member gives explicit permission to disclose information. Information that could identify a specific person as the complainant will be removed before it is forwarded to management for response.

However, an exception to this confidentiality is when the Ombudsperson determines that there is an imminent threat of harm to a student, staff member, an ascertainable member of the public, or to ASDB facilities.

**Summary of Ombudsman Review Process**

**Step1:** Contact Ombudsperson with Concern

**Step 2:** Ombudsperson collects information to review concern. Ombudsperson determines if there is evidence to corroborate concern, and:

- If there is no evidence, the Ombudsperson will provide that response to staff member within 30 calendar days.
- If there is evidence, the Ombudsperson to proceed to Step 3.

**Step 3:** Ombudsperson determines whether the action taken complies with law, ASDB Policy or Regulation, and:

- If the action complies with law, policy or regulation, the Ombudsperson will provide that response to staff member within 30 calendar days.
- If the action does not comply with law, policy, or regulation, the Ombudsperson will proceed to Step 4(A) and 4(B).

**Step 4(A):** Ombudsperson determines whether there is a clear and present danger to the welfare of an ASDB student, staff member, or to ASDB facilities, and:

- If there is a clear and present danger, Ombudsperson will immediately notify the Superintendent, Principal/Director, and Law Enforcement if necessary, then proceed to 4(B).
- If there is not a clear and present danger, Ombudsperson will proceed to Step 4(B).
Step 4 (B): Ombudsperson determines whether confidentiality needs to be maintained, and:

- If confidentiality does not need to be maintained, provide response to staff member within 30 calendar days and, if appropriate, refer staff member back to the ASDB grievance (staff) or complaint process (student, or public).
- If confidentiality does need to be maintained, the Ombudsperson will contact the appropriate ASDB staff member to begin a modified resolution process, protecting confidentiality of complainant, insofar as that is legally possible. Resolution could involve, but is not limited to, coaching, shuttle diplomacy, informal mediation, or generic solutions. Response containing resolution to be provided to staff member within 30 calendar days.

• Appeal of test findings:

< The Schools, in cooperation with the testing facility, shall develop a procedure for the employee to obtain a second laboratory opinion on the test findings.

< The employee shall be notified of the procedure for obtaining a second laboratory opinion on the test findings.

• Penalties:

< Refusal to immediately take a test, or failure to cooperate fully as requested during testing procedures, shall be considered an act of insubordination and is cause for termination.

< A staff member with the responsibility of enforcing these procedures who has knowledge of a violation and does not act according to the Schools policy and procedures shall have violated Schools policy, and such violation is cause for termination.

< An employee having a positive test indicating use of alcohol or a drug under the above-described circumstances shall be recommended for termination.

Nothing in this procedure shall in any way limit the authority of the Schools to utilize information other than drug and alcohol testing in the discipline and termination of employees for drug and alcohol use.

PROFESSIONAL/SUPPORT STAFF LEAVES OF ABSENCE WITHOUT PAY

Staff members are hired by ASDB because ASDB believes a given individual to be the best-suited candidate for the position. This being the case, it is the intent of ASDB that staff members be available for duty as scheduled by ASDB. ASDB recognizes, however, on occasion extenuating circumstances arise that may necessitate absence from duty that is not covered by other specific leave provisions of ASDB. To address such situations, a leave of absence without pay may be granted to a staff member for not longer than one (1) year.

Leave of absence without pay may be requested for, but not limited to, the following purposes:

- To provide for an unpaid leave in a situation where the staff member will be absent from work because of (1) a reason that conforms to a policy currently in effect but the maximum number of days provided for in that policy will be exceeded, or (2) failure to report to work without prior notification and/or approval of the Superintendent or a manager/supervisor, in which case this leave will be recorded as absence without approved leave and treated as a disciplinary matter.
- For a leave of absence that benefits or is in the best interest of ASDB, as determined by the Superintendent upon review of the application.
- For leave under the Family and Medical Leave Act.

Leave of absence without pay requested pursuant to this policy may be:

- Approved by the Superintendent if the leave period does not exceed twelve (12) weeks subject to the requirements of the Family Medical Leave Act and administrative regulation established by the Superintendent; or
- Approved by the Superintendent if the leave period exceeds five (5) work days per year pursuant to administrative regulation GCCC-R established by the Superintendent.

The Superintendent shall not deny a request for leave of absence without pay if the staff member is entitled to the leave under the Family and Medical Leave Act. All other applications for leave of absence without pay may be granted or denied at the discretion of the Superintendent pursuant to administrative regulation GCCC-R. All accrued sick, vacation, personal, and other paid leave shall be applied to the leave period unless otherwise approved by the Superintendent or prohibited by the Family and Medical Leave Act. Each request for such a leave of absence shall be in a written application stating the purpose, starting date, and duration of the leave of absence, the reasons for its necessity or desirability, and any other information the applicant deems relevant to the request.

The leave of absence shall be only for the approved purpose and duration, and may not be extended without written approval by ASDB.
After 10 consecutive workdays of approved leave without pay, staff member is returned to a position only if one is available, funded, and the staff member is qualified and physically able to do the work.

**Family and Medical Leave Act (FMLA)**

ASDB shall fully comply with the Family and Medical Leave Act and all interim and final regulations interpreting the FMLA issued by the U.S. Department of Labor. Accordingly, all portions of this policy that pertain to the FMLA shall be interpreted in a manner consistent with the FMLA and its regulations. Subject to the conditions set forth herein.

The FMLA entitles eligible staff members of covered staff members to take unpaid, job-protected leave for specified family and medical reasons with continuation of group health insurance coverage under the same terms and conditions as if the staff member had not taken leave. Eligible staff members are entitled to:

- Twelve workweeks of leave in a 12-month period for the birth of a child and to care for the newborn child within one year of birth;
- The placement with staff member of a child for adoption or foster care and to take care for the newborn child within one year of placement;
- To care for the staff member’s spouse, child, or parent who has a serious health condition;
- A serious health condition that makes the staff member unable to perform the essential functions of the his or her job;

Any qualifying exigency arising from the fact that the staff member’s spouse, son, daughter, or parent is a covered military member on “covered active duty;” or 26 workweeks of leave during a single 12-month period to care for a covered service member with a serious injury or illness if the eligible staff member is the service member’s spouse, son, daughter, parent, or next of kin (military caregiver leave).

Any staff member who is scheduled to work a year-round calendar, who has been employed by ASDB at least twelve (12) months, and who has completed at least six hundred twenty-five (625) hours (staff members less than full time) or one thousand two hundred fifty (1,250) hours (full-time staff members) of service immediately prior to the time the leave is to commence, shall be eligible for FMLA leave. Any staff member who is scheduled to work a school-year calendar (less than year-round), and who has been employed by ASDB at least twelve (12) months, must complete a prorated number of scheduled work hours within the 12-month employment period to be eligible for FMLA. This proration will be based upon the number of hours the staff member is scheduled to work during the school year.

Serious medical condition means an illness, injury, impairment, physical or mental condition that involves inpatient care in a hospital, hospice, or residential medical facility, or outpatient care with continuing medical treatment by a licensed health care provider.

**Special conditions applicable to FMLA.**

Entitlement to leave for the birth of a child or the placement of a child for adoption or foster care ends at the expiration of a twelve-month period, beginning on the date of the event.
A married couple working for ASDB may be limited to a total of twelve (12) weeks of leave during each twelve- (12) month period for leave for the birth of a child or the placement of a child for adoption or foster care and to care for a staff member’s parent with a serious health condition. The aggregate number of workweeks of leave to which the married couple may be entitled under covered service member family leave combined with leave as described in the previous sentence shall be limited to twenty-six (26) workweeks during only one (10) twelve (12) month period.

ASDB shall not require a staff member to exhaust accrued sick leave for FMLA leave with pay by reason of a birth, adoption, or foster placement. A staff member shall designate the use of accrued leave to the extent available by policy, unless otherwise approved by the Superintendent.

In any other FMLA circumstance other than BAFP, a staff member’s accrued sick, vacation, personal, or other applicable leave shall be substituted for FMLA leave, to the extent available by policy, unless otherwise approved by the Superintendent.

A staff member must provide at least thirty (30) days’ notice before the FMLA leave is to begin if the need for the leave is foreseeable based on an expected birth, placement for adoption, or foster care, or planned medical treatment for a serious health condition of the staff member or family member. If thirty (30) days’ notice is not practicable, notice must be given as soon as practicable. The notice shall be in the form of a request for leave of absence as specified in this policy. ASDB may deny or delay FMLA leave to any eligible staff member until the staff member has provided the required notice.

FMLA Certification. All FMLA leave shall be supported by certificate completed by the staff member’s healthcare provider, court order, or military support documentation.

In any instance where the FMLA leave must be preceded by thirty (30) days’ notice, the certification should accompany the request for leave of absence. In any other instance, ASDB may request the certification to be provided within fifteen (15) calendar days after the employer’s request.

Upon notice from ASDB, the staff member may be requested to provide recertification of medical conditions in support of leave if ASDB feels that the circumstances so warrant. Recertification shall not be required for intervals shorter than thirty (30) days.

Whenever a medical certification or recertification is required of a staff member, notice shall be provided to the staff member describing such requirement and providing the form for certification or recertification. A staff member shall not be denied FMLA leave or other rights under the FMLA unless a notice required by FMLA in such situation has first been provided to the staff member.

Certification of active military duty or call to active duty in support of a contingency operation for purpose or receiving family leave shall be required under the same conditions as FMLA certification for leave indicated above.

In the case of continuation, recurrent, or onset of a serious health condition to the staff member, covered family of the staff member (including a service member being cared for by the a staff member) and the staff member is unable to return to work, certification issued by the health care provider of the entity with the serious health condition shall be required to support the inability of the staff member to return to work.

Intermittent or modified leave. FMLA leave may be taken intermittently or on a modified leave
schedule under the following circumstances:

- If medically necessary to care for a family member or for the staff member’s own serious health condition;

- Because of any qualifying exigency the spouse, or a son, daughter, or parent, of the staff member is on active duty, or notified of an impending call or order to active duty in support of a contingency operations; or

- If approved by the superintendent.

The superintendent may, for the term of the leave, transfer the staff member to an alternative position with equivalent pay and benefits.

If the intermittent or modified leave is for an instructional staff member (one whose principal function is to instruct students in a class, small group, or as individuals), ASDB can require the staff member either to take leave for a block period or periods of a particular duration not greater than the duration of the planned treatment or to transfer temporarily to an available alternative position with equivalent pay and benefits that provides better accommodation of recurring periods of leave.

ASDB may grant leave under these circumstances, subject to reasonable efforts to schedule treatment so as not to unduly disrupt the educational program:

Staff member notifications. With each request for FMLA leave, ASDB will provide the staff member with a general notice about FMLA and:

- Eligibility status and rights and responsibilities

- Whether specific leave is designated as FMLA leave and the amount of time that will count against their FMLA leave entitlement; and

- Substitution of paid leave and/or fitness for duty requirements; and

- Notice of designation as “key” staff member and what that could mean; and

- The staff member's right to job restoration and maintenance of benefits.

ASDB will provide a summary of FMLA and information on how to file a charge for a FMLA violation on ASDB premises, ASDB website, the agency shared R drive, and the staff member handbook.

**Elected Benefits Options continuation.**

A staff member taking FMLA leave shall be entitled to have the same elected benefit options in which the staff member is participating continue under the same terms and conditions applicable to actively working staff members. Staff members will be sent statement of premiums owed and payment process by the Arizona Department of Administration (ADOA) Benefits Options Division. Staff members in a non-FMLA leave without pay status may be required to pay the employer’s portion of benefit premiums.

**Fitness for Duty and Job restoration.**

A fitness for duty certification will be required prior to staff member’s return to duty, with any
limitations, restrictions or details noted. Staff member's return to work may be delayed until the fitness-for-duty certification is provided. ASDB may contact health care providers to clarify or authenticate a fitness for duty certification. Upon return from FMLA leave, a staff member shall be restored to the same position held before the FMLA leave commenced or to an equivalent position with equivalent pay, benefits, and working conditions.

The Superintendent may delay the return of an instructional staff member from FMLA leave at the end of a semester, in accordance with Section 108(d) of FMLA. The Superintendent may deny restoration of position to any key staff member (i.e., one who is among the highest-paid ten percent [10%] of all staff members of ASDB), in accordance with Section 104(b) of FMLA.

GCCC-R: Professional/Support Staff Leaves of Absence Without Pay

PROFESSIONAL / SUPPORT STAFF LEAVES OF ABSENCE WITHOUT PAY

Leave Without Pay (Excluding FMLA Leave)

Leave without pay is any period of time without pay for which an employee has made application and received approval by the supervisor as applicable. Leave without pay will not be approved unless the absence is fully justifiable and can be reasonably accommodated. A supervisor may approve zero (0) to five (5) days per year of leave without pay. Requests for periods of leave without pay longer than 5 days require approval of the Superintendent.

Any period of less than ten (10) consecutive workdays of leave without pay is considered a short-term leave of absence. More than ten (10) consecutive days is considered a long-term leave of absence.

Long-term leave without pay may be requested and approved if the absence is fully justified and can reasonably be accommodated for any period up to thirty (30) days. If leave is needed beyond this period, ASDB may consider further requests in 30-day increments. Up to ninety (90) days leave may be approved.

Except for employees returning to work from leave without pay granted for military service, industrial disability, or educational development for the good of the agency, an employee on long-term leave without pay may be returned to work only if a position is available, funded, and they are qualified and physically able to perform the duties of the job.

- Prior to the expiration of an employee's long-term leave without pay, the employee will be notified to advise ASDB of his/her interest in being considered for available positions not later than the leave expiration date. If there will be a delay in the start date of work in the new position, the employee will be continued on leave without pay until the effective date to start work in the new position. Example: Teacher on a year's leave of absence that expires the end of the school year who has been selected for a teaching position to begin at the start of the new school year will be continued on leave without pay during the interim period.

- If an employee fails to return to an appropriate available position, the employee will be separated for failing to return to work. If no appropriate position is available to offer the employee, the employee will be separated without prejudice.

Except in situations beyond the employee's control, leave without pay must be requested in advance of use.

If returned to work after a medical absence, an employee may be required to provide a physician's certificate of ability to perform the full range of duties of the position.
Teachers on extended or educational leave without pay may intermittently work as substitute teachers while retaining their extended leave without pay status when there is a bona fide need for this assistance. Teachers on extended leave without pay for medical reasons may not work during the period of leave without pay.

In the event of a measles and/or rubella outbreak at ASDB, employees who exercised an exemption under the current policy will be placed on leave without pay unless they request and have available some other leave that could be used. In the event of an outbreak, employees who are not immunized and have not requested an exemption shall be put on leave without pay. Employees who have waived immunization are required to be absent from work until any outbreak has ended determined by the Superintendent.

Prior to the expiration of an approved long-term leave of absence, the Superintendent may cancel the leave and return the employee to a position that must be filled due to an insufficient number of employees being available to provide services. The Superintendent shall provide notice of such rescission of leave in writing prior to the date the employee is required to return to work, or as soon as ASDB is aware of the need for the employee to return to work. If the employee refuses to return to the offered position, the employee will be separated for failing to return to work.

Positions which are exempt from FLSA will not be subject to deductions in pay for absences of less than one (1) day.

Before an employee may leave work for this purpose, the employee shall provide the employer with a copy of the form provided by law enforcement and if applicable a copy of the information the law enforcement agency provides the employee pursuant to either A.R.S. 8/386 or 13-4405.

*Adopted: April 14, 2011*
The Schools recognize the existence of circumstances under which non-job-related, seriously incapacitating, and extended illnesses or injury may exhaust accrued sick leave of employees. To provide some measure of relief in such situations, a limited mechanism, based upon voluntary transfer of accrued sick leave, is established. The mechanism will be termed banked sick leave, or a leave bank. It is considered of benefit to the Schools to establish this mechanism because it will reduce the annual accrued sick leave and promote efficiency by ensuring constant service.

In this document, the term "days" refers to the normal number of hours an individual is regularly scheduled to work each day in a normal 5 day week. For full-time exempt and non-exempt classified and certificated employees except teachers that would be 8 hours per day for a five day week. For full-time exempt teachers that would be 7.5 hours per day for a five day week. For part-time employees it would be less than 8 hours per day unless the schedule is 8 hours a day for less than 5 days per week. The benefit in this policy is stated as it applies to full-time employees and would be reduced appropriately and proportionately for part-time employees. If accrued sick leave is recorded in hours, a day is equivalent to the number of hours an individual is regularly scheduled to work each work day in a normal 5 day week.

Certificated and Credentialed Staff
Limits:

- The value of banked sick leave will be limited to the equivalent of the number of scheduled days multiplied by the daily base salary of a teacher with a B.S. degree and no experience, or less, depending on contributions. For less than full-time staff the value would proportionately reduced. This value has nothing to do with the administration of the benefit for the employee.

- No employee shall be entitled to receive banked sick leave by reason of contribution or employment.

- Each approved applicant is limited to the one-time use of no more than 60 consecutive days of the available limited sick leave from the sick leave bank in any school year.

- Additional leave will not be earned/accrued during use of banked sick leave.

- All unused banked sick leave will expire at the end of each work year.
Voluntary Contributions:

- Certificated and Credentialed staff members, who have 30 or more days of accumulated sick leave may voluntarily contribute a maximum of 3 days of earned/accrued sick leave to the sick leave bank annually. Such contribution must be from the current year's sick leave earned/accrued, the value of which will be determined by the number of days multiplied by the daily base teacher salary or defined elsewhere herein.

- Each certificated and credentialed staff member contributing leave to the sick leave bank must acknowledge an un-coerced, voluntary release of the leave, the value it represents, and that it will not be returned but will expire at the end of the fiscal year in which it is contributed.

- In case of contributions exceeding the value of the sick leave bank limit, each contribution will be accepted on a first-served basis by date of signature.

Eligibility (for use of sick leave bank).

The approved applicant shall:

- Be a full-time certificated or credentialed employee or permanent part-time employee earning leave.

- Have a non-job-related, seriously incapacitating, extended illness or injury that is expected to require absence from the workplace for four or more weeks.

  The short-term disability program
  The long-term disability program

Support Staff

• The value of banked sick leave will be limited to the equivalent of the number of scheduled work days multiplied by the federal minimum wage rate times eight hours, or less, depending on contributions, for less than full time staff, the value would be proportionately reduced. The value of this leave has nothing to do with the administration of the benefit.

• No employee shall be entitled to receive banked sick leave by reason of contribution or employment.

• Each approved applicant is limited to the one-time use of no more than 60 consecutive days of the available limited sick leave from the sick leave bank in any school year.

• Additional leave will not be earned/accrued during use of banked sick leave.

• All unused banked sick leave will expire at the end of each work year.

Voluntary Contributions:
• Support staff members, who have 30 or more days of accumulated sick leave may voluntarily contribute a maximum of 3 days of earned/accrued sick leave to the sick leave bank annually. • Each support staff member contributing leave to the sick leave bank must acknowledge an un-coerced, voluntary release of the leave, the value it represents, and that it will not be returned but will expire at the end of the work year in which it is contributed.

• In case of contributions exceeding the value of the sick leave bank limit, each contribution will be accepted on a first-come, first-served basis by date of signature.

GCD: Professional/Support Staff Annual Leave and Holidays

PROFESSIONAL/SUPPORT STAFF
ANNUAL LEAVE AND HOLIDAYS

Leave

Annual leave is accrued only by twelve (12) month staff members. A twelve-month staff member is a staff member who works a year-round schedule or 260 days per year. Annual leave shall be used with proper approvals for annual time and all other periods of approved absences with pay from regularly scheduled work which are not properly chargeable to some other category of leave accrued by staff members.

Annual leave is accrued based on years of service, position, and FLSA status, and is prorated on scheduled daily work hours. Leave is credited biweekly.

Years of service is determined by the number of complete calendar months of service to the state from the staff member’s original start date of work unless there are interruptions in continuous service that affect the start date count for accrual.

The maximum amount of unused annual leave that may be accumulated by a twelve-month staff member is 320 hours. Excess annual leave must be used by the staff member by the second pay period of December, unless an exception is approved by the Superintendent or designee in the form of an extension, to be memorialized in a written plan to use the excess annual leave.

Annual leave shall not be advanced to staff members.

With approval of the Superintendent or designee, annual leave may be used prior to retirement or resignation. If not used, the annual leave balance will be paid upon termination of employment.

Holiday Leave

Staff members who work a twelve-month schedule (year round), shall receive thirteen (13) paid holidays per year. The 13 paid holidays shall be prorated based upon daily work hours and will include five (5) required state and national holidays and 8 days to be determined by the Superintendent.

A twelve-month staff member who is on leave without pay status on the staff member’s scheduled work days immediately preceding or following the day on which the holiday is observed will not receive holiday compensation.

A twelve-month staff member may be absent with pay for any holiday provided in the appropriate holiday schedule unless the staff member is required to work in order to maintain essential services. Any twelve-month staff member who is required to work on a holiday who has not been in a leave without pay status the day before or the day after the holiday, will be compensated for such holiday worked on one of the following bases:

- Hour for hour of an additional pay (not to exceed eight (8) hours per day) at the staff member’s current hourly rate; or
- Hour for hour of an altered holiday schedule, or banked to use at a later date.
Altered holiday schedules may be required for exempt employee classifications and certain non-exempt employee classifications, such as Facilities Maintenance staff and Security Officers. Altered holiday leave must be used in the fiscal year in which the altered scheduled holidays occur.

Maximum amount of compensation: A staff member may not receive more than eight (8) hours of holiday compensation for any holiday. Other holidays will be established by the school calendar.

Adopted: July 12, 2018
 Annual Leave

Annual leave is accrued by 12 month staff members, based on credited service, FLSA status, and scheduled hours per week as noted below. Leave is credited bi-weekly.

- Documented, good-faith efforts shall be made to contact previous employers of a person to obtain information and recommendations that may be relevant to the person's fitness for employment.
- All state and federal requirements shall be met.
- All positions filled will have on record a position description questionnaire which designates the immediate supervisor, method of position performance evaluation, and terms of employment including salary; workday hours and annual work days.

- Except as amended by workload adjustment or special projects approved by the Superintendent, staff members in similar work classifications shall have equitable terms of employment.

Any staff member's misstatement of fact that is material to qualifications for employment or the determination of salary shall be considered by the ASDB Board to constitute grounds for dismissal.

General

Principals and supervisors who are arranging the announcement, recruitment and recommendation for hire of a vacant position, or any other personnel/payroll action will utilize the following steps for approval.

The Principal/Supervisor has designated a coordinator (usually the Secretary) to be responsible for developing or coordinating the development of recruitment requests (RAI) and personnel/payroll actions (PPA).

- The Principal/Supervisor will complete the RAI or PPA package (see attached checklists). The appropriate checklist must be attached to the package to assist department coordinators in reviewing and routing RAI and PPA packages.

- After Principal/Supervisor approval, the RAI or PPA will be submitted to the department coordinator for checklist completion review.

- The department coordinator will submit the RAI or PPA to the following for review and approval.
  
  < Personnel (RAI package only)
  < Payroll/Position Control
  < Personnel Manager
  < Superintendent

  NOTE: RAI and PPA packages will not be accepted by Payroll/Position Control Without approval of the Principal/Supervisor and the signature of the coordinator.

- After Superintendent approval, RAI and PPA packages will be routed to the following for processing:
  
  < RAI (Recruitment Authorization Information) = Personnel
  < PPA ) Personnel/Payroll Action) = Payroll

- If for some reason the RAI or PPA must be held for more than one working day at any of the approval offices, that office will notify the department coordinator of the delay.
• It is the responsibility of the department coordinator to walk through priority or late RAI and PPA packages. (A.R.S. 15-1326 requires approval for hire before a person may be placed on the job.)

**RAI (Recruitment Authorization Information)**

All announcements will be advertised in the journals, newspapers, etc., as indicated as well (newspaper announcements are typically published in Sunday editions).

Prior to submission of RAI for a vacated position, a terminating PPA must be submitted to Payroll.

In order to assure that requested newspaper publishing dates can be met, RAI packages must be submitted to Personnel no later than: (1) the Wednesday of the week prior to the publishing date for display ads, (2) the Thursday of the week prior to the publishing date for single column ads (both above, approximately *five working days*).

Personnel will notify the department coordinator if the publishing date cannot be met.

**PPA (Personnel/Payroll Action)**

Immediately upon approval for hire, the Superintendent's Office will send a copy of the approved PPA to the respective Director. (Approval for hire means that the Superintendent has signed the PPA)

New department coordinators will receive in service concerning this policy by Personnel and payroll no later than thirty (30) days after date of hire.
Qualifications

Persons selected for classified positions must meet minimum qualifications requirements of the position for which selected in order to be assigned to the approved grade. If there are no qualified applicants for a position and the needs of the agency can be met by filling the position at a lower grade, qualification requirements may be reduced. In such instances the position requirements and grade of the position must be reviewed to determine whether or not to continue the position at a lower grade or to under fill the position.

Requests to continue a position at a lower grade or to under fill a position must be approved by the Superintendent. Staff members under filling positions must meet the minimum qualifications of the position within a timeframe set by the program manager and approved by the Superintendent. A plan to reach the target grade must be prepared and included in the employee’s personnel file to document the conditions that must be met for placement at the target grade.

Step placement

Classified employees are normally placed on the salary scale at step one (1) when hired unless expressly stated on the Special Recruitment Pay Plan. Exceptions, if made, require the express approval of the Superintendent.

Exceptions to step one (1) entry of the grade may be requested for shortage category positions, exceptional qualifications, or other reasons that would serve the best interest of the agency. Justification for higher than minimum is required with the recommendation for hire. Such exceptions shall be approved prior to discussion with a prospective employee.

Grade advancement

Classified employees advance in grade by a reclassification and/or re-grading of their position, or promotion to a higher graded position.

Positions may be proposed for reclassification and/or re-graded if it is in the best interest of the agency, and there are sufficient monies available within the program budget to fund a higher grade. Reclassification of positions and grade changes require approval of the Superintendent.
The salary of an employee in a position that is reclassified to a higher grade, or in a class which is changed to a higher grade, shall be increased by at least 2.75%, provided the employee is paid within the salary range of the new grade. If establishing the salary of an employee whose position is reclassified, would result in a salary level that would be lower than the entrance salary or would exceed the maximum salary of the grade, the employee's salary shall be established at the entrance salary or at the maximum salary of the grade, respectively.

**Legislative Appropriated Step Increases:**

Employees will be granted a step increase if employed with ASDB on or before the effective date of the increase as appropriated by the legislature.

Step increases are subject to availability/appropriation of funds.

**Other career opportunities:**

Classified employees may be considered for promotion or selection to any other position in the agency by meeting the qualifications for the vacant position, applying, and being selected for the position through the competitive process.

**Lead Worker Supplement:**

An incumbent classified employee identified as the lead worker in a classification of positions may receive a salary supplement of 5% of the base salary. This supplement is not a part of the base and will be removed if and when the employee is no longer functioning as the lead worker. This supplement requires the approval of the Superintendent. The following criterion will apply when identifying an incumbent employee for duties as a lead worker within a class:

1. Must be a lead worker of at least two employees in the class.
2. Must have been employed at ASDB for two years.

Justification for consideration of waivers to these requirements may be submitted to the Superintendent for approval.

*Adopted: June 25, 2001*
New Hires

All staff members without a valid fingerprint clearance card hired by ASDB shall be fingerprinted as a condition of employment. The candidate’s fingerprints shall be submitted, along with the form prescribed in GCFC-R, immediately upon being notified of pending employment and not more than seven days after beginning work.

Offers of employment can be extended to any candidate pending completion of the fingerprint check. ASDB may assume the cost of fingerprint checks but will assess the staff member for charges incurred.

- The person is not awaiting trial on and has not been convicted of a criminal offense that would make the person ineligible for a fingerprint clearance card.

This does not apply to a fingerprint clearance card that has been denied, suspended or revoked or to a person who has requested a good cause exception hearing.

The candidate shall certify on the prescribed forms whether they are awaiting trial on or have ever been convicted of or admitted in open court pursuant to a plea agreement committing any of the following criminal offenses in Arizona or similar offenses in any other jurisdiction:

• Pursuant to all rules and regulation adopted by the Arizona Criminal Justice Information System Policy Board and subject to A.R.S. 41-1750(G), the Superintendent or designee designated as the executive officer, responsible as the system security officer. The Superintendent or designee may only designate the Executive Director, Human Resources as a staff member authorized to have access to criminal history record information.

Salaries for specified certificated, credentialed or licensed staff members are based on academic coursework and experience. Once employed, experience, performance, professional activity, certification, and other factors contribute to movement between grades and steps.

School-year staff members’ salaries are based on a specified number of work days, set forth as 186 days:

The schedule as specified above may be adjusted due to requirements of selected positions. During the first year of employment new staff members may be required to participate in up to an additional 3 days of orientation as a part of their first work year and scheduled at the discretion of ASDB.

All salary adjustments are contingent on funds being appropriated for the purpose requested and available in the year of distribution. If funds are not available at the time of approved change, salary adjustments will be effective in the fiscal year when funds have been appropriated and are available for the intended purpose. When funds become available, salary adjustments will be made in order of eligibility dates. Salary adjustments are not retroactive to the eligibility date of a previous fiscal year unless so stated in the appropriation or funding source.

The Board recognizing the efforts of staff who deliver quality education to our children and youth throughout the state as evidenced by student improvement academically and personally, establishes a program to provide performance based incentive pay to professional staff on the certificated salary schedule. This program is subject to continuing legislative appropriation.

Incentive pay for certificated and credentialed staff shall be tied to group performance since the education of students is a team effort. Objective measures approved by the Superintendent will be used to determine the level of satisfaction with the quality of education delivered to students.

The Superintendent is authorized to develop and implement the terms and conditions of participation in the program, the measures by which staff will be evaluated to determine eligibility for incentive pay and the distribution of funds.

Certification

Upon entry, staff members for whom certification is offered by the Arizona Department of Education are required to secure such certification. Persons employed for positions for which state certification is not offered, are required on entry to secure the appropriate license or credential offered by the State of Arizona or a national certification body. Both state and national
certificates will be required when appropriate. Such additional certificates, credentials or licenses, as appropriate, may be required as provided by procedures established by the Superintendent and as described in Board policy. Certificates, credentials or licenses shall be required upon employment. The Superintendent may approve extensions when circumstances warrant. Such extensions shall be made only after careful consideration of the effects on the welfare of students.

Staff members are required to maintain their certificates, credentials, or licenses. Staff members are considered eligible for salary advancement if they hold a valid certificate, credential, or license required for their position on July 1 of the new school year. Staff members without the required certificate, credential, or license may be terminated.

STAFF CERTIFICATION AND CREDENTIALING REQUIREMENTS

(Compensation Criteria-Incentive Pay: Certificated, Credentialed, and Licensed Employees)

See Administrative Regulation GCFCA-RA in “Recoded and Adopted Section G” (Personnel).
Advancing in Grade

Grade advancement will be contingent on funds being appropriated and available for professional growth. Staff on the certificated pay scale may receive credit for completion of professional development activities toward grade advancement. The purpose of giving credit on the salary schedule for completion of educational units is to promote professional growth and to contribute to overall development of knowledge and skills applicable to the specific assignment.

Salary credit for graduate study above the Bachelor’s or Master’s Degree may be obtained in a job-related field through recognized and accredited institutions offering graduate level training. The Superintendent may approve training, i.e., classes, workshops, seminars and other professional development activities, of value to the teacher and the Schools.

To advance in grade a Personnel/Payroll Action request and all required documentation must be submitted to the HRM&D office. All requirements must be met and official transcripts or certification of completed work must be on file in the HRM&D office prior to advancement in grade.

Salary adjustments will be made effective upon receipt of official transcripts or certification of completed work in the HRM&D office providing funds are appropriated for this purpose.

Advancing in Step

On July 1, or on a later date in fiscal year determined by appropriation, one additional step will be granted to eligible employees, as provided by the salary schedule, if funds have been appropriated and if an employee was employed by ASDB on or before the effective date of the increase as appropriated by the legislature. Step increases are limited to one per year.

Coursework and Training Requirements for Grade Advancement

Applications for Salary Grade Advancement Credit must be filled out and approved by the employee’s Principal/Administrator and HRM&D Director or designee PRIOR to coursework or training being taken. (Pre-Course forms are available in HRM&D.) This form is required to ensure the course, workshop, or seminar qualifies to be counted towards salary advancement. All courses in a degree program may be submitted for approval at one time.
Coursework and training taken to clear deficiencies identified for certification will not be approved for grade advancement, including but not limited to Arizona and United States Constitution, Reading Practicum and Decoding.

To be considered for advancement, coursework and training must:

- Be taken on personal time at the expense of the employee.
- Be taken after the date the employee's last degree was awarded.
- Be related to deaf or blind education or part of an approved degree program or an approved area related to education, special education or special subject matter.
- Be in the field of work assigned and as required by policy.

A minimum of a "C" grade or "Pass" if taken for "Pass/Fail" must be earned to apply for credit toward grade advancement.

An official transcript for university/college work is required to document successful completion of coursework. A certificate or letter on letterhead signed by the instructor or trainer is required to document successful completion of requirements for Schools-sponsored classes, workshops or seminars and other professional development activities if a transcript is not provided.

Credit for training offered by the Schools will be earned at the rate of one (1) point per hour of in-service time. Fifteen (15) points will equal one (1) semester credit hour.

Instructors and presenters of Schools-sponsored training and activities must have the approval of the Principal/Administrator and Superintendent prior to offering such training for grade advancement. The training must correspond to the established instructional priorities established by the Superintendent. Instructors and presenters may obtain forms for the approval of ASDB Training for Credit Toward Salary Advancement in the HRM&D office.

Approval for training to be offered by the Schools requires a course outline that meets the following minimum requirements:

- Fifteen hours of training experience.
- Demonstrate knowledge of current trends in materials and content of grade level and subject area for program participants.
- Ability to evaluate in-service participants and their individual outcomes for program.
- Recommendation of the principal(s) involved.

**HRM&D Requirements**

- Transcripts must be on official college or university forms appropriately signed and bearing the seal of the institution.
• Credit for in-service training must be on form or letterhead of sponsoring organization, verified by the approved instructor, and approved by the Superintendent, principal and supervisor.

• Departmental approvals and comments must appear on Personnel/Payroll Actions attached to documentation supporting the request for action.

• Administrative errors will be corrected as identified and effected to a date approved by the Superintendent.

• All documents in support of grade advancement under this policy must be in the employees official personnel file in the Schools HRM&D office before such action is taken.

Adopted: June 25, 2001
Certificated and credentialed staff on the certificated salary schedule are eligible for incentive pay under the following conditions.

**Eligibility**

- Employees, including those hired after the start of the school year, must be in a permanent full or part time position on the certificated salary schedule. Staff in limited time and temporary appointments or employed under other unusual circumstances on the certificated salary schedule may be included on the written recommendation of the employee’s immediate supervisor and approval of the Superintendent.

- Employees must meet all of the performance expectations of their position in the year in which incentive pay is a consideration. An employee who has an inadequate performance rating (unsatisfactory in one or more areas, needs improvement in three or more areas) or has a disciplinary action resulting in suspension anytime during the school year is not eligible for incentive pay. Employees must be on the payroll in a certificated position at the end of the school year in which the incentive pay is to be paid.

**Working Groups**

The following working groups are approved for the incentive pay program.

1. Arizona School for the Blind - Tucson
2. Arizona School for the Deaf - Tucson
3. Arizona School for the Deaf - Phoenix
4. Statewide Programs

- Employees who transfer between working groups during the year will be considered to belong to the group where he/she spent the majority of the year.

- Credentialed specialists who serve more than one working group will be considered to belong to the group where they spend the majority of their time. Credentialed specialists who spend time equally between groups will be considered to be a half-time member of each group.
• Working groups will have access to their survey data through principals or team leaders to develop plans for strengthening areas identified as problematic by parents.

Criteria for Earning Incentive Pay

Incentive pay will be determined by responses to a survey distributed to all parents in April of each year.

Responses to survey questions must show at least a 3.0 average in order to meet the criteria for an acceptable high quality performance and eligibility for incentive pay.

Distribution of Incentive Pay

Seventy percent (70%) of the available monies will be distributed based on individual working groups achieving criteria. Thirty percent (30%) of the money will be considered an agency-wide incentive and distributed dependent on an average of the agency as a whole achieving criteria.

Monies will be distributed among eligible staff that will have met performance criteria as follows:

1. **OVERALL.** If the mathematical average of all returned responses is 3.0 or greater, all eligible staff will be considered to have earned the agency-wide incentive pay.

   • 30% of the total incentive pay allotment will be divided equally among eligible staff. Part time employees and those hired after the start of the school year will receive a prorated amount of award.

   • After the overall incentive pay has been calculated, the remainder of the incentive pay allotment is available for working groups that have met achievement criteria.

2. **WITHIN A WORKING GROUP.** If the mathematical average of all returned responses within a working group is 3.0 or greater, all eligible members of the group(s) will receive an equal proportion of the remaining incentive pay money. Part time employees and those hired after the start of the school year will receive a prorated amount of award.

Incentive compensation shall not be added to an employee’s salary base.

Monies will be distributed to the extent appropriated by the legislature and if authorized matched by agency excess vacancy savings, general fund or other sources.

*Adopted: December 4, 1997*
PART–TIME AND SUBSTITUTE PROFESSIONAL / SUPPORT STAFF EMPLOYMENT (SUBSTITUTE TEACHERS / SUPPORT STAFF)

This substitute procedure has been developed to assure consistency in the selection and assignment of substitute instructional and secretarial staff. Substitutes for instructional staff are employed to maintain the quality of instructional programming and alternative arrangements are not to be made if it adversely affects instructional integrity. Other coverage arrangements may be made if necessary or possible at the discretion of principals, deans, or the Supervisor of Aides. The intent is to maintain staffing ratios to assure safe and effective conditions for students.

Instructional Substitutes

Definition. Instructional in this procedure means teacher, teaching parent, instructional aide. Pay levels for substitute teachers are defined as follows:

Level 1 – Non-certificated. Persons with or without a bachelor's degree and without a current Arizona teaching certificate.

Level 2 - Persons with a bachelor's or higher level degree and a current Arizona teaching certificate.

Level 3 - Persons with a bachelor's or higher degree and a current Arizona teaching certificate and either (1) a current or expired national or other appropriate certificate, or (2) university or college level coursework in education of HI, VI, OR MDSSI students.

Selection. Each department will be responsible for recruitment and selection of substitutes, with the exception of substitute instructional aides on the Tucson Campus who will be recruited by the Supervisor of Instructional Aides, contingent upon meeting specific position requirements. When selected, the new substitute employee will be given an opportunity to be on the substitute list for other departments provided they meet the qualifications and upon approval by the department’s administration. The originating department, or the Supervisor of Instructional Aides, will complete the required paperwork and indicate the positions for which the new employee is interested and qualifies as a substitute. Only one PPA is required for substitutes who qualify and are interested in substituting in multiple departments or in multiple categories.

For special events. Instructional substitutes will be obtained only with authorization from the Superintendent when a number of staff have been assigned to attend or participate in a major workshop for more than one day or when there is an agency-
sponsored weekend event requiring a number of residential students to stay for the weekend who otherwise would go home.

**Short term substitutes.**

- Short term substitutes for teachers (not more than 10 days) will be paid the short term rate for the first ten days. If work is extended in the same position beyond the ten days, the substitute will be paid the long term rate to the end of the assignment.

**Long-term substitutes.**

- Long-term substitutes for teachers (more than ten days) may be expected to provide ongoing planning and shall be paid for a preparation period.

- In the event that there is a shortage of substitutes on a given day, and there are requests for both partial and full day substitutes, the longer assignment will have priority in the selection of available substitutes. Supervisors are encouraged to arrange for internal coverage when the need for a substitute is less than 1/2 day (three periods) except under emergency conditions.

**Substitute Secretaries**

Substitute secretaries will be recruited by the secretarial coordinator or site personnel office contingent upon meeting specific position requirements. Only one PPA, completed by the recruiter, is required for multiple assignments.

The recruiter will provide a substitute list to supervisors of clerical staff in each department. Selection and assignment from this list is at the discretion of clerical supervisors.

The recruiter *must* be notified of substitute secretary assignments of ten (10) working days or more in order to monitor substitute recruitment.

**Responsibilities**

**Substitute.** To maintain a record of hours worked so that the 40 hour per week maximum is not exceeded. Teachers and teaching parents are exempt from the overtime rule and may work more than 40 hours per week. Instructional aides, live-ins, and secretaries are non-exempt and cannot exceed 40 hours per week.

**Supervisors.** To maintain an awareness of budget constraints and substitutes are to be obtained only when the work of the agency or department is otherwise in jeopardy or student safety and/or learning conditions are a concern.

**OTHER CONDITIONS**

Employees in non-certificated positions who also work as substitute teachers will be paid on the salary schedule that is most advantageous to them.
Certificated staff working less than full time in their primary position and employed as substitutes, and certificated staff providing substitute services while on approved leave will be paid on the above scale.

To advance in pay for obtaining a teaching or higher level certificate, notice must be provided to the personnel office through the principal not later than August 1 of the SY in which the certificate is expected to be obtained. Pay adjustments will be made the following fiscal year if monies have been appropriated and are available for this purpose.

The rate of pay for substitute teachers is based on current certification. If the certificate lapses, pay will be rescinded to "non-certificated" rate (Level 1) until the certificate renewal is on file in the personnel office.

*Adopted: December 4, 1997*

PROFESSIONAL STAFF DEVELOPMENT OPPORTUNITIES

The ASDB Board recognizes its particular responsibility to provide opportunity for the continuing professional growth of its staff members. Such opportunities include, within budgetary limitations, continuing education units, special in-service training courses, workshops, visitations, conferences, professional library, and assistance from supervisors and consultants.

In line with such opportunities, the ASDB Board encourages educational research by staff members when the conduct of the project does not conflict with the major functions of ASDB.

Continuing Education Units and In-Service Training Courses

The Assistant Superintendent may approve continuing education units and may establish in-service training courses for staff members in ASDB, credit for which may be granted in the manner that courses in institutions of higher learning are taken into account.

This credit may be granted in cases where the scope, level, quality, and content of the local course is equal to college work and the instructor is qualified to teach on the college level. The Assistant Superintendent may establish reasonable rules by which to select such courses and designate them for credit.

The attendance of staff members in in-service courses shall be recorded, and no credit shall be allowed unless the staff member has successfully completed the work of the course.

If ASDB compensates the staff member for earning continuing education units or attending in-service courses, no credit shall be allowed for salary purposes.

Other Professional Staff Development

The Assistant Superintendent may approve workshops and conferences within the limitations of appropriations and policies related to travel by professional staff.

*Adopted:* November 7, 2018
PROFESSIONAL STAFF DEVELOPMENT OPPORTUNITIES

Certificated, credentialed and licensed staff may receive credit toward grade advancement for completion of professional development activities, including coursework at colleges or universities; participation in in-depth workshops, short-courses and symposia that provide continuing education units; and in-service training sessions offered by the Schools.

Professional development activities must be related to employment at the Schools. Units must be earned on the employee's own time and expense.

Credit for approved in-services offered by the Schools and continuing education units will be earned at the rate of one (1) point per hour of in-service time. Fifteen (15) points will equal one (1) semester credit hour.

Employees are responsible for tracking their cumulative contact hours and converting them to semester credits. These hours will be accepted in a minimum of 3 semester credit increments.

All professional development activities must be successfully completed for credit.

Units for coursework from a college or university must be documented on an official transcript for credit. Credit for continuing education units or in-services approved by the Schools must be documented by a notice of completion on the sponsor's letterhead that includes the number of contact hours, semester units, or continuing education units awarded.

Adopted: May 5, 1999
This policy does not apply to staff members hired into contract, temporary, hourly, or substitute positions.

For the purposes of this policy:

“Certificated” staff members means staff members who work less than 12 months and who are paid from the following salary schedules: Teaching, Certificated and Related Services Salary Schedules.

“Non-Certificated” staff members means staff members who are NOT paid from the Teaching, Certificated and Related Services Salary Schedules.

Staff members hired into non-contract permanently budgeted or limited term positions on a part-time or full-time basis shall be required to serve a probationary period. The probationary period shall constitute an orientation and adjustment period and an opportunity for supervisors to determine if a staff member is suited and qualified for a position. During the probation period, staff members work at the will of ASDB without rights of continued employment.

The probationary period for non-certificated staff members shall be one year from the date of employment. The probationary period for certificated staff members shall be two years from the date of employment. The probationary period may be extended one year by the Superintendent for certificated staff members to meet the performance and certification requirements for employment. The probationary period may be extended six months by the Superintendent for non-certificated staff members to meet the performance requirements for employment.

B. The original probation for non-certificated employees may be extended by the Superintendent for employment-related reasons including but not limited to meeting the performance and certification requirements of the position, as follows:

Promotional Probation

An employee who has been assigned permanent or limited permanent status and who is promoted, shall serve a promotional probationary period as follows:

A. One year for promotion into a certificated position.

B. Six months for promotion into a non-certificated position.

If a permanent status employee or limited permanent status employee fails to successfully complete a promotional probation, the Superintendent may:

• Revert the employee to a vacant position in the class in which the employee held permanent or limited permanent status immediately prior to promotion; or transfer the employee to a vacant position in another class at the same grade as the class the employee holds permanent or limited permanent status if the employee meets the minimum qualifications of that position. The employee shall not have the right to appeal this action.

• If a vacancy does not exist in the agency to be able to revert or transfer the employee, the rules governing reduction in force shall apply.

• Terminate the employee for cause.

Assignments

The Assistant Superintendent shall be responsible for establishing an effective process for determining all professional staff assignments. Such assignments shall be based on the needs of ASDB. In addition, no right to school/program, grade, or subject assignment shall be inferred from the personnel action.

Transfers

A teacher who has been employed by ASDB for the major portion of three or more consecutive school years and who is designated in the lowest performance classification for two consecutive school years shall not be transferred as a teacher to another school or cooperative in ASDB unless ASDB has issued a notice of inadequacy of classroom performance and approved a performance improvement plan for the teacher pursuant to A.R.S. 15-539 and the ASDB Board has approved the new placement as in the best interests of the pupils in the school. A teacher shall not be transferred more than once pursuant to A.R.S. 15-537.

There is an additional admonition in A.R.S. 15-537 that any ASDB policy pertaining to the transfer to teachers from one school to another school or cooperative within ASDB shall take into consideration the needs of the pupils in ASDB and the current distribution of teachers across all of the four performance classifications adopted by the state board of education pursuant to A.R.S. 203(A)(38).

The procedure(s) for assignment and transfer of professional staff members will be based on the needs of the instructional program. Assignments may be changed to serve the best interests of ASDB and students.

Professional staff members may apply for transfer or reassignment, whether or not a vacancy exists. Generally, transfers will not be approved during the school year unless the needs of ASDB dictate such approval.

It shall be the policy of the Board that professional personnel be assigned on the basis of their qualifications, the needs of ASDB, and their expressed desires. When it is not possible to meet all three conditions, personnel shall be assigned first in accordance with the needs of ASDB, second where the staff member is considered most qualified to serve, and third as to expressed preference of the staff members.

In the case of vacancies in new or existing positions, first consideration may be given to qualified applicants among current staff members.

The resolution of any conflicts over the need for a transfer shall be based on what is best for the
instructional program, the needs of the students, and the overall needs of ASDB as defined by the Assistant Superintendent.

Adopted: January 24, 2019
PROFESSIONAL / SUPPORT STAFF ASSIGNMENTS AND TRANSFERS

If a transfer is to meet the needs of the Schools, the superintendent will consult with the affected department head(s) and others who may be affected by a transfer to identify employees (s) who can best meet the special needs of the agency. Affected employee(s) interest in the transfer will be considered to the fullest extent possible.

If a transfer is requested by an employee, the department heads of the losing and gaining school/program will consult and determine if the request is in the best interest of the Schools and make a recommendation to the superintendent on the employee’s request.

- Employee requests are made to the department head and should be in writing and include the reasons for requesting a transfer.

Employees will be notified of the superintendent’s decision through the department head that a transfer has or has not been approved. If approved a personnel/payroll action will be prepared documenting the transfer. The employee will receive a copy of this action.

There will be no change in pay as the result of a transfer for permanent employee or during the term of an employment contract employees.
When the services of an employee are needed temporarily for more than thirty working days in a position within the Schools other than the position to which regularly assigned, the employee may be detailed with the approval of the superintendent to that position for up to one year. At the discretion of the superintendent a detail may be extended beyond one year.

Detail assignments will typically be used to fill temporary vacancies or under exceptional conditions other positions as determined by the superintendent.

If the detail to special duty assignment is expected to last for more than four months, the detail assignment shall be done competitively by announcing the position internally and accepting applications from employees. Employees who wish to be considered for detail shall file a short form application by the closing date of the announcement for consideration describing their qualifications for the detail.

The term of the detail may be applied toward probationary requirements of a higher classification if recommended by the head of the school/program and approved by the superintendent.

An employee shall have the right to return to the position from which detailed at the conclusion of the assignment. In the event of a reduction in force during the detail of an employee to an “acting” capacity, the employee is considered to encumber the position held prior to the detail. If the position is no longer available on the conclusion of the detail a reduction in force will be conducted to provide a position for the employee.

Detail pay will be a minimum of a 5% increase for the term of the detail, including extensions. In no instance may the employee be paid less than the entry if moved to higher grade or more than the maximum of the grade. The superintendent may adjust this rate of increase under exceptional circumstances for the good of the agency.

There are two types of detail:

• “Acting” Position. This detail requires the employee be fully qualified to assume and perform all of the requirements of the position.

Employees detailed to "acting" positions are placed in the grade and the FLSA designation of the detailed position at a salary that provides at least 5 percent increase in pay.

Employees detailed for 30 days, or fewer if detail interrupted prematurely, will earn benefits as accrued in the position held prior to the detail.
Employees detailed for 31 or more days will accrue benefits of the detailed position.

• “Additional Duties.” This detail does not require the employee be fully qualified for the position since the employee will not be required to perform all of the duties of the detail position.

Employees assuming some but not all of the duties of the detailed position remain in the grade and FLSA designation of the position held prior to the detail at a salary that provides at least a 5 percent increase in pay.

Employees assuming some but not all of the duties of the detailed position will continue to accrue benefits earned in their continuing positions.

Certificated and Credentialed Staff

All certificated and credentialed staff members shall report to their duty stations on time each workday and shall, as scheduled, be available there until the designated time(s) they are scheduled to leave.

Staff members are expected to be in their respective rooms or work areas as the schedule prescribes so that they may see students, parents, and/or attend to other duties as assigned. Family members are not allowed in work areas during scheduled duty hours except with supervisory approval.

In order to ensure the safety of students and the security of school campuses, staff members may be assigned supervisory duty during the work day. These duty assignments shall be considered a regular part of a staff member’s duties and shall be fulfilled accordingly.

Classified/Support Staff

The regular basic work week for full-time ASDB support staff members is forty (40) hours, normally consisting of eight (8) hours per day, Saturday through Friday. Some modification of this provision may be made by the Superintendent, subject to Federal and State limitations relating to hours of work, in order to provide essential services.

PROFESSIONAL STAFF DEVELOPMENT OPPORTUNITIES

Certificated, credentialed and licensed staff may receive credit toward grade advancement for completion of professional development activities, including coursework at colleges or universities; participation in in-depth workshops, short-courses and symposia that provide continuing education units; and in-service training sessions offered by the Schools.

Professional development activities must be related to employment at the Schools. Units must be earned on the employee's own time and expense.

Credit for approved in-services offered by the Schools and continuing education units will be earned at the rate of one (1) point per hour of in-service time. Fifteen (15) points will equal one (1) semester credit hour.

Employees are responsible for tracking their cumulative contact hours and converting them to semester credits. These hours will be accepted in a minimum of 3 semester credit increments.

All professional development activities must be successfully completed for credit.

Units for coursework from a college or university must be documented on an official transcript for credit. Credit for continuing education units or in-services approved by the Schools must be documented by a notice of completion on the sponsor's letterhead that includes the number of contact hours, semester units, or continuing education units awarded.

PROFESSIONAL / SUPPORT STAFF TIME SCHEDULES

Certificated and Credentialed Staff

The typical scheduled day including lunch shall not exceed 8 hours. Teachers are expected to be scheduled for a sufficient period before and after the student's school day to attend to those matters which properly require attention. Certificated and credentialed staff members are exempt employees under the Fair Labor Standards Act.

Normally, certificated and credentialed staff members shall be scheduled for no less than a 30 minute, uninterrupted, duty-free lunch period.

All teachers shall be allowed one class period as a preparation period during the scheduled day. This period is to be used for class planning, report writing and when necessary, IEP conferences; ordinarily, no regular mandatory meeting shall be scheduled during this period.

A period of time may be scheduled during the teachers' work week for the purpose of mandatory teachers' meetings, special assignments, special school committee meetings, additional class preparation or report writing.

Parent-teacher conferences are considered a part of the regular schedule for certificated and credentialed staff members.

Work schedules shall be arranged to ensure that state minimum time requirements for students are met and to ensure that staff members are available for parent conferences, staff meetings, and similar professional activities.

All teachers shall be allowed a period of time during the teachers' school day for the purpose of mandatory teacher's meetings, special assignments, special school committee meetings, additional class preparation or report writing.

Certificated and credentialed staff members shall be assigned duties commensurate with their training and experience whenever possible. Certificated and credentialed staff member's assignments shall be based upon possession of the appropriate specialized credentials for hearing impaired, blindness, multiply handicapped and/or vocational certifications. Certificated and credentialed staff members may be transferred to a different assignment if the Superintendent in consultation with the principal (supervisor) determines that the transfer is for the good of the Schools and/or to meet special needs of the Schools.

Adopted: August 7, 1995
The Fair Labor Standards Act (FLSA) prescribes overtime compensation for nonexempt employees. Employees covered (that is, nonexempt) by the FLSA shall be paid overtime in the form of pay or compensatory leave when work is performed in excess of 40 hours in one workweek. Overtime shall be compensated as compensatory leave at the rate of 1-1/2 times the number of excess hours worked over 40 per workweek; or, as pay at 1-1/2 time the hourly rate of pay for each excess hour worked over 40 per workweek. A workweek is defined as 12:01 a.m. Saturday to midnight the following Friday.

An employee's supervisor must approve in advance all work in excess of 40 hours per workweek. Nonexempt employees may not work beyond 40 hours per workweek or take work home to do on their own time unless specifically approved by management. Work over 40 hours must still be compensated if prior approval is not granted. Absence of prior approval becomes a supervisory matter involving employee corrective action.

Eligible nonexempt employees may choose to be compensated by pay or compensatory time for approved overtime work. If an agreement regarding the method of compensation cannot be reached, management may seek other means to complete the needed work. If no prior agreement is reached with the employee prior to working the excess time, management has the right to designate the overtime as pay or compensatory leave.

Nonexempt employees may accrue up to 240 hours of compensatory time (160 hours of actual work time). Hours accrued in excess of this maximum will be compensated by pay. Upon termination of employment, employees will be paid for unused compensatory time.

Absences from work while on leave are not counted in determining overtime entitlement; for example, if an employee works 30 hours and has taken 12 hours of leave in the same work week, there is no entitlement to overtime since the actual number of hours worked was 30.

The averaging of work weeks is expressly prohibited; for example, if an employee works 30 hours during week one and 50 hours during week two even though on the average s/he has worked only 40 hours per week, entitlement to overtime is only for the extra 10 hours over 40 worked in week two.
Requests to use accrued compensatory time will be honored at the earliest opportunity unless to do so would unduly disrupt the Agency's own work. Should this occur, some other mutually acceptable date will be arranged. Compensatory leave must be used before using annual leave, preferably within 90 days of accrual unless emergency or exceptional circumstances occur.

Directors and administrators are responsible for the management of compensatory leave in order to discourage excessive compensatory leave accruals that could result in financial hardship for the Schools.

*Adopted: August 6, 2001*
Standby Duty

Standby duty is considered the agency’s requirement to remain at the employee’s duty station or designated location when the employee is not scheduled to work.

Employees may be placed on standby duty upon written request of the immediate supervisor and with the Superintendent’s approval when such action is in the best interest of the agency. Employees on standby duty will receive the regular rate of pay, and all periods of standby duty will be counted in determining eligibility for overtime compensation.

On Call Duty

On-call duty requires employees be available by pager, telephone or other notification method to answer calls and/or report to work at times when the employee is not regularly scheduled to work. On-call assignments requiring the employee to carry a pager will be rotated weekly among designated staff as determined by the supervisor. On call duty pay is terminated in accordance with the standards set forth below and shall resume upon completion of the work assignment if returning to on call status.

Upon reporting to work as a result of a call to duty, an employee shall be paid at the regular rate of pay if the employee has worked fewer than 40 hours during the normal workweek. If the employee has worked 40 hours during the normal workweek, the employee shall receive, as appropriate, payment or compensatory leave if the employee’s position is eligible for overtime compensation.

• Regular rate of pay will begin at the time the employee reports to the regular work site and will continue through completion of the work assignment.

• If the employee is ordered to report to a location other than the regular work site, regular rate of pay will begin at the time the employee is ordered to report to work and will continue through completion of the work assignment and a reasonable return transit time as determined by the supervisor.

• If the employee conducts business via telephone, etc., without reporting to a work site, regular rate of pay will begin at the time the employee begins the work assignment and will continue through completion of the work assignment. Time will be documented by records of supervisor,
security officer, or other person with authority to place calls for assistance.

Time on call shall not be used to determine eligibility for overtime compensation.

In addition to compensation for hours worked, employee’s carrying a pager will be compensated $1/hour for the time period that the employee is not working but is available and awaiting a possible call to work.

On-call duty shall be reported on attendance report in the pay period in which it is earned.

A formal process of evaluating all staff members is required. The purpose of evaluation shall be the improvement of the quality of ASDB's operational support and instructional programs. Such a process, to achieve the greater measure of success, shall be predicated on the assumption that the evaluation will be a cooperative procedure, with the evaluator and the staff member having full knowledge of the criteria, process, and results.

The following statements give more specific purposes for evaluation:

- Evaluations determine how well the objectives held by ASDB are being carried out.
- Evaluations provide the basis for motivation and for self-improvement, permitting staff members to be aware of their strengths and weaknesses in order to improve.
- Evaluations provide a basis for planning in-service training and supervisory activities. Such activities can be most effective when they are based upon clear evidence of need as shown by evaluation studies.
- Evaluations provide the basis for administrative decisions. Such decisions may include the employment of personnel, their assignment, the granting of permanent status, promotion, transfer, demotion, or termination.
- Evaluations aid in determining the adequacy or inadequacy of performance.

Evaluation of Staff Member

Evaluation shall include all probationary, permanent, and limited term staff
members. Such evaluation shall be based on Policy GCO and the procedures outlined as follows:

**Evaluators.** The evaluator shall be responsible for the final and official statement of evaluation, which shall be in writing, contain the required signatures, and a copy transmitted to the staff member and Human Resources after completion of the evaluation. A copy of the completed evaluation shall also be retained in the supervisor's file.

The administration is responsible for any in-service training program for evaluators. Any such program shall incorporate a philosophy, procedures, and techniques that ensure effective implementation and consistency within the performance evaluation system.

**Observations/Visitations by Evaluator.** Formal observations/visitations shall be spaced and of sufficient duration (minimum of thirty uninterrupted minutes for classroom certificated and credentialed staff members) so as to ensure that the evaluators have an opportunity to grasp an overall concept of a person's performance over a full schedule.

Formal observations/visitations may be prearranged through initiation by either the observer or the staff member or they may be unannounced. Formal observations/visitations shall be defined as those that are written and provide an opportunity for a follow-up conference.

Casual and informal evaluation or observations that occur throughout the year at the discretion of the evaluator may be included in the evaluation process. Information from relevant third parties may also be included.

**Procedural Steps in the Process of Evaluation:**

- At the beginning of the rating period, the evaluator shall meet with the staff member for the purpose of orienting the staff member to the total evaluation system. This shall include whether the evaluation is used as a criterion for establishing a staff member's compensation.

- Self-evaluation for the staff member shall be encouraged. A staff member may suggest additional criteria for evaluation and it may be included if mutually agreeable to the evaluator and the staff member.

- Evaluation/observation(s) shall be completed as appropriate to the duties of the staff member being evaluated.

- An opportunity for a conference shall follow each formal observation/visitation.
• A written record shall be made of each formal evaluation/observation, with a copy to the staff member being observed/evaluated. Any third party, casual, or informal evaluation that is the basis for comments on the written record shall be so identified.

• The official evaluation shall be reduced to writing and signed by both the staff member and the evaluator. The staff member’s signature shall not mean concurrence. An evaluation is considered completed/finalized when all required signatures are obtained, and a copy is provided to the staff member. Upon receipt of the completed evaluation, the staff member shall be allowed ten (10) business days to write and submit any comments, which shall be attached to the evaluation.

• In addition to providing a copy of the completed evaluation to the staff member, a copy shall be retained for the evaluator’s file. A third copy shall be placed in the staff member’s official personnel file in Human Resources, and made available to authorized ASDB officers and staff members.

• If the staff member submits any written comments, the comments will be attached to the evaluation, retained in the evaluator’s file and in the official personnel file in Human Resources.

• All evaluations shall remain confidential.

• The evaluation period shall be concurrent to the fiscal year (July 1 through June 30).

*Ineffective Performance*. A staff member whose performance is ineffective will be notified in accordance with the contents of this procedure. A staff member's performance is ineffective if the staff member receives a rating of *ineffective* in one or more of the responsibilities/competencies set forth in the ASDB performance evaluation system.

**Probationary Staff member:**

• Staff members in their original probation shall be evaluated a minimum of two times per year.

  * Within the first four to five months for staff members who are hired on less than a 12-month basis/school-year basis.

  * Within the first five to six months for staff members who are hired on a 12-month basis.

• A probationary staff member whose performance is ineffective following evaluation may
be discharged from original probation. Violations of ASDB conduct policies and regulations, separate from the formal evaluation process, are the basis for immediate discharge from probation.

- An additional evaluation shall be made if notice of ineffective performance has been given as a result of any evaluation.

- Only the Superintendent may discharge a staff member from probation. Discharge from probation may occur at the recommendation of the supervisor with or without a completed performance evaluation. - A permanent or limited permanent status staff member whose performance is ineffective shall be given a preliminary notice of intention to terminate their employment unless an Improvement Plan is developed, implemented, and successfully completed. This notice and any Improvement Plan will provide a staff member at least ninety calendar (90) days in which to overcome the inadequacies. A copy of any evaluation(s) pertinent to the notice to terminate employment will be included with the written notice.

**Evaluation Program.** The specific format for the staff member performance evaluation system will be developed in compliance with Policy GCO and this regulation.
Purpose

A formal process of evaluating contract employees will be implemented. The purpose of evaluation shall be the improvement of the quality of Schools' operational and instructional programs. The following statements give more specific purposes for evaluation:

- Evaluations determine how well the objectives held by the Schools are being carried out. The success of the Schools' programs is dependent upon the quality of Schools' operations and instruction.

- Evaluations provide the basis for motivation and for self-improvement, permitting employees to be aware of their strengths and weaknesses in order to improve.

- Evaluations provide a basis for planning in-service training and supervisory activities. Such activities can be most effective when they are based upon clear evidence of need as shown by evaluation studies.

- Evaluations provide the basis for administrative decisions. Such decisions may include the renewal of contracts and non-renewal of contracts.

- Evaluations aid in determining the adequacy or inadequacy of performance.

Observations/Meetings by Evaluator. Formal observations/meetings shall be spaced and of sufficient duration so as to ensure that the evaluators have an opportunity to discuss the overall concept of a person’s performance.

Formal observations/meetings may be prearranged through initiation by either the evaluator or the employee or they may be unannounced. Formal
observations/meetings shall be defined as those that are written and provide an opportunity for a follow-up conference.

- The official evaluation shall be reduced to writing and signed by both the contract employee and the evaluator. The contract employee's signature shall not mean concurrence. The contract employee shall be allowed ten (10) days to write and submit any comments, which shall be attached to the evaluation.

- A copy of the written evaluation shall be given to the contract employee, and a copy shall be retained for the evaluator's file. A third copy shall be placed in the contract employee's personnel file and made available to authorized Schools' officers and employees.

- All evaluations shall remain confidential.

**Inadequate Performance.**

- A contract employee's performance is inadequate if the employee receives a rating of *unsatisfactory* in one or more of the responsibilities/competencies statements set forth in the Schools' performance evaluation system. A contract employee who does not successfully overcome the inadequacies may be recommended for non-renewal of contract or an extension of their contract to allow further time to overcome the inadequacies. Being placed on an improvement plan does not prohibit action on the employee's contract even if a full 90 days has not passed by the date contract recommendations are required to go to the Board for action.

Evaluation Schedule:

• New Contract Employees

< For new contract employee, the evaluator shall meet with the contract employee at the beginning of the contract period for the purpose of orienting the employee to the total evaluation system. • Contract Employee Renewed

PROFESSIONAL / SUPPORT STAFF PROMOTIONS

The Schools encourage promotion of qualified classified and administrative pay scale employees to higher graded and pay positions and qualified certificated employees to higher pay positions when selection is in the best interest of the agency 90 days after starting work and first performance review. Promotions will be nondiscriminatory. All promotions except for grade advancement of certificated staff shall be competitive unless excepted by the Superintendent. Certificated staff grade advancements are non-competitive. All employees considered for promotion must meet the minimum qualifications of the higher graded or pay position. An employee promoted to a higher graded or pay position shall fulfill promotion probation requirements as described in the probation policy. The Superintendent is authorized to establish procedures for promotions.

Adopted: March 4, 1999

CROSS REF.: GCF & GCO
PROFESSIONAL / SUPPORT STAFF PROMOTIONS

The salary of an employee advanced to higher pay or grade shall be established within the range of the assigned pay grade as follows:

**Certificated Pay Scale**

- Daily rate of current grade and step based on a salary of 181 days plus daily rate of additional days authorized for the new position. Additional days are compensated at the rate of 1/181 times the 181 day salary times the number of authorized extra days.

- If the new position includes a salary supplement approved by the Board of Directors, the supplement is added at the grade and step of the employee selected for promotion. This supplement is not part of base pay and applies only as long as the employee is assigned to a position which qualifies for the supplement. The supplement is limited to the amount approved by the Board.

**Classified and Administrative Pay Scales**

- An employee who is promoted shall receive a minimum of a 5% increase in salary. Increases of up to 15% may be approved by the Superintendent if it is in the best interest of the agency subject to the availability of funds in the operating budget of the designated cost center for individuals whose experience, education, and skills specifically relate to the classification and exceed the minimum qualifications and skills required for the position.

- Increases shall not result in a new salary that is lower than the entrance salary or higher than the maximum salary of the new grade. If establishing the promotional salary would result in a salary level that would be lower than the entrance salary or higher than the maximum salary of the grade, the employee's salary shall be established at the entrance salary or at the maximum salary of the grade, respectively.

- Recommendations for promotion increases above minimum in higher grade must include a justification for the increase and a statement that money is available to cover the cost.

The Superintendent shall establish procedures governing staff consulting activities. No staff member may be permitted to draw their regular salary and pay for consulting activities outside ASDB unless they are using accumulated vacation time or compensatory time. Within ASDB no staff member is permitted to receive compensation for consulting services.

*Adopted*: November 7, 2018
The number and type of staff positions required to implement ASDB’s mission and educational program will be determined by the ASDB Board after recommendation from the Superintendent. In the event the ASDB Board decides to eliminate positions, the following guidelines will be in effect. Such recommendations shall be based on procedures which reflect:

- Normal attrition due to terminations will be relied upon as the first means of reducing the staff.

- If attrition does not accomplish the required reduction in the staff, the Superintendent shall submit to the Board recommendations for the termination of specific staff members. The criteria used in formulating these recommendations shall include, but shall not be limited to:
  - Number and types of positions needed to accomplish ASDB’s mission including qualifications and certifications of staff members filling positions.
  - Overall experience, training, and abilities needed to accomplish ASDB’s mission.
  - Relationship of positions to the mission and program of ASDB. Criteria for selection of staff members to be released will be applied separately to employees within specialty categories and employment classifications.

Tenure and seniority shall not be the sole or primary consideration in retention determinations.

Staff members to be released shall be notified of such layoff as soon as practical.

DEFINITIONS

"Permanent Status" means the standing achieved by an employee who is hired into a legislatively appropriated/funded position and who has completed an original probation. An employee who has achieved permanent status is afforded certain rights in employment including but not limited to certain rights in a reduction in force. All other employees are not afforded the same rights in a reduction in force.

“Limited Permanent Status” means the standing achieved by an employee who is hired on a limited time appointment (LTA) into a non-legislatively appropriated/funded position and who has completed an original probation. An employee who has achieved limited permanent status has limited rights in employment that does not include rights in a reduction in force.

“Seniority” means the length of service with ASDB. Periods of service prior to a separation will not be counted towards seniority except when the separation was of less than two years duration and the separation was not the result of disciplinary action or retirement. When the separation is of greater than two years in duration, the employee shall be considered a new hire. Periods of ASDB service as a seasonal, temporary, live-in, or substitute will not count towards seniority unless the period was credited toward satisfying a subsequent original probationary requirement. Periods of military leave with or without pay shall be counted toward seniority.

“Class Specification” means the position titles and/or position series that have been established by the Superintendent based upon job qualifications, duties and responsibilities. Class specifications fall within one of the four employee classifications and contain a statement of the education experience, knowledge, skills, abilities and other qualifications required to perform the work, and a description of the type and level of duties and responsibilities of the positions assigned to a class.

“Employee classification” means:

- Management and supervisory staff on a twelve-month schedule.
- Teachers, credentialed and non-credentialed specialists, on an academic schedule
- Clerical, accounting, maintenance workers and others on a twelve-month schedule.
- Food service and bus drivers and others on an academic schedule.

“Academic schedule” means any work schedule that is less than a 12-month schedule.

“Geographical areas” are defined as follows:

- Tucson Area Programs/Departments
• Phoenix Area Programs/Departments
• DVR Cooperative Programs
• EHR Cooperative Programs
• NCR Cooperative Programs
• SER Cooperative Programs
• SWR Cooperative Programs

ELIMINATING/REDUCING POSITIONS

If deemed necessary by the Superintendent, the Superintendent will designate positions to be eliminated/reduced by geographic area and class specification.

Affected Employees

Upon the designation of positions to be eliminated/reduced, the Superintendent will separate employees from employment in the affected positions and in the following order before any reduction-in-force action is taken with an employee who has achieved permanent status:

1. Employees hired on a temporary basis.
2. Employees hired on a limited-time appointment (LTAs) and serving an original probation.
3. Employees hired into legislatively appropriated positions and serving an original probation.
4. Employees hired on a limited-time appointment (LTAs) who have achieved limited permanent status.

Employees who achieved permanent status prior to being voluntarily demoted, transferred or promoted into an LTA position will maintain their permanent status rights in a reduction in force.

REDUCTION IN FORCE OF PERMANENT STATUS EMPLOYEES

Justification

The employment separation of a permanent status employee in a reduction in force is legitimate only when justified by:

• declining enrollment,
• reasons of economy
• lack of funding
• improved efficiency of operations/organization

The Superintendent shall submit recommendations to the Board for the reduction/elimination of legislatively appropriated/funded positions, by class specification and by
geographical area, that will affect employees who have achieved permanent status. Such recommendations will include:

- The justification for the reduction in force;
- The proposed scope of the reduction in force;
- The legislatively appropriated/funded positions proposed for elimination/reduction; and
- The proposed effective date of any layoffs if layoffs are necessary.

Permanent status employees in positions designated for elimination will be identified for transfer, demotion, or layoff by seniority.

Employees who have achieved permanent status and whose positions have been identified for elimination will be referred to the Human Resources Office to review their qualifications for other positions.

The Superintendent shall provide written notice to each permanent status employee impacted by the Board-approved reduction in force at the earliest opportunity prior to the effective date of the action. The notice will include the reasons for the reduction in force, a copy of this regulation, an explanation of the impact to the employee, the effective date of action(s) to be taken, and the applicable rights of the employee.

**Position Offers**

If a position offer is made, the notice from the Superintendent to the employee will include the salary, the class specification, location/program, and supervisor’s name.

A permanent status employee affected by a reduction in force may be offered (1) a position within the same geographic area of the position affected and the same class specification of a person who has the least seniority, or (2) a vacant position within any geographic area (agency-wide) in the same or a different class specification for which qualified.

Permanent status employees whose positions are eliminated do not have a preferred right to employment in a same or different employee classification in a different geographic area from the eliminated position.

A permanent status employee in a management or supervisory position that is eliminated has a preferred right to employment as a teacher within the same geographic area of the eliminated position, provided that the person is qualified for the teaching position.

**Setting of Pay for Offered Positions**

- “Non-Certificated” Employees (employees who are NOT paid from the Teacher, Psychologist, and Certificated Salary Schedules)

  A permanent status employee whose position has been eliminated has no preferred right to a continued salary based on the former position.

  An employee who is offered and accepts a different position in a lower grade does not have a preferred right to a continued salary based on the
former position or to any particular salary level in the lower grade, and shall not be paid more than the rate of pay received in the higher graded position.

If decreasing an employee's pay will result in a new salary level that is lower than the entrance salary or higher than the maximum salary of the lower grade, the employee will receive the entrance salary or the maximum salary of the grade respectively.

If the position offered is in the same or a different class specification, in the same grade or the same numbers of workdays/work year, current pay will be retained. If the number of workdays/work year changes in the new position, an appropriate adjustment in pay will be made.

- “Certificated” Employees (Employees who work less than 12 months and who are paid from the following salary schedules: Teacher, Psychologist, and Certificated Salary Schedules)

If the numbers of work days/year changes for newly offered position an appropriate adjustment in pay will be made.

No reduction in the salary of a certificated teacher or credentialed specialist who has been employed by the schools for more than one year shall be made except in accordance with a general salary reduction approved by the Board of Directors and applied equitably among all permanent employees.

**Layoffs and Recall/Reappointment**

Employees who have achieved permanent status and who are laid off from employment due to a reduction in force will be placed and will remain on a recall list for three years.

An employee in layoff status shall have a preferred right of reappointment to a position of equal or lower pay/grade in the geographic area from which laid off before other persons are considered.

In the event of an increase in the number of positions or reestablishment of services within the geographical area from which laid off and within three years from the date of the reduction, reappointments shall be made in the order of seniority.

An employee in layoff status may accept a vacant position in a lower graded employee classification (full or part-time), temporary or substitute, without jeopardizing the employee’s right to recall to the position and geographic area from which the employee was laid off.

Employees in layoff status who reject an offer of recall to a position for which qualified of equal pay/grade to the position from which the employee was laid off shall relinquish all further recall rights.

Employees in layoff status who competently apply and are hired for a higher paid/graded position than the position from which laid off shall relinquish all further recall rights.
Employees on layoff do not accrue any leave or retirement service credit during the layoff period. Any personal leave balance at the time of layoff will be converted to sick leave. Any annual leave balance will be paid out at the time of layoff.

Employees in layoff status will retain sick leave credit accrued at the time of layoff for two years of the layoff period unless the employee was paid for accumulated sick leave pursuant to A.R.S. 38-615. If recalled within two years and sick leave is creditable, employees will be credited with balance held at time of layoff. Sick leave that has been quarterly allotted and used in excess of what would have been allowable under the accrual schedule will be deducted from the employee's last paycheck.

Employees in layoff status may continue their group insurance as permitted by COBRA provided they pay the employee and the state share of the monthly premium at the beginning of each month for the maximum period allowed by law.

Employees in layoff status may be eligible to receive unemployment benefits. Employees who are laid off should contact the Arizona State Department of Economic Security, Unemployment Insurance Office, for information on possible benefits.

The Superintendent shall establish procedures governing staff consulting activities. No staff member may be permitted to draw their regular salary and pay for consulting activities outside ASDB unless they are using accumulated vacation time or compensatory time. © 1994 by Arizona State Schools for the Deaf and the Blind

PROFESSIONAL / SUPPORT STAFF CONSULTING ACTIVITIES (SCHOOLS EMPLOYEES SERVING IN A CONSULTANT ROLE/TEACHING COLLEGE COURSES)

Staff may serve as consultants within the Schools whenever approved by the employee's immediate supervisor and program director.

- Request for consultation is approved by the program director of the program requesting service.
- Request for consultation is approved by the program director of the program for which consultant services will be provided.

Under no circumstances may a staff person receive compensation for providing consultation services to a program within the Schools. Such consultant services should be viewed as a mutual need of the agency and for the benefit of students.

Staff may be asked to consult with school districts, other agencies, community agencies, special interest groups, or projects. When an employee is asked to serve in a consulting role with or without compensation, approval by the program director must be secured in writing before a commitment for consulting service is made to an outside agency or group.

To the extent appropriate and feasible, the Schools staff should be available to assist outside entities within Arizona at no charge; especially if such consultant services promote the role of the Schools as a Resource Center or when such services may be considered consistent with the community education services responsibility of the Schools.

- Staff may be granted time within their regular work schedule for outside consulting services when it is determined regular work load will allow the time and when it is determined such consulting services would promote the Schools program goals/objectives. Whenever an employee is granted time from their normal work schedule to consult with an outside agency, group, or project, the employee must not accept compensation for such service. To do so would be a conflict of duty and incompatible with public service rules.

- Staff are allowed to provide consultant services to outside agencies, groups, or projects outside of their normal working hours. Such consulting services may be for compensation; however, staff should ask the immediate supervisor and director to review and approve what
consulting service is to be provided to determine if there is a potential incompatible/conflict of duty.

Under no circumstances may a staff person use any Schools materials, supplies, equipment, or facilities when private consulting service is being provided for compensation.

Employees of the Schools may accept teaching positions at private or public colleges or universities, or on a private tutorial basis, only when such an assignment does not interfere with the employee's regular duties to the Schools. If such teaching assignments provide compensation to the employee, no Schools equipment, supplies, materials, or facilities may be used. Exception to this policy may be made by the Superintendent in cases when the Schools is cooperative program for practicum experience with the University of Arizona, Northern Arizona, or Arizona State University, or other approved professional preparation programs.

An employee may not engage in private practice with any student during the school year who is enrolled in a Schools program unless first securing written approval by the immediate supervisor and upon review and approval of the program director.

A program sponsored by the Schools, such as sign language classes, continuing education or evening electives are not considered as “private employment” or private enterprise. A person teaching in these circumstances on the school campus may be appropriately compensated if not done on a volunteer basis or if apart from a person's regular work assignment.
SUSPENSION AND DISMISSAL OF PROFESSIONAL / SUPPORT STAFF MEMBERS (DUE PROCESS IN THE DISCIPLINE OF PERSONNEL)

This policy and the regulations implementing this policy apply to permanent employees and staff members on contract, except live-ins. The employees and staff members on contract to which this policy and regulations apply are hereinafter referred to as "employee(s)."

Success in carrying out the mission of the Schools depends primarily on successful performance of employees in the course of their employment. The Schools recognize that the achievement of such success is derived by employees who accept the obligation for patterns of behavior that are professionally acceptable and conform to the requirements of Policy GBEB and other appropriate policies of the Schools included in Schools policy manuals available at each work site. Although the patterns of behavior exhibited by most employees typically conform to, or exceed, the requirements established by policy, there are occasions when it is necessary in every organization to deal with inappropriate behavior of some employees.

This policy describes the due process that is to be followed in responding to violations of policy when such violations are of sufficient magnitude and frequency to require disciplinary action. Each employee is expected to review handbooks and the Schools policy manual and participate in staff meetings and orientation in order to ensure compliance with regulations, policies, and statutes that apply.

The superintendent is authorized to develop regulations for implementing this policy.

Progressive Discipline

The Schools will generally use a progressive discipline approach although progressive discipline is not legally required. Progressive discipline will not be used in cases involving severe misconduct or when it is in the best interest of the Schools not to use progressive discipline. Progressive discipline involves increasingly more severe action(s) to respond to repeated violations by an employee. The concept of progressive discipline provides employees opportunity to correct inappropriate behavior and recognizes the value of correcting behavior as an alternative to termination when appropriate. The disciplinary action taken will depend on the circumstances of each case.

Repeated violations normally will carry more severe corrective action than first violations.
Disciplinary Action Not Including Termination

Employees who violate the provisions of Policy GBEB and who are disciplined under A.R.S. 15-1326, or other applicable statutes, in addition to the provisions of this policy:

- May not be suspended without pay for a period exceeding thirty (30) working days.
- Shall be provided a notice of intent to discipline, a meeting with the supervisor initiating discipline to respond to notice letter, and a request for review by the next higher supervisory level in the organization.

Termination

This action is taken by the Superintendent in accordance with the provisions of A.R.S. 15-1326. The Superintendent may dismiss any employee of the Schools; however, employees may be terminated only for cause. Employees terminated for cause shall be separated from payroll at the close of day on the effective date of the superintendent’s decision.

Pre-Termination

- Prior to an employee being terminated the employee shall receive a formal notice in writing of the Superintendent’s intent to terminate employment. The notice shall include:
  - The conduct or omission on the part of the employee that constitutes the reason(s) for termination.
  - Notice that the employee may submit a written response to the charges no later than three (3) working days after receipt of the notice. The superintendent, in his discretion, may extend the time to respond.
  - Notice that the employee may request a meeting with the superintendent. The request for a meeting shall be filed with the written response.

Post Termination

- If the Superintendent’s decision is to terminate an employee’s employment, the employee shall receive the decision in writing including:
  - The conduct or omission on the part of the employee that constitutes the reason(s) for termination.
  - The effective date of the termination and separation from payroll.

The right to appeal the decision to the Board of Directors and the timeline to file an appeal of termination.

- On appeal of termination to the Board of Directors, the Board may conduct the appeal hearing or may appoint a hearing officer to conduct
the appeal hearing. The appeal hearing shall be limited to consideration of the following:

- Determination was unsupported by any evidence as disclosed by the entire record.
- Determination was based on violation of any statutory or constitutional right.
- Determination was arbitrary and capricious.
- The penalty was excessive.

**General Provisions and Conditions**

Not all administrative actions regarding an employee are considered discipline. The following are examples of actions that are not considered to be disciplinary actions:

- The employee evaluation procedure or the resulting evaluations as they pertain to the adequacy of the employee’s performance.
- Letters of memorandum directed to an employee containing directives or instructions for future conduct.
- Counseling of an employee concerning expectations of future conduct.
- The decision to conduct an investigation and the resulting investigation.
- Non-Renewal of a contract for an employee who is employed by the Schools under an employment contract.

SUSPENSION AND DISMISSAL OF PROFESSIONAL / SUPPORT STAFF MEMBERS
(DUE PROCESS IN THE DISCIPLINE OF PERSONNEL) (DISCIPLINARY ACTION NOT
INCLUDING TERMINATION)

For purposes of this regulation, all approved supervisors of employees will hereinafter
be referred to as supervisors.

The following procedures will be used to impose any discipline that:

• Shall become a part of the employee’s official personnel record; and

• Includes (but is not limited to) written warnings, letters of reprimand,
involuntary demotions, suspensions with and without pay up to thirty
(30) working days.

Supervisors are authorized to impose discipline as follows:

• 1st level supervisors may impose written warnings, reprimands,
or suspensions without pay of no more than 5 working days.

• 2nd level supervisors and higher-level administrators may
impose written warnings, reprimands, or suspensions without pay
of no more than 15 working days.

• The Superintendent may impose written warnings, reprimands,
involuntary demotions, and any suspension permitted by this
regulation.

It is advisable that supervisors consult the Human Resources Director prior to initiating
discipline pursuant to this regulation.

Step 1—Notice:

• Upon the supervisor’s determination of the existence of cause to
impose discipline [see Policy GBEB], the supervisor shall notify the
employee of intent to impose discipline.

• The notice shall be in writing and shall be delivered by hand or mail
to the employee.

• The notice shall include the following:
€ The misconduct or omission on the part of the employee that constitutes the reason(s) for discipline.

€ A scheduled meeting, including date, time, and location, between the supervisor and the employee. Such meeting shall be scheduled not less than 2 or more than 10 working days after the date the employee receives the notice.

€ A statement of the disciplinary action the supervisor intends to impose, including, if applicable, the number of working days of suspension with or without pay.

**Step 2—Meeting:**

- At the meeting, the supervisor initiating the action shall discuss with the employee the misconduct that warrants disciplinary action.

- The meeting shall be conducted in an informal manner.

- Meetings conducted by the Superintendent for suspensions with or without pay of 15 working days or more, and involuntary demotions shall be recorded by a mechanical device.

- In meetings for suspensions with or without pay over 10 working days, or an involuntary demotion, the employee may have an advisor present. The employee shall notify the supervisor initiating the action, at least 24 hours prior to the scheduled meeting, if an advisor will be present and who the advisor will be. One employee shall not serve as an advisor to another, except on the advising employee’s own time. Advisors shall be present solely to advise the employee and shall not speak for the employee or participate in any way in the meeting. The meeting is a matter between the employee and the supervisor initiating the action.

**Step 3—Decision (in writing):**

- Within 10 working days following the meeting, the supervisor shall inform the employee, in writing, of the supervisor’s decision. The written notice of the decision shall include:

  € A description of the misconduct or omission on the part of the employee that constitutes the reason(s) for discipline.

  € The type of discipline to be imposed.

  € The date the discipline shall be imposed if action is a suspension with or without pay or an involuntary demotion.

  € Notification that a copy of the notice, discipline and the record of disciplinary action shall be placed in the
employee’s official personnel file if the final decision is to take disciplinary action.

The employee’s right to request a review by the next higher level in the organization, as appropriate, and the timeline for filing a request for review. If the decision is not to impose discipline, no record of the proposed disciplinary action shall be placed in the employee’s personnel file.

**Step 4—Review:**

- An employee may request a review meeting or may request a review to be made without a review meeting for all disciplinary actions permitted by this regulation.

- The request for review must be in writing and made within 5 days after the supervisor’s decision is delivered to the employee.

- A review is limited to the next higher supervisory level above the level of the supervisor or administrator who imposed the discipline.

- When discipline is imposed by the Superintendent, the review shall be by the Board of Directors. The Board may conduct the review or appoint one Board member or another person to conduct the review.

- The person conducting the review is the reviewing authority.

- A request for review shall contain a brief statement of the reasons why the employee believes the supervisor’s decision is incorrect and shall provide evidence or information directed to the issues described below.

- In review meetings of suspensions with or without pay over 10 working days, or involuntary demotions, the employee may have an advisor present. The employee shall notify the reviewing authority at least 24 hours prior to the scheduled review meeting if an advisor will be present and who the advisor will be. One employee shall not serve as an advisor to another, except on the advising employee’s own time. Advisors shall be present solely to advise the employee and shall not speak for the employee or participate in any way in the review meeting. The review meeting is a matter between the employee and the reviewing authority.

- During the review meeting the employee shall specifically describe and limit discussion to the part of the determination with which the employee disagrees in accordance with the following:
  - Determination was unsupported by any evidence as disclosed by the entire record.
• Determination was based on violation of any statutory or constitutional right.
• Determination was arbitrary and capricious.
• The penalty was excessive.

• The only issue in a review will be whether or not one or more of the four statements outlined above is true. The reviewing authority may, at the conclusion of the review, uphold the discipline or refer the matter back to the supervisor who administered the discipline for reconsideration and/or additional information. If no review meeting is requested, the reviewing authority shall review all relevant documents and information, and shall render a decision solely from the documents provided.

• Such decision of the reviewing authority, along with specific direction as to the effective date of any discipline, shall be communicated to the employee by the reviewing authority within 7 working days.

General Provisions and Conditions

• While the review and decision are pending or in process, no contact shall be made by the employee or anyone acting on behalf of the employee with the reviewing authority or any member of the reviewing authority’s staff to discuss the merits of the recommendation or charges and proposed discipline except as provided by this regulation.

• Not all administrative actions regarding an employee are considered “discipline,” even though they may involve alleged or possible violations by the employee. This regulation addresses only discipline and has no application to any of the following:
  • The employee evaluation procedure or the resulting evaluations as they pertain to the adequacy of the employee’s performance.
  • Letters or memorandums directed to an employee containing directives or instructions for future conduct.
  • Counseling of an employee concerning expectations of future conduct.
  • The decision to conduct an investigation and the resulting investigation.
  • Non-renewal of a contract for an employee who is employed by the Schools under an employment contract.
- Any person who is required by this regulation to give written notice to any other person affected by this regulation shall do so by hand or mail. When time is calculated from the date a notice is received, the notice is deemed to be received on the date it is hand delivered or five calendar days after it is placed in the mail.

- The Schools reserve the right not to discipline an employee for conduct that violates Policy GCQF.

- For the purposes of this regulation, a working day is any day that the Agency administrative office is open for business.

- An employee may be disciplined for other conduct that occurred and was not the original subject or identified as the original reason for corrective action or discipline.

- Aggregated instances of inappropriate work behavior can lead to more serious levels of discipline.

- An employee may request that a disciplinary action taken pursuant to this regulation be removed from the employee’s official personnel record after three years from the date of discipline if no further disciplinary infractions have occurred within the three-year period; however, this does not preclude the disciplinary action from being addressed in the future to establish a pattern of inappropriate work behavior.

- The Schools reserve the right to amend this regulation in any way at any time. Any amendment shall have prospective application only.

- If any provision of this regulation is held to be invalid for any reason, such action shall not invalidate the remainder of this regulation. If any provision of this regulation conflicts with any provisions in any other policies or regulations adopted by the Schools, the provisions of this policy and regulation shall prevail.

*Adopted: October 2, 2001*
This regulation and the procedures enacted to implement this regulation apply only to permanent employees who have successfully completed probation and staff members on contract, except Live-Ins. The employees and staff members to which this regulation and procedures apply are hereinafter referred to as employee(s).

Termination actions are taken by the Superintendent. The following procedures will be followed to terminate the employment of employees for cause. If termination is effected, the notices and letters shall become a part of the employee’s personnel file.

Step 1—Investigation and Recommendation:

- Misconduct that may be cause for termination may be investigated and a report provided through the agency administrator to the Superintendent. The report shall include statements of witnesses and relevant documentation.

- The Superintendent may request a recommendation for action from the supervisor and/or the agency administrator.

- Employees being considered for termination may be placed on administrative leave with pay or reassigned to other duties during an investigation if it is in the best interest of the Schools. This action may be taken by the agency administrator in the absence of the Superintendent and post-approved by the Superintendent.

Step 2—Notice (Pre-Termination):

- Upon the Superintendent’s determination of the existence of cause to terminate employment [see policy GBE], the Superintendent shall notify the employee of intent to terminate employment.

- The notice shall be in writing and shall be delivered by hand or by mail to the employee.

- The notice shall include the following:
  - A statement that the Superintendent is considering terminating the employment of the employee.
• The misconduct or omission on the part of the employee that constitutes the reason(s) for termination.

• Notice that the employee may submit a written response to the charges no later than three (3) working days after receipt of the notice. The Superintendent, in his/her discretion, may extend the time to respond.

• Notice that the employee may request a meeting with the Superintendent. The request for a meeting shall be submitted with the written response.

**Step 3—Meeting with Superintendent:**

• The meeting may not be scheduled less than five (5) working days after being requested. If the employee is at work, the meeting may be scheduled by the Superintendent in accordance with the employee’s work schedule.

• The meeting shall be conducted in an informal manner.

• At such meeting, the employee shall have the opportunity to:
  • Address all charges that are the basis for termination.
  • Present documents and information in response to the charges.
  • Be accompanied by a third-party advisor of the employee’s choosing. The employee shall notify the Superintendent at least 24 hours prior to the meeting if an advisor will be present and who the advisor will be. An employee may not appear as an advisor for another employee, except on the advising employee’s own time. Advisors shall be present solely to advise the employee and shall not speak for the employee or participate in any way in the meeting.

• A mechanical device shall be used to make a record of the meeting with the Superintendent.

**Step 4—Decision of Superintendent:**

• In the event that the Superintendent’s decision, following the meeting, is to terminate the employee, the Superintendent shall inform the employee in writing of the decision to terminate employment. The Superintendent shall file with the Board a copy of the termination letter. The decision letter shall include:
• The misconduct or omission on the part of the employee that constitutes the reason for termination.

• The date of termination and notice that on this date the employee will be taken off payroll.

• The right to appeal the decision to the Board of Directors and the timeline to file an appeal. Appeals, if filed, must be made in writing to the Board of Directors within ten (10) working days of receiving the decision of the Superintendent.

• If the Superintendent’s decision is not to separate the employee from employment but to take some other or no other disciplinary action, the employee will be notified in writing of the decision and action will be taken as appropriate.

• If disciplinary action less than termination is taken, the employee may file a request for a review as provided for in GCQF-RA.

**Step 5—Appeal to Board of Directors (Post-Termination):**

• An appeal from termination of employment shall be made in writing to the Board of Directors within ten (10) working days of receiving the Superintendent’s decision.

• The Board shall conduct an appeal hearing or appoint a hearing officer to conduct such an appeal hearing.

NONSCHOOL EMPLOYMENT BY PROFESSIONAL / SUPPORT STAFF MEMBERS

The position for which a person has been employed shall be given precedence over any type of outside work or self-employment. Employees are free to carry on individual work or self-employment projects as long as no Schools facilities, equipment, or buildings are used, except as provided by policy, and the outside work or self-employment does not interfere with the employees’ performance of Schools-assigned duties.

The outside work or self-employment by a staff member is of concern to the Schools insofar as it may:

- Prevent the employee from performing assigned responsibilities in an effective manner.
- Be prejudicial to proper effectiveness in the position or compromise the Schools.
- Raise a question of conflict of interest—for example, where the employee’s position in the Schools permits access to information or other advantage useful to the outside employer.

Therefore, an employee may not perform any duties related to outside work or self-employment during regular Schools working hours or during the additional time that is needed to fulfill the responsibilities of the Schools position. Employees who violate this policy are subject to reprimand, suspension, or termination.

IGA-R: Curriculum Development

© 2016 by Arizona School Board Association

CURRICULUM DEVELOPMENT

The curriculum reflects the needs of ASDB's diverse population of students. The multi-based curriculum will provide a variety of educational opportunities and, where appropriate, the expectations for hearing and sighted students of a similar age or level will be considered. The curriculum will be:

- **Functional.** A student's functional levels will be assessed and these levels will be used in designing individual learning objectives for work skills and activities of daily living.

- **Age Appropriate.** The skills/concepts being taught and the materials used will be selected with consideration of the student's chronological age and the individual's need for the skills/concepts.

- **Developmental.** Addressing the development functioning level of each student in terms of content presented, materials used, teaching/learning styles, and experiential need will be addressed.

- **Spiraled.** Courses of student will be conceptually spiraled so students are able to relate and accommodate new information into previously formed conceptual frameworks.

- **Conceptual.** Concept formation and critical thinking will be ensured by providing a strong experiential foundation coupled with questioning strategies and problem-solving techniques.

- **Integrated.** Expressly designed to help the learner generalize knowledge and transfer content information and concepts from one structure or setting to another.

- **Individualized.** Student’s unique educational needs will be outlined and addressed through an Individualized Education Program (IEP) or the Individualized Family Service Plan (IFSP) to ensure each student has access to appropriate curriculum.
CURRICULUM ADOPTION

All new programs and courses of study will be subject to ASDB Board approval, as will elimination of programs and courses and extensive alteration in their content. Curricular proposals from the professional staff may be presented to the Superintendent or designee, who will be responsible for making recommendations to the ASDB Board on such matters.

The ASDB Board acknowledges the legislative affirmation that public school students should be taught to value each other as individuals and not be taught to resent or hate other races or classes of people.

No ASDB campus based school shall include in its program of instruction any courses or classes that:

- Promote the overthrow of the United States government.
- Promote resentment toward a race or class of people.
- Advocate ethnic solidarity instead of treatment of students as individuals. The above restrictions are not to be construed to restrict or prohibit:
  - Courses or classes for Native American pupils that are required to comply with federal law.
  - Grouping of students according to academic performance, including capability in the English language, that may result in a disparate impact by ethnicity.
  - Courses or classes that include the history of any ethnic group and that are open to all students, unless the course or class is in violation of an above cited course or class restriction.
  - Courses or classes that include the discussion of controversial aspects of history.
  - Instruction about the Holocaust, any other instance of genocide, or the historical oppression of a particular group of people based on ethnicity, race, or class.

An alleged failure by ASDB to abide by the preceding conditions may subject ASDB to investigation by the State Board of Education (SBE) or the Superintendent of Public Instruction. Enforcement action may be instituted by the SBE or the Superintendent of Public Instruction as prescribed by A.R.S. 15-112.

Adopted: September 15, 2016
CURRICULUM GUIDES AND COURSE OUTLINES

Curriculum guides shall be developed for the various subject areas. These guides shall present at least a minimal outline for instruction and a basis for further development of the particular courses.

In accordance with requirements of the state of Arizona, ASDB will develop its own curriculum guides to reflect local needs. The guides shall be designed to assist users in implementing ASDB philosophy regarding the teaching of a subject and will, when possible, suggest a variety of possibilities for instruction, patterns of individualization, variations of approaches, and materials.

The Superintendent or designee will formulate regulations for the development and use of curriculum guides.

*Adopted: June 9, 2016*
Development of Curriculum Guides

Curriculum guides will be developed by employees and teachers who are to use them.

If participation of the entire staff is not feasible, representatives of the staff and/or departments concerned shall be appointed to committees for study, creation, and revision of any particular guide.

When work is completed on a guide, the committee responsible for its development shall present it to the Superintendent.

Use of Guides

Curriculum guides are to serve as a framework from which a teacher will develop units of study, individual lesson plans, and approaches to instruction that will serve the students' particular needs at a particular time. The guides shall be used to map the logical sequence of instruction.

The Principal/Director, department heads, or other managers/supervisors shall see that optimum use is made of available curriculum guides. Teachers will adhere to the guides.

The instructional program shall reflect the importance of language acquisition/reading-skill development as the basic element in each student's education. The first priority of the instructional program will be language acquisition through a planned sequence of reading skills and language experiences beginning in the preschool level. The improvement of specific reading skills of students will be continuous throughout their education.

Introduction

ASDB may maintain a comprehensive Human Development Program to support parents in providing knowledge about human development to their children and to support ASDB students in their need for special approaches and materials required for learning. In this process, Arizona State Schools for the Deaf and the Blind is joining other Arizona schools in developing a comprehensive Human Development Program for students. The goal of this program is to increase knowledge about human development; to facilitate insight into varying values; to develop an understanding of physical self; to improve decision-making and communication skills; to enhance self-esteem; to reduce sexual exploitation; and to reduce sexually transmitted diseases and unintended pregnancy.

The following factors are important to the success of a human development program in schools.

- Parental involvement and support
- Administrative involvement and support
- Effective curriculum
- Comprehensive teacher training

Beliefs About Teaching Human Development

Human development includes developing a positive self-concept, supportive family relationships, healthy social relationships, and an understanding of physical self.

The following beliefs are the basis for the Human Development Program:

- Each individual is an important and worthwhile person. Individuals must have respect for themselves if they are to have the respect of others. Individuals can accept the reality of their disability, learn to live with that disability, and continue to grow.

- Within the framework of the family, children develop a sense of self, the importance of being part of a larger unit, the ability to cooperate with others, and the basis for future relationships.

- All people seek social relationships to satisfy physical, social, and intellectual needs. At any given time an individual is a member of a variety of groups such as family, school, and friends. Continuation of relationships in these groups may depend on learning how to express both positive and negative feelings.
• Changes occur in the body as children grow and develop from infancy through adulthood and old age. Preparation for these changes can facilitate understanding the transition from one stage to another, and the acceptance of oneself.

• Students need to know that they control who touches them, and that they are entitled to privacy and safety.

• Students need to know the risks of sexually transmitted diseases.

• The student needs to know the adverse effects of an unintended pregnancy.

The Role of Parents

Parents are partners in the education of children at ASDB, particularly in a Human Development Program. In order to ensure parental participation in this program, the following will occur:

• Parents will be a source of information for their children. Parent meetings will be held where parents are given an opportunity to review curricular materials and plans for the program prior to their child's enrollment in the program.

• Parents will participate on the advisory committee for the Human Development Program. This committee will meet once a year and give input into the program and suggest needed changes.

• Parents will give written permission for their child to participate in the physical awareness part of the Human Development Program.

• Parents will have the right to review instructional materials in the program at any time.

The Role of the Staff

Each employee participates in the Human Development Program as a role model. Specific people will be selected and trained to teach The Human Development Curriculum. All teaching parents will be trained to support the curriculum. Employees will assist students in identifying the appropriate time and place to ask questions.

Implementation

The implementation of Human Development Programs includes the following steps:

• Develop a plan with the involvement of parents for the introduction and the ongoing Human Development Program in order to ensure that students have opportunities to acquire information relevant to each of the four major program components: self-awareness, family relationships, social relationships, and physical awareness at the appropriate time in their school years.
● Implement a staff development program to train the employees with the content of the curriculum, the language and sign language to be used with students, medical issues, strategies for answering student questions, and the age-appropriate information. A core group of teachers and teaching parents will emerge from this training to provide leadership for the program implementation.

● A parent-training program will be offered including signs that are being used with students who are deaf or hard of hearing. An annual meeting will be held with parents to review materials to be used.

● Provide an integrated model for all ASDB students. Instruction will be provided by the classroom teacher when structured activities are presented. Most of the teaching will occur when a natural learning opportunity presents itself.

Permissions

Prior to instruction in the Physical Awareness section, parents have the opportunity to review the materials and give written permission for their child's participation. Principals will cosign the permission forms completed by teachers.
INSTRUCTION AND TRAINING IN CARDIOPULMONARY RESUSCITATION

(Note: CPR instruction and training is required to be provided no later than July 1, 2019.)

This training shall be based on the most current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation.

ASDB instruction that results in cardiopulmonary resuscitation certification must be provided by a certified cardiopulmonary resuscitation trainer. This instruction does not require a teacher or administrator who facilitates, provides or oversees the instruction to be an authorized trainer of cardiopulmonary resuscitation if the instruction does not result in cardiopulmonary resuscitation certification.

The instruction provided must include the hands-on practicing of cardiopulmonary resuscitation, except for students who are enrolled in an online school as defined in A.R.S.15-808.

1. The student’s parent.
2. A student who provides written documentation that the student has previously received training in or is currently certified in cardiopulmonary resuscitation.
3. The student's individualized education program team, if the student is a child with a disability as defined in section 15-731 and if the individualized education program team makes a determination to excuse the student from the instruction.

ASDB may accept from any person, public entity or other legal entity in-kind donations of materials, equipment or services that may be used in the instruction on cardiopulmonary resuscitation.

ASDB may use any of the following persons to provide instruction and training:

1. Emergency medical technicians
2. Paramedics
3. Fire department personnel
4. Police officers.
5. Representatives of the American Heart Association
6. Representatives of the American Red Cross

SPECIAL INSTRUCTIONAL PROGRAMS

A long-range plan will be the basis for providing special education services for students with exceptional needs and education requirements. These services may include specialized programs, personnel, facilities, materials, and equipment needed to promote the individual physical, social, intellectual, and emotional growth of exceptional students. FAPE for an eligible student with a disability shall extend through conclusion of the instructional year during which the student attains the age of twenty-two (22).

- A full and individual initial evaluation will be conducted by the public education agency before the initial provision of special education and related services to a child with a disability in accordance with 34 C.F.R. 300.300–300.311 of the IDEA regulations. An IEP or an individualized family service plan (IFSP) will be in place for each child with a disability prior to the provision of FAPE.

- To the maximum extent appropriate, opportunities for the least restrictive environment, inclusion in educational exercises with regular program students, and for interaction with the total school environment will be provided to exceptional students, the exception to be only when the student’s condition, with supplementary aids and services, make such regular

- Accomplish the requirements of the ASDB Board set out in policy IHB Special Instructional Programs.
- Assure ASDB compliance with the requirements of applicable federal and state laws and the lawful regulations of the State Board of Education.
- Aid ASDB personnel in fulfilling their duties relating to the topic by presenting the procedural information in a format that aligns with the Arizona Department of Education/Exceptional Student Services (ADE/ESS) compliance checklists.

Citations from the following sources are annotated to the material to assist in conducting research and for clarification:

- Arizona Revised Statutes (A.R.S.)
- Arizona Administrative Code (A.A.C.) Title 7, Chapter 2, State Board of Education Rules
- Regulations to the Individuals with Disabilities Education Act (IDEA) as published in Title 34 of the C.R.R., Part 300,

Applicability

To accommodate the necessity to present procedural information in a format that aligns with the Arizona Department of Education/Exceptional Student Services (ADE/ESS) compliance checklists, this generic regulation contains procedural requirements for covered individuals of all ages. However, any statement in this regulation that addresses a provision that is not applicable to the grade levels and age ranges included in the student membership of ASDB is to be considered for the purposes of compliance to be not applicable.

Child Find

Procedures for child identification and referral shall meet the requirements of the IDEA and its regulations, A.R.S. Title 15, chapter 7, and its regulations, and the State Board of Education rules R7-2-401.

ASDB will maintain a record of children who are receiving special education and related services. [34 C.F.R. 300.111]

ASDB will inform the general public and all parents of the responsibility of the availability of special education services for students aged three (3) through twenty-one (21) years, and how those services may be accessed including information regarding early intervention services for children
aged birth through two (2) years. Services for an eligible student with a disability shall extend through conclusion of the instructional year during which the student attains the age of twenty-two (22). [A.A.C. R7-2-401.C]

ASDB shall establish, implement, and make available (either in writing or electronically) to ASDB personnel, and all parents for the identification and referral of all children with disabilities aged birth (0) – 21 (twenty-one), regardless of the severity of their disability. [A.A.C. R7-2-401.D]

ASDB shall require appropriate ASDB staff to review the written procedures related to child identification and referral on an annual basis. ASDB shall maintain documentation of ASDB staff review. [A.A.C. R7-2-401] Identification screening for possible disabilities shall be completed within forty-five (45) calendar days after:

- Entry of each preschool or kindergarten student and any student enrolling without appropriate records or screening, evaluation, and progress in school; or
- Notification to ASDB by parents of concerns regarding developmental or educational progress by their child (aged 3 years through 21 years). [A.A.C. R7-2-401]

Screening procedures shall include vision and hearing status and consideration of the following areas:

- Cognitive or academic;
- Communication;
- Motor;
- Social or behavioral; and
- Adaptive development. [A.A.C. R7-2-401]

Screening does not include detailed individualized comprehensive evaluation procedures. [A.A.C. R7-2-401]

If a concern about a student is identified through screening procedures or review of records, the parents of the student shall be notified of the concern within ten (10) school days and informed of ASDB’s procedures to follow-up on the student’s needs. [A.A.C. R7-2-401.D]

ASDB shall maintain documentation of the identification procedures utilized, the dates of entry into school, notification by parents of a concern and the dates of screening. The results shall be maintained in the student’s permanent records in a location designated by the administrator, should the student be enrolled or not enrolled in ASDB. [A.A.C/ R7-2-401.D]

If the identification process indicates a possible disability, the name of the student shall be submitted to the administrator for consideration of the need for a referral for a full and individual evaluation or other services. A parent of a student who has reached the age of majority may request an evaluation of the student. [A.A.C. R7-2-401.D]

If, after consultation with the parent, ASDB determines that a full and individual evaluation is not warranted, ASDB shall provide prior written notice and procedural safeguards notice to the parent in a timely manner. [A.A.C. R7-2-401.D]

**Confidentiality**

ASDB will permit parents to inspect and review any education records relating to their children that are collected, maintained or used by ASDB under Individuals with Disabilities Education Act (IDEA).
ASDB will comply with a request without unnecessary delay and in no case more that forty-five (45) calendar days after the request has been made, and before:

- Any individualized education program (IEP) meeting;
- Any hearing involving a due process complaint or disciplinary hearing;
- Any resolution session. [34 C.F.R. 300.613]

The right to inspect and review education records includes:

- The right to a response from ASDB to reasonable requests for explanations and interpretations of the records;
- The right to request that ASDB provide copies of the records if failure to provide those copies would effectively prevent the parent from exercising the right to inspect and review the records; and
- The right to have representative of the parent inspect and review the records. [34 C.F.R. 300.613]

ASDB may presume that the parent has authority to inspect and review records relating to his or her child unless ASDB has been advised to the contrary by legal proceeding involving guardianship, separation, and divorce. [34 C.F.R. 300.613]

ASDB will keep a record of parties obtaining access to education records collected, maintained or used under IDEA (except access by parents and authorized employees of ASDB), including:

- The name of the party;
- The date access was given; and
- The purpose for which the party is authorized to use the records. [C.F.R. 300.614]

If any education record includes information on more than one (1) child, the parents of those children have the right to inspect and review only the information relating to their child. [C.F.R. 300.615]

ASDB will provide parents on request a list of types and locations of education records, maintained or used by the District. [C.F.R. 300.616]

ASDB may charge a fee for copies of records that are made for parents if the fee does not effectively prevent the parents from exercising their right to inspect and review records. [C.F.R. 300.617]

ASDB will not charge a fee to search for or to retrieve information. [C.F.R. 300.617]

A parent who believes that information in the education records collected, maintained, or used by ASDB is inaccurate or misleading or violates the privacy or other rights of the child, may request ASDB to amend the information. [C.F.R. 300.618]

ASDB will decide whether to amend the information in accordance with the request in a reasonable period of time of receipt of the request. [C.F.R. 300.618]

If ASDB refuses to amend the information in accordance with the request, it will inform the parent of the refusal and advise the parent of the right to a hearing under C.F.R. 300.619

ASDB will, on request, provide an opportunity for a hearing to challenge information in education records to ensure that it is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the child. [C.F.R. 300.620]

If, as a result of a hearing, ASDB decides that the information is not inaccurate, misleading, or
otherwise in violation of the privacy or other rights of the child, ASDB will inform the parent of the parent’s right to place in the maintained records a statement commenting on the information, or setting forth any reasons for disagreeing with ASDB’s decision. [C.F.R.R. 300.620]

Parental consent will be obtained before personally identifiable information is disclosed to parties other than participating agencies, unless the information is contained in education records and the disclosure is authorized without parent consent under Family Educational rights and Privacy Act (FERPA). [C.F.R.300.622]

Parental consent will be obtained before personally identifiable information is released to officials of participating agencies providing or paying for transition services in accordance with §300.321. [C.F.R. 300.622]

If a child is enrolled, or is going to enroll in a private school, parental consent will be obtained before any personally identifiable information about the child is released between officials in the district where the private school is located and officials in ASDB. [C.F.R. 300.622]

Upon receiving a written request, ASDB shall forward special education records to any other public education agency in which a student has enrolled or is seeking to enroll. Records shall be forwarded within the time-frame specified in A.R.S. 15-828 (F). ASDB shall also forward records to any other person or agency for which the parents have signed consent. [A.A.C, R7-2-401.J (4)]

ASDB will protect the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages. [34 C.F.R. 300.623]

One (1) official at ASDB will assume responsibility for ensuring the confidentiality of any personally identifiable information.

All persons collecting or using personally identifiable information will receive training or instruction regarding the State’s policies and procedures under 300.123 FERPA (34 C.F.R. part 99). [C.F.R. 300.623]

ASDB will maintain, for public inspection, a current listing of the names and positions of its staff members who may have access to personally identifiable information. [C.F.R. 300.623]

ASDB shall establish, implement, and make available to its personnel and parents written policies and procedures to ensure the confidentiality of records and information in accordance with IDEA and its regulations, the Family Educational Rights and Privacy Act (FERPA) and its regulations, and state statutes. [A.A.C. R7-2-401.J (1)]

ASDB will inform parents when personally identifiable information collected, maintained, or used for IDEA purposes is no longer needed to provide educational service to the child. [C.F.R. 300.624]

The information will be destroyed at the request of the parents. However, a permanent record of the student’s name, address, and phone number, his or her grades, attendance record, classes attended, grade level completed, and year completed may be maintained without time limitation. [C.F.R. 300.624]

Parents shall be fully informed about the requirements of the IDEA and regulations, including an annual notice of the policies and procedures that ASDB shall follow regarding storage, disclosure to a third party, retention, and destructions of personally identifiable information. [A.A.C, R7-2-401.J (2)]
The rights of the parents regarding educational records are transferred to the student at age eighteen (18) under FERPA unless the student has been declared legally incompetent, or the student has
executed a delegation of rights to make educational decisions pursuant to A.R.S. 15-773. [34 C.F.R. 300.625]

If the rights of the parents regarding educational records are transferred to the student at age (18) under the IDEA, ASDB will provide any notice required under the procedural safeguards’ provisions. [34 C.F.R. 300.625]

The rights of the parents regarding educational records are transferred to the student at age eighteen (18) under FERPA unless the student has been adjudicated incapacitated, or the student has executed a delegation of rights to make educational decisions pursuant to A.R.S 15-733. [A.A.C. R7-2-401.J(3)]

**Discipline**

On a case-by-case basis and in consideration of any unique circumstances, school personnel may remove a child with a disability who violates a student code of conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than ten (10) consecutive school days (to the extent those alternatives are applied to children without disabilities) and for additional removal for not more than ten (10) consecutive school days in the same school year for separate incident of misconduct, as long as those removals do not constitute a change of placement under §300.536. [34 C.F.R. 300.530]

After a child with a disability has been removed from his or her current placement for ten (10) school days in the same school year, during any subsequent days of removal ASDB will provide services to the extent required to:

- Enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting his/her IEP goals; and
- Receive, as appropriate, a functional behavioral assessment, behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur. [34 C.F.R. 300.530]

ASDB is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for the (10) days or less in that school year, if it provides services to non-disabled children similarly removed. [34 C.F.R. 300.532]

After a child with a disability has been removed from his or her current placement for ten (10) school days, and the current removal is not more than ten (10) consecutive school days and not a change of placement, school personnel, in consultation with at least one of the child’s teachers, determine the extent to which services are needed, so as to enable the child to continue to participate in the general education curriculum and to progress toward meeting the individualized education program (IEP) goals. [34 C.F.R. 300.530]

If the removal is a change in placement, the child’s IEP team determines the appropriate services. [34 C.F.R. 300.530]

Within ten (10) school days of any decision to change the placement of a child with a disability because of a violation of a code of student, conduct ASDB, the parent, and relevant members of the IEP team will review all relevant information in the student’s file, the IEP, teacher observations, and any relevant information to determine:
• If the conduct was caused by, or had a direct and substantial relationship to, the child’s
disability; or
• If the conduct in question was the direct result of ASDB’s failure to implement the IEP. [34
C.F.R. 300.530]

The conduct will be determined to be a manifestation of the disability if either of the above-named
conditions occurred, and, if the IEP was not implemented, ASDB will take immediate steps to remedy
that deficiency. [34 C.F.R. 300.530]

If ASDB, the parent, and relevant members of the IEP team determine that the conduct was a
manifestation of the child’s disability, the child will be returned to the placement from which the child
was removed, unless the parent and ASDB agree to a change of placement. The IEP team will
either:

• Conduct a functional behavioral assessment, unless already done, and implement a
behavioral intervention plan; or
• If a behavioral intervention plan has already been developed, review the plan and modify it, as
necessary, to address the behavior. [34 C.F.R. 300.530]

School personnel may remove a student to an interim alternative educational setting for not more
than forty-five (45) school days without regard to manifestation of disability if the child:

• Carries a weapon to or possesses a weapon at school, on school premises, to or at a school
function under the jurisdiction of the state or ASDB;
• Knowingly possesses or uses illegal drugs, or sells or solicits the sale of controlled substance,
while at school, on school premises, or at a school function under the jurisdiction of the state
or ASDB; or
• Has inflicted serious bodily injury upon another person while at school, or school premises, or
at a school function under the jurisdiction of the state or ASDB. [345 C.F.R. 300.530]
• ASDB will notify parents and provide notice of procedural safeguards on the day ASDB
determines the student has violated the code of conduct, and the violation constitutes, a
change in placement (i.e. interim alternative education setting). [345 C.F.R. 300.530]

ASDB shall establish, implement, and make available to personnel and parents written procedures
for the suspension and expulsion of students with disabilities. [A.A.C. R7-2-401.P]

ASDB shall require all school based staff involved in the disciplinary process to review the policies
and procedures related to suspension and expulsion on an annual basis. [A.A.C. R7-2-401.P]

ASDB shall maintain documentation of staff review. [A.A.C. R7-2-401.P]

Procedures for such suspensions and expulsions shall meet the requirements of the IDEA and its
regulations, and state statutes. [A.A.C. R7-2-401.P]

The child’s IEP team determines the interim alternative educational setting for services. [34 C.F.R.
300.531]

The parent of a child with a disability who disagrees with any decision regarding placement under
§34 C.F.R. 300.530 and 300.531 or the manifestation determination may appeal the decision by
requesting an expedited due process hearing in conformance with §34 C.F.R. 300.532(C) and A.A.C.
R7-2-405.1. [34 C.F.R. 300.532]
When ASDB believes that maintaining the current placement of the child is substantially likely to cause injury to the child or others ASDB may appeal the decision by requesting an expedited due process hearing in conformance with §34 C.F.R. 300.532(C) and A.A.C. R7-2-405.I. [34 C.F.R. 300.532]

The student will remain in the interim alternative educational setting pending the decision of the hearing officer or expiration of the interim setting, whichever comes first, unless the parent and ASDB agree otherwise. [34 C.F.R. 300.533]

A non-eligible student who engaged in a behavior that violated a code of student conduct may assert protections if ASDB had knowledge that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred. ASDB will be deemed to have such knowledge if:

- The parent of the child expressed concern in writing to supervisory or administrative personnel of ASDB, or a teacher of the child, that the child is in need of special education and related services;
- The parent of the child requested an evaluation of the child pursuant to §34 C.F.R. 300.300 through 300.311; or
- The teacher of the child, or other personnel of ASDB, expressed specific concerns about a pattern of behavior demonstrated by the child directly to the director of special education or to other supervisory personnel of ASDB. [34 C.F.R. 300.533]

If an evaluation is requested during the time in which a child is subjected to disciplinary measures, the evaluation will be conducted in an expedited manner:

- Until the evaluation is completed, the child remains in the educational placement determined by ASDB, which can include suspension or expulsion without educational services.
- If the child is determined to be a child with a disability, ASDB will provide special education and related services in accordance with this part, including the requirements of §34 C.F.R. 300.530 through 300.536. [34 C.F.R. 300.534]

ASDB may report a crime committed by a child with a disability to appropriate authorities to enable them to exercise their responsibilities. [34 C.F.R. 300.535]

When reporting a crime committed by a child with a disability ASDB ensures that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom ASDB reports the crime, but only to the extent permitted by FERPA. [34 C.F.R. 300.535]

A change of placement occurs if:

- The removal is for more than ten (10) consecutive school days; or
- The child has been subjected to a series of removals that constitute a pattern:
  - because the series of removals total more than ten (10) school days in a school year;
  - because the child’s behavior is substantially similar to the behavior in previous incidents that resulted in a series of removals; and
  - because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another. [34 C.F.R. 300.536]

ASDB will determine on a case-by-case basis whether a pattern of removals constitutes a change of placement, and such determinations are subject to review through due process and judicial
proceedings. [34 C.F.R. 300.536]

Evaluation and Eligibility

ASDB, when proposing to conduct an initial evaluation to determine if a child qualifies as a child with a disability, and after reviewing existing data with the parents and providing prior written notice, will obtain informed consent from the parent of the child before collecting any additional data.

- Parental consent for initial evaluation will not be construed as consent for initial provisions of special education and related services.
- ASDB will make reasonable efforts to obtain the informed consent from the parent for an initial evaluation. [34 C.F.R. 300.300]

For initial evaluations only, if the child is a ward of the state, is not residing with the child’s parent, ASDB is not required to obtain consent from the parent if:

- Despite reasonable efforts to do so, ASDB cannot discover the whereabouts of the parents of the child;
- The rights of the parents of the child have been terminated in accordance with state law;
- The rights of the parent to make educational decisions have been subrogated by a judge, in accordance with state law, and consent for an initial evaluation has been given by an individual appointed by the judge to represent the child. [34 C.F.R. 300.300]

ASDB may, but is not required to seek informed consent through due process procedures if the parent of a child who is enrolled or seeking to enroll in ASDB refuses, or fails to respond to, a request to provide consent for an evaluation. [34 C.F.R. 300.300]

ASDB will obtain informed consent from the parent of the child before the initial provision of special education and related services to the child, and will make reasonable efforts to obtain the consent. [34 C.F.R. 300.300]

If a parent refuses consent for the initial provision of special education and related services, ASDB will not seek consent through due process hearing procedures. ASDB:

- Will not be considered to be in violation to provide Free Appropriate Public Education (FAPE);
- Is not required to convene an IEP team meeting or develop an IEP for the child. [34 C.F.R. 300.300]

If, at any time subsequent to the initial provision of special education and related services, the parent of a child revokes consent in writing for the continued provision of special education and related services, ASDB:

A. May continue to provide special education and related services to the child, but shall provide prior written notice before ceasing the provision of special education and related services;
B. May not use the mediation procedure or the due process procedures in order to obtain agreement or a ruling that the services may be provided to the child;
C. Will not be considered in violation of the requirement to make FAPE available to the child because of the failure to provide the child with further special education and related services; and
D. Is not required to convene an IEP Team meeting or develop an IEP for the child for further provision of special education and related services. If a parent revokes consent in writing for
their child’s receipt of special education services after the child is initially provided special education and related services, ASDB is not required to amend the child’s education records to remove and reference to the child’s receipt of special education and related services because of the revocation of consent.

ASDB will obtain informed consent prior to conducting any reevaluation of a child with a disability:

- If the parent refuses consent, ASDB may utilize due process hearing procedures to seek consent, but does not violate its obligation if it declines to pursue the evaluation or reevaluation.
- The informed parental consent for reevaluation need not be obtained if ASDB can demonstrate that:
  - it made reasonable efforts to obtain such consent and has documented those attempts;
  - the child’s parent has failed to respond. [34 C.F.R. 300.300]

Parental consent is not required before:

- Reviewing existing data as part of an evaluation or reevaluation; or
- Administering a test or other evaluation that is administered to all children unless consent is required of parents of all children prior to administration. [34 C.F.R. 300.300]

ASDB will not use a parent’s refusal to consent to one service or activity under this section to deny the parent or child any other service, benefit, or activity of ASDB, except as required by this part. [34 C.F.R. 300.300]

If a parent of a child who is home-schooled or placed in a private school by the parents at their own expense does not provide consent for the initial evaluation or the reevaluation, or the parent fails to respond to a request to provide consent, ASDB will not utilize due process hearing procedures to seek consent. [34 C.F.R. 300.300]

Consistent with consent requirements of §300.300, either a parent of a child or ASDB may initiate a request for an initial evaluation to determine if a child is a child with a disability. [34 C.F.R. 300.301]

If the parent requests the evaluation, ASDB must, within a reasonable amount of time not to exceed fifteen (15) school days from the date it receives a parent’s written request for an evaluation, either begin the evaluation by reviewing existing data or provide prior written notice refusing to conduct the requested evaluation. The sixty (60) –day evaluation period shall commence upon ASDB’s receipt of the parent’s informed consent.

The initial evaluation will:

A. Be conducted within sixty (60) calendar days of receiving informed written parental consent for the evaluation, unless: [34 C.F.R. 300.301] [A.C.C. R7-2-401 (E)(3)]
   1. the parents and ASDB agree, in writing, that it is in the best interest of the child to extend the timeline to complete the evaluation for an additional thirty (30) calendar days; or
   2. the child enrolls in ASDB following the child’s departure from a previous district after the parent has provided consent and before the determination of eligibility by the child’s previous district. In that event, ASDB ensures prompt completion of the evaluation.
   3. The parent of a child with a disability repeatedly fails or refuses to produce the child for evaluation.
B. Consist of procedures to determine if the child is a child with a disability and to determine the educational needs of the child. [34 C.F.R. 300.301] [A.C.C. R7-2-401 E]
C. The initial evaluation of a child being considered for special education or reevaluation shall conclude with the date of the multi-disciplinary evaluation team (MET) determination of eligibility.
D. Neither the 60-day evaluation period nor any extension shall cause a reevaluation to exceed the time-lines for a reevaluation within three years of the previous evaluation. [34 C.F.R. 300.301] [A.C.C. R7-2-401 E]

ASDB will conduct a reevaluation of a child with a disability if:

- ASDB determines that the educational or related service needs, including improved academic achievement and functional performance, of the child warrants a reevaluation; or
- If the child’s parents or teacher requests a reevaluation; except
- ASDB will not conduct a reevaluation more than once a year unless the parent and ASDB agree otherwise. [34 C.F.R. 300.303]

ASDB will conduct a reevaluation at least once every three (3) years. The Multidisciplinary Evaluation Team shall determine, in accordance with IDEA and regulations, whether the requirements of subsections (E)(6)(a) through (i) are required for a student’s reevaluation. [34 C.F.R. 300.303] [A.C.C. R7-2-401 E]

ASDB will provide prior written notice to the parents of a child who has, or who is suspected of having, a disability, that describes the evaluation procedures that the ASDB proposes to conduct. [34 C.F.R. 300.304]

In conducting an evaluation or reevaluation ASDB will:

A. Use a variety of assessment tools and strategies to gather relevant functional, developmental, and academic information about the child, including information provided by the parent in order to determine:

1. whether the child is a child with a disability; and
2. if the child is a child with a disability, information related to enabling the child to be involved in a progress in the general education curriculum (or for a preschool child, to participate in appropriate activities).

B. Not use a single measure or assessment as the sole criterion for determining whether a child is a child with a disability and for determining an appropriate educational program for the child; and

C. Use technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors. [34 C.F.R. 300.304]

For the following disabilities, the full and individual initial evaluation shall include:

A. Emotional disability: verification or a disorder by a qualified professional.
B. Hearing impairment:

1. An audiological evaluation by a qualified professional, and
2. An evaluation of communication/language proficiency,
C. Other health impairment: verification of a health impairment by a qualified professional.
D. Specific learning disability: a determination of whether a child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, state-approved grade-level standards, or intellectual development that meets ASDB’s criteria through one of the following:

1. A discrepancy between achievement and ability;
2. The child’s response to scientific, research-based interventions; or
3. Other alternative research-based procedure.

E. Orthopedic impairment: verification of the physical disability by a qualified professional.
F. Speech/language impairment: an evaluation by a qualified professional.
G. For students whose speech impairments appear to be limited to articulation, voice, or fluency problems, the written evaluation may be limited to:

1. An audiometric screening within the past calendar year,
2. A review of academic history and classroom functioning,
3. An assessment of speech problems by a speech therapist, o.t.,
4. An assessment of the student’s functional communication skills.

H. The Department of Education shall develop a list, subject to review and approval of the State Board of Education, of qualified professionals eligible to conduct the appropriate evaluations prescribed in A.C.C. R7-2-401.E-7.

ASDB ensures that evaluation materials and strategies:

- Are selected and administered so as not to be discriminatory on a racial or cultural basis;
- Are administered in the child’s native language or other mode of communication and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally, unless it is clearly not feasible to do so;
- Are used for the purposes for which the assessment(s) or measure(s) are valid and reliable;
- Are administered by trained and knowledgeable personnel;
- Are administered in accordance with the instructions provided by the assessment publisher;
- Are selected and administered so as to ensure that if administered to a child with impaired sensory, manual, or speaking skills, the assessment results accurately reflect the child’s aptitude or achievement level or whatever other factors the test purports to measure rather than reflecting the child’s impairments (unless those skills are the factors being measured);
- Assess the child in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social, and emotional status, general intelligence, academic performance, adaptive behavior, communicative status, and motor abilities;
- Are sufficiently comprehensive to identify all of the child’s special education and related services needs, whether or not those needs are commonly associated with the child’s disability.
- Provide relevant information that directly assists in determining the educational needs of the child. [34 C.F.R. 300.304]

Evaluations of children who transfer to or from another District in the same school year are
coordinated with the prior and subsequent schools, in order to expedite the completion of a full evaluation. [34 C.F.R. 300.304]

As part of an initial evaluation (if appropriate), and as part of any reevaluation, the IEP team and other qualified professionals, as appropriate, will:

- Review existing evaluation data on the child including:
  - evaluations and information provided by the parents;
  - current classroom-based, local and state-wide assessments, and classroom-based observations;
  - observations by teachers, and related services providers.
- On the basis of that review, and input from the child’s parents, identify what additional data, if any, are needed to determine whether:
  - The child is or continues to be a child with a disability, and, if so, the educational needs of the child;
  - The present levels of academic achievement and related developmental needs of the child;
  - Whether the child needs special education and related services to enable the child to meet measurable annual IEP goals and to participate, as appropriate, in the general education curriculum.
- The IEP team may conduct the review without a meeting. [34 C.F.R. 300.305]
- ASDB may accept, current information about the student from another state, public agency, public education agency, or through an independent education evaluation.

If additional data are needed, ASDB will administer the assessments required to obtain the additional data. [34 C.F.R. 300.305]

If additional data are not needed to determine whether the child continues to be a child with a disability, and to determine the child’s educational needs, ASDB will notify the parents of:

- The determination and the reasons for the determination; and
- The right of the parents to request an assessment to determine whether the child continues to be child with a disability and to determine the child’s educational needs. [34 C.F.R. 300.305]

ASDB will evaluate a child before determining that the child is no longer a child with a disability except when the termination is due to graduation with a regular high school diploma or at the conclusion of the instructional year during which the child attained the age of twenty-two (22).

When the child’s eligibility terminates because of graduation or at the conclusion of the instructional year during which the child attained the age of twenty-two (22), ASDB will provide a summary of the child’s academic achievement and functional performance that includes recommendations on how to assist the child in meeting the child’s postsecondary goals. [34 C.F.R. 300.305]

Upon completion of the evaluation process, ASDB ensures that:

A. A group of qualified professionals and the parent of the child determine:
   1. if the child with a disability under the Individuals with Disabilities Education Act, Arizona State Statutes, and Arizona Administrative Code; and
   2. if so, the educational needs of the child.
B. The parents are provided, at no cost, a copy of the evaluation report and eligibility determination. [34 C.F.R. 300.306]
A child will not be determined to be a child with a disability if the primary factor for the determination is:

A. Lack of appropriate instruction in reading, including the essential components of reading instruction (as defined in 1208(3) if the Elementary and Secondary Education Act [ESEA]).
B. Lack of appropriate instruction in math; or
C. Limited English proficiency. [34 C.F.R. 300.306]

The eligibility determination, including education needs, will be based on all of the information sources used in the evaluation process, and if deemed eligible and in need of special education and related services, an IEP will be developed in accordance with §34 C.F.R. 300.320 through 300.324. [34 C.F.R. 300.306]

Additional procedures for identifying children with specific learning disabilities:

A. Option 1: ASDB will use the state-adopted criteria for determining whether a child has a specific learning disability through a process based on the child’s response to scientific, research-based intervention in conformity with IDEA Regulations §34 C.F.R. 300.307-311. [34 C.F.R. 300.307]

B. Option 2:
   - ASDB will use a criteria for determining whether a child has a specific learning disability through the identification of a severe discrepancy between intellectual ability and achievement in conformity with IDEA Regulations §34 C.F.R. 300.307-311. [34 C.F.R. 300.307]

C. Option 3:
   - ASDB will determine, on an individual child basis, the criteria for determining whether a child has a specific learning disability using one of the following criteria in conformity with IDEA Regulations §34 C.F.R. 300.307-311:
     i. The state-adopted criteria based on a child’s response to scientific, research-based intervention;
     ii. The identification of a severe discrepancy between intellectual ability and achievement. [34 C.F.R. 300.307]

The determination of whether a child suspected of having a specific learning disability is a child with a disability will be made by the child’s parents and a team of qualified professional which will include:

- The child’s regular education teacher; or
- If the child does not have a regular education teacher, then a regular education teacher qualified to teach children of that age;
- For a child of less than school age, an individual qualified by the state to teach children of his/her age;
- At least one (1) qualified to conduct individual diagnostic evaluations of children, such as a school psychologist, speech-language pathologist, or remedial reading teacher.

A child may be determined to have a specific learning disability if:

A. The child does not achieve adequately for the child’s age or to meet state-approved grad level standards in one (1) or more of the following areas, when provided with learning experiences and instruction appropriate for the child’s age or meet state-approved grade-level standards.
   1. oral expression
   2. listening comprehension
   3. written expression
4. basic reading skill
5. reading fluency skills
6. reading comprehension
7. mathematics calculation
8. mathematics problem solving

B. The child does not make sufficient progress to meet age or state-approved grad level standards in one (1) or more of the areas in listed immediately above when using a process based on the child’s response to scientific, research-based intervention; or
C. The child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, state-approved grad level standards, or intellectual development, that is determined by the group to be relevant to the identification of a specific learning disability, using appropriate assessments. [34 C.F.R. 300.309]

The findings of this section are not primarily the result of:

A. A visual, hearing or motor disability;
B. Intellectual disability;
C. Emotional disturbance;
D. Cultural factors;
E. Environmental or economic disadvantage; or
F. Limited English proficiency. [34 C.F.R. 300.309]

The group ensures that the underachievement is not due to a lack of appropriate instruction in reading or math and consider:

A. Data that demonstrate that prior to, or as part of, the referral process, the child was provided appropriate instruction in regular education settings, delivered by qualified personnel; and
B. Data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the child’s parents. [34 C.F.R. 300.309]

ASDB will promptly request parent consent to evaluate if, prior to referral, the child has not made adequate progress after an appropriate period of time when provided instruction described in the two (2) immediately preceding bullets. [34 C.F.R. 300.309]

ASDB ensures that the child is observed in his/her learning environment, including the regular classroom setting, to document the child’s academic performance and behavior in the areas of difficulty. [34 C.F.R. 300.310]

In the case of a child less than school age or out of school, a group member will observe the child in an environment appropriate for a child that age. [34 C.F.R. 300.310]

For a child suspected of having a specific learning disability, the eligibility determination will contain a statement of:

- Whether the child has a specific learning disability;
- The basis for making the determination, including an assurance the determination was made in accordance with the Individuals with Disabilities Education Act;
- The relevant behavior, if any, noted during the observation and the relationship of that behavior to the child’s academic functioning;
- The educationally relevant medical findings, if any;
• Whether the child does not achieve adequately for his/her age or to meet state-approved grade level standards consistent with whether the child has a specific learning disability; and does not make sufficient progress to meet age or state-approved grade level standards consistent with the basis of a determination in accordance with IDEA; or
• The child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, state-approved grade level standards or intellectual development consistent with the observation of relevant behavior.
• The determination of the group concerning the effects of a visual, hearing, or motor disability; intellectual disability; emotional disturbance; cultural factors; environmental or economic disadvantage; or limited English proficiency of the child’s achievement level. [34 C.F.R. 300.311]

Of the child participated in a process that assessed the child’s response to scientific, research-based intervention, the determination must include:

• The instructional strategies used and the student-centered data collected; and
• The documentation that the child’s parents were notified about the state’s policies regarding the amount and nature of student performance that would be collected and the general education services that would be provided;
• Strategies for increasing the rate of learning; and
• The parent’s right to request an evaluation. [34 C.F.R. 300.311]

Each group member will certify in writing whether the report reflects the member’s conclusion. If it does not, the group member will submit a separate statement presenting the member’s conclusions. [34 C.F.R. 300.311]

ASDB shall establish, implement, and make available to school-based personnel and parents written procedures for the initial full and individual evaluation of students suspected of having a disability, and for the reevaluation of students previously identified as being eligible for special education. [A.A.C. R7-2-401.E]

Procedures for the initial full and individual evaluation of children suspected of having a disability and for the reevaluation of students with disabilities shall meet the requirements of IDEA and its regulations, state statutes, and State Board of Education rules. [A.A.C. R7-2-401.E]

Free Appropriate Public Education

The determination that a child is eligible for special education and related services will be made on an individual basis by a properly constituted ASDB team. [34 C.F.R. 300.306 and, if applicable, 300.308]

For preschool children (age three [3] to five [5]):

• ASDB will:
  1. Make FAPE available no later than the child’s third birthday;
  2. Ensure that an IEP or an Individualized Family Service Plan (IFSP) is in effect for each child by that date;
  3. Ensure that a child’s IEP team determines the date when services under the IEP or IFSP will begin if a child’s third birthday occurs during the summer.
For school-aged children (age five [5] through twenty-one [21]):

ASDB will make FAPE available to any child who needs special education and related services, even though the child has not failed or been retained in a course or grade, and is advancing from grade to grade. Services for an eligible student with a disability shall extend through concluding of the instructional year during which the student attains the age of twenty-two (22).

ASDB will establish policy and procedure with regard to allowable pupil-teacher ratios and pupil-staff ratios. [A.R.S. 15-764 A.(5)]

The special education programs and services established pursuant to this, section and section 15-765 shall be conducted only in a school facility which houses regular education classes or in other facilities approved by the division of special education. [A.R.S. 15-764.B]

ASDB ensures that assistive technology devices or services or both will be available to a child with a disability, if required, as a part of:

- special education;
- related services;
- supplementary aids and service. [34 C.F.R. 300.105]

On a case-by-case basis, ASDB ensures the use of school-purchased assistive technology devices in a child’s home or other setting if the child’s IEP team determines that the child needs access to those devices in order to receive FAPE. [34 C.F.R. 300.105]

ASDB will make extended school year services available as necessary to provide FAPE to children with disabilities.

- Extended school year (ESY) services will be provided only if a child’s IEP team determines, in accordance with §C.F.R. 300.320 – 300.324, that the services are necessary for the provision of FAPE.
- Services will not be:
  - limited to a particular category of disability; or,
  - unilaterally limited to the type, amount, or duration of services. [34 C.F.R. 300.106]

The ESY services that are provided to a child with a disability will:

- Be provided beyond the normal school year of ASDB;
- Be provided in accordance with the child’s IEP;
- Be provided at no cost to the parents of the child; and
- Meet the standards of the state. [34 C.F.R. 300.106]

ASDB will afford children with disabilities an equal opportunity for participation in nonacademic and extracurricular services and activities including, as determined appropriate and necessary by the child’s IEP team, the provision of supplementary aids and services. [34 C.F.R. 300.107]

Nonacademic and extracurricular services and activities may include counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by ASDB, referrals to agencies that provide assistance to individuals with disabilities, and employment of students, including both employment by ASDB and assistance in making outside employment available. [34 C.F.R. 300.107]
ASDB will make regular physical education services available to children with disabilities to the same extent that ASDB provides those services to children without disabilities, unless:

- The child is enrolled full time in a separate facility; or
- The child needs specially designed physical education as prescribed in the child’s IEP. [34 C.F.R. 300.108]

If special physical education is prescribed in a child’s IEP, ASDB will provide for those services, either directly or through other public or private programs. [34 C.F.R. 300.108]

ASDB ensures that children with disabilities have available to them the variety of education programs and services that are available to nondisabled children, including art, music, industrial arts, consumer and homemaking education, and vocational education. [34 C.F.R. 300.110]

When serving children wearing hearing aids or surgically implanted medical devices, ASDB ensures that:

- The hearing aids worn in school by children with hearing impairments are functioning properly; and
- The external components of surgically implanted medical devices (e.g., cochlear implants) are functioning properly, except that ASDB will not be responsible for any post-surgical maintenance, programming or replacement of any components, external or internal, of the medical device. [34 C.F.R. 300.113]

ASDB may use the Medicaid or other public benefits or insurance programs in which a child participates to provide or pay for services required under IDEA, as permitted under the public benefits or insurance program, except that ASDB:

- Will not require parents to sign up for or enroll in public benefits or insurance programs to receive FAPE;
- Will not require parents to incur out-of-pocket expenses such as payment of a deductible or co-pay for services required by IDEA, but may pay the cost that parents otherwise would be required to pay;
- Will not use a child’s public benefit if that use would:
  - decrease lifetime benefits;
  - result in the family paying for non-school services that would otherwise be paid for by public benefits;
  - increase premiums or lead to discontinuation of benefits; or
  - risk loss of eligibility. [34 C.F.R. 300.154]

ASDB will obtain a one (1)-time written consent from the parent, after providing written notification and prior to accessing a child’s or parent’s public benefits for the first time. The consent must specify:

A. The personally identifiable information that may be disclosed;
B. The purpose of the disclosure; and
C. The agency to which the disclosure may be made.

ASDB will provide a written notification to the child’s parents before accessing the child’s or parent’s public benefits or insurance for the first and prior to obtaining the one-time parental consent and annually thereafter.

ASDB shall establish, implement, and make available to its personnel and parents, written procedures for:
A. The operation of the preschool program, in accordance with federal statute and regulations and the state statutes, that provides a continuum of placements for students;

B. The smooth and effective transition from the Arizona Early Intervention Program to a public school preschool program in accordance with the agreement between the Department of Economic Security and the Department; and

C. The provision of a minimum of three hundred sixty (360) minutes per week of instruction in a program that meets at least two hundred sixteen (216) hours over the minimum. [A.A.C. R7-2-401.K]

Graduation

ASDB ensures that the Governing Board shall prescribe graduation criteria for students with disabilities from its high schools, which shall include accomplishment of the academic standards in at least reading, writing, mathematics, science, and social studies, as determined by ASDB assessment. [A.R.S. 15-701(B) and A.A.C. R7-2-301(D)(1)]

ASDB ensures that the Governing Board shall develop a course of study and graduation and promotion requirements for all students placed in special education programs in accordance with R7-2-401 et seq. [A.R.S. 15-701(B) and A.A.C. R7-2-301(D)(1)]

ASDB will not be obligated to provide FAPE to students with disabilities who have graduated high school with a regular high school diploma. [34 C.F.R. 300.102]

The exception does not apply to children who have graduated from high school, but have not been awarded a regular high school diploma. [34 C.F.R. 300.102]

Graduation from high school with a regular high school diploma constitutes a change of placement requiring prior written notice in accordance with §300.503. [34 C.F.R. 300.102]

An evaluation is not required before the termination of a child’s eligibility due to graduation from secondary school with a regular diploma or due to conclusion of the instructional year during which the student attains the age of twenty-two (22). [34 C.F.R.300.305]

For a child no longer eligible due to graduation or exceeding the age of eligibility, ASDB will provide the child with a summary of the child’s academic achievement and functional performance, which shall include recommendations on how to assist the child in meeting the child’s post-secondary goals. [34 C.F.R. 300.305]

Pupils with disabilities as defined in A.R.S. 15-761 or children who receive special education as defined in 15-763, shall not be required to achieve passing scores on competency tests(AIMS) in order to graduate from high school unless the pupil is learning at a level appropriate for the pupil’s grade level in a specific academic area and unless a passing score on a competency test is specifically required in a specific academic area by the pupil’s IEP as mutually agreed on by the pupil’s parents (or eighteen [18) year old student) and IEP team. [A.R.S. 15-701.01(3)]

Individualized Education Program

Each individualized education program (IEP) of a student with a disability shall be developed in accordance with IDEA and its regulations, state statutes, and State Board of Education rules. If appropriate to meet the needs of a student and to ensure access to the general curriculum, an IEP team may include specially designed instruction in the IEP that may be delivered in a variety of
Each student with a disability who has an IEP shall participate in the state assessment system. Students with disabilities can test with or without accommodations or modifications as indicated in the student’s IEP. Students who are determined to have a significant cognitive disability based on the established eligibility criteria will be assessed with the state’s alternate assessments as determined by the IEP team. [A.A.C, R7-2-401.G]

The contents of each individualized education program (IEP) will include a statement of:

- The child’s present levels of academic achievement and functional performance, including:
  - how the child’s disability affects the child’s involvement and progress in the general curriculum; or
  - for preschool children, as appropriate, how the disability affects the child’s participation in appropriate activities.
- Measurable annual goals, including academic and functional goals designed to:
  - meet the child’s needs that result from the child’s disability to enable the child to be involved in and make progress in the general education curriculum; and
  - meet each of the child’s other educational needs that result from the child’s disability;
  - for children with disabilities who take alternate assessments aligned to alternate achievement standards; a description of benchmarks or short-term objectives;
- How the child’s progress toward meeting the IEP goals will be measured and when periodic reports on the child’s progress toward the goals will be provided;
- The special education and related services to be provided to the child, the supplementary aids and services to be provided to the child or on behalf of the child, the program modifications or supports for school personnel that will be provided to enable the child:
  - to advance appropriately toward attaining the annual goals;
  - to be involved in and progress in the general education curriculum and to participate in extracurricular and other nonacademic activities with other children with disabilities and nondisabled children.
- The extent, if any, to which the child will not participate with nondisabled children in the regular class and in extracurricular and other nonacademic activities;
- Any individual accommodations that are needed to measure the academic achievement and functional performance of the child on state and ASDB-wide assessments;
- If the IEP team determines that the child must take an alternate assessment instead of a particular regular state or ASDB-wide assessment of student achievement, a statement of why:
  - the child cannot participate in the regular assessment; and
  - the particular alternative assessment selected is appropriate for the child;
- The projected date for the beginning of the services and modifications and the anticipated frequency, location, and duration of those services and modifications. [34 C.F.R. 300.320]

Beginning not later than the first IEP to be in effect when the child turns sixteen (16), or younger if determined appropriate by the IEP team, and updated annually, the IEP will also include a statement of:

- appropriate measurable postsecondary goals based upon age appropriate transition assessments related to training, education, employment, and, where appropriate independent living skills;
transition services (including courses of study) needed to assist the child in reaching those goals. [34 C.F.R. 300.320]

Beginning not later than one (1) year before a student reaches the age of eighteen (18), the IEP will include a statement that the parents and the student have been informed of the rights under Part B, if any, that will transfer to the student on reaching the age of eighteen (18). [34 C.F.R. 300.320]

The IEP team for each child with a disability will include:

- The parents of the child;
- Not less than one (1) regular education teacher of the child (if the child is, or may be, participating in the regular education environment);
- Not less than one (1) special education teacher of the child, or where appropriate, not less than one special education provider of the child;
- A representative of ASDB who:
  1. is qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of children with disabilities;
  2. is knowledgeable about the availability of resources of ASDB;
  3. may be an ASDB team member described in the IEP team described above, with the exception of the parents, if the above criteria are met.
- An individual who can interpret the instructional implications of evaluation results, who may be a member of the team described in the IEP team described above,
- At the discretion of the parent of ASDB, other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate; and
- Whenever appropriate, the child with a disability.

  1. A child of any age if the purpose of the meeting is to consider postsecondary goals and transition services needed to assist the child in reaching the IEP goals;
  2. If the student does not attend the IEP meeting, ASDB will take other steps to ensure that the student’s preferences and interests are considered.
     - To the extent appropriate and with consent of the parents or the adult child;
     - ASDB will invite a representative of any participating agency that is likely to be responsible for providing or paying for transition services.
  3. For a child who is transitioning from Arizona Early Intervention Program (AzEIP), representatives from AzEIP must be invited to the initial IEP if the parent requests. [34 C.F.R. 300.321]

A member of the ASDB IEP team described above, is not required to attend the IEP meeting if the parent and the school agree in writing prior to the meeting that attendance is not necessary because the member’s area of curriculum or related services is not being modified or discussed in the meeting. [34 C.F.R. 300.321]

A member of the ASDB IEP team described above, and including a person who can interpret the results, may be excused from attending the IEP meeting in whole or part when the meeting involves a modification to or discussion of the member’s area of the curriculum or related services if the parent, in writing and ASDB consent to the excusal, and the member submits, in writing to the IEP team, input into the development of the IEP prior to the meeting. [34 C.F.R. 300.321]

A parent or ASDB may request in writing a review of the IEP and shall identify the basis for
requesting review. Such review shall take place within forty-five (45) school day of the receipt of the request at a mutually agreed upon date and time. [A.A.C. R7-2-401.G]

ASDB will take steps to ensure parent(s) of a child with a disability are present at each IEP meeting or are afforded the opportunity to participate by:

- Notifying parents of the meeting early enough to ensure that they will have an opportunity to attend; and
- Scheduling the meeting at mutually agreed time and place. [34C.F.R.300.322]

The meeting notice will:

- Indicate the purpose, time, and location of the meeting and who will be in attendance; and
- Inform the parents of the provisions relating to the participation of other individuals who have knowledge or special expertise about the child. [34C.F.R.300.322]

Beginning not later than the first IEP to be in effect when the child turns sixteen (16), the notice will also:

- Indicate that a purpose of the meeting will be the consideration of postsecondary goals and transition services;
- Indicate that ASDB will invite the student;
- Identify any other agency that will be invited to send a representative. [34C.F.R.300.322]

If neither parent can attend, ASDB will use other methods to ensure parent participation, including individual or conference telephone calls. [34C.F.R.300.322]

A meeting may be conducted without a parent in attendance if ASDB is unable to convince the parents that they should attend. In this case, ASDB will maintain a record of its attempts to arrange a mutually agreed on time and place, such as:

- Detailed records of telephone calls made or attempted and the results of those calls;
- Copies of correspondence sent to the parents’ and any responses received; and
- Detailed records of visits made to the parents’ home of place of employment and the results of those visits. [34C.F.R.300.322]

ASDB will take whatever action is necessary to help the parent understand the proceedings at the IEP meeting, including arranging for an interpreter for parents with deafness or whose native language is other than English. [34C.F.R.300.322]

At the beginning of each school year, ASDB will have in effect for each child with a disability in its jurisdiction, an IEP as defined in 300.320. [34C.F.R.300.323]

ASDB ensures that:

- A meeting to develop an IEP for an eligible child is conducted within thirty (30) calendar days of a determination of eligibility for special education and related services.
- As soon as possible following the development of the IEP, the services indicated in the IEP are made available to the child.

For a child aged two (2) years nine (9) months to five (5) years previously served by AzEIP, the IEP team will consider the contents of the child’s Individualized Family Service Plan (IFSP). An IFSP may
serve as the IEP of the child if:

A. ASDB has provided the parents with a detailed explanation of the differences between an IEP and an IFSP;
B. The parent and ASDB agree in writing to the use of an IFSP;
C. The IFSP contains an educational component that promotes school readiness and includes pre-literacy, language and numeric skills; and
D. The IFSP is developed in accordance with IEP procedures. [34C.F.R.300.323]

ASDB ensures that each child’s IEP is accessible to each regular education teacher, special education teacher, related services provider and any other service provider who is responsible for implementing the IEP.

- Each teacher and related service provider will be informed of his or her specific responsibilities in implementing the IEP; and
- The specific accommodations, modifications, and supports that will be provided for the child in accordance with the IEP. [34C.F.R.300.323]

For a child with an IEP who transfers into ASDB from another school system in Arizona, ASDB, in consultation with the parents, will provide a free appropriate public education (including services comparable to the services described in the existing IEP) until ASDB:

- Reviews and adopts the child’s IEP from the previous District, or
- Develops, adopts, and implements a new IEP. [34C.F.R.300.323]

For a child with an IEP who transfers into ASDB from another state, ASDB in consultation with the parents, will provide a free appropriate public education (including services comparable to the services described in existing IEP) until ASDB:

- Conducts an evaluation for eligibility for special education in Arizona, or determines that such an evaluation is unnecessary; and
- Develops, adopts, and implements a new IEP, if appropriate. [34C.F.R.300.323]

To facilitate the transition of a child enrolling from another school system, either from within or from outside of Arizona, ASDB will take reasonable steps to promptly obtain the child’s education records, including all records pertaining to special education, from the previous school system in which the child was enrolled. [34C.F.R.300.323]

When a records request is received from another District, from either within or outside of Arizona, ASDB will promptly respond to the request. [34C.F.R.300.323]

In developing each child’s IEP, the IEP team will consider:

- The strengths of the child and the concerns of the parents for enhancing the education of their child;
- The results of the initial or most recent evaluation of the child; and
- The academic, developmental, and functional needs of the child. [34C.F.R.300.324]

In consideration of special factors, the IEP team will:
• In the case of a child whose behavior impeded his or her learning or that of others, consider the use of positive behavioral interventions and supports, and other strategies to address that behavior;

• In the case of a child with limited English proficiency, consider the language needs of the child as those needs relate to the child’s IEP;

• In the case of a child who is blind or visually impaired, provide for instruction in Braille and the use of Braille unless the IEP team determines, after an evaluation of the child’s reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the child’s future needs for instruction in Braille for the use of Braille) that instruction in Braille or the use of Braille is not appropriate for the child;

• Consider the communication needs of the child, and in the case of a child who is deaf and hard of hearing, consider the child’s language and communication needs, opportunities for direct communication with peers and professional personnel in the child’s language and communication mode, academic level and full range of needs, including opportunities for direct instruction in the child’s language and communication mode;

• Consider whether the child requires assistive technology devices and services. [34 C.F.R. 300.324]

The regular education teacher of a child with a disability, as a member of the IEP team, will, to the extent appropriate, participate in the development, review, and revision of the child’s IEP including the determination of:

• Appropriate positive behavioral interventions and strategies for the child; and

• Supplementary aids and services, program modifications, and/or supports for school personnel that will be provided for the child, consistent with §34 C.F.R. 300.320(a)(4). [34 C.F.R. 300.324]

In making changes to the IEP after the annual IEP meeting, the parent and ASDB may agree to amend the IEP without a meeting for the purpose of making those changes and, instead, develop a written document to amend or modify the child’s current IEP. ASDB will:

• Inform all members of the child’s IEP team of those changes, and

• Upon request, provide the parents with the revised copy of the EIP. [34 C.F.R. 300.324]

To the extent possible, ASDB will encourage the consolidation of evaluation, reevaluation and IEP meetings for child. [34 C.F.R. 300.324]

ASDB ensures that the IEP team reviews the child’s IEP periodically, but not less than annually, to determine if goals are being achieved, and revise the IEP, when appropriate, to address:

• any lack of expected progress toward the annual goals and in the general education curriculum, if appropriate;

• the results of any reevaluation;

• information about the child provided to, or by the parents;

• the child’s anticipated needs, or other matters. [34 C.F.R. 300.324]

If a participating agency other than ASDB fails to provide the transition services in an IEP, ASDB will reconvene the IEP team to identify alternative strategies to meet the child’s transition outcomes. [34 C.F.R. 300.324]

ASDB shall establish, implement, and make available to its school-based personnel and parents
written procedures for the development, implementation, review, and revision of IEPs. [A.A.C. R7-2-401.G]

Procedures for IEPs shall meet the requirements of the IDEA and its regulations, the state statutes, and the State Board of Education rules. [A.A.C. R7-2-401.G]

Procedures shall include the incorporation of the Arizona academic standards as adopted by the State Board of Education into the development of each IEP and address grade-level expectations and grade-level content instruction. [A.A.C. R7-2-401.G]

**Least Restrictive Environment**

ASDB ensures that special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only if the nature of severity of the disability is such that education is regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. [34 C.F.R. 300.114]

ASDB will make available a continuum of alternative placements to meet the needs of children with disabilities for special education and related services. [34 C.F.R. 300.115]

The continuum of alternative placements will include:

- Instruction in regular classes, special classes, special schools, home instruction, and instruction in hospital and institutions;
- Supplementary services, such as a resource room or itinerant instruction, to be provided in conjunction with regular class placement.

The placement decision for each child will be:

- Made by a group that includes the parents and other persons knowledgeable about the child, the meaning of the evaluation data, and the placement options;
- In conformity with the least restrictive environment (LRE) provisions of the IDEA regulations;
- Determined at least annually;
- Based on the child’s IEP, and
- As close as possible to the child’s home. [34 C.F.R. 300.115]

Unless the IEP of a child requires some other arrangement, the child will be educated in the school that he or she would attend if not disabled. [34 C.F.R. 300.115]

In selecting the LRE, consideration will be given to any potential harmful effect on the child or on the quality of services that she/he needs. [34 C.F.R. 300.115]

A child with a disability will not be removed from age-appropriate regular classrooms solely because of needed modifications in the general education curriculum. [34 C.F.R. 300.115]

In providing or arranging for the provision of nonacademic and extracurricular services and activities, including meals, recess periods, and other nonacademic activities, ASDB ensures that each child with a disability participates with nondisabled children in the extracurricular services and activities to the maximum extent appropriate to the needs of that child. [34 C.F.R. 300.117]

ASDB ensures that the supplementary aides and services determined by the IEP team to be appropriate and necessary are provided to allow the child to participate in nonacademic settings. [34
C.F.R. 300.115]

ASDB shall establish, implement, and make available to its school-based personnel and parents, written procedures to ensure the delivery of special education services in the least restrictive environment as identified by IDEA and its regulations, the state statutes, and the State Board of Education rules. [A.A.C. R7-2-401.H]

A continuum of services and supports for students with disabilities shall be available throughout ASDB. [A.A.C. R7-2-401.H]

Procedural Safeguards

ASDB ensures that the parents of a child with a disability shall be given an opportunity to inspect and review all education records with respect to the identification, evaluation, educational placement, and the provision of FAPE to the child. [34 C.F.R. 300.501]

ASDB ensures that the parents of a child with a disability shall:

- be given an opportunity to participate in meetings with respect to the identification, evaluation, educational placement and the provision of FAPE to the child.
- be provided notice consistent with 34 C.F.R. §300.322 to ensure they have opportunity to participate in meetings.
- be members of any group that makes decisions on the educational placement of their child. [34 C.F.R. 300.501]

If neither parent can participate in a meeting in which a decision is to be made relating to the educational placement of their child, ASDB must use other methods to ensure their participation, including individual or conference telephone calls, or video conferencing. [34 C.F.R. 300.501]

A placement decision may be made by a group without the involvement of the parent, if ASDB is unable to obtain the parent’s participation and had maintained a record of its attempts to ensure their involvement. [34 C.F.R. 300.501]

The parents of a child with a disability have the right to obtain an independent educational evaluation of their child. ASDB must provide to the parents, upon request for an independent educational evaluation:

- Information about where an independent educational evaluation may be obtained; and
- The ASDB criteria applicable for independent educational evaluations. ASDB criteria for the independent educational evaluation must be the same as the criteria ASDB uses when it conducts an evaluation, to the extent consistent with the parent’s right to an evaluation.

A parent has the right to an independent educational evaluation at public expense if the parent disagrees with an evaluation obtained by ASDB. If a parent request an independent educational evaluation at public expense, ASDB must, without unnecessary delay, either:

- File for a due process hearing to show that its evaluation is appropriate; or
- Ensure that an independent educational evaluation is provided at public expense, unless ASDB demonstrates in a hearing that the evaluation obtained by the parent did not meet ASDB criteria. [34 C.F.R. 300.502]

If a due process hearing decision is that the ASDB’s evaluation is appropriate, the parent still has the
right to an independent educational evaluation, but not at public expense. [34 C.F.R. 300.502]

If a parent requests an independent educational evaluation, ASDB may ask for the parent’s reasons for the objections, but may not require the parent to provide an explanation and may not unreasonably delay either providing the independent educational evaluation at public expense or filing a request for due process to defend its evaluation. [34 C.F.R. 300.502]

A parent is entitled to only one (1) independent educational evaluation at public expense each time ASDB conducts an evaluation with which the parent disagrees. [34 C.F.R. 300.502]

The results of any independent educational evaluation which is obtained by or provided to ASDB.

- must be considered by ASDB if it meets ASDB criteria, in any decision with respect to the provision of FAPE to the child; and
- may be presented by an party as evidence in a due process hearing. [34 C.F.R. 300.502]

If a hearing officer requests an independent educational evaluation as part of a due process hearing, the cost of the evaluation must be at public expense.

Written notice must be given to the parents of a child with a disability a reasonable time after ASDB:

- Proposes to initiate or change the identification, evaluation or educational placement of the child or the provision of FAPE to the child; or
- Refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of FAPE to the child. [34 C.F.R. 300.503]

Such notice shall occur before the proposal or refusal action is implemented. The notice must include:

- A description of the action proposed or refused by ASDB;
- An explanation of why ASDB proposes or refuses to take the action;
- A description of each evaluation procedure, assessment, record or report ASDB used as a basis for the proposed or refused action;
- A statement that the parents of a child with a disability have protection under the procedural safeguards of this part and, if this notice is not an initial referral for evaluation, the means by which a copy of a description of the procedural safeguards can be obtained;
- Sources for parents to contact to obtain assistance in understanding the provisions of this part;
- A description of other options that the IEP team considered and the reasons why those options were rejected;
- A description of other factors that are relevant to ASDB’s proposal or refusal. [34 C.F.R. 300.503]

The notice must be written in language understandable to the general public, provided in the native language or other mode of communication used by the parent. [34 C.F.R. 300.503]

If the native language or other mode of communication used by the parent is not a written language, ASDB ensures:

- the notice is translated orally or by other means to the parent in his or her native language or other mode of communication;
• that the parent understands the content of the notice;
• that there is written evidence of these requirements. [34 C.F.R. 300.503]

A copy of the procedural safeguards available to the parent of a child with a disability must be given to the parents only one (1) time a school year, except that a copy also must be given to the parents:

• Upon initial referral or parent request for evaluation;
• Upon receipt of a first complaint to the state or first request for due process hearing in a school year;
• When a disciplinary change of placement/removal has been initiated;
• Upon request by a parent. [34 C.F.R. 300.504]

The procedural safeguards notice must include a full explanation of all the procedural safeguards available under 34 C.F.R. 300.148, 34 C.F.R. 300.151 through 300.153, 34 C.F.R 300.300, 34 C.F.R. 300.502 through 300.503, 34 C.F.R. 300.505 through 300.315, 34C.F.R. 300.520, 34 C.F.R. 300.530 through 536, and 34 C.F.R, 300.610 through 300.625 relating to:

• Independent educational evaluations;
• Prior written notice;
• Parental consent;
• Access to education records;
• Opportunity to present and resolve complaints through the due process hearing and state complaint procedures, including;
  • The time period in which to file a complaint;
  • The opportunity for ASDB to resolve the complaint;
  • The difference between due process hearing and state complaint procedures, jurisdictions, issues that may be raised, timelines, and relevant procedures.
  • The availability of mediation;
  • The child’s placement during the due process hearing;
  • Procedures for students subject to placement in an interim alternative educational setting
  • Requesting for unilateral placements by parents of children in private schools at public expense;
  • Due process hearings including requirements for disclosure of evaluations results and recommendations;
  • Civil actions, including timelines;
  • Attorney fees. [34 C.F.R. 300.504]

The notice must meet the same requirements for understandable language as for the written prior notice described in §300.503. [34 C.F.R. 300.504]

The parent of a child with a disability may elect to receive required notices by an electronic mail communications if ASDB makes that option available. [34 C.F.R. 300.505]

ASDB will establish procedures to allow parties to disputes, including those matters arising prior to a request for a due process hearing, to resolve disputes through mediation. Procedures will ensure that the mediation process:

• Is voluntary on the part of the parties;
• Is not used to deny or delay a parent’s right a due process hearing or any other right under IDEA;
• Is conducted by a qualified and impartial mediator who is trained in effective mediation techniques. [34 C.F.R. 300.506]

ASDB may establish procedure to offer to parents and schools that choose not to use mediation an opportunity to meet, at a time and location convenient to the parties, with a disinterested party:

• Who is under contract with an appropriate alternative dispute resolution entity, or a parent training and information center, or community parent resource center;
• Who would explain the benefits of, and encourage the mediation process to the parents. [34 C.F.R. 300.506]

A parent or ASDB may file a request for a due process hearing relating to the identification, evaluation or education placement of a child with a disability. [34 C.F.R. 300.507]

The request for a due process hearing must allege a violation that occurred not more than two (2) years before the date the parent or ASDB knew or should have known about the alleged violation. [34 C.F.R. 300.507]

ASDB will have procedures that require either party, or the attorney representing a party, to provide to the other party a confidential due process complaint. [34 C.F.R. 300.508]

The due process hearing complaint must include the following in order for the complaint to be heard:

• The name of the child;
• The residential address of the child;
• The school of attendance;
• The description of the nature of the problem of the child relating to the proposed or refused initiation or change, including facts relating to the problem; and
• A proposed resolution of the problem to the extent known and available to the party at the time. [34 C.F.R. 300.508]

The due process complaint will be deemed sufficient unless the party receiving the complaint notifies the hearing officer and the other party in writing, within fifteen (15) days of receipt of the complaint, that it believes the complaint does not meet the content requirements. [34 C.F.R. 300.508]

Within five (5) days of receipt of notice, the hearing officer must determine whether the complaint meets the requirements and notify the parties, in writing, of that determination. [34 C.F.R. 300.508]

A party may amend its due process complaints only if:

• The other party consents in writing and is given an opportunity to resolve the complaint through the resolution process; or
• The hearing officer grants permission, but in no case later than five (5) days before the due process hearing begins. [34 C.F.R. 300.508]

If a party files an amended complaint, the relevant timelines begin again. [34 C.F.R. 300.508]

If ASDB has not sent a prior written notice to the parent regarding the subject matter contained in the due process complaint, it must do so within ten (10) days of receiving the complaint. [34 C.F.R. 300.508]

Within ten (10) days of receiving the complaint, the receiving party will send to the other party a response that specifically addresses the issues raised in the due process complaint. [34 C.F.R. 300.508]
Within fifteen (15) days of receiving the notice of the parent’s due process complaint, and prior to the initiation of a due process hearing, ASDB must convene a meeting with the parent and the relevant members of the IEP team who have specific knowledge of the facts identified in the complaint that:

- Includes a representative of ASDB who has ASDB decision-making authority;
- May not include an attorney of ASDB unless the parent is accompanied by an attorney. [34 C.F.R. 300.510]

The purpose of the meeting is for the parent of the child to discuss the due process complaint, and the factual basis of the complaint, so ASDB has the opportunity to resolve the dispute. [34 C.F.R. 300.510]

The resolution meeting need not be held if:

- The parent and ASDB agree in writing to waive the meeting; or
- The parent and ASDB agree to use mediation process. [34 C.F.R. 300.510]

The parent and ASDB determine the relevant IEP team members to attend the meeting. [34 C.F.R. 300.510]

If ASDB has not resolved the complaint to the satisfaction of the parent within thirty (30) days of the receipt of the complaint, the due process hearing may occur. The timeline for issuing a final decision begins at the end of this thirty (30) day period. [34 C.F.R. 300.510]

The failure of the parent to participate in the resolution meeting that has not been mutually agreed to be waived, will delay the timelines for the resolution process and due process hearing until the meeting is held. [34 C.F.R. 300.510]

If ASDB is unable to obtain the participation of the parent after reasonable efforts have been made and documented, ASDB may, at the conclusion of the thirty (30) day period, request the hearing officer dismiss the parent’s due process complaint. [34 C.F.R. 300.510]

If ASDB fails to hold the resolution meeting within fifteen (15) days of receiving the complaint or fails to participate in the meeting, the parent may request that the hearing officer begin the hearing timeline. [34 C.F.R. 300.510]

The forty-five (45) day timeline for the due process hearing starts the day after:

- Both parties agree in writing to waive the resolution meeting; or
- After either the mediation or resolution meeting starts but before the end of the thirty (30) day resolution period, the parties agree in writing that no agreement is possible; or
- If both parties agree in writing to continue the mediation at the end of the thirty (30) day resolution period, but late, one (1) party withdraws from the mediation process. [34 C.F.R. 300.510]

If a resolution is reached at the meeting, the parties must execute a legally binding agreement that is:

- Signed by both the parent and ASDB representative who has authority to legally bind ASDB; and
- Enforceable in any state court of competent jurisdiction or in a district court of the United States. [34 C.F.R. 300.510]
Either party may void the agreement within three (3) business days of the agreement’s execution. [34 C.F.R. 300.510]

The child involved in the due process hearing complaint must remain in his or her current educational placement:

- Unless a discipline appeal has been filed as provided in §34 C.F.R. 300.533;
- During the pendency of any administrative or judicial proceeding regarding a due process complaint notice requesting a due process hearing under §34 C.F.R. 300.518

If the complaint involves an application for initial admission to public school, the child, with the consent if the parents, must be placed in the public school until the completion of all the proceedings. [34 C.F.R. 300.518]

If the complaint involved an application for initial services for a child who has turned three (3) and transitioning from Part C and Part B, ASDB is not required to provide the Part C services the child had been receiving. If the child is found eligible for special education and related services under Part B, and the parent consents to the initial provision of services under §34 C.F.R. 300.300(b), then ASDB must provide those services that are not in dispute. [34 C.F.R. 300.518]

If the hearing officer agrees with the child’s parents that a change of placement is appropriate, that placement must be treated as an agreement between the state and parent for the purposes of (1)(c) of this section. [34 C.F.R. 300.518]

ASDB ensures that the rights of a child are protected by assigning an individual to act as a surrogate for the parents when:

- No parent can be identified;
- After reasonable efforts are made, no parent can be located;
- The child is a ward of the state (with no foster parent);
- The child is an unaccompanied homeless youth as defined by the McKinney-Vento Homeless Assistance Act. [34 C.F.R. 300.519]

ASDB will have a method for determining when a surrogate parent is needed and for making surrogate parent assignments. [34 C.F.R. 300.519]

ASDB ensures that a person selected as a surrogate parent:

- Is not an employee of the state, ASDB, or any other agency that is involved in the education or care of the child;
- Has no personal or professional interest that conflicts with the interest of the child the surrogate parent represents; and
- Has knowledge and skills that ensure adequate representation of the child. [34 C.F.R. 300.519]

In the case of an unaccompanied homeless youth, appropriate staff of emergency shelters, transitional shelters, independent living programs, and street outreach programs may be appointed as temporary surrogate parents until a surrogate parent can be appointed that meets all the requirements of this section. [34C.F.R. 300.519]

When a child with a disability reaches age eighteen (18), unless that child has been determined to be incompetent:
• ASDB will provide any notice required by the IDEA regulations to both the child and the parents; and
• All rights accorded to parents under Part B of the Act transfer to the child. [34C.F.R. 300.520]

When the rights are transferred, ASDB will provide notice to the child and parent of the transfer of rights. [34C.F.R. 300.520]

ASDB shall establish, implement, and make available to school-based personnel and parents of students with disabilities written procedures to ensure children with disabilities and their parents are afforded the procedural safeguards required by federal statute and regulation and state statute. These procedures shall include dissemination of information to parents about ASDB’s and State’s dispute resolution options. [A.A.C. R7-2-401.I]
Both state and federal law mandates that student assessments as well as meetings regarding assessments, Individual Education Programs (IEP) and placement in special education programs are to be interpreted in the language of the home in order for the student and the student’s parents to fully participate.

Some educational field trips, special parent or student conferences, and other meetings require the use of an interpreter in sign language in order to accommodate full participation of staff and students who are deaf or hard of hearing as well as others in a variety of communication situations. All employees are expected to acquire a basic skill in sign language.

The employment of trained and certified interpreters is intended to ensure clarity and completeness of information as well as participation of all persons in those communication situations.

The following guidelines will be used in securing interpreters and translators.

- **Spanish.** The following situations will be considered as a priority for employing translators:
  - Educational Meetings mandated by law, including disciplinary conferences for the purposes of reviewing assessment results, developing of Individual Education Programs, placement in special education programs, and third-year evaluations.
  - Parent meetings in groups such as the Parent Advisory Committee, Open House, and other general school meetings.
  - Counseling sessions, special staffing, and parent conferences on urgent topics relevant to students.
  - Written translations of school-wide policies, forms, parent communications, health care issues, and legal documents.

Bilingual employees ACCOMPANIED BY THE EMPLOYEE COMMUNICATING THE INFORMATION will interpret the following situations in Spanish

- Telephone calls.
- Progress reports and assessment results.
- Routine parent conferences and contracts.
- Schedules of departmental activities.
- Departmental letters regarding general information, health care, school events, and individual health care issues.
- Interdepartmental documents and meetings that are not legally mandated but are part of the ongoing educational programs.
- Emergency translating when a translator cannot be obtained.

- **Sign Language.** The following situation will be considered as a priority for employing a sign language interpreter:

  - Educational meetings mandated by law, including multidisciplinary conferences for the purpose of reviewing assessment results, developing of Individual Education Programs, placement in programs, and third-year evaluations when parents or students of a legal age are deaf or hard of hearing.
  
  - Parent meetings in groups such as the Parent Advisory Committee as needed.
  
  - Legal/employee situations as needed for school staff.
  
  - Board meetings as needed.
  
  - Parent conferences on urgent, specific topic relevant to student performance as needed.
  
  - Workshops, large group in-service training, all school staff meetings of technical nature.
  
  - Field trips with teachers who are deaf or hard of hearing.
  
  - Off campus meetings attended only by a staff person who is deaf or hard of hearing.

Certified interpreters are recommended and will be secured first, particularly if they have specific training for a particular situation. An example is getting a legal interpreter for situations relevant to explanation or discussion of current statues.

Employees will be expected to communicate in sign language in the following situations:

- Routine parent conferences with parents who are deaf or hard of hearing.

- Departmental meetings.

- Individual contact with students or parents who are deaf or hard of hearing.

- Small group meetings.
Procedure to Obtain an Interpreter:

- An interpreter is to be obtained by completing form IHB-EB.
- Principal and director approves request.
- Form is sent to the department of instructional support services at least five (5) working days prior to the activity.
- Emergency situations require completion of a form after the use of an interpreter if it cannot be accomplished prior to the activity.
- The department of instructional support services will locate and employ an interpreter according to established guidelines and priorities.
- Employee requesting interpreter will be notified one (1) working day prior to needed time as to the disposition of the request.
SPECIAL INSTRUCTIONAL PROGRAMS AND ACCOMMODATIONS
(Procedures for Mainstreaming Students Into Public Schools)

Parent(s) of the student, school district of residence, and ASDB personnel may participate in the Individualized Education Program (IEP) or IEP review where general options for class(es) and schools are discussed. A decision to mainstream is made as a part of the IEP process.

The ASDB Principal notifies the public school district of the potential placement of the ASDB student.

The team, including at least the parent, Principal/Director (instructional leader) and public school representative, reviews the options and decides whether to proceed with the program as outlined.

The ASDB Principal coordinates registration with the parents, student and the public school.

Once registration is complete, ASDB principal sends the public school contact person, ASDB staff and parents a finalized schedule.
SPECIAL INSTRUCTIONAL PROGRAMS
(Reading and Writing Literacy Policy for Students Who Are Blind or Visually Impaired)

The first value statement of ASDB mission is: "We are committed to excellence in education of all children and youth with sensory impairments throughout Arizona". In order for students who are blind or visually impaired to successfully integrate into society, they need to be able to read and write efficiently and effectively.

Reading And Writing
The Board expects students who are blind or visually impaired (and who have no other mental, learning, or sensory impairments) to become as literate as they would if they were not blind nor visually impaired. This means that those students are expected to learn to read and write within the same range of proficiency as their sighted peers in general education.

For nearly all students who are blind or visually impaired to become as proficient at reading and writing as their sighted peers, Braille is essential and should be either the primary or strong secondary method of reading and writing. When properly taught and emphasized at the earliest possible age, Braille is just as efficient and effective for the student who is blind or visually impaired as print is for the sighted student.

Students with residual vision should use that vision to the greatest extent practical and may be able to function at some level of proficiency using print. However, if these students are unable to read and write within the same range of proficiency as their sighted peers (as would be indicated by a negative response to any of the practical assessment questions listed below), then these students must become proficient at reading and writing through the medium of Braille and use Braille as either their primary or strong secondary method of reading and writing in order to become truly literate.

The determination of which students should learn to use Braille for reading and writing should be based upon functional and practical considerations, rather than technical or legal definitions, such as "totally blind", "legally blind" or "visually impaired".

The practical assessment should examine the following questions:

- Can the student, functioning visually:
  - Read and write print for an extended period of time without fatigue or eyestrain?
  - Read printed materials within the same range of rate proficiency as sighted peers?
  - Compete with sighted peers in quality and quantity of reading and writing?
  - Efficiently read back his or her own handwriting?
• Comprehend the material he or she reads?
• Does the student, functioning visually:
  • Often read books or magazines for pleasure?
  • Rely on print rather than tape-recorded materials and readers?
  • Have and demonstrate a basic understanding of English skills, namely, spelling, punctuation, paragraphing, sentence construction, capitalization, etc.

A negative response to any of the above questions indicates that the student should learn Braille as either the primary or strong secondary method of reading and writing in order to become fully literate. Students, who are too young or immature to determine a primary medium, should be taught both print and Braille until a decision can be made.

Additionally, the following factors should be considered:
• Does the student's visual acuity fluctuate?
• Does the student have a significantly restricted visual field which limits the usefulness of some visual aids?

Employees shall encourage students who are blind or visually impaired, their parents and other members of the Individualized Education Program (IEP) or the Individualized Family Service Plan (IFSP) team to:
• Have the expectation that these students will become as proficient at reading and writing as their sighted peers; and
• Understand and recognize the essential role of Braille in helping these students to become fully literate.

Assessment

The decision regarding the primary method of reading and writing will be made on an individual basis and is the role of the IEP team, which includes the parent and/or student. The decision will be based on appropriate assessment procedures and may include any or all of the following team members:

• Psychologist
• Occupational/Physical Therapist
• Reading Specialist
• Ophthalmologist and/or Optometrist
• Low Vision Specialist
• Communication/Language Specialist
• Classroom Teacher(s)
• Parent
• Student

The initial decision shall consider the lifelong needs of the student and shall be re-evaluated as a part of the three (3)-year evaluation process or more often if the situation warrants.
Assessment regarding the primary reading medium should include: visual etiology and prognosis; efficiency as determined by reading rate; effectiveness as determined by an analysis of miscues; achievement; distance from the page if a print reader; fatigue; learning style; cognitive level; portability of medium or device; and student and parent preference.

Other Communication Skills
The mastery and application of communication skills include the acquisition, organization, retrieval and communication of information. Such mastery allows for the student’s efficient functioning and maximum independence in current and future life situations. Communication skills other than reading and writing should be addressed for all students who are blind or visually impaired.

- Communication skills for all students who are blind or visually impaired will include consideration of skills in accessing, processing and transmitting information in the most effective medium (a) for each individual student. A variety of communication skills are needed by each student so that he or she can be flexible and use the medium (a) that is best suited to the task and to the individual.

- Communication skills include reading, writing, listening, speaking and use of slate and stylus, computer, electronic communication devices and other specialized equipment. Specialized communication skills must be developed, according to the needs of the individual, to maximize their independence.

- The use of specialized communication modes and equipment should be taught throughout the program and students should be encouraged to utilize the skills in all aspects of their lives.

Support Services
Students who experience a sudden or gradual loss of vision will receive counseling regarding the use of new reading, writing or communication modes.

ASDB will support this policy by providing ongoing in-service opportunities for employees and parents to maintain skills so that they can promote literacy for the students, and learn about new methods and equipment.

Information and equipment available in ASDB programs will be made accessible to all students and employees who use Braille, print, augmentative communication devices or auditory modes.

School staff will foster a positive attitude toward all communication modes through instruction of students, staff development and support services programs.

SPECIAL INSTRUCTIONAL PROGRAMS AND ACCOMMODATIONS
(Access to Learning; Recognition of American Sign Language)

All students will have access to learning based on their linguistic strengths and needs, as referenced in Arizona Revised Statute 15-1302 (E). American Sign Language (ASL) and English are both recognized as languages.

Adopted: March 24, 2016
All students will have access to learning based on their linguistic strengths and needs. American Sign Language (ASL) and English are recognized as separate languages but of equal importance. We are committed to ASL and English excellence for students and staff.

ASDB strives to develop effective communication skills in our students through the proficient use of American Sign Language (ASL) and English to ensure that our students reach their maximum linguistic potential. The acquisition of ASL is expected to be facilitated in order to foster a visual language.

Any level of communication from the child is accepted. American Sign Language and English are used at all instructional levels in order for learning to be accessible. Reading and writing are implemented across the curriculum.

Oral/aural abilities in English are fostered for students on an individual and group basis based on Individualized Education Program (IEP) and Individual Family Service Plan (IFSP). These skills are taught to complement the overall development and fluency of language.

Students may require augmentative/alternative systems of communication that allow them to understand and be understood in a meaningful manner and in a variety of settings.

Students have full access to communication inside and outside the classroom. Administrators, faculty, and staff sign when individuals who are deaf or hard of hearing are around.

ASL classes are provided to families of children of all ages so that family members can enrich their children’s learning and foster a language rich environment.

Parents, Deaf and Hearing community members and staff form a partnership to ensure that all staff who have direct contact with students who are deaf or hard of hearing, meet the established ASL level of competency.

Assessment of the students’ ASL and English occurs at all levels to ensure that appropriate programs can be planned and effective instructional strategies be implemented through the IEP/IFSP process.

ASDB encourages the hiring of Deaf/underrepresented people in all positions, including non-instructional support, to provide children with appropriate language and role models.
GIFTED AND TALENTED EDUCATION

The Board requires that appropriate instructional campus based programs be conducted to meet the needs of exceptionally gifted students of school age, in keeping with ASDB’s goal of developing the special abilities of each student. Expanded academic course offerings, programs and supplemental services shall be provided as an integral part of the regular school day to gifted pupils identified in accord with relevant statutes. A program scope and sequence for gifted education including those requirements found in A.R.S. 15-779.02 shall be prepared and submitted in a form required by the Department of Education for approval by July 1 if any changes were made the previous year and by the same date at least every five (5) years if no changes were made.

The framework for said programs shall encompass the following objectives:

- Expansion of academic attainments and intellectual skills.
- Stimulation of intellectual curiosity, independence, and responsibility.
- Development of originality and creativity.
- Development of positive attitude toward self and others.
- Development of desirable social and leadership skills.
- Career exploration and awareness.

Ability of candidates for this program shall be evidenced by:

- Achievement in schoolwork.
- Scores on tests measuring intellectual ability and aptitude.
- The judgments of teachers, psychologists, administrators, and supervisors familiar with the demonstrated abilities of the students.

Procedures shall be established by the Superintendent for identifying students of demonstrated achievement or potential ability.

Transfer students previously identified as gifted by another district or charter school shall, within a reasonable and timely period, have determined whether they are to receive gifted education in ASDB and if so have the program provided without unreasonable delay.

PROGRAMS FOR PREGNANT/ PARENTING STUDENTS

Pregnant students should have the same educational opportunities as their peers. Such students may also need additional counseling and health services that are available through the public schools.

Pregnant students may elect to remain in the regular school program and shall not be involuntarily excluded from any part of the school program, provided, however, that reasonable safeguards are maintained both for the school's and the student's best interests.

Pregnant students shall notify school authorities of their status as soon as it is ascertained. The Superintendent or designee will establish regulations as necessary to implement this policy.

*Adopted: March 24, 2016*
ASDB affirms the right of a pregnant student to continue her participation in the public school program.

As soon as the pregnancy is medically confirmed, the student shall consult with a member of the counseling staff or the Principal/Director for the purpose of planning her educational program.

The student may be eligible for the following educational plans or may suggest alternatives:

- She may remain in her present school program, with modifications as necessary, until the birth of her baby is imminent or until her physician states that continued participation would be detrimental to her health.

- If eligible for homebound or chronic illness status, in accord with A.R.S. 15-901, she may temporarily withdraw from school at the direction of her physician and may receive homebound instruction from the date of her withdrawal until her physician states that she is physically able to return to school.

Efforts will be made to see that the educational program of the student is disrupted as little as possible; that she receives information on available health and counseling services, as well as instruction; and that she is encouraged to return to school after delivery.
COMPENSATORY EDUCATION
(Title I)

The Superintendent shall pursue funding under Title I, Improving the Academic Achievement of the Disadvantaged, of the Elementary and Secondary Education Act, to supplement instructional services and activities in order to improve the educational opportunities of educationally disadvantaged or deprived children.

Teachers, administrators, and other staff shall be assigned in ASDB schools in a manner that ensures equivalency. Curriculum materials and instructional supplies shall be provided in a manner that ensures equivalency among campus based programs.

• Provide such other reasonable support for parental involvement activities under this section as parents/guardians may request.

In carrying out the parental involvement requirements of this compact, the schools, to the extent practicable, will provide full opportunities for the participation of parents/guardians with limited English proficiency or disabilities, including providing information and school reports in a format and, to the extent practicable, in a language such parents/guardians understand.
Individual schools in which twenty (20) or more students of a given grade level receive parental exception waivers in accord with A.R.S. 15-753 shall offer classes teaching English and other subjects through bilingual education techniques or other generally recognized educational methodologies permitted by law. Where these programs are not available students receiving parental exception waivers shall be permitted to transfer to a public school in which such a class is offered.

Prerequisites for Waiver Requests
With prior written informed consent, provided on an annual basis, a student's parents or legal guardian may request a waiver from the application of A.R.S. 15-752 - being placed in an English language classroom. In order to apply for a waiver the parents or guardian must:

- Visit the school to apply for the waiver, and while at ASDB,
- Be provided a full description of the educational materials to be used in the different educational program choices, and
- Be provided all the educational opportunities available to the child.

Parental Exception Waiver
A parental exception waiver may be applied for if the above prerequisites have been met and at least one (1) of the following applies:

- The student already possesses good English language skills, as measured by:
  - Oral evaluation or standardized tests of English vocabulary comprehension, reading, and writing, in which the student scores:
  - Approximately at or above the state average for the student's grade level, or
  - At or above the 5th grade average, whichever is lower
- The student is age ten (10) or older, and:
  - It is the informed belief of the Principal/Director and educational staff that an alternate course of educational study would be better suited to the student's overall educational progress and rapid acquisition of basic English language skills.
  - The student has special individual needs (physical and psychological needs above and beyond the lack of English proficiency).
  - Any decision to issue a waiver based on special individual need is to be made subject to the examination, approval and authorizing signature of the
Superintendent or designee within, but not limited to, the following guidelines:

- The student has already been placed in an English language classroom for not less than thirty (30) calendar days during that school year.

- It is subsequently the informed belief of the Principal/Director and educational staff that the child has such special and individual physical or psychological needs, above and beyond the lack of English proficiency, and an alternate course of educational study would be better suited to the student's overall educational development and rapid acquisition of English.

- A written description of not less than two hundred fifty (250) words documenting these special individual needs for the specific student must be provided and permanently added to the student's official school record.

- A special needs review has been completed by persons knowledgeable about the student, the student's school history, the student's special individual needs, the meaning of evaluation data, and the placement options. The review shall be based upon the student's existing records, including academic, social, and behavioral records.

- The waiver application must contain the original authorizing signature of the Principal/Director.

- If the student has been determined to be a student with a disability under the Individuals with Disabilities Education Act then all procedural safeguards including those relative to evaluation and the provision of free appropriate public education (FAPE) must be followed.

- If the student has been determined to be a student with a disability under Section 504 of the Rehabilitation Act of 1973, evaluation and such accommodations as are necessary to provide a free appropriate public education shall be provided in accord with the act.

- Teachers and local school districts may reject waiver requests without explanation or legal consequence. The existence of such special individual needs shall not compel issuance of a waiver.

- The parents shall be fully informed of their right to refuse to agree to a waiver for special individual needs.

The Superintendent or designee shall develop regulations as necessary for implementation of this policy.

BILINGUAL INSTRUCTION/ NATIVE LANGUAGE INSTRUCTION

Bilingual education will be implemented as an integral part of the total curriculum, preschool through high school, in order to assist in achieving the Individualized Education Program (IEP) or Individualized Family Service Plan (IFSP) of each child.

ASDB recognizes the inherent linguistic and cultural diversity of its students. Within this context, bilingual education is incorporated as a sound programmatic response to equal education opportunity.

Bilingual education incorporates each student’s linguistic and cultural attributes into a total learning experience producing individuals who will be full participants in our pluralistic society while continuing to preserve, manifest and enjoy their own cultural uniqueness.

Bilingual education recognizes the uniqueness of the learning process of disabled children, the communication modes of deaf or hard of hearing children, and the need for individual assessments and educational plans for each child. Each child will be assessed according to the Arizona Administrative Code regulations for the English Language Learner Programs. This assessment shall include an evaluation of the student’s bilingual status and, where appropriate, the multidisciplinary staffing shall recommend an appropriate program.

The implementation of the bilingual policy shall include the following for students in Special Education Programs and served by ASDB:

- **Identification.** The primary home language of all students shall be identified as a part of the intake process. The primary home language of the student shall be considered to be other than English in any of the following cases:
  - The language most often spoken in the student’s home is other than English, regardless of the language spoken by the student.
  - The language most often spoken by the student is other than English.
  - The student’s first acquired language is other than English.

- **Assessment.** If Non-English is specified as the primary home language, an oral language proficiency assessment test will be administered to determine English proficiency. The oral language assessment used will be one of the three tests approved by the State Board of Education. Students who score below the publisher’s designated score for fluent English proficient shall be classified as limited English proficient.
If the multidisciplinary evaluation or IEP team find the procedures to be inappropriate for a particular special education student, the evaluators shall employ alternate procedures for identifying such students or assessing/reassessing their English language proficiency. Persons conducting the English language assessment shall participate with the special education multidisciplinary evaluation or IEP team in the determination of the student’s English language proficiency designation.

- **Program Plan.** The Multidisciplinary staffing, which includes evaluators, educators, and parents, shall develop a plan that provides for the most appropriate, effective and efficient program designed to meet the individual needs the student has to achieve the curricular goals established by ASDB.

  - Non-lingual children shall be placed in a language development program to develop the most effective English competency possible.
  
  - Children whose primary language is other than English shall be provided bilingual support according to the established IEP by a qualified teacher.
  
  - Children whose English competency is equal to or superior to the Non-English language shall be provided bilingual support if they are underachieving due to their bilingual status.
  
  - The annual review of placement shall consider the need for continued bilingual support.

ASDB shall maintain a bilingual instructor for purposes of serving bilingual children as determined by the IEP. ASDB shall contract, where necessary, to obtain the expertise necessary to help assess, diagnose, and plan the child’s program.
HOMEBOUND INSTRUCTION

“Homebound” means a student who is capable of profiting from academic instruction but is unable to attend school due to illness, disease, accident, or other health conditions, who has been examined by a competent medical doctor and who is certified by that doctor as being unable to attend regular classes for a period of not less than three (3) school months or a pupil who is capable of profiting from academic instruction but is unable to attend school regularly due to chronic or acute health problems, who has been examined by a competent medical doctor and who is certified by that doctor as being unable to attend regular classes for intermittent periods of time totaling three (3) school months during a school year. Homebound includes a student who is unable to attend school for a period of less than three (3) months due to a pregnancy if a competent medical doctor, after an examination, certifies that the student is unable to attend regular classes due to risk to the pregnancy or to the student’s health.

Requests for homebound instruction must be made to the school office, coordinated with the Special Education Department of the school district of residence, and shall include medical certification stating the general medical condition, such as illness, disease or chronic health condition, that is the reason the student is unable to attend school. Homebound instruction must be provided a minimum of four (4) hours per week by teachers with the same certification as the regular classroom teacher, and in coordination with services provided by the district of residence. Full-time attendance may be counted for each day during a week in which the student receives at least four (4) hours of instruction. Campus based classroom teachers are expected to work with the teachers of homebound students concerning materials to be covered in order that each homebound student may rejoin the class upon return to school.

ONLINE / CONCURRENT / CORRESPONDENCE COURSES

Online Instruction

Online instruction is a learning option for meeting the needs of students in the information age. The ASDB Board may authorize student enrollment in online courses for credit to fulfill the academic requirements of the ASDB Board and the State Board of Education (SBE). The course(s) must be provided by an online course provider or an online school selected and approved by the SBE as defined by and in accordance with the criteria established in A.R.S. 15-808.

To satisfy ASDB class and course standards, the course offerings and content must:

- meet ASDB and SBE academic standards for the identified student population,
- provide at least the minimum course of study and competency requirements for graduation from high school, based on the current cohort year requirements, and
- prepare students for post-secondary success in the world of work, technical school, or college.

To receive credit towards promotion or graduation, a student participating in online instruction shall:

- satisfactorily complete the course requirements, and
- participate in the testing requirements prescribed by A.R.S. 15-741 et seq.

Students will not be allowed to participate if the student fails to comply with the testing requirements and the online instruction provider fails to administer the tests to at least ninety-five percent (95%) of the students participating in the provider school's online instruction.

Upon the student's enrollment in online instruction, the student's parents or guardians shall be notified of the state testing requirements.

ASDB shall coordinate with the online instruction provider the gathering, recording, maintenance and reporting of applicable information to the student's parents or guardians, campus officials, and the appropriate agencies, including the district of residence.

If a student's academic achievement declines while the student is participating in online instruction, the student's parents or guardians, teachers and instructors, and the school's Principal or designee shall confer to evaluate whether the student's continued participation in online instruction should be allowed.
Whenever a student becomes ineligible for continuation in an online course or program, for whatever reason, the student shall be enrolled in an ASDB equivalent course or courses appropriate to the student's academic qualifications.

Adopted: March 24, 2016
The teacher-student ratio for staffing in ASDB is the responsibility of the Board. Staffing patterns and student grouping shall be flexible so as to accommodate varied instructional delivery approaches, student needs, curriculum requirements, and fiscal resources. Each year the Superintendent will make staffing recommendations during the budget review and preparation process.

It is the intent of ASDB to maintain a special education teacher-student ratio that will allow the teacher to work effectively and efficiently toward the Individualized Education Program (IEP) objectives of each student with a disability and to work with classroom teachers to prevent learning problems whenever possible.

Adopted: March 24, 2016
### Student-teacher ratios and student-staff ratios

Specific decisions regarding class size shall be made after considering several factors that impact the quality of such services:

- The number of identified students receiving direct special education services and the average number of hours such services are provided each week.
- The number of identified students receiving indirect (consultative) special education services and the average number of hours such services are provided each week.
- The average number of hours per week the special education teacher spends providing indirect services to non-placed students. This item includes collaborative planning and instructional/behavioral program consultation with classroom teachers and other members of the school-based team, regular class instruction provided by the special education teacher to non-placed students (e.g., co teaching), and all assessment/evaluation/conference functions associated with such students.
- Special conditions of individual students (e.g., physical, sensory, medical, technology needs).
- Travel time involved, when appropriate.

The following goals for pupil-teacher ratios serve as a guide for the provision of services. Aides in the classroom will be based on the individual needs of the students. The final decision regarding a student's placement will be based on the student's needs, however, not on ratios. These goals apply only to programs located on the ASDB campuses.

INSTRUCTIONAL RESOURCES AND MATERIALS

Supplies
At the beginning of each school year, all students in the elementary [pre-kindergarten (pre-K) through grade eight (8)] schools will have required textbooks in an accessible format, and supplies furnished by ASDB when appropriate.

At the beginning of each school year, ASDB shall furnish free required textbooks and related subject matter materials in accessible formats for high school students in grades nine (9) through twelve (12).

A student or parent may purchase, at the price paid for the books, such books as are necessary for high school students. Students and their parents shall be held responsible for proper care of books and school property. Books must be kept clean and unmarked. Parents of campus-based students may be required to pay for any damage to ASDB property, as noted in the Student Handbook.

The Superintendent is authorized to establish a replacement-fee schedule and make it available to students, staff members, and parents. Students and parents will be advised of this replacement-cost responsibility upon enrollment or at the beginning of each school year.

ASDB shall obtain signed, written consent from a student’s parent or guardian before using video, audio or electronic materials that may be inappropriate for the age of the student.

Access to Instructional Material by Parents and Guardians

The Superintendent shall establish regulations that permit parents or guardians of students enrolled in ASDB campus based programs access to the instructional materials, learning materials and activities currently used by, or being considered for use by, ASDB in accordance with the terms of this policy. A parent who objects to any learning material or activity on the basis that the materials or activity is harmful, because of sexual content, violent content, or profane or vulgar language may request to withdraw that student from the activity or from the class or program in which the material is used and request an alternative assignment

The request by the parent or guardian must be in writing and must specify the materials that the parent or guardian wishes to review.

Such procedures shall make available at least one (1) copy of the campus materials in an accessible format for review by the parents or guardians. Textbooks, supplementary books, and subject-matter materials in accessible formats may be checked out from ASDB premises by parents or guardians for periods not to exceed forty-eight (48) hours. All other materials, including films, may be reviewed only on ASDB’s premises.

Parents or guardians will be notified when and where the instructional materials may be picked up or reviewed. Materials will be made available on a first-come, first-served basis.

Adopted: March 24, 2016
TEXTBOOK / SUPPLEMENTARY MATERIALS SELECTION AND ADOPTION

The ASDB Board will approve and adopt all new textbooks and instructional materials for campus based programs. The Superintendent or designee shall establish textbook selection procedures that provide appropriate involvement of staff members, students, and community members. These procedures will include the deletion of previously approved textbooks and instructional materials. These procedures may provide for the establishment of textbook selection committees. Recommendations from textbook selection committees will be forwarded to the Superintendent or designee.

Textbooks and supplementary books recommended by textbook selection committees will be placed on display in the ASDB office for a period of at least sixty (60) days prior to the meeting at which the Board will consider their adoption.

In recommending books, the committees will strive for continuity of textbooks throughout the different grades and use the same book series in all classes of the same grade.

Objectives of Selection

It is the responsibility of the school textbook committee to:

- Recommend resources that will support and enrich the curriculum, taking into consideration the varied interests, abilities, learning styles, and maturity levels of students served.
- Recommend resources that will stimulate growth in factual knowledge, critical analysis of differing sides of issues, literary appreciation, aesthetic values, and recognition of various societal values.
- Place principle above personal opinion and reason above prejudice in the recommendation of resources of the highest quality in order to assure a comprehensive collection of resources appropriate for the complete education of all students.

The Superintendent or designee will establish procedures for the purchase and distribution of all necessary textbooks, supplemental books, and other related instructional materials from the adopted list free of cost to students.

Removal of Textbooks/Supplementary Materials

Textbook selection committees may recommend to the Superintendent or designee that certain previously adopted textbooks or supplementary materials be deleted from the board-approved list. Textbooks and instructional materials will not be deleted without the Superintendent's or designee’s approval.

Disposal of Learning Materials

The Board authorizes the Superintendent to establish procedures for the disposal of surplus or outdated learning materials when it has been determined that the cost of selling such materials equals or exceeds estimated market value of the learning materials.

*Adopted: March 24, 2016*
TEXTBOOK / SUPPLEMENTARY MATERIALS SELECTION AND ADOPTION
(Criteria for Selection)

Textbook selection committees shall be guided by the following:

- Resources shall be recommended to support and enrich the school curriculum and to meet the personal needs of the students.

- Resources that are recommended shall be appropriate for the subject area and for the age, emotional development, ability level, learning styles, and social development of students for whom the materials are selected.

- Resources that are recommended shall provide a background of information that will motivate students to examine their own attitudes and behaviors, to comprehend their duties, responsibilities, rights, and privileges as participating citizens in our society, and to make intelligent judgments in their daily lives.

- Resources that are recommended shall provide information on differing sides of issues so that users may develop the practice of critical analysis.

- Resources shall be recommended for the atypical student as well as for the average student.

- Resources shall be recommended for their strengths rather than rejected for their weaknesses, and shall be judged as a whole.

- Damaged materials.
- Materials that no longer present current information.
- Materials that no longer support the goals of ASDB.
- Materials that have not been used frequently enough to justify the use of library space.

*Adopted: March 24, 2016*
LIBRARY MATERIALS SELECTION AND ADOPTION

The following standards shall be used in the selection of library books and materials:

- Materials that widen the boundaries of the students’ thinking, that enrich their lives and help them fulfill their recreational and emotional needs.

- Materials that have imaginative appeal and a style that is interesting and free from monotony.

- Materials that stimulate the imagination, provide for mental growth, develop a taste for good writing, and draw attention to the beautiful and artistic.

- Books that provide pleasurable reading for the reader’s sake.

- Books that are illustrated in a manner that complements the text, have quality art, and are suitable for the intended readers.

- Materials that adequately cover a wide range of reading ability.
SPECIAL INTEREST MATERIALS SELECTION AND ADOPTION

Commercial organizations offer a variety of materials for use by teachers in the classroom. Many of these materials are of high educational value, with little or no advertising emphasis. Other materials are primarily advertising and have only limited educational value.

In general, supplementary materials (printed materials, models, films, slides, pictures, charts, exhibits for educational purposes, etc.) from non-school sources should have approval by the Principal and Superintendent or his/her designee. This approval may be given to materials that are of obvious educational quality, supplement and enrich text and reference book materials, are timely and up to date.

Students may not be used as the agents for distributing non-school materials to the homes. The Superintendent or designee shall be the final judge of whether or not such materials shall be utilized with students and will establish necessary regulations for their evaluation, approval, and use.

*Adopted: March 24, 2016*
Library facilities are considered of the utmost importance to the students and are designed, to the extent possible, to accommodate:

- A comprehensive collection of instructional materials selected to meet the needs of the students.
- Maximum accessibility to these materials.
- A place for materials that will support the curriculum, taking into consideration the individual student's needs and the varied interests, abilities, socioeconomic backgrounds, and maturity levels of all of the students.
- A place for materials for teachers and students to encourage growth in knowledge, which will develop literary, cultural, and aesthetic appreciation and ethical standards.
- The allotment of space for an adequate professional library.

ASDB shall obtain signed, written consent from a student’s parent or guardian before using video, audio, or electronic materials that may be inappropriate for the age of the student.

The Superintendent or designee shall develop regulations governing the use of movies/videos in the classroom.

Limits, controls, and prohibitions shall be placed on student:

• Access to inappropriate matter.
• Safety and security in direct electronic communications.
• Unauthorized online access or activities.
• Unauthorized disclosure, use and dissemination of personal information.

Monitoring and Online Behavior

Movies and videos with ratings other than for general audiences of all ages are not to be shown in classrooms or at any ASDB facility (this includes buses and motels where students are present except when:

- The movie or video has been previewed by the teacher or other certificated employee.

- The movie or video has been determined to not contain material that is objectionable or inappropriate for the age group to which it is intended to be shown.

- The responsible site administrator has approved the use of the movie or video prior to its showing.

- The teacher or other certificated employee has provided advance notification to each student's parent(s), or other responsible adult, of the title of the movie or video and the date on which it will be shown.

- A student whose parent(s) or other responsible adult has provided notice of their disapproval will not be permitted to view the movie or video.

Parents have the right to request that their child not view any movie or video, regardless of its rating or the purpose for which it is to be shown.
FIELD TRIPS

In general, field trips shall be conducted within the normal school day. Field trips must be planned within the context of the school program and must be appropriate for the age level, grade level, and curriculum. Due to limitations imposed by local conditions, field trips may be limited by the Superintendent or designee. All field trips must be specifically approved by the Principal or designee long enough in advance so that arrangements can be made prior to the trip. Before any student is taken from the school grounds on a field trip, written permission must be obtained from the parents or legal guardians. Transportation shall be provided only by ASDB vehicles, driven by authorized employees.

Out-of-state trips require approval of the Superintendent only before planning activities involving students, fund raising, or commitments to any other organization or agency is undertaken.

ASDB will not sponsor, approve, support, or encourage field trips that do not meet the criteria outlined in this policy, unless the Board gives approval after a presentation justifying the specific need for the exception.

ASDB also recognizes that Community Based Instruction (CBI) is a valuable and integral part of on-going learning. CBI is considered an extension of the classroom/instructional setting and is not subject to provisions associated with field trips. CBI requires planning related to specific student needs and is also subject to Principal approval before instruction begins.

The Superintendent shall develop procedures as necessary for the implementation of this policy.

Adopted: June 9, 2016
FIELD TRIPS

Field trips are very useful to encourage learning through exploration of the environment not immediately accessible to the classroom. However, field trips are only one means of achieving an educational objective. Approval of field trips will be based on a number of items such as availability of transportation, budget, employees, weather, risks, and distance, as well as educational objectives.

The cost of transportation for field trips must be included in budget planning. Each teacher who wishes to plan field trips should make tentative plans with the Principal during budget planning. Such plans should include the place, time, and educational justification for each field trip. ASDB will attempt to have some capacity for scheduling field trips beyond those requested by the teachers as part of the budget process, but there can be no assurance that such unbudgeted trips can be accommodated.
COMMUNITY RESOURCE PERSONS / SPEAKERS

ASDB recognizes that one of the greatest resources of the school is to be found in the people of the community who have special knowledge and particular talents to contribute to the school program. Therefore, the use of community resources and citizens to serve in furthering the educational program is encouraged. Staff members will study the needs of their respective schools, survey the resources available in the ASDB community, weigh their probable usefulness, and then present to the Principal for approval any staff-developed plans for using those community resources. The Principal shall then submit this plan to the Superintendent or designee. The Superintendent or designee will consider all such plans, on both their merit and their implications, as if they were to be carried out throughout ASDB.

Adopted: June 9, 2016
Volunteers can make many valuable contributions to the students and educational programs of ASDB. A volunteer program is approved subject to suitable rules, safeguards, and regulations as developed by the Superintendent or designee.

The Superintendent or designee shall promote appropriate annual recognition of volunteer services.

SCHOOL VOLUNTEERS

ASDB has a Volunteer Program to provide direct assistance or service to ASDB employees and students. Parents who volunteer on a weekly basis will also follow these procedures.

The Principal develops volunteer projects and individual placements in accordance with ASDB needs.

The Principal is responsible for recruitment, placement, and monitoring all volunteers, and in addition, provides ongoing supervision and evaluation of volunteers including training in policies on confidentiality. As part of the placement process, potential volunteers are assessed individually and campus needs are matched with volunteers' skills and interests. The Principal shall also be responsible to provide ongoing recognition and awards to volunteers, as well as letters of recommendation where appropriate.

The Principal will serve as a schools liaison with local educational institutions, other volunteer agencies, and the community in order to assure continuity of the volunteer program. Campus training opportunities (sign language, Braille, in-services) are arranged by the Principal for volunteers desiring to learn or improve skills.

Volunteers are required to complete an application form and conviction report. Volunteers must be fingerprinted and pay a background processing fee. Background process must be completed prior to placement and the beginning of their volunteer duties. If a volunteer should take a leave of absence for a period of six (6) months or longer, fingerprinting will be required upon return. Confidential fingerprint-background check records will be maintained in accordance with ASDB policy in the Human Resources Office.

Volunteers are required to wear identification badges whenever on the campus.

Volunteers must work under the supervision of an ASDB employee. ASDB employees shall inform the Principal of the volunteer’s status, progress, et cetera.

Volunteers who contribute ten (10) hours per week or a full workday may receive free noon meals on days worked. Volunteers who eat lunch with students may also receive a free noon meal.

Volunteers are required to report accidents immediately to the Principal. In addition, behavioral problems with students or related concerns shall be communicated to the Principal for investigation and appropriate referral if necessary.

Volunteer records shall be maintained by the Principal in accordance with ASDB policy. Volunteer records include applications, reference checks and any other pertinent background information. The Principal will compile an annual report.
consisting of volunteer’s names and assignments and will submit this report to the Superintendent.

Volunteers who are parents working in their own child’s classroom on a regular basis will meet with the Principal and the teacher to complete the attached form. If at anytime any of the three parties signing the agreement feel that the parent volunteer placement is not successful or the child's response warrants it, the parent volunteer work will be terminated or reassigned by the Principal.

Volunteers may not be transferred to a paid position; however, volunteers are encouraged to apply for vacant positions for which they qualify. Volunteer experience in ASDB may be considered when applying for positions.

Volunteers serve at the pleasure of ASDB. A volunteer may be asked to discontinue voluntary services at the discretion of the Superintendent. With the concurrence of the Superintendent, the Principal may also discontinue services.

The State of Arizona, Risk Management Division’s Liability Insurance Program provides necessary liability coverage for volunteers under direct supervision of ASDB employees within the scope of the volunteer activities performed. The Principal is required to maintain a perpetual roster of volunteers, including names, dates of service and the program for which they volunteered.
Availability of and Access to Instructional Materials by Parents or Guardians

Parents or guardians of students enrolled in ASDB shall have access to instructional materials currently in use, or being considered for use, in ASDB. Such access shall be governed by the following:

- Requests must be in writing and must specify the materials that the parents or guardians want to review.
- Requests shall be submitted to the office of the Principal.
- At least one (1) copy of such instructional materials shall be available for parent or guardian review.
- Printed textbooks, supplementary books, and other printed subject matter may be checked out for removal from ASDB premises for up to forty-eight (48) hours. All other materials, including films, may be reviewed only on ASDB premises.
- ASDB employees involved in handling requests to review materials will notify the parents or guardians as to when and where such materials may be picked up or reviewed.
- Materials will be made available on a first-come, first-served basis.

Objections to Learning Materials and Activities

A student whose parent or guardian objects to any learning material or activity may be withdrawn from the activity or from the class or program in which the material is used, providing:

- The objection is in writing and is specific in its description of the activity or learning material to which the parent or guardian objects.
- The objection includes a statement that the parent or guardian understands that the educational information and concepts covered in the activity or material may not be covered in any other manner or form and that the parent or guardian understands that the student may not be able to make up the material or activity in any other way.
- Although the student may be unable to make up for the missed activity or material, no penalty will accrue to the student in grades or credit, with the exception that, if the objection removes a student from a substantial portion of a class, promotion and credit decisions will be based on applicable ASDB policies.
- All such objections shall be directed to the Principal of the school in which the student is enrolled, who shall forward a copy of the written objection to
the Superintendent, indicating that the student has been removed from the activity or stating the reason for non-removal.

- Upon receiving a Principal’s recommendation for removal or non-removal, the Superintendent will review the situation and make a decision regarding the matter and communicate that decision to the parent or guardian and the Principal.

- Within ten (10) days after receiving notification of such decision from the Superintendent, the parent or guardian may request an appeal to the Board.
An ASDB developed grading system will be utilized for campus based programs.

Teachers will keep a careful record of the grades assigned to students, including daily attendance.

Written reports to the parents concerning student achievement will be made every nine (9) weeks by the teacher, and additional written reports will be made when necessary. For students in regional cooperative programs, progress reports will be made based on district of residence requirements.

Campus based teachers will confer with parents when necessary concerning academic progress and discipline of students.

Teachers will report to parents on students' conduct, scholarship, attendance, or excessive tardiness.

**Special Education**

Parents shall be counseled regarding the significance of the IEP based grading system in order to avoid misinterpretation of the achievement grade.

Through the student handbook for campus based students, parents shall be informed of the grading system utilized in relation to their child's goals, objectives, and classes. Teachers in regional cooperative programs will explain the process of determination of achievement of IEP goals during the IEP meeting, and at any time as requested by the parent/guardian and/or the district of residence.

*Adopted: June 9, 2016*
TESTS AND EXAMINATIONS

For campus based classes, final examinations are used as evaluation of student achievement when they are conducted in such a way that they effectively evaluate the achievement of the goals and objectives on which learning activities have been based.

*Adopted: June 9, 2016*
Principals will develop testing schedules for their schools. Such schedules will then be reported to the Superintendent.
School Report Cards

ASDB will comply with the State Department of Education requirements to complete an annual report card containing the descriptions and information required by statute.

Student Progress Reports

It is essential that students’ progress be fully communicated to their parents.

Reports of progress for students qualified for services under the Individuals with Disabilities Education Act (IDEA) shall be based on their progress in the general curriculum and shall address whether the progress is sufficient to enable the student to achieve the goals stated in the student’s individualized education program (IEP) by the end of the school year.

Each teacher will report students’ progress to the students and to their parents or guardians as appropriate. The reports will be clear, concise, and accurate, and will provide a basis of understanding among teachers, parents, and students for the benefit of the individual students. For campus based programs, the Superintendent or designee will develop progress report forms or cards in accordance with this policy.

The following specific requirements are established for campus based students:

- Parents/guardians will be informed regularly, and at least four (4) times a year, as to the progress their children are making in school.

- Parents/guardians will be alerted and conferred with as soon as possible when a student’s performance or attitude becomes unsatisfactory or shows marked or sudden deterioration.

- Insofar as possible, distinctions will be made between a student’s attitude and academic performance.

- When grades are given, ASDB staff members will take particular care to explain to parents the meaning of marks and symbols as they apply to student achievement.

*Adopted: June 9, 2016*
GRADING/ASSESSMENT SYSTEMS

The subject grade should be based upon pupil mastery of the content of the course. The teacher will establish a reasonable standard for average achievement in each of the subjects. If at any time the teacher is in doubt that this standard is either too high or too low, the teacher should discuss the matter with the Principal.

The teacher will establish a uniform system of grading. This system is based upon attainment of what the teacher requires. Content of the course shall be set up to be measured by numerical percentages, which are then transferred to letter equivalents. The following scale will serve as a guide for the distribution of grades but reasonable alternative letter grades may be approved at ASDB:

90% - 100% = A
80% - 89% = B
70% - 79% = C
60% - 69% = D
below 60% = F

The following should be observed in implementing a grading system:

- The grading system should be consistent within the class for the entire year.
- The student should understand the system thoroughly, such as, the content on which the grade for the course depends, the weight attached to various phases of the material, the manner in which the letter grade is devised, and the meaning of the final letter grade which is sent home as a report to the parents.
- If a teacher from year to year consistently promotes classes with predominantly high or low scores for the majority of the pupils in each class, then such practice causes parental and pupil difficulties for the succeeding teacher. If a teacher consistently finds the grades high or low for a large percent of the class, then the teacher should evaluate their established standards of average achievement on grading.
- Work habits and conduct are two (2) areas that will be marked individually. Grades on basic subjects must not be awarded or upheld based upon disciplinary problems, work habits, or conduct.

Report Cards and Records

An average of one (1) grade per week should be kept in numerical values in the teacher’s grade book for each subject. Average numerical values for the nine (9) weeks will also be recorded in the grade book.

Grade reports to the parents are made on a nine (9) week basis. Report cards include
an explanation of the system of marks used. Before cards are distributed each nine (9) week period, the teacher should explain the marking system to the students. Cards are sent home according to a schedule, which is developed at the beginning of the school year.
The development of study skills and self-discipline are integral and indispensable elements of a quality educational process.

Homework should be assigned consistent with the maturity, special needs, potential, and achievement level of the individual student as reflected in the individualized education program (IEP). It should not carry the stigma of punishment. Its assignment should be specifically addressed to the objectives of the instructional program and/or the objectives set forth in the IEP, and, in addition, students should develop responsibility for actively pursuing knowledge without immediate supervision outside as well as within the classroom.

Students, regardless of their intellectual capacity, should understand that mastery of skills is not always possible within the time constraints of the classroom. Each student should leave ASDB with a firm foundation for pursuing knowledge and developing skills on an independent basis.

The Superintendent or designee, through each campus based Principal, is responsible for regulations that will achieve objectives through homework, including, but not limited to, the following:

- Intervention that changes deficient performance to performance that meets acceptable standards.
- Reinforcement and mastery of critical skills and concepts. Special emphasis will be placed on the mastery of basic skills.
- Challenge through exploration of concepts and skills that complement and elaborate those introduced in the classroom.
- Feedback from the teacher through correction and clarification of all outside assignments.

Adopted: July 14, 2016
Special Education Promotion Requirements

Students who do not meet regular promotion requirements must meet the course of study and promotion requirements for special education under the guidance of A.A.C. R7-2-401. The programs for such students may include adaptations.

Any student unable to meet regular academic requirements for promotion must meet the requirements of an alternative curriculum derived from the regular curriculum, which will be developed by an individualized education program (IEP) team on an individual basis. Students will complete the course of study as prescribed in their individual promotion plans and implemented through their individual education programs. Course work will be presented at a level commensurate with the student's ability. The student's permanent file shall identify the courses completed through special education; however, the student will receive the standard certificate of promotion.

*Adopted: January 20, 2017*
MAKE UP OPPORTUNITIES

The Superintendent or designee shall develop and implement standards that shall apply to requirements for student to make up assignments during absence for pesticide, herbicide, and fungicide application periods and for appropriate reasons.

Adopted: July 14, 2016
MAKE UP OPPORTUNITIES

When a student provides an approved statement signed by a parent or guardian that the student will be or was absent, each teacher will be notified and the following procedure will apply:

- Each teacher will provide the student's assignment(s) and any handouts or materials necessary for accomplishment of such assignment(s) allowing a minimum make up period of one (1) day for each day absent.

- It will be the responsibility of any student who misses a laboratory assignment or test to arrange with the teacher a mutually convenient time to perform the laboratory assignment or to take the test.

The following standards shall apply in ASDB for make-up work. Adjustments may be made when it is in the best interest of the student(s).

- It will be the student's responsibility to ask for make-up work and to arrange for a time to make up tests when the student returns.

- If the teacher is unable to supply the student with a make-up assignment, the student will not be held responsible for that make up assignment.

- The student has the responsibility to work with the teacher to develop a plan for making up homework and tests.

- If work is not turned in by the time the assignment is due, and the student fails to provide an acceptable explanation of the extenuating circumstances that would merit an extension, the teacher may reduce the grade on the assignment or withhold credit on the assignment.

- When a student has been absent for illness, ample time will be given for make-up work once the student returns to school.

- In situations where the student will be absent for more than three (3) days, due to illness (i.e., chicken pox, measles, et cetera), or when the parent notifies the office that the student will be absent more than one (1) week for other reasons (e.g., vacation), teachers may provide required assignments in advance or send assignments to the student.
PROMOTION AND RETENTION OF STUDENTS
Procedure for Retention of Elementary School Students

At the annual review in the school year of a student’s twelfth (12th) birthday, or during the sixth (6th) grade, whichever comes first, the IEP/multidisciplinary team shall review the student’s records and determine a plan for promotion to high school. The plan shall include the number of years projected before promotion and the type of curriculum that shall be provided.

This program shall be reviewed annually and revised as necessary.

When the IEP team determines that the student has met the requirements for promotion according to the plan, the student shall be promoted to high school.

All students promoted to high school shall receive a standard certificate.
Graduation requirements as determined by the Arizona State Board of Education (R7-2-302.02) and the ASDB Board are as follows:

*In lieu of one (1) credit of Algebra II or its equivalent course content a student may request a personal curriculum in mathematics following R7-2-302.03.

*Math courses shall consist of Algebra I, Geometry, Algebra II, (or its equivalent) and an additional course with significant math content as determined by the ASDB Board (Governing Body).

Pursuant to the prescribed graduation requirements adopted by the State Board of Education, the ASDB Board may approve a rigorous computer science course that would fulfill a mathematics course required for graduation from high school. The ASDB Board may only approve a rigorous computer science course if the rigorous computer science course includes significant mathematics content and the ASDB Board determines the high school where the rigorous computer science course is offered has sufficient capacity, infrastructure and qualified staff, including competent teachers of computer science.

**Three (3) credits of science in preparation for proficiency at the high school level on a state required test.
Beginning in the 2016-2017 school year, the competency requirements for social studies shall include a requirement that, in order to graduate from high school or obtain a high school equivalency diploma, a pupil must correctly answer at least sixty (60) of the one hundred (100) questions listed on a test that is identical to the civics portion of the naturalization test used by the United States Citizenship and Immigration Services. ASDB shall document on the pupil’s transcript that the pupil has passed a test that is identical to the civics portion of the naturalization test used by the United States Citizenship and Immigration Services.

The ASDB Board may determine the method and manner in which to administer a test that is identical to the civics portion of the naturalization test used by the United States Citizenship and Immigration Services. A pupil who does not obtain a passing score on the test may retake the test until the pupil obtains a passing score.

**Regular Education Graduation Requirements**

A minimum number of units of credit are required for graduation by the Arizona State Board of Education. Listed below are the units that must be completed before a student may receive a high school diploma. Graduation requirements may be met as follows:

- By successful completion of subject area course requirements.
- By mastery of the standards adopted by the State Board of Education and other competency requirements for the subject as determined by the ASDB Board in accord with A.A.C. R7-2-302.02 and rules established by the Superintendent or designee.
- By earning credits through correspondence courses (limited to one [1] in each of the four [4] major subject areas) and/or by passing appropriate courses at the college or university level if the courses are determined to meet standards and criteria established by the ASDB Board and in accord with A.R.S. 15-701.01.
- By the transfer of credits as described in Policy JFABC.
- An out-of-state transfer student is not required to pass the competency test to graduate if the student has successfully passed a statewide assessment test on state adopted standards that are substantially equivalent to the State Board Adopted Academic Standards.

**Special Education Graduation Requirements**

Listed above, under “Regular Education,” are the requirements that must be completed before a student may receive a high school diploma. Completion of graduation requirements for special education students who do not meet the required units of credit shall be determined on a case-by-case basis in accordance with the special education course of study and the individualized education program of the student. Graduation requirements established by the
ASDB Board may be met by a student as defined in A.R.S. 15-701.01 and A.A.C. R7-2-302.

Pupils who receive special education shall not be required to achieve passing scores on the test that is identical to the civics portion of the naturalization test under section 15-701.01 in order to graduate from high school unless the pupil is learning at a level appropriate for the pupil’s grade level in a specific academic area and unless a passing score on the test that is identical to the civics portion of the naturalization test under section 15-701.01 is specifically required in a specific academic area by the pupil’s individualized education program as mutually agreed upon by the pupil’s parents and the pupil’s individualized education program team or the pupil, if the pupil is at least eighteen (18) years of age.

**Competency Requirements**

Any student who is placed in special education classes, grade nine (9) through twelve (12) is eligible to receive a high school diploma without meeting state competency requirements.

**State Seal of Bi-literacy**

ASDB may voluntarily participate in the state seal of bi-literacy program by notifying the Superintendent of Public Instruction of such intention. ASDB will then identify the students who have met the requirements to be awarded the state seal of bi-literacy, which shall be affixed to the diploma and noted on the transcript of each student who has met the requirements.

**CPR Instruction and Training**

ASDB shall provide students with one (1) or more training sessions in cardiopulmonary resuscitation, through the use of psychomotor skills in an age-appropriate manner, during high school.

Adopted: November 10, 2016
GRADUATION REQUIREMENTS
(Alternative Graduation Requirements Appeal Form)

Appeal procedures:

- The student may request an appeal by submitting a request on a petition form prepared by ASDB to the high school principal within ten (10) days of being notified of failure to achieve “Meets the Standard” on any section of the State Board competency test. The principal shall be the hearing authority for all appeals.
- School officials shall provide adequate notice to the pupil and the pupil’s parents or guardians regarding the date, time and place of the appeal. A pupil or a pupil’s representative may participate in the appeal either personally, by telephone, or by providing written documentation.
- The student or parent shall have the burden of demonstrating what circumstances prevented compliance with the requirements.
- An appeal shall be granted only:
  - Upon presentation of credible evidence that extreme circumstances made the student ineligible for each State Board competency test administration the student did not attend.
  - Upon presentation of credible evidence that the student participated in at least one (1) state or school sanctioned remediation program in those subject areas where that student failed to achieve a passing score on the State Board competency test.
- The response to the appeal shall be in writing within five (5) days of the appeal hearing.
- The decision of the principal is final.

Requirement(s) being appealed: (check one (1) or both boxes if applicable)
- □ Has not taken the AIMS assessment each time the test was offered.
- □ Has not participated in at least one (1) available academic remediation program as described:

GRADUATION REQUIREMENTS
(Augmentation Points Calculations)

Threshold determination

Multiply “Meets the Standard” for each section of the state Board competency test by three-fourths (.75) to determine the score that must be met at a minimum before the augmentation procedure may be completed.

Example: “Meets the Standard” score for reading is 674. Multiplying 674 times .75 produces 505.5, rounded to 506, the test score below which no augmentation scores will be calculated and for which no appeal is allowed.

Calculation of augmentation points

Only the eleven and one-half (11.5) credits required by the State Board, as listed below, and the eight and one-half (8.5) credits prescribed by the Board and subject to the approval of the State Board of Education shall be included in the calculation of the augmentation score. Use the highest grades earned or if advanced placement/honors courses the grade credited with the most points per R7-2-302.06 (E)(b & c).

GRADUATION REQUIREMENTS
(Determining Competency for Graduation Credit)

Determination and verification of student accomplishment of subject-area course requirements and/or competencies for graduation credit shall be the responsibility of a subject-area teacher and, at a minimum, shall be in accord with the following:

- The student shall have successfully completed the subject-area course requirements incorporating the essential skills and competencies from the course of study adopted by the Board in accord with ASDB.

- As an alternative to completing the course requirements, a student may request, upon a showing of familiarity with the subject matter of the course, an examination on the competencies of the course. The student may take an examination on a particular course one time only in an academic year. The examination shall be prepared by a teacher of the subject matter who is designated by the Superintendent. To receive graduation credit, the student must demonstrate accomplishment of the essential skills and competencies adopted by the State Board of Education and the Board. Demonstration of accomplishment of the skill and competencies shall be determined in accord with accepted practices in evaluation of students. A copy of the test results, verified by the appointed teacher, shall be filed with the student's record.

GRADUATION REQUIREMENT (CONTINUING EDUCATION PROGRAM GUIDELINES)

PURPOSE
The Continuing Education Program is designed for students who have not completed their credits for high school graduation and have additional IEP needs that can be addressed through participation in an educational program. Continuing education programs must focus on assisting the student to make a successful transition to work or additional education/training, independent living or adult services.

Areas of study include work experience and independent living skills. Course work may be offered in consumer mathematics, practical English/communications, or vocational courses related to career interest. Some students may begin classes at the community college with support from ASDB.

Continuing education is not intended to provide students with the opportunity to take courses which are not related to their identified interests and do not have direct connection with their transition plan. Areas of study could include university required course work if the student has deficiencies and university is a goal.

Eligibility
Students are referred to the Continuing Education Program after a review of the present IEP by the team who can determine the need to continue in an education setting. Referrals should include:

- Reason student is seeking continuing education;
- Student career goal;
- Transition goals, which include activities following graduation;
- Needs for additional training to meet transition goals including list of courses and type of work experience;
- Statement from vocational rehabilitation counselor indicating how the continuing education year will assist in meeting transition goals; and
- Identification of adult services to assist with achieving goals.

Referral
Referral for a continuing education year should be submitted to the Principal by the beginning of the fourth quarter.

Program Completion
A continuing education year is considered completed by one (1) of the following:

Completion of the academic year in which:

- Student reaching twenty-second (22nd) birthday.
● Completion of transitional goals and objectives. Any staff member, the parent or the student may request a review of the IEP to determine if the goals have been completed.

● Termination by the student by submitting a request in writing to receive the high school diploma. This should be accompanied by a recommendation from the IEP team.

● Termination by ASDB if the student does not participate in the program as planned or in an appropriate alternative program. For example, a student who returns in order to join the independent living program or for work experience but then makes decisions that lead to removal from the programs, may lose the opportunity to participate in continuing education. The Principal or instructional leader should request a meeting of the IEP Team to review transition goals and plans.
GRADUATION EXERCISES

Graduation exercises will be held for students who have met State and local requirements for graduation from high school.

Participation in high school commencement exercises is encouraged but is not compulsory. However, since these exercises require planning and rehearsals, the following rules shall apply:

- Students who wish to participate must be present at the rehearsals. Failure to do so, except for legitimate reasons for absence, may because for excluding students from participating in the exercises.

- A student may not be denied participation in graduation exercises, nor a diploma withheld, for failure to pay all student accounts payable and due to ASDB.

EVALUATION OF INSTRUCTIONAL PROGRAMS
(Testing Programs)

The use of tests is one indication of the success and quality of the educational program. In the case of an individual student, tests, in combination with other criteria, can provide an indication of student achievement.

The ASDB Board authorizes participation in:

- An ASDB testing program that will be subject to regular review and evaluation.
- Evaluation of all proposed testing instruments and periodic evaluation.
- In-service education of teachers and other staff members in the use of tests and interpretation of test results.

Test results of individual students are confidential data; they shall be provided to parents as appropriate.

Participation

All Arizona students in grades two (2) through twelve (12) shall be administered, at least once each year, a standardized, nationally-normed written test of academic subject matter given in English except that students with disabilities will be included with appropriate accommodations and alternate assessments where necessary in accord with their respective Individual Education Program.

Adopted: January 19, 2017
Staff members designated by the Superintendent or designee to administer the nationally standardized norm-referenced achievement test adopted by the Arizona State Board of Education shall:

- Keep all test materials in locked storage.
- Not reproduce any test materials in any manner, except when necessary to provide test materials in an accessible format consistent with a student’s individualized education program (IEP).
- Not disclose any actual test items to students prior to testing.
- Not provide answers of any test items to any students.
- Administer only practice tests that are provided by the test publishers. Previous editions of the test series being used in the statewide testing program may not be used as practice tests.
- Strictly observe all timed subtests, as modified by the pupil's individualized education program. The test publishers' suggested time limits for untimed subtests shall be followed as closely as possible in order to maintain uniformity in test administration, however, the pupil's individualized education program shall include any necessary testing accommodations.
- Follow directions for administering the test explicitly. No test item may be repeated unless otherwise indicated in the directions.
- Not change a student's answer.
- Return all test materials to the Superintendent or designee immediately upon completion of testing.

Failure to comply with these requirements or others as required by Arizona Revised Statutes or by other rules or regulations shall be considered cause for discipline, including but not limited to suspension or termination. All violations of this policy shall be reported to the State Superintendent of Public Instruction.

Standards Adopted by the State Board of Education

ASDB shall establish specific objectives to accomplish the goals established by the State Board of Education. The Superintendent or designee will make recommendations for such objectives based upon the data gathered annually.
The Superintendent or designee will establish regulations and procedures for assessing student achievement of standards adopted by the State Board of Education and for reporting and utilizing test results and non-test indicator data.

**Reporting results.**

ASDB will provide to the parent or guardian of each student who participates the associated grade equivalents, percentiles, and stanines from standardized norm-referenced testing. ASDB shall provide the parent or guardian of each student the resulting scores on the test of standards adopted by the State Board of Education and associated scores for ASDB, the county, and the state.

ASDB will provide the public, through a report card, scores for each school in ASDB and for ASDB as a whole, the county, the state, and the nation.

ASDB USE AND DISSEMINATION OF TEST RESULTS

Test scores may provide a record of each student's academic progress in comparison with national norms.

Test scores will be maintained as a part of the student's educational record. Such permanent record will be sent to another school system upon request of the school or the parent upon transfer of the student.

No individual or unauthorized agency outside the school system will be permitted to have access to a student's test record or permanent record without written permission from the parent, or from the student if eighteen (18) years of age.

The parent may have access to the test record of a student under age eighteen (18) by making an appointment with the School's office.

EVALUATION OF INSTRUCTIONAL PROGRAMS

The instructional programs of ASDB will be regularly evaluated, and periodic reports will be provided to the ASDB Board. The ASDB Board will rely on the Superintendent or designee to provide regular evaluation of the educational program and instructional processes. The Superintendent or designee may also arrange for evaluations to be conducted by outside agencies within the budgeted funds of ASDB.

*Adopted: July 14, 2016*
LESSON PLANS

The ASDB Board considers written lesson plans a useful tool to ensure continuity of instruction.

The Superintendent or designee shall establish regulations that set forth the requirements for lesson plans and for their preparation and review. Such regulations shall reflect current standards of the profession and shall have as their primary objective the best possible educational program for the students of ASDB.

In order to assure that the highest quality of instruction is prepared and delivered, lesson plans are prepared sufficiently in advance of the instructional period (usually one week in advance) to allow for those plans to be reviewed by any supervisors, including but not limited to: direct supervisor, Assistant Principal, Principal, Assistant Regional Director, Regional Director, or any Supervising/Coordinating Teacher who has a role in assessing quality instruction.

Additionally, quality lesson plans in place allows for a substitute teacher and continuous instruction in the absence of the teacher.

*Adopted: September 15, 2016*
Guidelines for the implementation of this administrative regulation shall include:

- Lesson plans shall be developed according to ASDB-wide formats and shall reflect the scope and sequence of the courses of instruction. Acceptable alternatives may be approved by the principal.

- Lesson plans shall demonstrate the correlation of the lesson with State Board standards when applicable.

- Lesson plans should include information pertinent to the effective implementation of a lesson. When commercially prepared plans are in use, lesson plans may simply refer to the appropriate aspects of such plans.

- While teachers are required to be thoroughly prepared for each daily lesson, plans may be prepared for each lesson or on a long-term basis (i.e., unit of work), whichever is most appropriate. Material to be used in a lesson(s) - such as duplicated material, cassette tapes, films, filmstrips, transparencies - may serve as an integral part of the plan.

- Lesson plans for individualized programs should be consistent with the general overview and purpose of the instructional program. The progress of individual student(s) must be a consideration in the plan.

- Teachers are to provide adequate directions for substitutes, the purpose of which shall be to continue, if possible, the ongoing program or, if more appropriate, a meaningful educational alternative that relates to the subject area.

- The provision that copies of lesson plans must be available for substitute teachers.
Democratic tradition often involves dealing with controversial issues. Knowledge and understanding of such issues are an indispensable part of education.

The teacher holds a position of authority and respect in the classroom and community, and by virtue of that position has great influence in the formation of the values of all students. It must be clear that personal views are not a part of the instructional program and must be tempered by the responsibility to maintain professionalism.

To ensure that controversial issues are dealt with fairly and objectively, and with instruction as their goal, such issues may be a part of the curriculum as long as the following policies are observed:

- Teachers must instruct students in the principles and techniques of the scientific method and provide opportunities for practice in applying established facts to specific problems.

- Teachers must seek to develop in students the ideals of truth and honesty.

- All staff members must seek to create an atmosphere in which difference of opinion can be voiced without fear and hostility and with mutual respect for all viewpoints.

- Constitutional guarantees of due process and freedom of speech will continue to be observed as to students and teachers alike when they are involved in a controversial issue.

- Teachers must encourage the suspension of judgment and conclusions until all relevant and significant facts have been assembled, critically examined, and checked for accuracy.

- Teachers must seek to develop in students a sense of responsibility for their beliefs, opinions, attitudes, and actions.

- Teachers must place major emphasis upon “why” and “how” to think rather than “what” to think.

*Adopted: July 14, 2016*
CAMPUS BASED SCHOOL CEREMONIES AND OBSERVANCES

The following shall be adhered to regarding required opening exercises and campus based school programs as they pertain to customs and holidays:

- Each student shall be provided with an opportunity to participate in the Pledge of Allegiance or other patriotic observance each day.

- When special days or significant events are recognized, it is recommended that appropriate classroom and assembly programs be presented in keeping with the traditional and historical significance of the event or season.

ANIMALS IN CAMPUS BASED SCHOOLS

The Superintendent or designee may establish regulations for appropriately and humanely bringing live animals into a campus based classroom. Such procedures shall forbid the transporting of live animals that are not service animals on school buses unless the animal is present for an educational purpose by written approval from the school principal.

_Service animal_ means any dog or miniature horse that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability. Service animal does not include other species of animals, whether wild or domestic or trained or untrained.

Any person or entity that operates a public place shall not discriminate against individuals with disabilities who use service animals if the work or tasks performed by the service animal are directly related to the individual's disability. Work or tasks include assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing nonviolent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities and helping individuals with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort or companionship do not constitute work or tasks.

_Adopted:_ September 15, 2016
However, they must be appropriately and humanely cared for, and properly handled. Any person who wishes to bring an animal into the classroom must receive prior permission from the Principal. The following guidelines shall apply to animals in the schools:

- Prior to granting permission, teachers should check with the school nurse regarding any known allergies among students in the classroom. If allergies exist, parents must be contacted for further direction.
- Animals shall not be transported on school buses.
- Teachers must assume primary responsibility for the humane and proper treatment of any animals in the classroom.
- Only the teacher or students designated by the teacher are to handle the animals.
- If animals are to be kept in the classroom on days when classes are not in session, the teacher must make arrangements for their care and safety.
- Staff members or students who have been bitten by an animal shall report such incident to the Principal and the nurse immediately. The Principal should notify the public health authorities if the injury merits medical follow-up. Public health authorities should determine the appropriate action and period of confinement for an animal if an injury results. Any animal involved in a serious injury must be impounded until authorization for release is granted by health authorities.
- Animals on campus should play an educational function.
- Animals are to be removed from the classroom and/or school if their presence proves to be a distraction from the educational environment.
ANIMALS IN SCHOOLS

The following procedures will be in effect for service animals for the disabled.

Visitors

Service animals are allowed on campus under harness. Visitors are required to keep their service animals under control and to properly dispose of waste where children and other animals will not come in contact with it. Visitors are to comply if they are requested by an employee to remove the service animal from a certain area due to a health or safety concern.

Employees and Volunteers

Service animals are allowed on campus under harness. Employees and volunteers are required to keep their service animals under control and to properly dispose of waste where children and other animals will not come in contact with it. For blind users of service animals, a designated area will be provided with appropriate containers for disposal. Employees and volunteers will assist in educating the students about the appropriate way to approach a service animal.

Day Students

Students are allowed to have service animals on campus and in harness if they can meet several requirements. The student must:

- Have a certified service animal and proof of training from a recognized school.
- Have a report from their trainer or school indicating what ASDB can expect the student to be able to do with the service animal.
- Provide an annual report of current immunizations.
- Be able to travel independently on campus with the service animal.
- Insure that the service animal utilizes the relieving area provided and to properly dispose of waste.
- Be responsible for purchase of food.
- Be responsible for feeding and watering the service animal.
- Have and implement an effective plan of action when students approach to pet or feed the service animal.
- Remove the service animal from an area where a health or safety concern exists for another student.

Residence Students

Students are allowed to have service animals on campus if they can meet several requirements. The student is required to:
● Have a certified service animal and written proof of training from a recognized school.

● Have a report from their trainer or school indicating what ASDB can expect the student to be able to do with the service animal.

● Provide an annual report of current immunizations.

● Be able to travel independently on campus with the service animal.

● Insure that the service animal utilizes the relieving area provided and to properly dispose of waste.

● Insure that the service animal utilizes the exercise area provided for off harness exercise. This designated area is the only outside area where the service animal can be off the harness.

● Be responsible for purchase of food.

● Be responsible for feeding and watering the service animal.

● Have and implement an effective plan of action when students approach the service animal to pet or feed the service animal.

● Be responsible for the service animal and its needs on school bus trips. Many of the students on the Tucson campus of ASDB have severe health issues. If such a student lives in a residence hall, a service animal may not be allowed to live in that residence.

Additional Items for Some Guidelines or Rules

New students admitted with a service animal will be evaluated at intake to determine if the student is independent in handling and care of the service animal. Immunization records and the report from the trainer or school must be in the file before the evaluation date.

All students who receive a service animal will receive instruction from an orientation and mobility specialist to orient the student to campus if necessary, including the relieving and exercise areas. Concerns with the service animal or student/service animal working relationship will be referred to the service animal school.

The student is responsible for any damage caused by the service animal on school property or vehicles.
CLASS INTERRUPTIONS

The Superintendent or designee shall establish regulations limiting class interruptions, with particular emphasis on use of communication devices and interruptions by salespersons or visitors.

SEXUAL HARASSMENT
(Students)

I. Prohibited Harassment and Retaliation

Harassment is strictly prohibited on ASDB properties and during ASDB related activities on or off ASDB premises. ASDB will not tolerate discrimination and harassment, including sexual harassment, of any student on school premises, in school vehicles/busses, at school bus stops, at school-sponsored activities on or off campus, while the student is traveling to or from school, through the use of electronic technology or electronic communication equipment on school computers, networks, forums, or mailing lists. Students are also prohibited from harassing another student outside of the school and the school day when such harassment results in a substantial physical, mental, or emotional negative effect on the victim while on school grounds, school property, school buses, at school bus stops, or at school sponsored events and activities.

The prohibition against sexual harassment does not include legitimate, nonsexual physical contact, such as the use of necessary restraints to avoid physical harm to persons or property, or conduct such as a teacher’s consoling hug of a young student, or one student’s demonstration of a sports move requiring contact with another student.

ASDB also will not tolerate any form of retaliation directed against any student who either complains about harassment or who participates in any investigation concerning harassment.

A substantiated charge of harassment or retaliation by a student against any individual will subject that student to disciplinary action, which may include suspension or placement in an alternative education setting.

II. Definitions and Examples of Harassment/Sexual Harassment

“Harassment” means any unwelcome verbal, nonverbal, electronic, written, or physical conduct that either denigrates or shows hostility or aversion towards a student and is made by a school employee to a student or by a student to another student on the basis of race, color, national origin, age sex, sexual orientation, religion, disability, marital status or pregnancy and that: (1) has the purpose or effect of creating an intimidating, hostile or offensive environment; (2) has the purpose or effect of unreasonably interfering with the student’s educational performance; or (3) affects a student’s educational opportunities or grades. Harassment includes sexual harassment.

“Sexual harassment” at school occurs whenever unwelcome conduct of a sexual nature that excludes a student from participation in, denies a student the benefits of, or subjects a student to discrimination under any education program or activity operated by ASDB. Sexual harassment is defined as any unwelcome sexual advance,
request for sexual favors or verbal, non-verbal, electronic, written or physical conduct of a sexual nature by a student, parent, employee, volunteer, vendor, or contractor. Sexual harassment can be requests for sexual favors or unwelcome sexual behavior that is bad enough or happens often enough to make a student feel uncomfortable, scared or confused, and that interferes with a student’s schoolwork or ability to participate in extracurricular activities or attend classes. In order to constitute prohibited sexual harassment, the conduct must be unwelcome. Students do not have the ability to consent to any sexual conduct. Sexual conduct between a student and an employee will never be considered welcomed.

There are two kinds of sexual harassment:

“Quid pro Quo Sexual Harassment” occurs when a teacher or school employee offers a student a better grade or treats the student better if the student does something sexual. It could also be a threat to lower a student’s grade or treat the student worse than other students if the student refuses to go along with a request for a sexual favor. For example, if a teacher says, “I’ll give you an ‘A’ if you go out with me,” or “I’ll fail you in this class if you don’t have sex with me” this is sexual harassment.

“Hostile Environment Sexual Harassment” occurs when unwelcome sexual touching, comments (verbal, nonverbal, electronic, written), and/or gestures are so bad or occur so often that it interferes with a student’s schoolwork, makes the student feel uncomfortable or unsafe at school, or prevents the student from participating in or benefiting from a school program or activity. This type of harassment does not have to involve a threat or promise of benefit in exchange for a sexual favor. The harassment can be from your teacher, school officials or from other students. Examples of peer-to-peer and student-to-student harassment:

- sexual comments, jokes, gestures or looks
- sexual messages or graffiti on bathroom walls or locker rooms
- spreading sexual rumors
- showing sexual pictures, photographs, illustrations, email or text messages or notes
- calling someone gay or lesbian using derogatory terms
- spying on someone while they are showering or dressing at school
- flashing or mooning someone
- spanking, touching, grabbing or pinching in a sexual way
- pulling someone’s clothes in a sexual way; or pulling their clothes down or off
- brushing up against someone in a sexual way
- blocking or cornering in a sexual way
- forcing kisses or forcing other unwelcoming sexual behavior other than kissing
having names listed in slam books with derogatory sexual comments

Sexual harassment includes conduct that is also criminal in nature such as rape, sexual assault, stalking, and similar offenses and will be referred to local law enforcement agencies. A hostile environment may exist even if there are no tangible effects on the student where the harassment is serious enough to adversely affect the student’s ability to participate in or benefit from the educational program or extra-curricular activities.

III. Reporting Harassment

ASDB is obligated to identify, investigate and document incidents and alleged incidents of possible harassment that come to the attention of any ASDB employee with or without a formal complaint. All investigations into reports of any student sexual harassment, including on school bus routes shared with school districts, will be communicated to the students’ home school district(s) by the Assistant Superintendent.

Students who feel they have been harassed or who have first-hand knowledge of harassment against another student, are encouraged to report such incidents to the Principal/Director who shall immediately report the matter to the Superintendent per the administrative procedures outlined below. If the complaint is against the Principal/Director or Assistant Superintendent, the student and/or the student’s parent/guardian(s) are encouraged to make the report to the Superintendent. A complaint of harassment against the Superintendent is to be made to the ASDB Board of Directors.

Harassment, including sexual harassment, is a serious issue. All matters involving harassment complaints will remain confidential to the extent possible.

It is important to remember that retaliation for reporting harassment and/or for participating in the investigation of harassment is prohibited. If a student feels mistreated or treated unfairly by someone because they have complained about harassment, the student should immediately contact the Principal/Director.

IV. Administrative Procedure for Dealing with Student Reports of Harassment

☐ If a student believes he/she is being harassed, the student is encouraged to report their concerns to the Principal/Director or to any school employee.

* If a student complains of harassment to a school employee, or if any school employee becomes aware of, observes, or suspects that a student may be experiencing harassment, the employee shall:

☐ Immediately escort the student to the Principal/Director. If the Principal/Director is not available, then the employee shall escort the student to the Assistant Superintendent.

☐ If both the Principal/Director and Assistant Superintendent are not available, the employee shall leave a message for both, then provide the student with a copy of policy JBB and administrative regulation JBB-R, help the student fill out the complaint form or
fill it out for the student, and submit the written complaint to the Principal/Director and Assistant Superintendent.

- Within one (1) school day of the student’s complaint, or an awareness of possible harassment, the employee will follow up by submitting a detailed written report to the Principal/Director and Assistant Superintendent.

- If a student’s complaint is against the Principal/Director or Assistant Superintendent, the employee is to immediately inform the Superintendent and also submit a written report to the Superintendent within one (1) day of receiving the complaint.

- If a student’s complaint is against the Superintendent, the employee is to submit a written report to the ASDB Board of Directors within one (1) day of receiving the complaint.

- Failure by an employee to immediately inform the appropriate administrators about student complaints of harassment, or about observations of possible harassment, may subject the employee to disciplinary action in accord with ASDB Board policy GCQF.

- If a student complains of harassment directly to a Principal/Director; or if the Principal/Director becomes aware of, observes, or suspects that a student may be experiencing harassment; or if the Principal Director receives a student complaint/report from an employee regarding possible student harassment, the Principal/Director shall:

  - Immediately inform the Assistant Superintendent and the Superintendent, provide the student with a copy of policy JBB and administrative regulation JBB-R, help the student fill out the complaint form or fill it out for the student, notify the parent/guardian(s), and if warranted notify local law enforcement agency.

  - Take interim preventive measures, pending the outcome of an investigation, to ensure the safety of victims and of the larger ASDB community, to address potential ongoing harassment, and to avoid retaliation against the reporting student.

  - Initiate investigation of complaint within two (2) school days after the receipt of the written report. The Superintendent or Superintendent’s designee will direct the course of the investigation to ensure an adequate, reliable, and impartial investigation of all complaints is completed within thirty (30) school days.

  - The investigation will include the opportunity for parties to present witnesses and other evidence. Investigation of a report will normally include interviews of the alleged victim, alleged harasser and any other identified witnesses.

  - Make necessary contact with involved parties as deemed necessary. If other students are involved, contacts with their parents/guardians will be made and appropriate parent contact
Documentation completed when contact is made with parent/guardians.

- Make ongoing contact with the student who made the complaint and/or parent/guardian(s) throughout the investigation.

- Whether the alleged conduct constitutes a violation of this policy requires a determination that is based on all the facts, is made from the viewpoint of a reasonable person in the position of the alleged victim, and is based on the totality of the circumstances including but not limited to:
  - the nature of the conduct (whether verbal, nonverbal, electronic, written or physical, or combination thereof);
  - the relationship between the parties involved;
  - how frequently the conduct was repeated;
  - whether the conduct was hostile or patently offensive;
  - whether others joined in perpetrating the harassment; and
  - whether the harassment was directed at more than one individual.

- Upon completion of the investigation, the Superintendent may determine that harassment occurred or did not occur, or may find the evidence is inconclusive. If it is found that harassment occurred, immediate and appropriate remedial action will be taken to address and resolve the matter, including, as appropriate, provision of resources that may include counseling to the harasser as a means to prevent recurrence of future harassment (if off-campus counseling is deemed appropriate this will be the responsibility of the parent/guardian(s) to obtain), discipline of the harasser, referral of the matter to law enforcement when appropriate, strategies to protect the victim and witnesses from retaliation, counseling for the victim (if off-campus counseling is deemed appropriate this will be the responsibility of the parent/guardian(s) to obtain), and any other necessary steps reasonably calculated to prevent future occurrences of harassment.

- Within ten (10) school days following the conclusion of the investigation, the Superintendent will provide written notice to the complainant and his/her parent/guardian(s) of the findings of the investigation and the corrective action(s) taken if any, as well as written notice to the individual named in the complaint. If an individual named in the complaint is a student, then parents/guardians will be notified as well.

- Within ten (10) school days after the Superintendent renders written notice, the Principal/Director will contact the complainant and his/her parent/guardian(s) to assess whether there are further concerns of ongoing sexual harassment or retaliation, and to determine whether additional supportive measures are necessary.

- School personnel shall maintain confidentiality of the reported information. Documentation related to reported harassment and the subsequent investigation shall be maintained by the schools per record retention
requirements. In the event ASDB reports incidents to persons other than school officials or law enforcement, all individually identifiable information shall be redacted. Restrictions established by FERPA on disclosure of personally identifiable student information must be observed at all times.

Additional Information

The Principal/Director shall establish procedures for the dissemination of policy and administrative regulation JBB and JBB-R to students, parent(s) and guardian(s). The dissemination of this policy and regulation to parents/students shall:

- occur during the first (1st) week of each school year,
- be provided to each incoming student during the school year at the time of the student’s registration,
- be posted in each classroom and in common areas of the school, and
- be summarized in the student handbook and on the Agency’s website.

The dissemination of this policy and regulation will also be provided to employees at the beginning of each instructional year and on the first day of employment for new employees.
ASSIGNMENT OF STUDENTS TO HOUSING

Students placed in the educational programs on the Tucson campus and whose residence is outside the limits established in Policy EE are eligible for student housing. Student’s room and board are provided at no cost to the parents of students. The student housing program is for the purpose of supporting educational opportunities in the day school rather than treatment or respite care.

Students are transported to and from homes on weekends as provided by Policy EE and all students are transported to designated locations for school vacations. Parents are responsible for transporting their child on the first and the last day of the school year.

The Superintendent or designee may develop regulations consistent with this policy and Arizona law as necessary for the proper operation of housing programs and the implementation of this policy.

All Students

Students regularly enrolled in programs of ASDB are required by Arizona statute and school policy to attend classes promptly and on a regular basis in order to achieve full educational benefits.

Day Students

Parents or guardians of students attending on a daily basis are required to notify the school on any day that the student is not to attend. (Call the appropriate number as designated by Principals/Directors.) Parents should call no later than one half (1/2) hour after the beginning of the student's first class of the day. In the event parents or guardians fail to inform the school, the designated school secretary will contact the parent or guardian by telephone in an attempt to ascertain an explanation for the student's absence.

Residential Students at Home

If for any reason a residential student does not return to ASDB from a home visit, parents or guardians are required to notify the school stating the reason for absence and the expected time and means of return to school. In the event parents or guardians fail to inform the school, the designated school secretary will contact the parent or guardian by telephone in an effort to ascertain an explanation for the student's absence.

Residential Students

If for any reason a residential student is detained or somehow delayed in going to classes, the residential staff on duty is responsible to promptly notify the appropriate school secretary.

Upon return to school following an absence, the parent or guardian must send a written note or letter, which states the dates and reasons for the absence.

If a student must leave the campus during the school day, a written note must be provided to the school in advance stating the date, time, reason for excused absence from classes and if applicable the name of person to pick up the student. If the student is not to travel independently (walk, riding the bus, et cetera), the request should explain transportation arrangements or plans.

Students who do not properly check out of school will be given an unexcused absence.

The student health center is to notify the appropriate school secretary in a timely manner when a student is to remain in the student health center due to illness or injury during a regular class period or school hours. If the student is sent home, the student health center will be responsible for notifying the appropriate school secretary and parent or guardian.
In the event a student will be out of school for more than ten (10) consecutive days with an excused absence, an alternative instructional program shall be considered. Without an alternative instructional program, the student will be dropped from the school's roll.

All High School Students

When a student has eleven (11) absences, excused or unexcused, in any class during the semester with no more than six (6) per quarter, the student will meet with the Principal/Director. Results may be:

- Permission to remain in class with credit.
- Permission to remain in class with no credit.
- Withdrawal from class.
- Review of placement

Assigned work missed due to an excused absence may be made up for full credit. The student will be permitted the same number of days to complete the make-up work as were acquired through the absence.

Assigned work missed due to school suspension or unexcused absence may be made up for the class requirements.

It will be the responsibility of the appropriate Principal/Director or appropriate dean to communicate this policy to parents.
STUDENT ATTENDANCE

Attendance Records

Teachers will check and formally record attendance daily as required by departmental guidelines as follows:

- Elementary Schools – morning and afternoon
- Middle Schools – at the beginning of each class period
- High Schools – at the beginning of each class period

Teachers are responsible to account for all students assigned to their classes during official school hours. Discrepancies must be reported to the Principal/Director’s office.

Student absences shall be reported to the registrar’s office.

A daily master list of absences will be prepared from attendance reports sent to the office.
STUDENT ATTENDANCE

Absence Notification

ASDB shall make a reasonable effort to promptly telephone and notify parents or persons having custody of a student in Grades K - 8 within two (2) hours after the first class in which the student is absent if an excuse or authorization of absence from the parent or person having custody of the student has not been provided to the school office.

ASDB and the Board, employees, or agents are not liable for failure to notify. Further, on or before the enrollment of a student in Grades K - 8, ASDB shall notify parents or other persons who have custody of a student of their responsibility to authorize any absence of the student from school and to notify ASDB in advance or at the time of any absence. ASDB also requires that at least one telephone number, if available, be given to the school office so that a “reasonable effort to notify by telephone” may be accomplished. This telephone number, if available, shall be provided at the time of enrollment of the student in ASDB. The parents or persons having custody of a student shall promptly notify the school of any change in this telephone number.
ENTRANCE AGE REQUIREMENTS

Special Preschool

A child evaluated and recommended for special services for a disability in accord with statute, and who has reached the third (3rd) birthday, may be admitted to preschool. If otherwise eligible, ASDB may admit a child who is within ninety (90) days of reaching age three (3) years if it is determined to be in the best interest of the individual. The Superintendent or designee shall make such determination based upon one (1) or more consultations with parent(s), guardian(s), the child, and the multidisciplinary placement team.

Kindergarten and First Grade

For admission to kindergarten, children must be five (5) years of age prior to September 1 of the current school year. If a full-day kindergarten is provided, the parent of a student eligible for full-day kindergarten shall be offered the opportunity to choose either a half-day or full-day kindergarten program. ASDB shall provide an academically meaningful half-day kindergarten program in each school where the half-day student enrollment is sufficient to fill a class. Children may be admitted to first grade who are six (6) years of age, or shall be deemed six (6) years of age if they reach such age prior to September 1 of the current school year.

The ASDB Board may admit children who have not reached the required age as prescribed above if it is determined to be in the best interest of the children, and such children must reach the required age of five (5) for kindergarten and six (6) for first grade by January 1 of the current school year.

For a child who has not reached six (6) years of age (five [5] for kindergarten) before September, the determination of whether to admit shall be based upon one (1) or more consultations with the parent(s) or guardian(s), the child, the teacher, the Principal, and/or professional consultants.

High School

A high school graduate with a recognized diploma may be refused admission.

Students between the ages of sixteen and twenty-one (21) years shall be admitted to high school. A student under sixteen (16) years of age who does not hold an eighth-grade certificate of promotion may be admitted to high school under the following conditions:

The student must meet competency requirements in the adopted standards for promotion of students from the eighth (8th) grade as determined by the State Board.
of Education in the areas of reading, writing, mathematics, science and social studies.

The Superintendent or designee will develop procedures for the student to demonstrate competency in the standards adopted by the State Board of Education.

**Residency Verification**

In accordance with guidelines and forms adopted by the Arizona Department of Education, ASDB shall require and maintain verifiable documentation of residency in the State of Arizona for pupils who enroll in ASDB.

*Adopted: June 8, 2017*
STUDENT ADMISSIONS/ENROLLMENT

The person enrolling a student (except homeless students) in the campus based program for the first time will be asked to produce one (1) of the following proofs:

- A certified copy of the child's birth certificate.
- Other reliable proof of the student’s identity and age, including the student's baptismal certificate, an application for a Social Security number, or original school registration records, and an affidavit explaining the inability to provide a copy of the birth certificate.
- A letter from the authorized representative of an agency having custody of the student (pursuant to statute) certifying that the student has been placed in the custody of the agency as prescribed by law.

The parent, guardian, or surrogate will be given thirty (30) days to provide documentation requested as listed above. If documentation is not provided, a letter will be sent to notify the parent, guardian, or surrogate that unless the documentation is provided within ten (10) days, the local law enforcement agency will be notified.

Nothing contained in this policy shall authorize ASDB to disclose to any person a student's educational record without prior parental consent unless ASDB makes a determination that disclosure of such records is necessary to protect the health and safety of the student.

Purpose

ASDB recognizes the responsibility for a student’s evaluation, placement and education by the child’s school District of Residence and establishes a collaborative process which will provide the appropriate education for enrolled students, and retain the relationship of responsibility outlined in statute for the assurance of compliance and the provision of services.

The following shall be used for placements and may be used as a basis for intergovernmental agreements (IGAs) with some or all districts for the placement of students.

Placements of students from an organized region will follow provisions of IGAs developed for the region. Those provisions incorporate requirements of appropriate Arizona statutes.

Students Eligible for Admission Consideration

Students shall be determined eligible for consideration for admissions to ASDB campus based programs without charge if and only if all of the following conditions are met:

- A student’s district of residence has provided a signed certification that the student is a resident of the state of Arizona entitled to free public education in the district of residence.
- The student’s district of residence has current immunization records indicating that all immunizations are current as required by Policy JLCB.
- The student has had a physical examination done by his primary care physician and the results of this examination and his medical records are available to the student health service staff.
● Student is under twenty-two (22) years of age;

● Student is sensory impaired to an extent that an IEP team has determined that the educational needs resulting from or directly related to that sensory impairment exceed educational and related services currently available in the District of Residence.

For the Tucson Campus when Boarding is a Consideration

● Student is determined not to be at-risk medically to such an extent as to be an inappropriately placed student. If during the review of records for children who are under consideration for a placement when boarding is a consideration, it is indicated that there is a significant health condition which may cause them to be medically at risk, the following procedure will occur:

● The Superintendent or designee will ensure that the review of student cases include a review by an ASDB pediatrician, which may be on site, prior to decision for placement or center-based evaluation to determine the significance of the health condition.

● The Superintendent or designee will ensure that relevant recommendations from the ASDB pediatrician are provided to the appropriate staff.

● The significance of the medical factors will be considered in determining the capability of providing the boarding component to access the day program. This is to insure the safety of the child in the absence of the parents and primary care physician.

Referral, Evaluation and Placement Consideration

When making referral, evaluations, placement recommendations or placement reviews, the members of the evaluation and placement team must meet in accordance with A.R.S. 15-1342.

If the evaluation and placement team determines to make a recommendation for placement to an ASDB campus based program and the IEP team determines that such a placement is the least restrictive environment, then special education services will commence within fifteen (15) school days after the development of the IEP. If the multidisciplinary team anticipates that placement within the fifteen (15) day limit may not be possible, the parent will be notified and ASDB personnel will assist the DOR in placing the child in a program by agreement with another LEA or SSI or a private agency. The Arizona Department of Education shall also be notified.

JFABC: Admission of Transfer Students

ADMISSION OF TRANSFER STUDENTS
(Academic Credit Transfer)

Academic credit for students who transfer from private or public schools shall be determined on a uniform and consistent basis.

Elementary

Academic credit for placement in the common school subjects and grades shall be based upon teacher recommendations and previous grade level assignments subject to the determination that the student can meet the standards adopted by the State Board of Education for the grade level assignment.

Credit for Graduation Requirements

Core credit for purposes of this policy shall be the units of credit specifically named as required for graduation by the State Board of Education in R72-302.02.

Within ten (10) school days after receiving the list, a student may request to take an examination in each particular course in which core credit has been denied. ASDB shall accept the credit as a core credit for each particular course in which the student takes an examination and receives a passing score on a test, aligned to the competency requirements adopted pursuant to this section, designed and evaluated by a teacher in ASDB who teaches the subject matter on which the examination is based.

ASDB may not charge a fee to a student who takes an examination in a particular course to obtain academic credit, pursuant to section 15-701.01, subsection I, from ASDB if the academic credit for a course was previously earned in an Arizona online instruction course or at any public school in this state. Any test administered pursuant to this subsection shall be an assessment that is aligned to the course relevant state academic standards.

If a student is enrolled in ASDB and that student also participates in Arizona online instruction between May 1 and July 31, ASDB shall not require proof of payment as a condition of ASDB accepting credits earned from the online course provider.

All core credit courses must meet the standards adopted by the State Board of Education where such standards exist. Where standards have not been adopted by the State Board of Education, core credit courses must meet the standards established for the school to which the student has requested a transfer of credit.

Only the liaison will direct the school when a student is to be registered as McKinney Vento.
UNSAFE SCHOOL CHOICE

Pursuant to the Unsafe School Choice Option of the Every Student Succeeds Act of 2015, funding under the Elementary and Secondary Education Act for the State is contingent upon the adoption and enforcement of an unsafe school choice policy. The State policy must require that a student attending a persistently dangerous public elementary school or secondary school, as determined by the State in consultation with a representative sample of local educational agencies, or who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary school or secondary school that the student attends, be allowed to attend a safe public elementary school or secondary school within the local educational agency, including a public charter school.

Definitions

General Definition of Persistently Dangerous School Label (Adopted by Arizona State Board). Victim of Violent Criminal Offense

Any student, while in or on the grounds of a public elementary school or secondary school that the student attends, who is subjected to a violent criminal offense, as defined in Arizona law or who is an immediate family member of one who has been killed or incapacitated by such defined violent criminal offense shall be offered the

**Reports Required**

The number of individuals using the individual transfer option should be reported to the Arizona Department of Education (ADE) each year in the format and form required.

Schools are to report violations of rules regarding dangerous weapons in the “Safe and Drug-Free Schools Report,” which is an annual requirement for all public schools in Arizona and is due to ADE by June 30 each year. Additionally, referrals to law enforcement agencies for criminal offenses should be reported in the annual School Report Card.

JH: Student Absences and Excuses

© 2017 by Arizona School Boards Association

STUDENT ABSENCES AND EXCUSES

The regular school attendance of a child of school age is required by state law. Regular school attendance is essential for success in school; therefore, absences shall be excused only for necessary and important reasons. Such reasons include illness, bereavement, other family emergencies, and observance of major religious holidays of the family’s faith.

In the event of a necessary absence known in advance, the parent is expected to inform the school; if the absence is caused by emergency, such as illness, the parent is expected to telephone, email, or text message (SMS) the school office. When a student returns to school following any absence, a note of explanation from the parent is required.

When Absent from School

State law mandates that the school record reasons for all student absences. Therefore, when a student is absent, it will be necessary for the parent to contact the school on or before the day of the absence in order to advise the school as to the reason for the absence. When it is impossible to contact on the day of the absence, the school should be notified on the morning the student returns, in time for the student to obtain an admission slip prior to the student's first class. All absences not verified by parental or administrative authorization will remain unexcused.

If a parent does not have access to a phone, email, or text message (SMS) either at home or at work, a note will be accepted for verification purposes.

For absences greater than one (1) day in length, the school should be notified each day of the absence.

All staff members will solicit cooperation from parents in the matter of school attendance and punctuality, particularly in regard to the following:

- The scheduling of medical and dental appointments after school hours except in cases of emergency.
- The scheduling of family vacations during school vacation and recess periods.

The school may require an appointment card or a letter from a hospital or clinic when the parent has not notified the school of an appointment of a medical or dental nature.

School administrators are authorized to excuse students from school for necessary and justifiable reasons.

Adopted: June 9, 2017
STUDENT ABSENCES AND EXCUSES (Absence Notification)

The school shall make a reasonable effort to promptly telephone and notify parents or persons having custody of a student in grades kindergarten (K) through eight (8) within two (2) hours after the first class in which the student is absent, starting with the kindergarten students first, if an excuse or authorization of absence from the parent or person having custody of the student has not been provided to the school office.

ASDB and its Board, employees, or agents are not liable for failure to notify. Further, on or before the enrollment of a student in grades kindergarten (K) through eight (8), ASDB shall notify parents or other persons who have custody of a student of their responsibility to authorize any absence of the student from school and to notify the school in advance or at the time of any absence. ASDB also requires that at least one (1) telephone number, if available, be given to the school office so that a "reasonable effort to notify by telephone" may be accomplished. This telephone number, if available, shall be provided at the time of enrollment of the student in the school. The parents or persons having custody of a student shall promptly notify the school of any change in this telephone number.
TRUANCY

A child between the ages of six (6) and sixteen (16) failing to attend school during the hours school is in session is truant unless excused pursuant to A.R.S. 15-802, 15-803, or 15-901.

Truant means an unexcused absence for at least one (1) class period during the day. This includes absence from any class, study hall, or activity during the school day for which the student is scheduled.

Unexcused absence for at least five (5) school days within a school year constitutes habitual truancy. The Superintendent or designee will establish procedures to identify and deal with unexcused absences, beginning with notification of parents. Continued violation may lead to discipline of the child and/or referral of the parent to a court of competent jurisdiction.

EXCLUSIONS AND EXEMPTIONS FROM SCHOOL ATTENDANCE
(Chronic Health Conditions)

ASDB will provide appropriate educational opportunities for any student identified by appropriately certified health professionals including podiatrists, chiropractors, physicians, naturopathic physicians, osteopathic physicians, psychiatrists, ophthalmologists, physician assistants, or registered nurse practitioners as having a chronic health condition requiring management on a long-term basis that will affect regular school attendance. Homework will be made available in a timely manner to ensure that such students have the opportunity to successfully complete assignments and avoid losing credit because of their absence from school. The assigned teacher(s) shall have the responsibility to provide, in a timely manner, homework for students designated as having chronic health conditions. Further, students with chronic health conditions shall be provided flexibility in physical education activity requirements so that they may participate in the regular physical education program to the extent that their health permits. Staff members responsible for physical education activity programs shall develop and implement such guidelines.

Nothing in this policy shall be construed to authorize school personnel to obstruct, interfere with, or override the rights of parents or guardians concerning the education and health care of pupils with chronic health conditions.

Nothing in this policy shall be construed to authorize school personnel to either:

- Authorize absences from school for a student with a chronic health problem without the prior consent of the student’s parent or guardian.
- Recommend, prescribe or provide medication to a student with a chronic health problem without the prior consent of the student’s parent or guardian.

The Superintendent or designee shall develop regulations for meeting the requirements of this policy.

Dear ___________:  

This letter is to inform you that the Arizona State Schools for the Deaf and the Blind makes special arrangements for homework assignments for certain students who have “chronic (recurring) health conditions.” As a result of frequent absences from school because of illness or an accident, ____________________________ may be eligible to receive modified instructional services provided for “students with chronic health conditions.” 

A form is enclosed asking your family physician to state how this health condition is affecting school attendance. If your physician believes the condition to be “chronic” and anticipates frequent absences for the school year (but fewer than sixty (60) school days, as for homebound services), please ask the physician to fill out the medical certification form and return it to the school. 

If ____________________________is eligible as a “student with a chronic health condition,” the school will make sure that you receive homework and contact with a teacher during necessary absences. The teacher will work out an agreement for homework assignments with you to assure receipt of credit for completed homework.

If you have any questions, please contact me at ____________________________.

Sincerely

STUDENT RIGHTS AND RESPONSIBILITIES

This policy sets forth guidelines by which student rights are to be determined consistent with law.

The ASDB Board has the authority and responsibility to establish reasonable rules and regulations for the conduct and deportment of students of ASDB. At the same time, no student shall be deprived of equal treatment and equal access to the educational program, due process, and free expression and association in accordance with these guidelines.

Attendant upon the rights established for each student are certain responsibilities, which include respect for the rights of others, obedience to properly constituted school authority, and compliance with the rules and regulations of ASDB.

Students who have reached the age of eighteen (18) years possess the full rights of adults and may authorize school matters previously handled by their parents.

The Superintendent or designee shall develop and promulgate administrative procedures consistent with law and ASDB Board policy to ensure that student rights under varying conditions are properly described.

Such procedures shall be reviewed annually and updated when required.

*Adopted:* June 8, 2017
STUDENT INVOLVEMENT IN DECISION MAKING

A primary task of the ASDB is to create a stimulating learning climate that develops active involvement of students in their education and develops a spirit of inquiry. This climate is created when students work together with school employees in such activities as planning and evaluating school programs.

ASDB encourages student involvement that will enhance:

- Achievement of the course goals, improvement of the courses of study, and planning of classroom activities.
- Freedom of expression, recognizing that every privilege and right has a corresponding responsibility.
- Student participation in assembly programs and school-sponsored forums of interest.
- Participation in student government organizations that provide students with a voice in school affairs.
- Co-curricular or extracurricular activities that broaden their educational experiences.

Adopted: March 6, 2008

LEGAL REF.: A.R.S. 15-1341
STUDENT GOVERNMENT

The organization of student councils in all campus based programs is encouraged.

Student government is expected to be "of the students, by the students, for the students," representing the students in the school in communications with the administration and in the organization of student activities.

Members of student councils are to be elected democratically. The rights and responsibilities of the council should be clearly set forth by each school. Each student council must have a faculty advisor.

Adopted: July 13, 2017
STUDENT CONDUCT

The Superintendent or designee will establish regulations governing the conduct of students in ASDB, traveling to and from ASDB, at ASDB functions, or affecting the ASDB order. In establishing these regulations, the Superintendent or designee may consult with student or staff committees. In addition to compliance with regulations established by the Superintendent or designee, students are expected to obey all rules and regulations adopted by the ASDB Board, and to obey any order given by a member of the faculty or staff members relating to school activities.

A student shall be defined as any person who is enrolled in an educational program provided by or approved by ASDB and carried on in premises owned or controlled by ASDB.

Students shall not engage in improper behavior, including but not limited to the following:

- Any conduct intended to obstruct, disrupt, or interfere with teaching, research, service, administrative or disciplinary functions, or any activity sponsored or approved by the ASDB Board.

- Unlawful use, possession, distribution, or sale of tobacco, alcohol, or drugs or other illegal contraband on ASDB property or at ASDB-sponsored functions.

- Conduct or speech that violates commonly accepted standards of ASDB and that, under the circumstances, has no redeeming social value.

- Failure to comply with the lawful directions of ASDB officials or any other law enforcement officers acting in performance of their duties, and failure to identify themselves to such officials or officers when lawfully requested to do so.

- Knowingly committing a violation of ASDB rules and regulations.
Proof that an alleged violator has a reasonable opportunity to become aware of such rules and regulations shall be sufficient proof that the violation was done knowingly.

In addition to the general rules set forth above, students shall be expected to obey all policies and regulations focusing on student conduct adopted by the ASDB Board. Students shall not engage in any activities prohibited herein, nor shall they refuse to obey any order given by a member of the faculty or employee who is attempting to maintain public order.

Any student who violates these policies and regulations may be subject to discipline, in addition to any customary discipline that ASDB presently dispenses.

Local law enforcement shall be notified by the Superintendent or designee regarding any suspected crimes against a person or property that is a serious offense as defined in 15-341, involves a deadly weapon or dangerous instrument or that could pose a threat of death or serious injury to staff, students or others on ASDB property.

The authority of the Superintendent or designee to establish regulations covering students may be delegated to Principals/Directors for their individual schools.

STUDENT DRESS

The ASDB Board recognizes that each student’s mode of dress and grooming is a manifestation of personal style and individual preference. The ASDB Board will not interfere with the right of students and their parents to make decisions regarding their appearance except when their choices affect the educational program of the campus based schools or the health and safety of others.

The ASDB Board authorizes the Superintendent or designee to develop and enforce school regulations prohibiting student dress or grooming practices that:

- Present a hazard to the health or safety of the student or to others in the school.
- Materially interfere with school work, create disorder, or disrupt the educational program.
- Cause excessive wear or damage to school property.
- Prevent students from achieving their educational objectives.
- Represent membership in a gang.

Obscene language or symbols, or symbols of sex, drugs, or alcohol on clothing are expressly prohibited.

ASDB will not interfere with the ability of students and their parents to make decisions regarding their appearance except when their choices affect the program of the schools or the health and safety of others. School personnel have the responsibility of protecting the health and safety of pupils and maintaining proper and appropriate conditions conducive to learning. The purpose of the student dress code is to encourage students to "dress for success" and come to school properly prepared for participating in the educational process.

Each student is expected to take pride in the physical appearance of the school. Teachers and students should be observant at all times to prevent damage or destruction of school property. Any marking or marring of school property should be reported to the office at once.

No student shall damage or deface any property belonging to ASDB. The type of discipline that may be imposed for damage to school property by students depends upon the circumstances. Students may be subject to discipline for willful damage or destruction of school property.

FREEDOM OF EXPRESSION

Students possess inalienable rights to develop, believe, and follow personal viewpoints and beliefs to the extent their viewpoints and beliefs do not infringe upon nor denigrate the same rights of others.

ASDB shall not discriminate against students or parents on the basis of a religious viewpoint or religious expression. If a student includes in an assignment a viewpoint expression, an evaluation of the student's work shall be based on ordinary standards of substance and relevance to the course curriculum or requirements of the coursework or assignment, and shall not penalize or reward the student on the basis of religious content or viewpoint.

Students are to be permitted to pray or engage in religious activities or expression in the same manner and to the same extent as students are permitted to engage in nonreligious activities or expression, before, during, and after the school day.

To the extent and in the manner that other types of clothing, accessories, and jewelry displaying messages or symbols are permitted, students are permitted to wear clothing, accessories, and jewelry that display religious messages or symbols.

Acknowledging and permitting the above freedoms is not to be interpreted to mean the ASDB is requiring any person to participate in prayer or other religious activities nor attempting to violate the constitutional rights of any person.

ASDB does retain its rights to:

- Maintain order and discipline on ASDB property in a content and viewpoint neutral manner.
- Protect the safety of students, staff members, and visitors on ASDB property.
- Adopt and enforce policies and regulations concerning student speech while on ASDB property in a manner that does not violate a student's state and federal constitutional rights. SECRET SOCIETIES/ GANG ACTIVITY

Gangs that initiate, advocate, or promote activities that threaten the safety or well-being of persons or property on school grounds or disrupt the ASDB environment are harmful to the educational process. The use of hand signals, graffiti, or the presence of any apparel, jewelry, accessory, or manner of dress or grooming that, by virtue of its color, arrangement, trademark, symbol, or any other attribute indicates or implies membership or affiliation with such a group is prohibited because of the disruption to educational activities that results from such activities or dress. It is ASDB’s position that such activities and dress also present a clear and present danger to other ASDB students and to ASDB staff members.

Any activity involving an initiation, hazing, intimidation, assault, or other activity related to group affiliation that is likely to cause or does cause bodily danger, physical harm, or personal degradation or disgrace resulting in physical or mental harm to students or others is prohibited.

Any student wearing, carrying, or displaying gang paraphernalia and/or exhibiting behavior or gestures that symbolize gang membership, or causing and/or participating in activities that intimidate or adversely affect the educational activities of another student, or the orderly operation of the schools, shall be subject to disciplinary action.

A failure by a staff member to timely inform the Principal/Director or Superintendent or designee of a hazing allegation or their observation of an
incident of hazing may subject the staff member to disciplinary action in accord with ASDB policies. The staff member shall preserve the confidentiality of those involved, disclosing the incident only to the appropriate Principal/Director or Superintendent or designee as otherwise required by law. Any instance of reported or observed hazing which includes possible child abuse or violations of statutes known to the staff member shall be treated in accord with statutory requirements and be reported to a law enforcement agency.

To assure that students and staff members are aware of its content and intent, a notice of this policy and procedure shall be posted conspicuously in each school building and shall be made a part of the rights and responsibilities section of the student handbook. Forms for submitting complaints are to be available to students and employees in ASDB offices.

- Gather information relative to local community drug and alcohol counseling, rehabilitation, and reentry programs that are available to students and make such information available to parents and students.

- Annually distribute a copy of standards of conduct and the statement of disciplinary sanctions that apply to alcohol and drug violations. A copy of all rules pertaining to discipline and suspension, shall be distributed to students, parents, and transfer students at the time of initial enrollment and annually at the beginning of school.

- Indicate in a statement (which could accompany the copy of conduct standard and sanctions) that the use of illicit drugs and the unlawful possession and use of alcohol are wrong and harmful.

ASDB should perform a biennial review of the programs to:

- Ensure that disciplinary sanctions for students are consistently enforced.

- Determine program effectiveness and implement change to the program if needed.
Drug Abuse Prevention

The following administrative procedures are to be used to implement the Board policy on drug abuse prevention:

- It shall be the responsibility of all school employees to report to the Principal/Director or other administrator in charge all suspected instances of the use, possession, or sale of drugs.
  - Distribution or sale of drugs:
    - When it is reasonably certain that a student is involved in the distribution or sale of drugs, law enforcement authorities and parent(s) or legal guardian(s) shall be contacted.
    - A student who has been determined to be involved in the distribution of drugs shall be reported to the law enforcement authorities and will be subject to suspension.

- Possession of drugs:
  - Law enforcement authorities shall be contacted when the Principal/Director determines that drugs to be used for nonmedical purposes are found in the possession of a student. The Principal/Director may also contact law enforcement authorities to help make such a determination. Students who are in possession of drugs to be used for nonmedical purposes will be suspended.
  - A student who has been suspended for a drug-related offense for a second time will be referred to the Superintendent for further action (A.R.S. 15-843).

- Under the influence of drugs:
  - A student who is reasonably suspected of being under the influence of drugs shall be referred to the school office.
  - The parent(s) or legal guardian(s) of a student who is determined to be under the influence of drugs shall be contacted. The student will be suspended.
  - A student who has been involved in a drug-related offense for a second time will be referred to the Superintendent for further action (A.R.S. 15-843).

- Student who seeks help:
• ASDB does not condone the nonmedical use of drugs. The need for the availability of help to those who use/abuse drugs is recognized. It is the position of ASDB that communications between students and professional employees will be held in trust unless it becomes evident that withholding information may result in harm or injury to the student or others. Employees shall refer students who seek help to the school nurse.

• Involvement with medical drugs (medication):
  • A student who needs access to medical drugs in school shall leave them, in the original container, with the school nurse. Permission and written directions from a physician concerning their use shall be left with the school nurse.
  • Students who are in possession of medically approved drugs, but have not followed the directions described above, shall be disciplined in accordance with school disciplinary policies.
  • Students who distribute such drugs to others will be considered as distributing drugs for nonmedical purposes.

• Parental involvement:
  • When the Principal/Director questions a student who is reasonably suspected of having violated the ASDB drug policy, reasonable efforts shall be made to notify the student’s parents or legal guardian that such questioning has taken place.
  • Reasonable efforts shall be made to notify the parents or legal guardian of a student who has been determined to have violated the ASDB drug policy.

• Medical services:
  • A student who is reasonably suspected of being under the influence of drugs while ASDB is in session shall be referred to the school nurse. Such cases shall be treated like any other medical problem.
  • When there is reasonable suspicion that any student is under the influence of drugs while at an ASDB activity and health services are unavailable, it shall be the responsibility of the supervisor on duty to call for appropriate assistance.

• Return to school:
  • When a student has returned from a suspension for using drugs for nonmedical purposes, reasonable efforts should be made by employees and parent(s) or legal guardian(s) to prevent the problem from recurring. The process could include, but not necessarily be limited to, the following:
    • Utilization of community-based programs.
● In-school group or individual counseling.
● An effort by the professional employees to help the student emphasize the positive alternative to drug-use behavior.

● Student neglect, child abuse, or child maltreatment:
  ● An employee who believes that a parent or other adult is contributing to drug-using behavior of a student shall confer with the Principal/Director.
  ● Such a conference does not change the duty of the employee to ensure that the case is referred to the appropriate child protective services for further investigation.

● Drug education:
  ● Substance abuse prevention shall be combined with health, science, citizenship, or a similar program.
  ● In addition to the established curriculum, the Principal/Director shall direct the use of other educational information, including, but not necessarily limited to, assemblies, speakers, printed materials, class discussions, and bulletin board materials.

● Student counseling:
  ● Counseling should emphasize drug abuse prevention as well as treatment, and an effort should be made to make it available to all students who desire this service.
  ● Counseling may be done individually or in groups.
  ● When a student seeks out an employee other than a counselor to discuss a drug problem, the particular employee shall advise the counselor.

● Employee education:
  ● Within the first thirty (30) days of each school year, the Superintendent shall arrange a meeting that will include information on drug abuse prevention. The program will be conducted by employees trained in drug abuse prevention and will include, but not necessarily be limited to, ASDB policies and procedures, identification of commonly used drugs, and an approach that recognizes the dignity and worth of each student.

● Parent and community education:
  ● At least once annually, ASDB shall sponsor a program for the community on its drug abuse prevention programs. In addition to presentations by ASDB employees, the program may include representatives of law enforcement agencies and medical professions.
• Additionally, ASDB may offer programs in parent effectiveness training.

• News releases and other forms of communications may be used to educate parents and the community, using regular school channels for such purposes. Such communications will be approved by the Superintendent.

Confidentiality
In order to preserve the rights of those in a counseling relationship, the counselor will inform the individual that information within the ASDB setting cannot always be kept confidential. In some cases it will be referred to the appropriate individual or agency. Such cases may include those that endanger the welfare of the student or others.

The student shall be advised that ASDB records include data concerning school achievement, test results, and attendance. ASDB records are protected by federal and state statutes and do not include information concerning drug involvement.
WEAPONS IN SCHOOL

No student shall carry or possess a weapon or simulated weapon on ASDB premises without authorization by the Superintendent or designee. No student shall use or threaten to use a weapon or simulated weapon to disrupt any activity of ASDB.

Any staff member who observes any person in possession of a weapon or simulated weapon on ASDB premises shall immediately report the matter to the Principal/Director. A Principal/Director who observes or receives a report of a student possessing a weapon on ASDB premises shall immediately take appropriate safety and disciplinary actions in accordance with ASDB policies and shall immediately report a violation of this policy to a peace officer, pursuant to A.R.S. 15-515, if the weapon is a deadly weapon or the student is a minor in possession of a firearm.

A student who violates this policy by any means other than carrying or possessing a firearm shall be subject to disciplinary action. *Adopted: July 13, 2017*
The ASDB Board of Directors believes it is the right of every student to be educated in a positive, safe, caring, and respectful learning environment. The Board further believes a school environment inclusive of these traits maximizes student achievement, fosters student personal growth, and helps students build a sense of community that promotes positive participation as members of society.

ASDB, in partnership with parents, guardians, and students, shall establish and maintain a school environment based on these beliefs. The Schools shall identify and implement age-appropriate programs designed to instill in students the values of positive interpersonal relationships, mutual respect, and appropriate conflict resolution.

To assist in achieving a school environment based on the beliefs of the Board, bullying, harassment or intimidation as defined by this policy will not be tolerated.

Prohibitions
Students are prohibited from bullying on school grounds, school property, school buses, at school bus stops, at school-sponsored events and activities, and through the use of electronic technology or electronic communication equipment on school computers, networks, forums, or mailing lists. Bullying of a student or group of students can be manifested through written, verbal, physical, or emotional means and may occur in a variety of forms including, but not limited to verbal, written/printed or graphic exposure to derogatory comments, extortion, exploitation, name calling, or rumor spreading either directly through another person or group or through cyber bullying, exposure to social exclusion or ostracism,

STUDENT VIOLENCE / HARASSMENT / INTIMIDATION / BULLYING

Prohibitions

Bullying, harassment or intimidation as defined by Board policy JICK will not be tolerated.

Students are prohibited from bullying on school grounds, school property, school buses, at school bus stops, at school sponsored events and activities, and through the use of electronic technology or electronic communication equipment on school computers, networks, forums, or mailing lists. Students are also prohibited from bullying outside of the school and the school day when such bullying results in a substantial physical, mental, or emotional negative effect on the victim while on school grounds, school property, school buses, at school bus stops, or at school sponsored events and activities, or when such act(s) interfere with the authority of the school system to maintain order.

Retaliation directed toward a student or employee for reporting a case of bullying or suspected case of bullying will not be tolerated. Students involved directly or indirectly in retaliation will be disciplined pursuant to Board policy JK. Any suspected violation of the law will be reported to law enforcement authorities.

Persons assigned to the ASDB Regional Cooperative Programs shall consult the policies and regulations of the respective school districts in which they are completing assignments, and shall follow such policies and regulations on this subject unless they are in conflict with the intent of ASDB policy and regulation.

Reporting Incidents of Bullying

A student who is experiencing bullying, or believes another student is experiencing bullying, is to report the situation to the Principal or another school employee.

Any school employee who receives a verbal complaint from a student, or who becomes aware of, observes, or suspects that a student is experiencing bullying shall immediately notify the Principal. The employee may initially give verbal notice to the Principal, but shall submit a detailed written report of the complaint to the Principal and Superintendent within one (1) school day of the verbal complaint. Students/staff may use complaint form JICK-EA, which can be found in the Principal’s Office and the main office of each school in an accessible format. If the complaint involves the Principal, the employee shall inform and submit the complaint to the next higher administrator.

Failure by an employee to immediately inform the Principal of a bullying complaint or observation of suspected bullying may subject the employee to disciplinary action in accord with ASDB Board policy GCQF.

At the time a Principal receives a complaint of bullying, the Principal shall provide to the student who has allegedly been bullied a copy of policy JICK, regulation JICK-R
and complaint form JICK-EA. The Principal may assist the student with filling out complaint form JICK-EA or may complete the form for the student. The Principal shall immediately notify the following of the complaint:

- Parent(s)/guardian(s)
- Superintendent

Should the Principal be the employee who observes, is informed of, or suspects a student is experiencing bullying, the Principal shall document the incident or concern in writing, and supply a copy within one (1) school day to the Superintendent.

Local law enforcement shall be notified by the Principal regarding any suspected crimes against a person or property that is a serious offense per policy JIC, Student Conduct.

ASDB employees are authorized and encouraged to provide life sustaining emergency care to any student who is injured as a result of bullying on ASDB grounds per administrative regulation EBC-RG, Life Sustaining Emergency Care.

Investigations of the Reports

Investigation of complaints shall be initiated by the Principal as soon as is feasible, in communication with the Superintendent, but not later than two (2) school days after the receipt of the written report. Each investigation will be comprehensive to the extent determined appropriate by the Superintendent.

If the investigation determines that bullying has occurred, student discipline will be administered by the Principal pursuant to Board Policies JK and JKD. Knowingly submitting a false report under this policy shall also subject the student to disciplinary action per policies JK and JKD.

The Principal will meet with the involved students to review the outcome of the investigation. Subject to the restrictions of the Family Educational Rights and Privacy Act (FERPA) set out in policy JR, Student Records, the parent(s) or guardian(s) of the involved students shall also be informed of the outcome of the investigation.

School personnel shall maintain confidentiality of the reported information. Documentation related to reported bullying and subsequent investigation shall be maintained by ASDB for not less than six (6) years. In the event ASDB reports incidents to persons other than school officials or law enforcement, all individually identifiable information shall be redacted. Restrictions established by FERPA on disclosure of personally identifiable student information must be observed at all times.

The Principal shall establish and retain complete records of student disciplinary actions and procedures.

Additional Information

The Principal shall establish procedures for the dissemination of policy and regulation JICK & JICK-R to students, parent(s) and guardian(s). The dissemination of this policy and regulation to parents/students shall:

- occur during the first (1st) week of each school year,
• be provided to each incoming student during the school year at the time of the student’s registration,

□ be posted in each classroom and in common areas of the school, and

• be summarized in the student handbook and on the Agency’s website, and

• make complaint form JICK-EA available in accessible formats in the Principal’s and in the main offices.

The dissemination of this policy and regulation will also be provided to employees at the beginning of each instructional year and on the first day of employment for new employees.
DATING ABUSE

The ASDB Board is committed to maintaining a school campus environment that is safe and secure for all students. Dating abuse will not be tolerated by ASDB. Students who become targets of dating abuse are entitled to certain rights that shall be respected and protected by all school staff members. It is the responsibility of all ASDB staff members to respond to any incident of dating abuse they become aware of in a manner consistent with ASDB training.

The Superintendent or designee shall provide for procedures to ensure appropriate steps are taken to establish and maintain safe and secure schools. These shall include but not be limited to:

- an ongoing effort to enhance staff member training and campus safety planning,
- establishing reporting procedures, and
- making accommodations for victims.

The Superintendent or designee shall establish an age-appropriate dating abuse curriculum for students in grades seven (7) through twelve (12). That curriculum shall include the following components:

- A definition of dating abuse.
- The recognition of dating abuse warning signs.
- The characteristics of healthy relationships.

Dating Abuse Definition

Dating abuse is a pattern of behavior in which one person uses or threatens to use physical, sexual, verbal, or emotional abuse to control the person's former or present dating partner. Behaviors used may include but are not limited to:

- **Physical Abuse**: Any intentional, unwanted physical contact by either the abuser or an object within the abuser's control, regardless of whether such contact caused pain or injuries to the former or present dating partner.

- **Emotional Abuse**: The intentional infliction of mental or emotional distress by threat, coercion, stalking, humiliation, destruction of self-esteem, or other unwanted, hurtful verbal or nonverbal conduct toward the former or present dating partner.

- **Sexual Abuse**: Any sexual behavior or physical contact toward the former or present dating partner that is unwanted and/or interferes with the ability of the former or present dating partner to consent or control the circumstances of sexual interaction.
- **Threats:** The threat of any of the aforementioned forms of abuse, threat of disclosing private information to parents, peers, or teachers, or any other threat made with the intent of forcing the former or present dating partner to change his or her behavior.

**Student Rights Relating to Dating Abuse:**
- All students have the right to be free from sex discrimination and sexual harassment at school. Dating abuse is a form of sexual harassment.
- A student who reports dating abuse shall be treated with respect and dignity.
- Schools personnel shall take affirmative steps to prevent and respond to dating abuse that occurs both on and off campus.
- To the extent possible victims and abusers shall be separated on campus. The school shall make every reasonable effort possible to ensure the victim does not come into contact with the abuser. Any burden of change of adjusting an individual's schedule or participation in a school activity is placed on the abuser.
- A victim has the right to be treated with respect and dignity, and not be subjected to pressure to minimize the severity of acts that occurred or to suggestions that he or she contributed to his or her own victimization.
- Students who have experienced dating abuse have the right to full cooperation from school personnel in obtaining information necessary to achieve resolution.

Students are encouraged to report all known or suspected instances of dating abuse involving themselves or other students. Although initial reports of abuse may be made verbally or in writing, verbal reports must be converted to written records on ASDB-provided forms (JBB-E and/or JICK-EA) and confirmed by the victim for accuracy. ASDB officials shall review the claims alleged to determine which procedure (outlined in JBB-R [Sexual Harassment – Students] or JICK-R [Student Violence/Harassment/Intimidation/Bullying]) is the most appropriate in light of the particular circumstances.

When ASDB officials have a reasonable belief or an investigation reveals that a reported incident may constitute an unlawful act law enforcement authorities will be informed.

*Adopted: July 13, 2017*
MARRIED STUDENTS

Married students must report any name changes to their guidance counselors or the Principal/Director if school records are to reflect the married name on school transcripts. A student’s marital status does not reduce the requirements or opportunities of the educational system at ASDB.

*Adopted: July 13, 2017*
Interviews

School officials may question students regarding matters incident to school without limitation. The parent will be contacted if a student interviewed is then subject to discipline for a serious offense. A student may decline at any time to be interviewed by the School Resources Officer (SRO) or a police officer.

When child abuse or abandonment of a student is alleged.

If a child protective services worker or peace officer (defined as a civil officer, such as a police officer, whose duty it is to preserve the public peace) enters the campus requesting to interview a student attending ASDB, the Principal shall be notified. Access to interview shall be granted when the child to be interviewed is the subject of or is the sibling of or is living with the child who is the subject of an abuse or abandonment investigation. Staff members of ASDB shall cooperate with the investigating child protective services worker or peace officer. If a student is taken into temporary custody in accordance with A.R.S. 8-821, the child protective services worker or peace officer may be reminded to notify the student's parent of the custody, pursuant to A.R.S. 8-823. The child protective services worker or peace officer shall be requested to establish proper identification and complete and sign a "Form for Signature of Interviewing Officer." Six (6) hours following the relinquishment of custody by ASDB, ASDB staff members may respond to inquiries about the temporary custody of the child and may, if considered necessary, call the parent.

Abuse or abandonment is not alleged.

No issue of student population safety is presented. If a peace officer enters the campus requesting to interview a student attending ASDB on an issue other than upon request of the school or for abuse or abandonment, the Principal shall be notified. If the officer directs that parents are not to be contacted because the interview is related to criminal activity of the parent(s)/guardian, the Principal shall comply with the request. Unless these circumstances exist, the parent will be contacted and will be asked if they wish the student to be interviewed. If the parent consents, the parent will be requested to be present or to authorize the interview in their absence within the school day of the request. Where an attempt was made and the parent(s) could not be reached or did not consent within the school day of the request, the peace officer will then be requested to contact the parent(s) and make arrangements to question the student at another time and place.

Safety of the student population is of concern. When a peace officer is present on the campus to interview students at the request of ASDB authorities due to concerns for the safety of the students in the ASDB population, parent contact shall be attempted.
Searches

School officials have the right to search and seize property, including school property temporarily assigned to students, when there is reason to believe that some material or matter detrimental to health, safety, and welfare of the student(s) exists.

Items provided by ASDB for storage (e.g., lockers, desks) or personal items are provided as a convenience to the student but remain the property of ASDB and are subject to its control and supervision. Students have no reasonable expectancy of privacy, and lockers, desks, storage areas, et cetera, may be inspected at any time with or without reason, or with or without notice, by school employees.

Arrest

When a police officer enters a campus providing a warrant or subpoena or expressing an intent to take a student into custody, the office employee shall request the police officer establish proper identification, complete, and sign a form for signature of an arresting officer or interviewing officer. The school employee shall cooperate with the officer in locating the child within the school. ASDB officials may respond to parental inquiries about the arrest or may, if necessary, explain the relinquishment of custody by ASDB and the location of the student, if known, upon contact by the parent.

STUDENT CONCERNS AND COMPLAINTS

Operating within the framework of the ASDB Belief Statement, ASDB promotes those behaviors that build trust, respect, and integrity. ASDB offers many communication channels for reporting concerns or complaints regarding suspected violations of the ASDB Policy Manual, Arizona Revised Statutes, or federal law. Students should feel comfortable asking questions, or raising concerns directly with the appropriate ASDB staff member or administrator. The information noted below notes how students may submit formal complaints regarding a violation of the student’s constitutional rights; a denial of an equal opportunity for reasons not related to the student’s individual capabilities; discriminatory treatment; or concern for the student’s personal safety.

It is recognized, however, that students may have concerns that they may not feel comfortable addressing via formal or informal interactions between ASDB staff members and themselves. To ensure robust addressing of concerns, ASDB provides an unbiased, neutral third-party channel for the public to seek guidance, ask questions, make comments, and report concerns through its Ombudsperson. For guidance on the Ombudsperson, please refer to ASDB Policy GBM and ASDB Regulation GBM-RB.

The Superintendent or designee is directed to establish regulations whereby students with sufficient concern may present a complaint regarding a violation of their constitutional rights, equal access to programs, discrimination, or personal safety provided that:

- The topic is not the subject of disciplinary or other proceedings under other policies and regulations of ASDB, and
- The procedure shall not apply to any matter for which the method of review is prescribed by law, or the ASDB Board is without authority to act.

A complaint may be raised regarding one (1) or more of the following:

- Violation of the student's constitutional rights.
- Denial of an equal opportunity to participate in any program or activity for which the student qualifies not related to the student’s individual capabilities.
- Discriminatory treatment on the basis of race, color, religion, sex, age, national origin, or disability.
- Concern for the student’s personal safety.

Refer to ASDB Board Policy JICK for procedures applying to a complaint that alleges incidences of student violence, harassment, intimidation or bullying.

The complaint or grievance must be made within forty-five (45) calendar days of the time the student knew or should have known that there were grounds for the complaint. The initial complaint should be made using for JII-EA; however, a verbal complaint may be made to any ASDB staff member. The receiving staff member shall immediately inform an administrator of the complaint.

When the initial complaint is submitted in a manner other than on the prescribed form, the administrator shall obtain from the student the particulars of the accusation and complete form JII-EA immediately
thereafter. The administrator shall especially note all student-provided particulars determined by the Superintendent or designee to be necessary for the complaint to be investigated. Any question concerning whether a complaint falls within this policy shall be determined by the Superintendent or designee.

If the receiving ASDB administrator is included in the allegation, the complaint shall be transmitted to the next higher administrative supervisor. Failure by the staff member to timely inform an ASDB administrator or the next higher administrative supervisor of a student’s allegation may subject the staff member to disciplinary action. The staff member shall preserve the confidentiality of the subject, disclosing it only to the appropriate ASDB administrator or next higher administrative supervisor or as otherwise required by law.

A student or student’s parent may initiate the complaint process by completing Exhibit JII-EA.

A complaint may be withdrawn at any time. Once withdrawn, the process cannot be reopened if the resubmission is longer than thirty (30) calendar days from the date of the occurrence of the alleged incident.

Retaliatory or intimidating acts against any student who has made a complaint under this policy and its corresponding regulations, or against a student who has testified, assisted or participated in any manner in an investigation relating to a complaint, are specifically prohibited and constitute grounds for a separate complaint.

To assure that students and staff are aware of its content and intent, a notice of this policy and procedure shall be posted conspicuously in each ASDB building and shall be made a part of the rights and responsibilities section of the student handbook.

Forms for submitting complaints are to be available to students and staff and parents or guardians in the school offices.

Disposition of all complaints shall be reported to the Superintendent or designee and the compliance officer for discrimination if other than the Superintendent or designee. The Superintendent or designee will determine if the policies of ASDB have been appropriately implemented and will make such reports and/or referrals to the ASDB Board as may be necessary.

Knowingly submitting a false report under this policy shall subject the student to discipline up to and including suspension or expulsion. Where disciplinary action is necessary pursuant to any part of this policy, relevant ASDB policies shall be followed.

When ASDB officials have a reasonable belief or an investigation reveals that a reported incident may constitute an unlawful act, law enforcement authorities will be informed.

INTERSCHOLASTIC SPORTS

General

The purpose of interscholastic athletics is both educational and recreational. The school sports program should encourage participation by as many students as possible and should always be conducted with the best interests of the participants as the first consideration.

ASDB participation in interscholastic athletics shall be subject to approval by the ASDB Board. This shall include approval of membership in any leagues, associations, or conferences, and of any new agreements with other schools for a series of games or events. All out-of-state travel for athletic events shall require the approval by the Superintendent or designee before commitments are made for such events.

The following rules shall be observed for participation by individual students:

- For each type of sport in which the student engages, the parents or guardian must give written consent.

- The student must be determined by a physician to be physically fit for the sport.

The Superintendent or designee shall set up other rules for participation, such as those governing academic standing, in accordance with policies of ASDB and pertinent regulations and recommendations of the state interscholastic athletic association.

Health and Safety of Participants

The health and safety of participants in interscholastic athletic activities must receive careful consideration.

The ASDB Board may develop, in response to relevant athletic association directives and medical advisories, appropriate guidelines, information and forms to inform and educate coaches, pupils and parents of Heat Acclimatization and Exertional Heat Illness and the risks of continued participation in athletic activity after a related episode. ASDB health and safety management plans may include Heat Acclimatization Protocol, Hydration Strategies, Return to Play standards, and follow-up/clearance requirements released by the Arizona Interscholastic Association (AIA) as Bylaw 14.17.

The ASDB Board shall develop, in consultation with the Arizona Interscholastic
Association (AIA) guidelines, information and forms to inform and educate coaches, pupils and parents of the dangers of concussions and head injuries and the risks of continued participation in athletic activity after a concussion. Before a student participates in an athletic activity, the student, the student's parents, and the coaches shall participate in an ASDB program to educate program participants of the danger of concussions, head injuries, and the risk of continued participation in athletic activity after a concussion. Students and parents shall sign the AIA form at least once each school year stating awareness of the nature and risk of concussion. ASDB shall retain documentation of the participation of all affected coaching staff members in the program. For the purpose of this policy, athletic activity does not include:

- dance,
- rhythmic gymnastics,
- competition or exhibitions of academic skills or knowledge or other similar forms of physical noncontact activities,
- civic activities or academic activities, whether engaged in for the purpose of competition or recreation.

A student who is suspected of sustaining a concussion in a practice session, a game, or other interscholastic athletic activity shall be immediately removed from the athletic event. A coach from the student's team or an official or licensed health care provider may remove a student from play. A team parent may also remove his or her own child from play. A student may return to play on the same day if a health care provider rules out a suspected concussion at the time the student is removed from play. On a subsequent day, the student may return to play if the student has been evaluated by and receives written clearance to resume participation in athletic activity from a health care provider who has been trained in the evaluation and management of concussions and head injuries as prescribed by A.R.S. 15-341.

A group or organization that uses property or facilities owned or operated by ASDB for athletic activities shall comply with the policies of the ASDB Board related to concussions and head injury. This requirement does not apply to teams based in another state participating in athletic events in Arizona.

An ASDB staff member, team coach, official, team volunteer or a parent or guardian of a team member is not subject to civil liability for any act, omission or policy undertaken in good faith to comply with the requirements of this policy or for decisions made or actions taken by a health care provider. Further, ASDB and its staff and volunteers are not subject to civil liability for any other person's or organization's failure or alleged failure to comply with the requirements of this policy.

Participants must be provided access to water at all times during practice sessions, games, or other interscholastic athletic activities.
The Superintendent or designee shall require that regulations for health and safety of participants in interscholastic athletics be developed, implemented, and enforced. Such regulations may, at the discretion of the Superintendent or designee, be incorporated into this policy as an administrative regulation.

*Adopted: January 18, 2018*
All extracurricular interscholastic activities for students who turn eleven (11) on or before September 1, that are (1) of a competitive nature and involve more than one [1] school where a championship, winner, or rating is determined and (2) endeavors for which no credit is earned in meeting graduation or promotion requirements that are of a continuous and ongoing nature, organized, planned, or sponsored by ASDB, consistent with ASDB policy, shall be conducted under the provisions of this policy. Such activities will be established and designed to offer students worthwhile athletic and leisure-time interests, wholesome recreational and social activity, and an opportunity to develop skills in democratic and cooperative management for these activities. These programs will be appropriate to the maturity of students and as varied as staff and facilities permit.

All such activities conducted under the auspices of ASDB shall be under the direct supervision of the staff responsible for the activity.

It is necessary to have the extracurricular activities function within a realistic framework of control. In order that overenthusiastic students do not place a social or athletic function on a higher plane than the academic program, the following policy will be adhered to:

- Students who, upon having their work checked on a cumulative basis at the end of each one (1) week period, show that they are not working to capacity and have one (1) or more failing grades will be removed from any athletic teams or extracurricular activities. If, after the next one (1) week grading period, their respective grades are such that they are passing on a cumulative basis, they shall be reinstated to the teams or extracurricular activities until a subsequent check is performed unless ineligible for some reason other than academic performance.

- The eligibility criterion for extracurricular participation shall be a passing grade in all classes in which the student is enrolled, and the student shall maintain progress toward promotion or graduation.

- The responsibility for notification of students and parents of these requirements and for enforcement of the above rule rests with the Superintendent or designee.

- The student and the parents or guardian shall be notified of ineligibility in a manner such that confidentiality is maintained when:
  - Ineligibility is pending.
  - Ineligibility is determined to be necessary.
Support services shall be made available to students who become eligible for extracurricular programs as well as to students notified of pending ineligibility.

Students whose behavior presents a problem or jeopardizes school discipline may be ineligible for participation in extracurricular activities until such time as their behavior warrants reinstatement.

The same general standards shall apply for special education students except that such eligibility shall be determined on a case-by-case basis in relationship to the respective students' individual education programs.

The Superintendent or designee shall consult with and invite comment on this policy from parents and teachers and shall make recommendations to the ASDB Board regarding this policy, as necessary, after considering such comments. The ASDB Board, as a part of the procedure for adoption of this policy, shall hold a public hearing on the contents of this policy. [The ASDB Board, as a part of the procedure for adoption of this policy, may form an advisory committee for input from parents and teachers.]

The Superintendent or designee shall establish regulations to ensure that:

- Necessary documents in support of this policy are maintained.
- Necessary data related to ineligible students are collected and reported as required by law.
- The cultural traditions of students are considered when establishing or enforcing rules related to participation in extracurricular activities.
- The requirements of this policy are met.

The Superintendent or designee may develop additional rules or procedures for the proper conduct of extracurricular programs and the implementation of the provisions of this policy.

*Adopted: January 18, 2018*
EXTRACURRICULAR ACTIVITY ELIGIBILITY

The following procedures will be in effect for students age eleven (11) and older. Eligibility status will be used to determine participation in interscholastic sports, outdoor education trips, and other extracurricular activities as determined by Principals/Directors, deans, team leaders and the coordinator of athletics.

General Eligibility

On their eleventh (11th) birthday students are eligible to participate in Middle School interscholastic competition and may join the team provided there is more than twenty-five percent (25%) of the season remaining. High School students shall have eight consecutive semesters of eligibility once they enroll in the ninth (9th) grade. A student who becomes nineteen (19) years of age on or before September 1 is not eligible for any part of that school year. A student who becomes nineteen (19) years of age after September 1 is eligible for the remainder of that school year.

Eligibility for participation in extracurricular interscholastic activities is based upon the student’s grades from the previous quarter. To be eligible to participate, the student must have met the following criteria in the preceding quarter.

- Passing all classes on a cumulative basis (D or better).
- No F grades or incomplete grades.
- Have a C average on the quarterly grade reports.

The courses in which a student must receive a passing grade shall be part of a program leading to graduation according to the promotional and graduation requirements consistent with applicable statutes, state board rules, and local school policies. No class in physical education will require participation in athletics.

Procedure for Declaring Ineligibility

At the end of every quarter, team leaders will prepare a list of ineligible students. Beginning the second week of the quarter, ineligible Tucson campus students must circulate a weekly report card each Wednesday for the remainder of the quarter. Phoenix campus students must circulate a weekly report card each Friday for the remainder of the quarter. The eligibility period shall be from Monday to Saturday. An ineligible student whose grades are improved can play, but such student must still circulate a weekly report card for the remainder of the quarter. When an incomplete grade is made up, eligibility resumes; student will not have to circulate a weekly report card.

A student who, at mid-quarter review, fails to meet the eligibility criteria becomes ineligible and remains ineligible until his/her grades are improved and eligibility requirements are met. These students will also have a weekly report card each Wednesday (Tucson campus) /Friday (Phoenix campus). Eligibility will resume as soon as a passing grade is received, but these students must continue circulating a weekly report card for the remainder of the quarter. In addition, any student having a D grade at mid-quarter must begin circulating a weekly report card for the remainder of the quarter.
Teachers are encouraged to contact the coordinator of athletics at any time during a quarter when a student begins to have trouble in class.

Students who are ineligible are expected to practice for extracurricular interscholastic events but cannot participate in competitions. They cannot dress out for home games and cannot travel to away contests.

**Substance Abuse**

Students who meet the academic eligibility requirements for participation in extracurricular activities are also subject to the following guidelines:

- No drugs, alcohol, tobacco, or illegal substance use of any kind will be permitted. A student shall not possess, sell, offer to sell, transfer, use, be under the influence of a controlled substance, or possess any paraphernalia commonly designed for or use with illegal substances. A student committing any of the above will be immediately dismissed from the extracurricular activity for the duration of that particular activity.

- Should the offense occur in the final two (2) weeks of the extracurricular activity, the suspension will continue for the remainder of that activity and a minimum of two (2) weeks into the next activity in which the student wishes to participate.

- Generally a student suspended from an extracurricular activity will not be suspended for less than four (4) weeks.

- During the time of suspension, a review board will be formed to deal with the particular case at hand and to prescribe whatever action needs to be taken (i.e., counseling, et cetera).

**Attendance**

Athletes are expected to attend school. Absences from school on the day before a game or on the day following a game will result in reduced playing time. Students absent on game day will not be allowed to play that day. Students who have unexcused tardiness on game day will have reduced playing time to be determined by the coach and the coordinator of athletics. Only excuses from a doctor or excuses approved by the team leader will be accepted.

**Sportsmanship**

Students participating in extracurricular activities are role models and represent programs of ASDB. Student's actions should reflect positively on the school and should be examples of good sportsmanship.

- Students are expected to demonstrate good sportsmanship at all times to teammates, coaches, opponents, fans, and officials.
• Appropriate disciplinary measures that are deemed necessary will be administered by the sponsor/coach and team leader/coordinator of athletics.

Exceptions

Although the above will be the general guidelines to be used with all students, the final individual decision on eligibility will be made on a case-by-case basis taking into account all relevant information concerning the student's achievement in relationship to the disabling condition.

Students who participate in extracurricular, special sports programs, or adaptive activities are exempt from requirements of eligibility set forth above.
STUDENT DISCIPLINE

The Superintendent or designee shall recommend policies and develop regulations for the discipline of students that comply with A.R.S. 15-843. These policies and regulations will apply to all students traveling to, attending, and returning from ASDB Schools, and while visiting another school or at an ASDB-sanctioned activity, or in any other situation in which ASDB may lawfully exercise its authority to discipline a student. When suspension or expulsion is involved, notice, hearing, and appeal procedures shall conform to applicable legal requirements.

The discipline, suspension and expulsion of pupils shall not be based on race, color, religion, sex, disability, national origin, ancestry or any other unlawful reason. A substantial or deliberate failure to comply with the prohibition against disciplining based upon race, color, religion, sex, disability, national origin, ancestry or any other unlawful reason may subject ASDB to the loss of funds imposed by A.R.S. 15-843.

The principal of each school shall ensure that a copy of all rules pertaining to discipline, suspension, and expulsion of pupils are distributed to the parents of each pupil at the time the pupil is enrolled in ASDB.

The principal of each school shall ensure that all rules pertaining to the discipline, suspension, and expulsion of pupils are communicated to students at the beginning of each school year, and to transfer students at the time of their enrollment in ASDB.

Information concerning a student’s disciplinary record will be held in the strictest confidence, and may only be disclosed to ASDB officials with a legitimate educational interest in such information.

Disciplinary actions taken will be recorded in an administrative log, and all types of suspensions or expulsions will be recorded in a separate file for each student.

Behavior Management and Discipline of Students with Special Needs

The Superintendent or designee shall oversee a collaborative process for the identification, description, and monitoring of best practices for behavioral management and discipline of special needs students. The practices shall include, but not be limited to:

- Authorized and prohibited disciplinary methods.
- Recommended and required training for teachers and instructional aides, and
- Requirements for conveying notice of disciplinary measures taken.

The Superintendent or designee shall, by administrative regulation, prescribe procedures for implementation of the best practices approved by the ASDB Board of Directors.
Temporary Removal

Teachers are authorized to temporarily remove a student from a class. A teacher may temporarily remove a student to the Principal/Director, or to a person designated by the Superintendent, in accord with:

- Rules established for the referral of students.
- The conditions of A.R.S. 15-841, when applicable.

The Superintendent or designee shall establish such regulations as are necessary to implement the temporary removal procedure.

Threatened an Educational Institution

*Threatened an educational institution* means to interfere with or disrupt an educational institution as found in A.R.S. 15-841 and 13-2911. A student who is determined to have threatened an educational institution is subject to expulsion from school for at least one (1) year except that ASDB may modify this expulsion requirement for a pupil on a case-by-case basis and may reassign a pupil subject to expulsion to an alternative education program if the pupil participates in mediation, community service, restitution, or other programs in which the pupil take responsibility for the results of the threat. ASDB may require the student’s parent(s) to participate in mediation, community service, restitution or other programs with the student as a condition to the reassignment of the pupil to an alternative education program.

Aggravating and Mitigating Circumstances

When considering the appropriate sanction for specific student conduct, the Superintendent or designee, should consider circumstances relating to the offense, including but not limited to the following:

1. The student’s age;
2. The student’s mental capacity;
3. The student’s intent;
4. The student’s disciplinary history;
5. The student’s academic history;
6. The potential benefits to the student of alternatives to discipline;
7. How the student’s misconduct impacted others;
8. Whether the student displayed an appropriate attitude and gave respectful cooperation during the investigation and/or after the offense occurred;
9. What other consequence(s) the student may be experiencing outside of ASDB;
10. What action the student and/or the student’s parent(s) have taken since the offense occurred.

  - Obstructing vehicular or pedestrian traffic.
  - Creating a hazardous or physically offensive condition by any act that serves no legitimate purpose.

- Engages in conduct that is insubordinate, i.e., failing to comply with the lawful directions of a teacher, an ASDB administrator, or other ASDB staff members in charge of the student.

- Endangers the safety, morals, health, or welfare of others by any act, including but not limited to:
  - Selling, using, or possessing alcohol, drugs, or other controlled substances or drug paraphernalia.
  - Selling, using, or possessing weapons, fireworks, or other dangerous instruments or contraband.
  - Selling, using, or possessing obscene materials.
  - Using profane, vulgar, or abusive language (including ethnic slurs).
  - Gambling.
  - Hazing.
  - Engaging in lewd behavior.

- Engages in any of the following forms of academic misconduct:
  - Lateness for, missing, or leaving school or class without permission or excuse.
  - Cheating (including but not limited to copying, using unauthorized help sheets and the like, illegally obtaining tests in advance, substituting for a test-taker, and other forms of unauthorized collusion).
  - Plagiarism.

- Engages in conduct in violation of the ASDB Board's rules and regulations for the maintenance of public order on ASDB property.
• Uses personal portable electronic instruments, communications, and entertainment devices, including but not limited to cell phones, still and video cameras and equipment, recording/playback apparatus, and other electronic equipment which may be used for similar purposes, during the school day or during directed student study time unless such use has been specifically authorized by the school administrator.

• Has a record of excessive absenteeism.

• Is believed to have or actually has committed a crime.

Reasonableness of use of physical force in self-defense, defense of others, and defense of property will be considered as a mitigating factor in determining penalties for misconduct. The threat or use of physical force by a student is not reasonable (1) when made in response to verbal provocation alone, (2) when assistance from an ASDB employee is a reasonable alternative, or (3) when the degree of physical force used is disproportionate to the circumstances or exceeds that necessary to avoid injury to oneself or to others or to preserve property at risk.

**Permissible Penalties**

The range of penalties that may be imposed for violations of student discipline rules include, but are not limited to, the following:

- Verbal warning.
- Written warning.
- Written notification to parents.
- Probation.
- Detention.
- Suspension from transportation.
- Suspension from athletic participation.
- Suspension from social or extracurricular activities.
- Suspension of other privileges.
- In-school suspension.
- Involuntary transfer.
- Community service.
- Suspension.
- Alternative to Suspension Program.

Depending upon the nature of the violation, student discipline may be progressive, i.e., generally, a student’s first violation should merit a lighter penalty than subsequent violations. An ASDB staff member or agent should take into account all other relevant factors in determining an appropriate penalty. The above penalties may be imposed either alone or in combination.

**Student Disciplinary Proceeding**
Each school will establish a procedure that at a minimum will provide the Principal, or the designee of the school administrator, with documentation of the teacher's reason(s) for the temporary removal of a student from class.

**Refusal to readmit per A.R.S. 15-841:**

- Upon discussion, by the administrator with the teacher, of disciplinary action implemented in conjunction with a temporary removal in accord with the rules established by the ASDB Board, the teacher will be required to state an intent to readmit or refuse to readmit the removed student. If the teacher refuses to readmit the student, the reason shall be written by the teacher, explaining the conditions used to determine the removal, and shall be provided to the administrator by the next business day following the temporary removal.

- Either of the following conditions must exist for a temporary removal per A.R.S. 15-841:
  - The teacher has documented that the pupil has repeatedly interfered with the teacher's ability to communicate effectively with the other pupils in the class or with the ability of the other pupils to learn.
  - The teacher has determined that the pupil's behavior is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to communicate effectively with the other pupils in the classroom or with the ability of the other pupils to learn.

- The matter will be referred to the school placement review committee (SPRC) constituted in accord with statute if the conditions are consistent with those stated in A.R.S. 15-841. Within three (3) business days following the date of temporary removal, the SPRC shall determine to either place the student in a new class or return the student to the existing class if that is the best or only practicable alternative.

- If the student is qualified for educational services under the Individuals with Disabilities Education Act (IDEA), any change in the student's individualized education program (IEP) shall be determined by the IEP team in accord with federal regulations.

Any teacher, administrator, ASDB Board member, parent, or other person may report a violation of student disciplinary rules to an administrator. The administrator will then make an investigation of the charges as deemed appropriate and will institute appropriate proceedings.

This information for the maintenance of public order on school property will be publicized and explained to all students and provided in writing to parents as requested. In order to promote effectiveness of student discipline, the assistance of parents in enforcing rules for student discipline shall be invited and encouraged.

**Involving Staff Members**

The Principal is responsible for involving staff members of the school in the development of a positive plan for student discipline. All staff members are responsible for implementing the plan of student discipline for the school.
The Arizona State School for the Deaf and the Blind *disallows* corporal punishment.

*Adopted:* September 14, 2017
DETENTION OF STUDENTS

Reasonable detention during break-time, noon, or at the close of the school day is permitted, provided that appropriate consideration is given to student transportation, weather, and other extenuating circumstances. However, a student shall not be denied the privilege of eating. Detention should not exceed one (1) hour per day.

Adopted: September 14, 2017
DETENTION OF STUDENTS

Teachers may keep students after school to make up work or for disciplinary reasons. The names of students to be kept after school will be reported to the transportation office not later than two (2) p.m. each day.

Students may be kept after school only if prior notice has been given to their parents/guardians, and only on days when ASDB provides a late bus. Teachers are responsible to see that all students are released in time to board the late bus.
STUDENT SUSPENSION

The authority to suspend a student in ASDB Schools, after an informal meeting is held, rests with the Superintendent. If a danger to students or employees is present, the student may be immediately removed from contact with other students. The student may also be immediately removed from school, with prior contact with the parents and with a notice and meeting following as soon as practicable.

Short-term suspension (ten [10] days or less) may be used for special education students for disciplinary reasons on the same basis as for a regular education student. (Short-term suspensions are not considered a change of placement.) No appeal is available from a short-term suspension. If a special education student is recommended for a suspension of more than ten (10) days during the school year (a possible change in placement), a manifestation determination conference must be held.

An exception to a long-term suspension allows for an IDEA qualified student to be given a change in placement to an interim alternative educational setting for not more than forty-five (45) days, in accord with federal law and regulation, if the removal is for IDEA defined drug or weapons offenses or is based upon a due process hearing officer’s determination that injury to the child or another is substantially likely if current placement is maintained.

An ASDB student’s school district of residence will provide the interim alternative educational setting which must be selected so as to enable the child to continue to progress in the general curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the child’s current IEP; and include services and modifications which are designed to prevent the behaviors for which the placement was made from recurring. (Caution: refer to IDEA statutes and regulations before implementing the exception.)

STUDENT SUSPENSION

Introduction
To ensure equal treatment, all students who are responsible for their conduct should expect to be disciplined under the same due-process procedures. Because the law gives disabled students a status different from that of nondisabled students, a separate process has been developed to determine if the apparent misconduct of a disabled student is related to that student’s disabling condition or educational placement. If use of the procedure results in a decision that the apparent misconduct of a disabled student is not related to the student’s disabling condition or educational placement, then the disabled student whose conduct may warrant suspension will be provided appropriate due process in the same manner as all other students. If the apparent misconduct is determined to result from the student’s disabling condition or educational placement, a review of placement is appropriate, rather than suspension or discipline. In this way, the Board ensures that all students in ASDB will be held responsible for the consequences of their own conduct and will be treated equally in view of that conduct, while at the same time recognizing the different status the law affords to disabled students.

Emergency Suspension of ASDB Students
If the conduct of an ASDB student poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, an emergency suspension of no more than ten (10) days may be imposed by the Principal. The emergency suspension shall be followed, as soon as practicable, by a manifestation determination conference (as defined in administrative regulation IHB-R) if a long-term suspension is contemplated.

Short-term Suspension of ASDB Students
If the conduct of an ASDB student reasonably appears to be in violation of Board policy or procedure or in violation of other customary standards of appropriate student conduct, a short-term suspension (ten [10] days or less) may be imposed by the Principal pursuant to the following procedure and is not considered a change of placement.

- **Step 1:** The student will receive notice, written or oral, of the reason for suspension and the evidence the school authorities have of the alleged misconduct.
  - After having received notice, the student will be asked for an explanation of the situation.
  - The Principal involved shall make reasonable efforts to verify facts and statements prior to making a judgment.
- **Step 2:** Following Step 1:
  - Provided that a written record of the action taken is kept on file (a complete and accurate record of the total procedure
shall be kept by the Principal responsible for the suspension), the Principal may:

- Suspend the student for up to ten (10) days.
- Choose other disciplinary alternatives.
- Exonerate the student.
- Suspend the student for ten (10) days pending a recommendation that the student be given an alternative placement.

When suspension is involved:

- A parent must be notified before the student is allowed to leave campus. If no parent contact can be made, the student may be isolated until dismissal time and then given a written message to the parents.
- A letter to the parents will be written within a reasonable time to explain the terms (including the possibility that a long-term suspension is being recommended) and reasons for the suspension and to request a meeting to solicit their help.
- No appeal is available from a short-term suspension.

Long-term Suspension of ASDB Students

If a special education student is recommended for a suspension of more than ten (10) days during the school year (a possible change in placement), a manifestation determination conference must be held.

- **Step 3:** A recommended suspension of an ASDB student for more than ten (10) consecutive days, or a series of suspensions totaling more than ten (10) days, may constitute a change of placement and shall require a manifestation determination conference (See IHB-R discipline section). Such a conference shall be for the purpose of determining whether or not the offense is a manifestation of the student's disability.

- **Step 4:** If the offense is not a manifestation of the disability of the student, the student may be suspended by following ASDB policies for students in general, provided that educational services are continued during the period of disciplinary removal for a student with a disability qualified under the Individuals with Disabilities Education Act (IDEA). A student qualified for educational services under the Americans with Disabilities Act or Section 504 of the Rehabilitation Act of 1973, and not qualified under IDEA, may be suspended from school, and educational services may be ceased, if nondisabled students in similar circumstances do not continue to receive educational services.
• **Step 5:** If the behaviors are a manifestation of the disability of the student, ASDB may not extend the suspension of the student beyond the initial ten (10) school days.

An exception to the above allows for an IDEA qualified student to be given a change in placement to an interim alternative educational setting for not more than forty-five (45) days, in accord with federal law and regulation, if the removal is for IDEA defined drug or weapons offenses or is based upon a due process hearing officer’s determination that injury to the child or another is substantially likely if current placement is maintained.

A student’s school district of residence will provide the interim alternative educational setting which must be selected so as to enable the child to continue to progress in the general curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the child’s current IEP; and include services and modifications which are designed to prevent the behaviors for which the placement was made from recurring. (Caution: refer to IDEA statutes and regulations before implementing the exception.)
REMOVAL OF STUDENTS FROM ASDB - SPONSORED ACTIVITIES

The Principal of a school may remove a student from an ASDB-sponsored activity if the Principal determines that the student has violated a provision of the student discipline policies, rules, and/or regulations or if the Principal determines that such removal is in the best interest of the activity or in the best interest of ASDB as a whole.

The Principal also may remove a student from a specific position, such as officer, editor, or captain of an activity, without removing the student from the entire activity.

The Principal may remove a student pursuant to the preceding two (2) paragraphs, whether or not the student has been elected, appointed, or assigned to, or has volunteered for, the activity.

Before removing a student from an activity or position as a result of the student's violation of the student discipline policies, rules, and/or regulations, the Principal must comply with the notice-and-hearing provisions of those policies, rules, and/or regulations.

Before removing a student from an activity or position for reasons other than a student’s violation of the student discipline policies and/or regulations, the Principal shall give written notice to the student. The notice shall include the reason or reasons for the removal and the date that the removal is to become effective. If the student disagrees with the Principal's determination, the student may, within five (5) school days, request in writing a conference with the Principal. The conference shall be held as soon as practicable after the Principal receives the written request. At the conference, the student shall be given a full explanation of the reason or reasons for the action taken. The student shall be given an opportunity to present an explanation of the events relating to the action.

If, after the conference, the Principal determines that the decision to remove the student from the activity or position is correct, the removal shall become effective on the date indicated in the Principal’s notice. If, after the conference, the Principal determines that action of a less severe nature than removal is warranted, the principal may impose the less severe action. If, after the conference, the Principal determines that neither removal nor less severe action is warranted, the prior decision to remove the student shall be rescinded.

For purposes of this policy, activity is defined as:

- Any ASDB-sponsored athletic activity; or
- Any ASDB-sponsored club; or
• Any ASDB-sponsored organization such as yearbook, newspaper, student government, drama, music, honor society, or any other organization or class of a similar nature.

An activity includes activities as defined above, whether or not a student is receiving or may receive academic credit for the activity.

STUDENT WELLNESS

ASDB strives to make a significant contribution to the general well-being, mental and physical capacity, and learning ability of each student while affording them the opportunity to fully participate in the educational process. ASDB is committed to providing school environments that promote and protect children’s health, well-being, and ability to learn by supporting healthy eating and physical activity. Healthy eating habits, paired with an active lifestyle, is demonstrably linked to reduced risk for mortality and development of many chronic diseases as adults.

All foods and beverages available in each school during the day will promote student health and nutrition within state and federal guidelines. All guidelines for reimbursable school meals shall not be less restrictive than regulations and guidance issued by the Secretary of Agriculture, as those regulations and guidance apply to schools. All other foods and beverages available on school campuses shall comply with Arizona Nutritional Standards. To ensure the health and well-being of all students, the Board sets goals in the following areas:

**Nutrition Education and Promotion**

The primary goal of nutrition education and promotion is to influence lifelong eating behaviors in a positive manner.

Nutrition education will be utilized to influence students’ lifelong eating behaviors in a positive manner by providing nutrition education that is appropriate for students’ ages, reflects students’ cultures, is integrated into health education or core curricula, and provides opportunities for students to practice and develop healthy eating habits.

Nutrition promotion will engage family members, students, and representatives of the school food authority, the Governing Board, school administrators, staff, physical education teachers, school health professionals, and the public in regular review of this Board policy. The public (including parents, students, and others in the community) will be informed and kept up to date about the content and implementation of ASDB’s wellness policy.

**Competitive Foods and Beverages**

ASDB is committed to ensuring that all foods and beverages available to students on campus during the school day support healthy eating. The foods and beverages sold and served outside of the school meal programs (e.g., “competitive” foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day and create an environment that reinforces the development of healthy eating habits.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards. These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias, vending machines, school stores and snack or food carts.
Food and Beverage Marketing in Schools

ASDB is committed to providing a school environment that ensures opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. ASDB strives to teach students how to make informed choices about nutrition, health and physical activity. It is the intent of ASDB to protect and promote student’s health by permitting advertising and marketing for only those foods and beverages that are permitted to be sold on the school campus, consistent with the ASDB’s wellness policy.

Any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed the USDA Smart Snacks in School nutrition standards, such that only those foods that comply with or exceed those nutrition standards are permitted to be marketed or promoted to students.

Food and beverage marketing is defined as advertising and other promotions in schools. Food and beverage marketing often includes an oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product made by the producer, manufacturer, seller or any other entity with a commercial interest in the product. This term includes, but is not limited to the following:

A. Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.

B. Displays, such as on vending machine exteriors

C. Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards, scoreboards or backboards (Note: immediate replacement of these items are not required; however, districts will replace or update scoreboards or other durable equipment when existing contracts are up for renewal or to the extent that is in financially possible over time so that items are in compliance with the marketing policy.)

D. Corporate brand, logo, name or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book covers, pupil assignment books or school supplies displayed, distributed, offered or sold by the District.

E. Advertisements in school publications or school mailings.

F. Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product.

As ASDB reviews existing contracts and considers new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by ASDB’s wellness policy.
Physical Activity

The goals for physical activity are to provide opportunities for every student to: Develop the knowledge and skills for specific physical activities; maintain physical fitness; reduce sedentary time; learn about cooperation, fair play, and responsible participation that meets the needs of all students (at all levels of physical ability); ensure students’ regular participation in a variety of age appropriate physical activity; and gain an understanding and appreciation of the short- and long-term benefits of a physically active and healthy lifestyle.

Other School-Based Activities:

The goal of other school-based activities is to create a total school environment, including the residential program, which is conducive to healthy eating and physical activity during the school day and after the school day. The ASDB environment, not just the classroom, will be aligned with goals to positively influence students’ understanding, beliefs and habits as they relate to nutrition and physical activity.

Evaluation and Implementation

A primary goal will be to regularly evaluate the effectiveness of this policy in promoting ASDB’s wellness program, and change the program as appropriate to increase effectiveness. Such evaluations will be measurable. The results of each evaluation, including the extent to which schools are in compliance with ASDB’s wellness policy, the extent to which ASDB policy complies with federal regulations, and a description/summary of the progress made in attaining the goals, will be annually reported to the Board and made available to the public. Physical education teachers and school health professionals will have an opportunity to participate in the evaluation and implementation of this policy.

Triennial Progress Assessments

At least once every three years, ASDB will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

A. The extent to which ASDB’s schools are in compliance with the wellness policy; and

B. A description of the progress made in attaining the goals of the ASDB’s wellness policy.

The position/person responsible for managing the triennial assessment shall be the Assistant Superintendent or designee.

The Wellness Committee, in collaboration with the individual schools, will monitor the schools’ compliance with this wellness policy. ASDB will actively notify households/families of the availability of the triennial progress report.

Revisions and Updating the Policy

The WC will update or modify the wellness policy based on the results of the annual School Health Index and triennial assessments and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.
The Superintendent shall develop administrative regulations to implement this policy, including such provisions as may be necessary to address all food and beverages sold and/or served to students at school.

Adopted: May 9, 2019
An annual report shall be made to the Board on ASDB’s compliance with law and policies related to student wellness. The report may include but not be limited to:

Evaluation of the food services program. Recommendations for policy and/or program revisions.

Review of all foods and beverages sold in schools for compliance with established nutrition guidelines.

Assessment of school environment regarding student wellness issues. Listing activities and programs conducted to promote nutrition and physical activity.

Providing feedback received from ASDB staff, students, parents/guardians, and community members.

In accordance with the National School Lunch Act (42 U.S.C., 1751 et seq.) and the Child Nutrition Act (42 U.S.C. 1771 et seq.) as amended, an assurance that ASDB guidelines for reimbursable meals are not less restrictive than regulations and guidelines issued for schools in accordance with federal law shall be provided annually. The Superintendent shall receive assurances from all appropriate administrators and supervisors prior to making the annual Board report.

**Nutrition Education**

Nutrition education shall focus on students’ eating behaviors, be based on theories and methods proven effective by research and be consistent with state and local ASDB health education standards. Nutrition education at all levels of the curriculum shall include, but not be limited to, the following essential components designed to help students learn:

- Age-appropriate nutritional knowledge, including the benefits of healthy eating, essential nutrients, nutritional deficiencies, principles of healthy weight management, the use and misuse of dietary supplements, safe food preparation, handling and storage and cultural diversity related to food and eating;

- Age-appropriate nutrition-related skills, including, but not limited to, planning a healthy meal, understanding and using food labels and critically evaluating nutrition information, misinformation and commercial food advertising; and

- How to assess one’s personal eating habits, set goals for improvement and achieve those goals.

In order to reinforce and support nutrition education efforts, the guidelines will ensure that:
Nutrition instruction provides sequential, comprehensive health education in accordance with the Arizona Department of Education curriculum regulations and academic standards.

Cooperation with agencies and community organizations is encouraged to provide opportunities for appropriate student projects related to nutrition;

Consistent nutrition messages are disseminated from ASDB throughout the schools, communities, homes and media: and

Nutrition education is extended beyond the ASDB environment by engaging and involving families and community.

**Nutrition Guidelines and Food Services Operations**

All foods and beverages made available on campus during the school day are to be consistent with the Arizona Nutrition Standards. Guidelines for reimbursable school meals shall not be less restrictive than regulations and guidance issued by the Secretary of Agriculture pursuant to law. ASDB will create procedures that address all foods (including Foods of Minimal Nutritional Value and Competitive Food Sales) available to students throughout the school day in the following areas:

- National School Lunch Program and School Breakfast Program Meals. À la carte offerings in the food service program.
- Vending machines and school stores.
- Classroom parties, celebrations, fundraisers, rewards and school events.
- Snack served in after-school programs.

In keeping with ASDB’s nutrition program goals, only food prepared or obtained by ASDB’s food services program should be served. This includes classroom reward or incentive programs involving food items as well as foods and beverages offered or sold at ASDB-sponsored events outside the school day. Approval is required to ensure that the foods served meet the requirements of ASDB’s nutrition policy and regulation (i.e., all foods served fit in a healthy diet and contribute to the development of lifelong healthy eating habits for ASDB students).

**Physical Activity**

ASDB schools shall strive to provide opportunities for developmentally appropriate physical activity during the school day for all students.

**Other ASDB-Based Activities**

The goal for other ASDB-based activities is to ensure whole-school integration with the wellness program. ASDB will achieve the goal by addressing elements that include, but are not limited to, school meals times, dining environment, food as an incentive, marketing and advertising, skin cancer prevention and sun safety, staff wellness, and staff development and training.
Program Evaluation

In each school, the Principal/Director will ensure compliance with established ASDB-wide student wellness goals and will report on the school's compliance to the Superintendent.

ASDB, and individual schools within ASDB, will, as necessary, revise the policy and develop action plans to facilitate their implementation.
STUDENT WELLNESS
Physical Activity Goals

The primary goal for ASDB’s physical activity component is to provide opportunities for every student to develop the knowledge and skills for specific physical activities, maintain physical fitness, regularly participate in physical activity, and understand the short- and long-term benefits of a physically active and healthy lifestyle.

A comprehensive physical activity program encompasses a variety of opportunities for students to be physically active, including physical education, recess, walk-to-school programs, after-school physical activity programs, health education that includes physical activity as a main component, and physical activity breaks within regular classrooms.

**Physical education (high school graduation requirements):** Students must, at the least, satisfy the state and ASDB’s physical education credit requirement.

**Physical activity (time, frequency, and/or intensity):** ASDB will ensure that students are moderately to vigorously active at least fifty percent (50%) of the time while participating in physical education classes.

**Physical activity outside of physical education:** ASDB may offer after-school intramural programs and/or physical activity clubs that meet the needs and interests of all students, including those who are not athletically involved or those with special health care needs.

**Recess to promote physical activity:** Grades kindergarten (K) through six (6) will have recess or physical education classes daily.

**Walking or biking to school to promote physical activity:** ASDB shall annually review safe routes for students who walk or bike to school.

**Prohibition of use of punishment:** ASDB will discourage the use of physical activity as punishment, the withholding of participation in physical education class as punishment, or the use of physical education class time to complete assignments from other classes.

**After-school programs:** ASDB shall encourage after-school programs to provide developmentally appropriate physical activity for participating children and reduce or eliminate the time spent in sedentary activities such as watching television or videos.

**Community use:** ASDB shall encourage community access to, and student and community use of ASDB physical activity facilities outside the normal school day.
STUDENT INSURANCE PROGRAMS

The athletic director and/or Student Health Center will provide to parents or guardians information on student health benefits insurance for those students who wish to participate in athletics, if such insurance is available.

Adopted: September 14, 2017
STUDENT HEALTH SERVICES AND REQUIREMENTS

The Superintendent or designee shall establish procedures for the student health services program at ASDB. Such procedures will provide for:

- Administration of patent or proprietary medications (over-the-counter [OTC] medications) in compliance with Arizona Revised Statutes and ASDB policies.
- Administration of prescription medications in compliance with Arizona Revised Statutes and ASDB policies.
- Administration of immunizations in conjunction with the County Health Department and in compliance with Arizona Revised Statutes.
- Providing preventive health information.
- The treatment of ASDB-related injuries/illnesses, and recommendation for follow-up care.
- Screening clinics for select physical impairments.

Adopted: September 14, 2017
PHYSICAL EXAMINATIONS OF STUDENTS

Each student participating in high school or junior high school interscholastic athletics is required to submit to a physical examination when required by the Arizona Interscholastic Association or to submit evidence of being physically fit, as verified by competent medical personnel.

Adopted: September 14, 2017
IMMUNIZATIONS OF STUDENTS

Subject to the exemptions as provided by law, immunizations are required for attendance of any student in any ASDB school. A student’s immunization record must be submitted prior to attendance, although a student may be conditionally enrolled provided that necessary immunizations have been initiated and a schedule has been established for completion of the required immunizations. A student shall not be allowed to attend school without submitting documentary proof of compliance to the Principal/Director unless the student is exempted from immunization. On enrollment, the Principal/Director shall suspend that student if the Principal/Director does not have documentary proof of compliance and the student is not exempted from immunization. A student who fails to comply with the immunization schedule shall be suspended from school attendance until documentary proof of compliance is provided to the Principal/Director, except that a homeless student shall not be suspended from attendance until the fifth (5th) calendar day after enrollment.

Any student with serologic confirmation of the presence of specific antibodies against a vaccine-preventable disease shall not be subject to immunization against that disease as a condition for attending school.

ASDB will cooperate with county and state health departments in programs of immunization. Parents’ permission must be secured before a student may participate in such immunization projects.

Subject to the exemptions in A.R.S. 15-873, immunization against each of the following diseases is required for attendance of any child in any school:

- Diphtheria.
- Tetanus.
- Pertussis
- Poliomyelitis.
- Rubeola (measles).
- Mumps.
- Rubella (German measles).
- Hepatitis A, for a child two (2) through five (5) years of age in a public-school-based day care program or preschool in Maricopa County.
- Hepatitis B.
- Meningococcal
- Haemophilus influenzae b (Hib).

A child shall not be allowed to attend school without submitting documentary proof to the school Principal/Director unless the child is exempted from immunization pursuant to section 15-873. Upon enrollment, ASDB shall forbid attendance of (suspend) any student not meeting the requirements for immunization or exemption from immunization. Homeless students shall be referred to the liaison for the homeless and shall be given five (5) days in which to comply with the immunization requirements.

The admitting official shall deem the student to be in compliance with the requirements of this regulation if:

- The student’s immunization record complies with the documentary proof required pursuant to R9-6-704, and the student has received or is in the process of receiving all required age-specific vaccine doses; or
- An exemption from immunization is submitted in accordance with the procedures set forth in R9-6-706.
When the student's immunization record is not available at the time of enrollment, the school shall provide the responsible person with the following:

- Notification of the lack of compliance with the immunization requirements;
- A written notice that specifies when the required doses shall be completed, notes the availability of exemptions to immunization, and refers the student to a physician or local health department for review of the student’s immunization history and provision of immunizations as needed; and
- Notification that the student is suspended in accordance with 15-872 until an acceptable immunization record that meets the standards of documentary proof is presented to the school.

When immunization records are presented that do not comply with the standards for documentary proof, the school shall:

- Notify the responsible person of the lack of compliance with the immunization requirements; and
- Obtain a review and verification of the student’s immunization record by or in consultation with a certificated school nurse, a public health nurse, a licensed physician, or an authorized representative of a local health department.

If the admitting official is unable to verify the accuracy of the student’s immunization record pursuant to the preceding paragraph, ASDB shall provide to the responsible person:

- A written referral to a physician or local health department for further review of the student’s immunization history and provision of immunizations as needed; and
- Notification that the student is suspended until an immunization record that meets the standards of documentary proof is presented to ASDB.

Each school shall maintain a current list of students without evidence of immunization or immunity to the diseases listed in R9-6-702, which shall include the names of all students with incomplete immunization histories or exemptions for personal or medical reasons where evidence of immunity has not been provided.

ASDB shall forbid attendance by any students lacking proof of immunization or immunity against any of the immunization-preventable diseases as determined by the State Department of Health Services or local health department during periods of outbreaks of the diseases for which immunity is lacking. The announcement of an outbreak of disease and the length of the period of communicability shall be as declared by the state or local health department.

**Standards for Documentary Proof**

Proof of immunity to the diseases listed in R9-6-702 shall be documented in accordance with R9-6-704.
Immunization records or statements of immunity shall be signed by a physician or authorized representative of a health agency.

**Exemptions to Immunizations**

Students who have reached their fifth (5th) birthday shall be exempt from the Hib immunization requirement.

Any student with laboratory evidence of immunity shall not be subject to immunization against that disease as a condition for attending school, provided that such evidence is submitted to the school.

In accordance with A.R.S. 15-873, documentary proof is not required for a student to be admitted to school if one (1) of the following occurs:

- The parent or guardian of the student submits a signed statement to the school Principal/Director stating that the parent or guardian has received information about immunizations provided by the Department of Health Services, understands the risks and benefits of immunizations and the potential risks of non-immunization, and that, due to personal beliefs, the parent or guardian does not consent to the immunization of the student.
- The school Principal/Director receives written certification, signed by the parent or guardian and by a physician, that states that one (1) or more of the required immunizations may be detrimental to the student’s health and indicates the specific nature and probable duration of the medical condition or circumstance that precludes immunization.

An exemption pursuant to the preceding subparagraph is valid only during the duration of the circumstance or condition that precludes immunization.

If a medical exemption is granted in accordance with A.R.S. 15-873, it shall be defined by the grantor as either permanent or temporary.

- A permanent medical exemption may be provided for one (1) or more vaccines.
- A temporary medical exemption shall specify the date of its termination. A student with a temporary medical exemption shall be allowed to attend school on the condition that the required immunizations are obtained at the termination of the exemption. The responsible person shall be notified of the date by which the student shall complete all required immunizations.

Any exemption granted in accordance with A.R.S. 15-873 shall be recorded on the school immunization record in the student’s permanent file.

Students who lack documentary proof of immunization shall not attend school during outbreak periods of communicable immunization-preventable diseases as determined by the Department of Health Services or local health department. The Department of Health Services or local health department shall transmit notice of this determination to the school Principal/Director responsible for the exclusion of the students.
Required Reports

By November 15 of each year, the Superintendent shall submit a report on the immunization status of students to the state or local health department on a form provided by the Department.

Additional reports that include students in all grades may be required during an outbreak or potential outbreak as determined by the state or local health department.

Each Superintendent of a school whose nurses are authorized to administer vaccines or immunizing agents shall submit monthly reports to the county health department in accordance with the procedures set forth in R9-6-707. Reports are due by the fifth (5th) day of the following month.

An immunization record shall be maintained for each student in the school. Each immunization record shall include the following information:

- Name of the student;
- Date of birth;
- The date of the student's admission to the school;
- The month and year in which each vaccine was received, except for measles, mumps, and rubella, for which the day, month, and year are required.
- The type of immunizing agents administered to the student;
- The date each dose of immunizing agent is administered to the student; and
- The established schedule for completion of immunizations if the student is admitted to or allowed to continue to attend a school pursuant to section 15-872, subsection E.

By November 15 of each year, each administrator of a public-school-based day care program or preschool shall submit a report to the state or local health department on a form provided by the Department.

A school shall transfer an immunization record and signed requests for provision of immunizations, including any revocations thereof, with the mandatory permanent student record and provide at no charge, on request, a copy of the immunization record to the parent or guardian of the pupil.
COMMUNICABLE / INFECTIOUS DISEASES

Any student with, or recovering from, a communicable disease will not be permitted in school until the period of contagion is passed or until a physician recommends a return, in accordance with A.R.S. 36-621 et seq, appropriate regulations of the State Department of Health Services, and policies of the County Health Department.

Parents will be requested to provide a history of the communicable diseases for each student, and such records will be kept and maintained by the student health center.

A student suffering from a communicable disease shall be excluded from school to protect the student’s own welfare and also to protect other students from illness. Early recognition of a communicable disease is of prime importance. The Principal or county health director shall make the decision for exclusion and readmission.

Pediculosis (Lice Infestation)

Students with pediculosis shall be excluded from school until treatment specific for pediculosis has been initiated and the student is symptom free.

*Adopted: September 14, 2017*
Students ill with human immunodeficiency virus (HIV) or acquired immune deficiency syndrome (AIDS) have a right to receive a public education. The ASDB Board has a responsibility to assure that ASDB provides a safe environment for all of its students and staff members.

The ASDB Board directs that:

- Infected students receive a public education.
- Information be provided for parents, faculty, staff members, and other concerned persons regarding the actual and potential dangers of transmission of the disease.
- Decisions concerning the educational placement of infected students be determined upon the best medical knowledge available and on a case-by-case basis.
- Restrictions be placed upon a student as required by the Department of Health Services regulations, advice of the County Health Department, and advice of a physician selected by ASDB.
- Protection for the rights of privacy of each infected student be a primary consideration.

Decision(s) regarding the type of educational setting for the student who is infected with HIV virus shall be based upon the behavior, neurologic development, and physical and mental condition of the student. Recommendations will be made upon consultation with public health personnel, ASDB officials, the student’s physician and parents, and, at the discretion of ASDB, a physician selected by ASDB.

Adopted: September 14, 2017
Upon advice of the supervising nurse and/or medical officer, ASDB may send a student home when there is a communicable disease or communicable health condition which endangers the health and welfare of other students or employees of ASDB.

The supervising nurse at either the Phoenix or Tucson campuses shall investigate the report of a communicable disease or health condition involving the appropriate employees (e.g., the residence staff, school staff, et cetera) and shall determine that a communicable disease or health condition exists which endangers other students and/or employees. The Superintendent may review the health report and determine whether the student should be excluded from attendance.

- When it is determined that a student must be sent home, the family will be notified by the supervising nurse. Parents will be expected to come for their children promptly. The supervising nurse will advise the family of the specifics of the disease or health condition and what requirements are set for readmission.

- On the Tucson Campus, the supervising nurse will advise the residence dean and Principal/Director of the student being sent home in a written report including specific conditions of return to school.

- On the Phoenix Campus, the supervising nurse will advise the team leader of the student being sent home in a written report including specific conditions of return to school.

- When parents/guardians cannot be reached, students shall remain in the student health center until such time as parents/guardians can be contacted.

- If the student is to be absent for an extended period of time (in excess of ten [10] days), arrangements should be made for work to be sent home.

Special procedures will be followed in the case of Hepatitis B. ASDB physician has stated that the epidemiology of Hepatitis B is identical to AIDS.

These procedures are:

- Most school-aged children and adolescents infected with HTLV-III should be allowed to attend school in an unrestricted manner with the approval of their personal physician. HTLV-III infection, in these recommendations, includes cases of AIDS, ARC, or seropositivity, in as much as the potential for transmission of the virus is present in any of these three clinical conditions. Based on present data, the benefits of
unrestricted school attendance to these students outweigh the remote possibility that such students will transmit the infection in the school environment.

- Some infected students may pose a greater risk than others. Students who lack control of their body secretions, who display behavior such as biting, or who have open skin sores that cannot be covered require a more restricted school environment until more is known about the transmission of the virus under these conditions. Special education should be provided in accordance with IDEA.

- ASDB should designate individuals, including the student's physician, who have the qualifications to evaluate whether an infected student poses a risk to others. Evaluations to assess the need for alternatives to continuing in school should be performed regularly. Hygienic practices of an infected student may improve with maturation or deteriorate if the conditions worsen. If it is determined that a risk exists, the student must be removed from the classroom, and an appropriate alternative education program must be established until subsequent review determines that the risk has abated. A plan for periodic review should be established at the time a decision has been made to exclude a child from attending classes.

- The number of employees aware of the child's condition should be kept to the minimum needed to assure proper care of the child and to detect situations in which the potential for transmission may increase. It is essential that persons involved in the care and education of an infected student respect the student's right to privacy. Confidential records should be maintained.

- The physician of the student with HTLV-III infection and a physician selected by ASDB, when appropriate, should regularly assess the risk of school attendance. Students with HTLV-III may develop immunodeficiency, which places them at risk of experiencing severe complications from infections such as chickenpox, tuberculosis, measles, cytomegalovirus, and herpes simplex.

- Routine screening of children for HTLV-III is not recommended.

These guidelines will be followed until time as ASDB physician recommends change.
COMMUNICABLE / INFECTIOUS DISEASES
(Pediculosis Lice Infestation)

This procedure concerns the identification and treatment of pediculosis.

Lice are small grayish-tan to dark brown wingless insects that exist on the scalps of human beings. Mature lice deposit eggs (nits) on the hair shaft, close to the scalp, and are usually found at the nape of the neck and behind the ears. The presence of lice usually results in severe itching and scratching of the scalp.

When an employee suspects pediculosis, students will be referred to the student health center.

At the Student Health Center:

- Determination will be made as to whether or not pediculosis is present.
- Day students positive for pediculosis will be sent home with written instructions for treatment to be completed prior to returning to school.
- Residential students will receive treatment from student health center employees. Appropriate documentation will be completed and sent to the residence hall employees.
- All students who have had close contact with a student positive for pediculosis will be referred to student health center for screening.
- Residential deans and transportation will be notified as appropriate.

In the Residence Hall:

- Employees will launder washable items (clothing, et cetera) on hot cycle. Dryer-safe articles can be dried on hot setting for twenty (20) minutes.
- Non-washable items will be sealed in a black plastic bag and placed outside for forty eight (48) hours.
- Exposed linens from beds will be washed as above and replaced with clean linens.
- Combs and brushes, hair ties, headbands, et cetera, will be soaked in hot water for ten (10) minutes.
- Housekeeping employees will be notified.
- Appropriate residential dean and transportation will be notified as appropriate.
- The residential employees will perform housekeeping tasks on weekends.

Housekeeping:

- Will vacuum all carpets, upholstery items, pillows, mattresses, and appropriately dispose of vacuum cleaner bags.
Transportation:
- Will vacuum/wash exposed articles as appropriate.
MEDICINES/ADMINISTERING MEDICINES TO STUDENTS

Under certain circumstances, when it is necessary for a student to take medicine during school hours, ASDB will cooperate with the licensed prescriber and the parents if the following requirements are met:

- There must be a written order from the licensed prescriber, or a pharmacy generated prescription, stating the name of the medicine, the dosage, the method of administration and the time it is to be given.
- There must be written permission from the parent or guardian to allow any trained ASDB staff members, the student, the Student Health Center to administer the medicine. Appropriate forms are available from the Student Health Center.
- The medicine must come to the Student Health Center in the prescription container or, if it is over-the-counter medication, in the original container with all warnings and directions intact.
- Professional staff at the Student Health Center shall provide initial training to any ASDB staff designated by administration to administer medication to students. Not less than four (4) times each year, such staff shall receive refresher and/or additional training on the administration of medications.
- ASDB Staff must receive training for medication administration prior to obtaining medications from the Student Health Center. Training for medication administration is available upon request from the Student Health Center.

The ASDB Board further directs the Superintendent to prescribe and enforce regulations and procedures for the emergency administration of any necessary prescription medication by a trained staff member of ASDB. The prescription must have a written physician’s order, written permission from a parent or guardian to allow ASDB staff members to administer the medicine, and the medicine must come to ASDB in the prescription container.

Exceptions

- Students who have been diagnosed with anaphylaxis may carry and self-administer emergency medications including auto-injectable epinephrine provided the pupil’s name is on the prescription label, on the medication container or device and annual written documentation from the pupil’s parent or guardian is provided that authorizes possession and self-administration. The student shall notify the Student Health Center as soon as practicable following the use of the medication;
- For breathing disorders, handheld inhaler devices may be carried for self-administration provided the pupil’s name is on the prescription label, on the
medication container, or on the handheld inhaler device and annual written
documentation from the pupil’s parent or guardian is provided, to the Student
Health Center, that authorizes possession and self-administration.

- Students with diabetes who have a diabetes medical management plan on
file provided by the student’s parent or guardian, signed by a licensed health
professional or nurse practitioner as specified by A.R.S. 15-344.01, may
carry appropriate medications and monitoring equipment and self-
administer the medication.

ASDB staff members may volunteer to be a student’s diabetes care assistant, subject
to approval by the student’s parent or guardian, in an emergency situation as
described in 15-344.01. The Superintendent may develop regulations for
implementing this provision.

ASDB reserves the right, in accordance with procedures established by the
Superintendent, to circumscribe or disallow the use or administration of any
medication on school premises if the threat of abuse or misuse of the medicine may
pose a risk of harm to a member or members of the student population.

The ASDB Board directs the Superintendent or designee to prescribe and enforce
regulations and procedures for the emergency administration of naloxone
hydrochloride or any other opioid antagonist approved by the United States Food and
Drug Administration by a staff member of ASDB pursuant to Section 36-2267. Section
36-2267, Administration of opioid antagonist; exemption from civil liability; definition,
in part states the following:

A. A person may administer an opioid antagonist that is prescribed or
dispensed pursuant to section 32-1979 or 36-2266 in accordance
with the protocol specified by the physician, nurse practitioner,
pharmacist or other health professional to a person who is
experiencing an opioid-related overdose.

B. A person who in good faith and without compensation administers an
opioid antagonist to a person who is experiencing an opioid-related
overdose is not liable for any civil or other damages as the result of
any act or omission by the person rendering the care or as the result
of any act or failure to act to arrange for further medical treatment or
care for the person experiencing the overdose, unless the person
while rendering the care acts with gross negligence, willful
misconduct or intentional wrongdoing.

C. “Person” includes a staff member of ASDB who is acting in the
person’s official capacity.

This policy and any related policies or amendments to such policies shall be forwarded
to the ASDB liability insurance carrier for review.

Prescription Drugs

For occasions when it is necessary for a student to receive a prescription drug during the school day from the Student Health Center, the following procedure has been established to ensure the protection of the school and the student and to assure compliance with existing rules and regulations:

**Administration by trained ASDB staff members:**

- The medication must be prescribed by a licensed prescriber.
- The parent or guardian must provide written permission to administer the medicine to the student. Appropriate forms are available from Student Health Center.
- The medication must come to the Student Health Center in the prescription container as put up by the pharmacist. Written directions from the physician or pharmacist must state the name of the patient, the name of the medicine, the dosage, and the time it is to be given.
- An administrator may designate an appropriately trained ASDB staff member(s) to administer the medication.
- Each administration of prescription drugs must be documented, making a record of the student having received the medication.
- Drugs must be kept in their original containers in a locked medicine cabinet, or, if off campus, in the possession of an authorized adult.

**Diabetes Medication Administration**

- Any medication administration services specified in the child’s diabetes medical management plan shall be provided.
- Two (2) or more ASDB employees, subject to final approval by the student’s parent or guardian, may volunteer to serve as diabetes care assistants. Voluntary diabetes care assistants are allowed to administer insulin, assist the pupil with self-administration of insulin, administer glucagon in an emergency situation to a pupil or perform any combination of these actions if all of the following conditions exist:
  - A school nurse or other health professional who is licensed pursuant to statute or a nurse practitioner who is licensed pursuant to statute is not immediately available to attend to the pupil at the time of the emergency.
  - If the voluntary diabetes care assistant is authorized to administer glucagon, the parent or guardian must provide to
ASDB an unexpired glucagon kit prescribed for the student by an appropriately licensed health care professional or nurse practitioner.

- The volunteer diabetes care assistant has provided to ASDB a written statement signed by an appropriately licensed health professional that the voluntary diabetes care assistant has received proper training in the administration of glucagon, including the training specified in A.R.S. 15-344.01.

- If the voluntary diabetes care assistant is authorized to administer insulin, the parent or guardian of the pupil has provided insulin and all equipment and supplies that are necessary for insulin administration by voluntary diabetes care assistants.

- The training provided by an appropriately licensed health professional must include all of the following:
  - An overview of all types of diabetes.
  - The symptoms and treatment of hyperglycemia and hypoglycemia.
  - Techniques for recognizing the symptoms that require the administration of glucagon.
  - Techniques on administering glucagon.

- An ASDB staff member shall not be subject to any penalty or disciplinary action for refusing to serve as a voluntary diabetes care assistant.

- ASDB, ASDB staff members, and properly licensed volunteer health professional and nurse practitioners are immune from civil liability for the consequences of the good faith adoption and implementation of policies and procedures pursuant to ASDB policy and this regulation.

**Self-administration:**

- When the physician feels it is necessary for the student to carry and self-administer the medication, the physician shall provide written recommendations, to be attached to the signed parent permission form except in the case of medication for diagnosed anaphylaxis and breathing disorders requiring handheld inhaler devices. In these cases the student’s name on the prescription label is sufficient for the physician’s recommendation.

- The student’s diabetes medical management plan provided by the parent or guardian shall be signed by the appropriately licensed health professional or nurse practitioner and shall state that the student is capable of self-monitoring blood glucose and shall list the medications, monitoring equipment, and nutritional needs that are medically appropriate for the pupil to self-administer and that have been prescribed or authorized for that student. The student must be able to practice proper safety precautions for the handling and disposal of the equipment and medications that the student is authorized to
use under these provisions. The pupil's diabetes medical management plan shall specify a method to dispose of equipment and medications in a manner agreed on by the parent or guardian and ASDB.

- The parent or guardian must provide written permission for the student to self-administer and carry the medication. Appropriate forms are available from the Student Health Center. The medication must come in the prescription container as put up by the pharmacist.

**Over-the-Counter Medication**

When it is necessary for a student to receive a medicine that does not require a prescription order but is sold, offered, promoted, and advertised to the general public, the following procedure has been established to ensure the protection of the school and the student:

**Administration by ASDB Staff Members:**

- Written permission must be provided by the parent or guardian for the administration of specific over-the-counter drugs.
- Any over-the-counter drug or medicine sent by the parent to be administered to a student must come to the Student Health Center in the original manufacturer's packaging with all directions, dosages, compound contents, side effects, and proportions clearly marked.
- An administrator may designate an ASDB staff member(s) to administer a specific over-the-counter drug.
- Each instance of administration of an over-the-counter drug must be documented in the daily log.
- Over-the-counter drugs must be kept in their original containers in a locked medicine cabinet.

**Protection of Students**

Use or administration of medication on ASDB premises may be disallowed or strictly limited if it is determined by the Superintendent, in consultation with medical personnel, that a threat of abuse or misuse of the medicine may pose a risk of harm to a member of the student population.

The student shall take extraordinary precautions to keep secure any medication or drug, and under no circumstances shall make available, provide, or give the item to another person. The student shall immediately report the loss or theft of any medication brought onto school campus. Violation of this regulation may subject the student to disciplinary action.

**Civil Immunity**

ASDB and its staff members are immune from civil liability for the consequences of the good faith implementation of policies and procedures pursuant to Arizona Revised Statute 15-344.
MEDICINES/ADMINISTERING MEDICINES TO STUDENTS (Emergencies)

If a student is injured or becomes ill during the school day, while attending an ASDB-sponsored activity, or while under the care of ASDB, it is the responsibility of any staff member present to render assistance and to summon a school nurse/nurse aide/emergency personnel if one is readily available. Upon arrival, the school nurse/nurse aide/emergency personnel will direct all further first aid activities.

Emergency procedures shall be based on the following fundamental concepts:

- ASDB is responsible for the emergency handling of accidents and sudden illness occurring at ASDB or on ASDB property. ASDB is not responsible for subsequent treatment.
- At the time of an emergency, ASDB has the responsibility for:
  - Caring for the student, including, as may be necessary, the administration of medications by trained ASDB staff.
  - Notifying the student’s parents or guardian, or, if these cannot be reached, following directions given on the student’s enrollment card.
  - In extreme cases, getting the student under professional care with or without family permission.
- In the absence of family transportation or ambulance service, an authorized school employee may have to take the sick or injured student home, to the physician’s office, or to the hospital. A sick or injured student should be accompanied from ASDB by an adult. If the destination is the student’s place of residence, the adult shall have ascertained that a responsible person that has been identified by the parent is at the place of residence to assume responsibility.
- In case of any serious injury or illness, the parent or responsible person should always be notified as soon as possible. Emergency care of the student has priority.

Emergency Administration of Medication by Trained ASDB staff members

For emergencies when it is necessary for a student to receive medication while under the care of ASDB, the following procedures have been established to ensure the protection of ASDB, its staff members, and the student, and to assure compliance with existing rules and regulations:

Prescription Drug Administration by Trained ASDB staff members:
- The medication must be prescribed by a licensed prescriber.
The parent or guardian must provide written permission to administer the medicine to the student. Appropriate forms are available from the Student Health Center.

The medication must be in the prescription container as put up by the pharmacist. Written directions from the physician or pharmacist must state the name of the patient, the name of the medicine, the dosage, and the time it is to be given.

An administrator may designate a trained ASDB staff member(s) to administer the medication.

**Over-The-Counter Drug Administration by ASDB staff members:**

Written permission must be provided by the parent or guardian for the administration of specific over-the-counter drugs.

Any over-the-counter drug or medicine must be in the original manufacturer's packaging with all directions, dosages, compound contents, side effects, and proportions clearly marked. An over-the-counter drug or medicine which is not included in standing orders, and is sent by a parent to be administered to the student, must also have a written order from a licensed prescriber prescribing that over-the-counter medication.

An administrator may designate an ASDB staff member(s) to administer a specific over-the-counter drug.

The responsible staff member who administered a medication to a student shall submit a written report of an incident to the school Principal/Director not later than noon of the school day following the incident.
STUDENT HEALTH SERVICES AND REQUIREMENTS

Special Instructions for Tucson Campus

- The student health center registered nurse will obtain selected medications from ASDB stock medications when unable to obtain prescription medications from a residential student's usual source.
- Each medication will be administered at the direction of an Arizona licensed prescriber.
- Medication will be administered following ASDB Policy JLCD, and Student Health Center Procedure Guidelines.

Special Instructions for Phoenix Campus

- Each medication will be administered at the direction of an Arizona licensed prescriber.
- Medication will be administered following ASDB Policy JLCD.
SCHOOL COUNSELORS AND PSYCHOLOGISTS

Specialized instructional support services of School Counselors and Psychologists are available to students through ASDB. Referrals for psychological evaluations may come from certificated staff members or parents, district of residence, or from the student.

Prior written or oral consent of a parent or the legal guardian of a minor child must be obtained in the manner and as required by A.R.S. 36-2272 to procure, solicit to perform, arrange for the performance of or perform mental health screening in a nonclinical setting on a minor. Eligible student (age eighteen [18] years and beyond) authorization must be obtained prior to the referral or performance of a mental health screening or mental health treatment as described above, except as otherwise provided by law or a court order. These restrictions do not apply when an emergency exists that requires a person to perform mental health screening or make a referral for a mental health evaluation to prevent serious injury to or save the life of a minor child.

A school psychologist, in collaboration with others, shall administer preliminary tests and use data collection methods to determine the need for further psychological evaluations from outside agencies or to facilitate educational program design to help students develop effective skills.

Referrals to outside agencies or mental health treatment shall be made only with parental or eligible student authorization, except as otherwise provided by law or a court order.

Adopted: November 9, 2017
RESTRAINT AND SECLUSION

Restraint and seclusion are not to be used as disciplinary consequences.

ASDB may permit the use of restraint or seclusion techniques on any pupil if both of the following apply:

A. The student's behavior presents an imminent danger of bodily harm to the student or others.
B. Less restrictive interventions appear insufficient to mitigate the imminent danger of bodily harm.

If a restraint or seclusion technique is used on a student:

A. ASDB personnel shall maintain continuous visual observation and monitoring of the student while the restraint or seclusion technique is in use.
B. The restraint or seclusion technique shall end when the student's behavior no longer presents an imminent danger to the student or others.
C. The restraint or seclusion technique shall be used only by ASDB personnel who are trained in the safe and effective use of restraint and seclusion techniques unless an emergency situation does not allow sufficient time to summon trained personnel.
D. The restraint technique employed may not impede the student's ability to breathe.
E. The restraint technique may not be out of proportion to the student's age or physical condition.

ASDB may establish policies and procedures for the use of restraint or seclusion techniques in a school safety or crisis intervention plan if the plan is not specific to any individual student.

ASDB shall establish reporting and documentation procedures to be followed when a restraint or seclusion technique has been used on a student. The procedures shall include the following requirements:

A. ASDB personnel shall provide the student's parent or guardian with written or oral notice on the same day that the incident occurred, unless circumstances prevent same-day notification. If the notice is not provided on the same day of the incident, notice shall be given within twenty-four (24) hours after the incident.

B. Within a reasonable time following the incident, ASDB personnel shall provide the student's parent or guardian with written documentation that includes information about any persons, locations or activities that may have triggered the behavior, if known, and specific information about the behavior and its precursors, the type of restraint or seclusion technique used and the duration of its use.
C. ASDB shall review strategies used to address a student's dangerous behavior if there has been repeated use of restraint or seclusion techniques for the student during a school year. The review shall include a review of the incidents in which restraint or seclusion technique were used and an analysis of how future incidents may be avoided, including whether the student requires a functional behavioral assessment.

If ASDB summons law enforcement instead of using a restraint or seclusion technique on a student, ASDB shall comply with the reporting, documentation and review procedures established under the paragraph above. School resource officers are authorized to respond to situations that present the imminent danger of bodily harm according to protocols established by their law enforcement agency.

ASDB is not prohibited from adopting policies which include procedures for the reasonable use of physical force by certificated or support staff personnel in self-defense, defense of others and defense of property (A.R.S. 15-843, subsection B, paragraph 3.)

ASDB authorizes the use of these Definitions which are included in A.R.S. 15-105:

A. "Restraint" means any method or device that immobilizes or reduces the ability of a pupil to move the student's torso, arms, legs or head freely, including physical force or mechanical devices. Restraint does not include any of the following:

1. Methods or devices implemented by trained school personnel or used by a student for the specific and approved therapeutic or safety purposes for which the method or device is designed and, if applicable, prescribed.

2. The temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student to comply with a reasonable request or to go to a safe location.

3. The brief holding of a student by one adult for the purpose of calming or comforting the student.

4. Physical force used to take a weapon away from a student or to separate and remove a student from another person when the student is engaged in a physical assault on another person.

B. "School" means a school district, a charter school, a public or private special education school that provides services to pupils placed by a public school, the Arizona State Schools for the Deaf and the Blind and a private school.

C. "Seclusion" means the involuntary confinement of a student alone in a room from which egress is prevented. Seclusion does not include the use of a voluntary behavior management technique, including a timeout location, as part of a student's education plan, individual safety plan, behavioral plan or individualized education program that involves the student's separation from a larger group for purposes of calming.

Adopted: March 9, 2017
REPORTING CHILD ABUSE/ CHILD PROTECTION

Any ASDB staff member or any other person who has responsibility for the care or treatment of a minor and reasonably believes that a minor is or has been the victim of physical injury, abuse, child abuse, a reportable offense, or neglect that appears to have been inflicted upon the minor by other than accidental means or that is not explained by the available medical history as being accidental in nature or who reasonably believes there has been a denial or deprivation of necessary medical treatment or surgical care or nourishment with the intent to cause or allow the death of an infant who is protected under A.R.S. 36-2281 shall immediately report or cause reports to be made of such information to a peace officer or to the Child Protective Services (CPS) of the Department of Economic Security, except if the report concerns a person who does not have care, custody, or control of the minor, the report shall be made to a peace officer only. Such reports shall be made immediately either electronically or by telephone.

The Arizona Department of Economic Security, Division of Children, Youth, and Families has determined that all mandated reporters may now electronically submit non-emergency reports via a secure online reporting website. Non-emergency reports are those in which a child is not at immediate risk of abuse or neglect that could result in serious harm. Mandated reporters will be able to submit non-emergency reports without wait times.

All reports made via the online website will require the person making the report (reporting source) to provide contact information. A representative from the Child Abuse Hotline may contact the source for additional information, if necessary. This process will make it more convenient to meet the mandated reporting requirements and help ensure child safety.

All emergency situations where a child faces an immediate risk of abuse or neglect that could result in serious harm must still be reported by calling 911 or 1-888-SOS-CHILD (1-888-767-2445). If a reporting source is unsure as to whether or not the report is an emergency situation, the reporting source should call the Child Abuse Hotline to make a report.

Any concerns for the safety of a child due to abuse, neglect, or abandonment, must be reported by: Calling 1-888-SOS-CHILD (1-888-767-2445) Submitting non-emergency concerns via the Online Reporting Service for Mandated Reporters at https://www.azdes.gov/dcyf/cps/mandated_reporters/

Pursuant to A.R.S. 13-3620, such reports shall contain:

- The names and addresses of the minor, the parents, or the person or persons having custody of such minor, if known.
- The minor's age and the nature and extent of the minor's abuse, child abuse, or physical injuries or neglect, including any evidence of previous abuse, child abuse, physical injury or neglect.
• Any other information that such person believes might be helpful in establishing the cause of the abuse, child abuse, physical injury or neglect.

A person who furnishes a report, information, or records required or authorized under Arizona Revised Statutes or a person who participates in a judicial or administrative proceeding or investigation resulting from a report, information or records required or authorized under Arizona Revised Statutes is immune from any civil or criminal liability by reason of that action unless such person has acted with malice or unless such person has been charged with or is suspected of abusing or neglecting the child or children in question.

A report is not required under A.R.S. 13-3620 for conduct prescribed by A.R.S. 13-1404 and 13-1405 if the conduct involves only minors who are fourteen (14), fifteen (15), sixteen (16) or seventeen (17) years of age and there is nothing to indicate that the conduct is other than consensual.

A report is not required if a minor is of elementary school age, the physical injury occurs accidentally in the course of typical playground activity during a school day, occurs on the premises of the school that the minor attends and is reported to the legal parent or guardian of the minor and the school maintains a written record of the incident.

A person who fails to report abuse as provided in A.R.S. 13-3620 is guilty of a class 1 misdemeanor, except if the failure to report involves a reportable offense, the person is guilty of a class 6 felony.

Any certificated person or ASDB Board member who reasonably suspects or receives a reasonable allegation that a person certificated by the Department of Education has engaged in conduct involving minors that would be subject to the reporting requirements of A.R.S. 13-3620 shall report or cause reports to be made to the Department of Education in writing as soon as is reasonably practicable but not later than three (3) business days after the person first suspects or receives an allegation of the conduct.

 Adopted: June 11, 2015

CHILD ABUSE
(Child Abuse/Non-accidental Injuries – Procedure for Reports to Arizona Department of Child Safety)

The purpose of a child abuse/non-accidental injury procedure is to provide for the welfare of all students enrolled in attending campus-based schools of the Arizona State Schools for the Deaf and the Blind, as well as any ASDB student involved in any school-related activity on or off campus.

It is the responsibility of all employees to report the suspicion or actual knowledge of child abuse or non-accidental injuries of any ASDB student.* [NOTE: Professional confidentiality immunities under the law do not pertain in any civil or criminal litigation in which a child’s neglect, dependency, abuse, or abandonment is in issue not in any judicial proceeding resulting from a submitted report (A.R.S. 8-805 and A.R.S. 13-3620).]

Persons employed in the ASDB Regional Cooperative Programs shall consult policies and regulations of the respective school districts in which they are completing assignments and shall follow such policies and regulations on this subject unless they are in conflict with the intent of this regulation.

In the event that any employee notices any behavior, physical evidence, or through conversation determines the possibility of child abuse or non-accidental injury to any student as outlined in Policy JLF*, immediate action MUST be taken by the employee with a report to CHILD PROTECTIVE SERVICES as follows:

Immediately make a verbal report by phone such information to the Child Protective Services of the Arizona Department of Economic Security or to a peace officer. If the concern is a non-emergency, submit an online report via the Online Reporting System for Mandated Reporters.

Phone calls can be made to CPS from any telephone at the campus-based schools.

NOTE: Concerns regarding students eighteen (18) years or older and enrolled in a campus-based program are reported to Adult Protective Services.

At the time of the call, CPS may recommend that the reporter call and file a report with the Police Department:

☐ when physical damage is inflicted on one student by another and this was not initiated mutually,

☐ if one student is eighteen (18) or older and one student is a minor.

Following the reports to CPS, the reporting employee is encouraged to keep such a report confidential. Staff members are advised that releasing information about a report made to CPS can affect the outcome of an investigation. Any disclosure of information by a reporter is at that person’s sole discretion and does not guarantee any immunity (actual or implied) from legal action because that person is and may be a staff member at ASDB.
If a parent/guardian calls, the CPS case worker calls, or a law enforcement officer calls, or anyone else calls any employee of ASDB, the response is:

- “If ASDB has any relationship to the matter, for further information you should contact the Superintendent.”

Do not allow a parent or outside person to engage in a discussion with you to elicit information! Repeat the above message as many times as necessary. Advise the Superintendent's Office of subsequent related calls.

If at any time a Child Protective Services officer responds in person to any ASDB program in response to a call made by an employee, and at such time wishes to take photographs and/or remove the child into protective custody or to escort the child to the place of residence - employees are to release the child to the custody of the Child Protective Services officer.

All further contact with Child Protective Services or Law Enforcement Divisions will be made by the Superintendent or the Superintendent's designee - NO EXCEPTIONS.

If Child Protective Services or the police are investigating a case, employees may be asked to provide information to investigating authorities. Interviews of employees, testimony from a child, or other evidence required by CPS or the police will be coordinated by the Superintendent’s Office or the Superintendent's designee.

**Abandonment**

Any ASDB student abandoned by the child's parents or guardians shall be reported to Child Protective Services.

The Arizona DES Department of Child Safety defines abandoned as follows:

Abandonment means failure of the parent to provide reasonable support, to maintain regular contact with the child, including providing normal supervision, when such failure is accompanied by an intention on the part of the parent to permit such conditions to continue to an indefinite period.

**Student-to-Student Abuse**

In incidents involving a student-to-student assault between students who are enrolled in and attending a campus based program, whether physical or sexual, the employee shall immediately report the incident or alleged incident to the Principal/Director. Employees must be alert and sensitive to students who are attempting to tell a responsible adult they trust about an incident of physical or sexual abuse. An incident of physical or sexual abuse is not to be considered as confidential between the student and the employee. Employees who withhold information on suspected physical or sexual abuse may be subject to disciplinary action on the grounds of neglect of duty, and are subject to local and state laws in effect at the time.

The Principal/Director will be responsible for the steps necessary to fully investigate a reported incident of physical or sexual abuse upon a student by another student in the most confidential way possible. The investigation shall include:

**Notification to the Assistant Superintendent's Office**
Parental contacts of students having involvement in an incident. Involvement of the Police Department to determine whether the incident constitutes a delinquent act and possible referral to the Pima or Maricopa County Juvenile Courts.

Due process rights of all persons involved - students, employees, and parents.

**Confidentiality**

Reporting of non-accidental injury of children, the circumstances surrounding the incident and medical findings are information of highly confidential nature. Therefore, it is to be conveyed only to persons directly involved in reporting the case and completing the report. At the discretion of the Principal/Director, key employees may be informed, i.e. nurse, case manager, counselor, dean, team leader, if the welfare of the child is of concern. Employees will be reminded of the confidential nature of this information. The name of the reporter will not be divulged.

**Immunity**

Arizona law provides that any person participating in the making of reports required under the provisions on this section, or anyone participating in a judicial proceeding resulting from such reports, shall be immune from any civil or criminal liability by reason of such action unless such person acted with malice or unless such person has been charged with or is suspected of abusing or neglecting the child or children in question. Failure to report is a Class 2 Misdemeanor.

**Information to Parents**

All parents of students enrolled in and attending an ASDB campus program shall be provided a copy of this policy on an annual basis.

**Discipline Programs**

Child abuse shall not include approved behavioral programs as defined in the Assertive Discipline Policy and established as a result of multidisciplinary staffings.

However, the inappropriate use of techniques established through the above are not protected under this section. Employees must receive specific training in these techniques and must demonstrate their competency in their use and application for students who are enrolled in and attending ASDB campus based programs.

**Student Rights**

Students will be educated about their rights to care, food, shelter, and freedom from harm, abuse, and neglect as part of the curriculum at the campus based programs of ASDB.

**Staff Training**

In-service training will be provided to employees on child abuse and on the implementation of this policy every year within the first month of the school year.
SCHOOL RECORDS AND MISSING STUDENTS

Following proper notification, the records of each missing child will be flagged with a red sticker in the upper-right-hand corner of the cumulative folder. When records are requested for missing children, the local law enforcement agency will be notified and no records will be sent.

The parent or surrogate of each new enrollee in ASDB, except homeless students, will be asked to produce one (1) of the following proofs:

- A certified copy of the child’s birth certificate.
- Other reliable proof of the student’s identity and age, including the student’s baptismal certificate, an application for a Social Security number, or original school registration records and an affidavit explaining the inability to provide a copy of the birth certificate.
- A letter from the authorized representative of an agency having custody of the student (pursuant to statute) certifying that the student has been placed in the custody of the agency as prescribed by law.

The parent or legal guardian will be given thirty (30) days to provide documentation requested as listed above. If documentation is not provided, a second (2nd) letter will be sent to notify the parent or guardian that unless the documentation is provided within ten (10) days, the local law enforcement agency will be notified.

Nothing contained in this policy shall authorize ASDB to disclose to any person a student’s educational record without prior parental consent unless ASDB makes a determination that disclosure of such records is necessary to protect the health and safety of the student.

For purposes of this policy:

- *Flag* means to mark or identify as pertaining to a missing child, or an indication identifying an item as pertaining to a missing child.
- *Missing child* means a person who is under the age of eighteen (18) years, whose temporary or permanent residence is in this state or is believed to be in this state, whose location has not been determined, and who has been reported as missing to a law enforcement agency.

*Adopted: November 9, 2017*
STUDENT SAFETY

Teachers will be responsible for their classes at all times. At no time are students to be left unsupervised. Students are not to be sent on errands from ASDB premises.

Teachers have the authority to prohibit the use of and/or to confiscate any article that is a hazard to a student or that may damage ASDB property. In the case of an emergency, the teacher will seek help from the Principal.

Every student, teacher, and visitor shall wear appropriate protective eyewear while participating in or when observing vocational, technical, industrial arts, art, or laboratory science activities involving exposure to items as listed in A.R.S. 15-151.

The Superintendent or designee will establish procedures covering the conduct of students going to and from school. In addition, school buildings, playgrounds, and equipment will be regularly inspected for health, fire, and safety hazards.

* Adopted: November 9, 2017*
SUPERVISION OF STUDENTS

When students are in school, engaging in ASDB-sponsored activities, or traveling to and from school on ASDB buses, they are responsible to ASDB and ASDB is responsible for them.

Supervision shall include being within the physical presence and, whenever possible, within a line of vision of the students so that ASDB staff members will have a reasonable opportunity to control the behavior of and assist the students if necessary. ASDB staff members shall exercise supervision as appropriate from the commencement of the school day, before classes begin, during class sessions, during lunch periods, between classes, and at any other time when performing teaching or related duties on behalf of ASDB.

If it should be necessary in an emergency situation for a teacher to leave the physical presence of the students, then the teacher shall make a reasonable effort to have an ASDB staff Member to supervise the students during the teacher’s absence. In no case shall the teacher leave students unsupervised if there is a reasonable possibility that harm to students or property will result from the students being left unattended.

School principals, teachers, and other staff members will ensure that anyone who wishes to contact a student during the school day is doing so for proper reasons.

*Adopted: November 9, 2017*
STUDENT DISMISSAL PRECAUTIONS

No student will be removed from ASDB grounds, from any ASDB building, or from any ASDB function during school hours except by a person authorized to do so by the student’s parent or by a person who has legal custody of the student, unless the person’s behavior creates an unreasonable danger to the safety of the minor as established by reasonable evidence, and except as A.R.S. 8-303, 8-304, and 8-802 shall apply. Before a student is removed, the person seeking to remove the student must present, to the satisfaction of the Superintendent or designee, evidence of proper authority to remove the student. If any police or court official requests the dismissal of a student during school hours, parents should be notified as soon as possible.

For purposes of the Arizona Medical Marijuana Act, no person may be denied custody of or visitation or parenting time with a minor, and there is no presumption of neglect or child endangerment for conduct allowed under the Act, unless the person’s behavior creates an unreasonable danger to the safety of the minor as established by clear and convincing evidence.

Before releasing a student during the school day, the Principal/Director shall be responsible for the verification of the identity of any lawful custodian or any representative seeking release of a student.

If a lawful custodian, as indicated on the student’s permanent record, is not recognized by sight, the Principal/Director shall require satisfactory identification before such release. If there is a doubt, release may not be granted.

In the case of a written or verbal authorization by a lawful custodian of record, the Principal/Director shall require satisfactory verification of the message as being from the lawful custodian of record. If there is a doubt, release may not be granted.

If an unauthorized person refuses to honor the decision of the Principal/Director, the Principal/Director shall call the local police authority.

SEX OFFENDER NOTIFICATION
(Sex Offender and Dangerous Juvenile Offender Notification and Protective Measures)

Arizona statutes require law enforcement agencies to provide notification to ASDB regarding certain registered sex offenders and require courts to notify ASDB regarding juveniles adjudicated delinquent for “dangerous offenses” or certain sex offenses.

- Arizona Revised Statutes (A.R.S.) 13-3825 and 13-3826 require the local law enforcement agency to notify the community, including area schools, of the presence of a registered sex offender in the community when the offender has been determined by the agency to be a “level two” (medium risk) or “level three” (high risk) offender.

- A.R.S. 8-350 directs the court to notify ASDB when a student attending an ASDB school has been adjudicated delinquent for or convicted of and placed on probation for a dangerous offense or sexual conduct with a minor, sexual assault, molestation of a child, or continual sexual abuse of a child. Dangerous offense is defined in 8-350 as “an offense involving the discharge, use or threatening exhibition of a deadly weapon or dangerous instrument or the intentional or knowing infliction of serious physical injury on another person.”

- A.R.S. 13-3821 permits a juvenile court to require a juvenile who has been adjudicated delinquent for certain sex offenses to register as a sex offender until the person reaches the age of twenty-five (25) and A.R.S. 13-3825 permits a juvenile court to further require such juvenile registered sex offender to be subject to the State’s community notification requirements.

It is the ASDB Board’s desire to create and maintain a safe environment for ASDB students and staff. Therefore, the Superintendent or designee is directed to develop regulations to disseminate the information received from the local law enforcement agency regarding adult and juvenile registered sex offenders present in ASDB statewide and to provide teachers, parents, guardians, or custodians, upon request, information received from a court pursuant to A.R.S. 8-350 concerning a juvenile who has been adjudicated for or convicted of a dangerous offense or a specified sex offense.

ASDB Regulations

Regulations within ASDB shall encompass, but not necessarily be limited to:

- Measures to disseminate information received from the local law enforcement agency to staff members, parents, guardians, or custodians when ASDB has been notified that a registered offender has moved into the community. When in the judgment of the Superintendent or designee, it is determined to be appropriate, the measures will include disseminating the information to students.
Measures to provide to teachers, parents, guardians, or custodians, upon request, information received by ASDB under A.R.S. 8-350, regarding juveniles adjudicated delinquent of “dangerous offenses” or sex offenses.

Adopted: November 9, 2017
SEX OFFENDER NOTIFICATION
(Sex Offender and Dangerous Juvenile Offender Notification and Protective Measures)

To fulfill the requirements of Policy JLIF the following procedures are to be implemented.

Registered Sex Offender Community Notification
When the local law enforcement agency notifies ASDB pursuant to A.R.S. 13-3825 and 13-3826 of a registered sex offender's presence in the community, the following actions shall occur:

- A copy of the notification flyer provided by the law enforcement agency, displaying the offender’s photograph and disclosing the offender’s exact address, status summary, and criminal background, is to be distributed to each school and department.
- The school Principal/Director or department supervisor shall post the notification flyer at locations where the flyer is readily accessible for viewing by employees, students and visitors.
- When the registered sex offender described in the notice is also a student with ASDB, then the provisions regarding juvenile (youthful) dangerous offenders and sex offenders shall also be followed, except that the restrictions against disclosure of information shall not apply to the information obtained in the community notification received from the local law enforcement agency.

Juvenile (Youthful) Dangerous Offenders and Sex Offenders
When ASDB is notified by a juvenile court pursuant to A.R.S. 8-350 that a student attending a school in ASDB has been adjudicated delinquent for or convicted of and placed on probation for a dangerous offense or sexual conduct with a minor, sexual assault, molestation of a child, or continual sexual abuse of a child, the Superintendent shall promptly notify the Principal/Director of the school where the student is in membership.

The Principal/Director shall:

- Send notice to the student’s teacher(s), and such other employees as the Principal/Director determines appropriate to the circumstance, to contact the Principal/Director concerning a confidential matter. The noticed employees will be provided with the information received from the juvenile court, and be directed to comply with the student record confidentiality requirements prescribed in ASDB policy JR. An employee who improperly discloses confidential student information may be disciplined pursuant to ASDB policy.
ASDB STUDENT VOLUNTEERS FOR SCHOOL AND COMMUNITY SERVICE

The ASDB Board encourages the utilization of student volunteers in the educational program (e.g., student librarians, student office helpers, et cetera) and in useful community services. However, student volunteers must be capable of carrying out the additional load without endangering their academic achievement. Therefore, all student volunteers shall be expected to maintain their grades, attend all classes, and recognize that the activity to which they are volunteering their services is secondary to their primary goal of getting an education.

Teachers and members of the community are encouraged to check with a student’s teacher and the principal/director before a student is sought for volunteer help, to make sure that the additional responsibility can be undertaken without endangering the student’s academic achievement.

Adopted: November 9, 2017
Students shall be discouraged from collecting money, setting aside funds, or purchasing gifts for ASDB or for faculty members.

Gifts from groups of students to other student(s) shall be limited to small expressions of condolence, remembrance, or appreciation. Guidelines for such remembrances shall be established by the Superintendent or designee.

Solicitations by or of students are to be governed by the following policies:

- Students shall not be solicited to purchase books or other merchandise, except for materials approved by ASDB for use in the classroom.

- Solicitations by students shall be limited to small contributions, i.e., expressions of condolence, remembrance, or appreciation. Guidelines for such solicitations shall be established by the Superintendent or designee.

- No other solicitations shall be made by or of students during school hours or on ASDB premises.

STUDENT FEES, FINES, AND CHARGES

The ASDB Board recognizes the need for student fees to fund certain ASDB activities that are not financed by state, or federal funds. It also recognizes that some students may not be able to pay these fees. All fees shall contain a provision that allows the fees to be waived in the event of economic hardship to the student. Non-payment of fees charged by ASDB may not prevent a student from enrolling in, applying to, or remaining enrolled in a public school. No student will be denied an education as a result of inability to pay these supplementary charges. This policy does not prohibit ASDB from charging tuition to a non-state resident student, as required by statute.

Students will not be required to supply specific types of school supplies or equipment as a prerequisite to successful completion of a required course or project.

Students will, however, be responsible and accountable for loss of or damage to ASDB property, including textbooks and library books.

The Superintendent or designee will establish procedures through which students may be held responsible and accountable for loss of or damage to ASDB property, including textbooks and library books.

Authorization is granted for the acceptance of fees or cash contributions paid by a taxpayer for support of extracurricular activities and character education programs in schools of ASDB. The Superintendent or designee shall establish procedures to assure compliance with all requirements for reporting the receipt and expenditure of taxpayer contributions.

The Superintendent or designee shall implement the provisions of A.R.S. 15-1346 related to payment for personal expenses.

Adopted: November 9, 2017
Areas where fees may be charged include, but may not be limited to:

- Optional extracurricular activities, which are defined as any optional, noncredit, educational or recreational activity that supplements the education program of the school, whether offered before, during, or after regular school hours.
- Optional programs conducted when school is not in session.
- Fine arts courses (high school only).
- Vocational education courses (high school only).
- Other courses, fees for optional services, equipment, and materials offered to the students beyond those required to successfully complete the basic requirements of the course (high school only).

Pursuant to A.R.S. 15-342, ASDB may charge fees for the activities described above if:

- The fees are reasonable.
- The fees do not exceed the actual costs of the activities, programs, services, equipment, or materials.
- A notice of the proposed fees is given to all parents of students enrolled at schools in ASDB before the Board acts to adopt fees.
- The fees are then adopted by the Board.
- The Board includes in its action a grant of authority to the Principals/Directors to waive the assessment of all or a part of any fee if it creates an economic hardship for a specific student.
- No fees are charged for students’ access to or use of computers or related materials.

Fees shall be consistent and charged on an annual basis, unless otherwise noted, as follows:

STUDENT FEES, FINES, AND CHARGES
(Personal Care Costs of Students)

It is the responsibility of parents or persons having legal custody of a pupil to provide sufficient monies for that pupil enrolled in the school to cover personal care items, including clothing, hearing aids, hearing aid repairs, eyeglasses, eyeglass repairs, medical or dental care and transportation to the school and home at the close of the school term.

The Superintendent shall periodically make an account of certified expenses for a pupil and shall bill the parent or person having legal custody of a pupil for reimbursement of such expenses. If the Superintendent determines that the parent or person having legal custody of the pupil is unable to pay the account and that the pupil is indigent, the Superintendent shall remit the account after one school year to the clerk of the Board of Supervisors of the county in which the pupil resides for payment from the county general fund.

In order to determine whether the parent/guardian is able or unable to pay the costs of needed personal care items, eligibility for county assistance programs, or Indian programs gathered through the school registration process will be reviewed. A family will be deemed "unable to pay" if the student's family currently qualifies for existing county assistance programs, such as A.H.C.C.C.S. or A.F.D.C., or receives assistance from Indian programs, such as Indian Health Service.

Accounts of families considered "unable to pay" will continue to be billed monthly to the parents for payment and any unpaid amounts remaining at the end of the school year will be remitted to the county of residence for payment.

Families who do not meet the eligibility criteria will be considered by ASDB as "able to pay."

Accounts of families considered "able to pay" will be billed to the parents monthly with a letter reminding them of their financial responsibility. Accounts thirty (30) days past due without payment will be reviewed by employees familiar with the student (principal/director and dean, audiologist, counselor, case manager) to determine if a situation of unusual family hardship exists. In such cases, the debt will be recommended for payment from the school's donated gift funds set aside for that purpose.

In cases where no unusual hardship is known, a second letter will be sent reminding the parents of financial responsibility, asking them to inform ASDB of any unusual hardship and conditions to propose a reasonable payment plan.

Debts that become sixty (60) days past due without response to payment requests will be sent a third letter advising them of impending loss of credit unless reasonable payment is made.

Debts that become ninety (90) days past due without payment will be frozen and no further credit extended.
STUDENT RECORDS

Required student records (regular and special education) will be prepared in a manner consistent with State and federal laws, and the requirements of the Arizona Department of Libraries, Archives and Public Records. Retention periods and disposition of records shall be as specified in the Arizona Department of Library Archives and Public Records and relevant federal statutes and regulations.

ASDB will comply with the provisions of the Family Educational Rights and Privacy Act (FERPA) and the Individuals with Disabilities Education Act (IDEA), the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (USA PATRIOT ACT), and the Every Student Succeeds Act of 2015 in the establishment, maintenance, correction, and disposition of student records.

The ASDB Board directs the Superintendent or designee to establish regulations for such compliance, including informing parents, students, and the public of the contents. The Superintendent or designee will implement regulations as required by law and will establish procedures for dealing with violations.

If a parent or eligible student believes that ASDB is violating the FERPA, that person has a right to file a complaint with the U.S. Department of Education. The address is:

The Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW Washington, DC
20202-4605
Telephone number: (202) 260-3887

Annual Notification

Within the first three (3) weeks of each school year, ASDB will publish in an ASDB communication a notice to parents and eligible students of their rights under the FERPA and this procedure. This notice will also be provided to each parent of new students enrolling after school begins [34 C.F.R. 99.7]. ASDB will arrange to provide translation of the notice to non-English- speaking parents in their native language or
The notice shall inform the parents of:

- The right of the parent or an eligible student to inspect and review the student's education records.
- The intent of ASDB to limit the disclosure of personally identifiable information contained in a student's education records, including disciplinary records, except by the prior written consent of the parent or eligible student or under certain limited circumstances as permitted by the FERPA, the USA PATRIOT Act or the ESSA Act.
- The right of the parent or eligible student to seek to correct parts of the ASDB education records that the student or the parent believes to be inaccurate, misleading, or in violation of student rights. This right includes the right to a hearing to present evidence that the record should be changed if ASDB decides not to alter it according to the parent's or eligible student's request.
- The right of the parent or eligible student to file a complaint with the U.S. Department of Education if they believe ASDB has violated the FERPA.

Parents and eligible students have the following rights under the Family Educational Rights and Privacy Act (FERPA) and this procedure [34 C.F.R. 99.7 and 300.613]. The notice shall also include:

- The procedure for exercising the right to inspect and review education records.
- The procedure for requesting amendments of education records that the parent or eligible student believe to be inaccurate, misleading or otherwise a violation of the student's privacy rights.
- The conditions when prior consent is not required, the criteria for determining who constitutes an ASDB official and what constitutes a legitimate educational interest.

If ASDB permits the release of directory information relating to students, the information shall be released on or before October 31 of each year. The Superintendent or designee shall develop regulations to communicate to students and their parents in a timely manner information relating to access to the Arizona Department of Education form which is designed to allow students to request that directory information not be released pursuant to the Elementary and Secondary Education Act (ESEA) as reauthorized by the Every Student Succeeds Act (ESSA) of 2015.

STUDENT RECORDS

This regulation is designed to meet the provisions of the Family Educational Rights and Privacy Act (FERPA) and the Individuals with Disabilities in Education Act (IDEA). All employees in ASDB are expected to fulfill the requirements of policy and the following procedures in order to protect the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages [34 C.F.R. 300.612].

The Superintendent has the responsibility for ensuring the confidentiality of any personally identifiable information [34 C.F.R. 300.612].

All rights and protections given parents under the FERPA and this regulation transfer to the student upon reaching age eighteen (18) except where the student continues as a dependent under specified circumstances, or enrolling in a postsecondary school. The student then becomes an "eligible student" [34 C.F.R. 99.5 and 300.625].

Definitions

For the purpose of the regulation, ASDB has used the following definitions of terms:

Student - Any person who attends or has attended a program of instruction sponsored by ASDB and for whom ASDB maintains education records.

Eligible student - A student who has reached age eighteen (18) or is attending a postsecondary school.

Parent - Either the natural parent of a student, unless the parent's rights under the FERPA have been removed by a court order, statute, or other legal document, or a guardian, or an individual acting as a parent or guardian in the absence of the student's parent or guardian. ASDB may presume that the parent has the authority to inspect and review education records relating to his or her child unless ASDB has been advised that the parent does not have authority under applicable law.

Education records - Any information directly related to a student recorded in any way including, but not limited to handwriting, print, computer media, video or audio tape, film, microfilm or microfiche, that is maintained by ASDB, an employee of ASDB, or any agent of ASDB except:

- Personal records kept by an employee of ASDB that meets the following tests:
  - It is used only as a personal memory aid.
  - It is kept in the personal possession of the individual who made it.
  - It is not accessible and has never been revealed to any other person except the employee's temporary substitute.
• Medical treatment records maintained for "eligible students". Records collected and maintained by a law enforcement unit of the school.

• Records containing only information about a person after that individual is no longer a student in ASDB.

• An employment record that is used only in relation to a student’s employment by ASDB. (Employment for this purpose does not include activities for which a student receives a grade or credit in a course.)

• Related alumni records after the student no longer attends classes provided by ASDB, and the records do not relate to the person as a student.

Personally identifiable information – Any data or information that makes the subject of a record known. This includes the student’s name, the name(s) of the student’s parent(s) or other family member(s), the student’s address, the student’s Social Security number, a student number, a list of personal characteristics, or other information that would make the student’s identity easily traceable.

Locations of Education Records

A list of types and locations of education records collected, maintained, or used will be provided to the parents on request [34 C.F.R. 300. 616]. See Exhibit JR-EA.

Procedure to Inspect Education Records

Parents of a student, the designated representative of the parents, and an eligible student may inspect and review the student’s education records that are collected, maintained, or used by ASDB [34 C.F.R. 300.501]. In some circumstances it may be mutually more convenient for the record custodian to provide copies of records. Charges for the copies of records will be costs of copying unless the fee would effectively prevent the parent from exercising rights to inspect and review those records [34 C.F.R. 300.613 and 300.617].

Since a student’s records may be maintained in several locations, the school Principal/Director will offer to collect copies of records or the records themselves from locations other than a student’s school so they may be inspected at one (1) site. However, if parents and eligible students wish to inspect records where they are maintained, the school's Principal/Director will make every effort to accommodate their wishes.

Parents, the designated representative of the parents, or the eligible student should submit to the student's school Principal/Director a written request that identifies as precisely as possible the record or records wanted for inspection. ASDB will respond to any request without unnecessary delay before any meeting regarding any individual education program or hearing relating to the identification, evaluation, placement of a student, or the provision of a free appropriate public education, and in no case more than forty-five (45) days after the request has been made [34 C.F.R. 300.613 and 99.10]. See Exhibit JR-ED.
The Principal/Director, or other education records custodian, will contact the parent of the student or the eligible student to discuss how access will be best arranged (e.g., copies, at the exact location, or records brought to a single site).

Parents have the right, upon reasonable request, for explanations and interpretations of the information contained in the records and a right to request copies of the records containing the information, if not in violation of stated policy of FERPA. Parents have the right to have a representative of the parent to inspect and review the records [34 C.F.R. 300.613 and 99.10].

The Principal/Director, or other education records custodian, will make the needed arrangements as promptly as possible and notify the parent or eligible student of the time and place where the records may be inspected. This procedure must be completed in forty-five (45) days or less after receipt of the request for access [34 C.F.R. 300.613].

If for any valid reason, such as working hours, distance between record location sites, or health, the parent or eligible student cannot personally inspect and review a student’s education records, ASDB will arrange for the parent or eligible student to obtain copies of the record. See below for information regarding fees for copies of records [34 C.F.R. 300.613 and 99.10].

When a record contains information about students other than a parent’s child or the eligible student, the parent or eligible student may not inspect and review the records of the other students [34 C.F.R. 300.615, 99.5 and 99.12].

**Fees for Copies of Records**

All records subject to disclosure under this regulation shall be available for inspection free of charge. If copies are desired, they shall be furnished by ASDB to the parent or eligible student upon request and free of charge. Additional copies may be sent to other schools or agencies without charge. However, ASDB reserves the right to charge up to thirty-five cents (35¢) per page for multiple or excessive requests. Copies of available records shall be produced as promptly as possible upon receipt of the request. No fee will be charged for search and retrieval of records [34 C.F.R. 300.617 and 99.11].

ASDB will provide copies of records:

- When the refusal to provide copies effectively denies access to the records by the parent or eligible student [34 C.F.R. 300.617].
- At the request of the parent or eligible student, when ASDB has provided the records to third parties by the prior consent of the parent or eligible student.
- At the request of the parent or eligible student when ASDB has forwarded the records to another school where the student seeks or intends to enroll.

**Directory Information**

ASDB designates the following personally identifiable information contained in a student’s education records as “directory information” and may disclose that information without prior written consent [20 U.S.C. 1232g(a)(5)(A)]:
...
The student’s name. The student’s address.

The student’s telephone listing.

The student’s date and place of birth. The student’s electronic mail address. The student’s photograph.

The student’s grade level.

The student’s major field of study. The student’s date of attendance.

The student’s enrollment status (e.g. part time or full time).

The student’s participation in officially recognized activities and sports.

The student’s weight and height if a member of an athletic team. The student’s honors and awards received.

The student’s more recently attended educational agency or institution.

Within the first three (3) weeks of each school year, ASDB will publish in an ASDB communication or send home with each student the above list, or a revised list, of the items of directory information designated as directory information. For a student who enrolls after the notice is published, the list will be given to the parent or eligible student at the time and place of enrollment. See Exhibit JR-EB.

After the parents or eligible student have been notified, they will have two (2) weeks to advise ASDB in writing of any or all of the items they refuse to permit ASDB to designate as directory information about that student.

According to state and federal law, if the Board permits the release of directory information relating to students to persons or organizations who inform student of educational or occupational opportunities, then the Board shall provide access to directory information on the same basis to military official recruiting representatives for the purpose of informing students of educational and occupational opportunities available to them, unless the parent or eligible student requests in writing to ASDB not to release directory information to any person or organization without prior written consent. If the parent or eligible student refuses to allow the release of directory information without prior written consent, then ASDB will not provide military recruiters, upon request, directory information containing the student’s name, addresses and telephone listings.

At the end of the two (2) week period, if the parent or eligible student has not returned the form indicating refusal to allow the release of directory information, ASDB will assume it has their permission to release the above-mentioned information. This designation will remain in effect until it is modified by the written direction of the parent or eligible student. The student’s records will be appropriately marked by the records custodian to ensure compliance with the parents’ and eligible student’s request.

Use of Student Education Records

To carry out their responsibilities, ASDB officials will have access to student education records for legitimate educational purposes. ASDB will use the following criteria to determine who are school officials [34 C.F.R. 99.31]:

- A person duly elected to the Board (under limited circumstances).
• A person certificated by the state and appointed by the Board to an administrative or supervisory position.
• A person certificated by the state and under contract to the Board as an instructor.
• A person employed by the Board as a temporary substitute for administrative, supervisory, or instructional employees for the period of such performance as a substitute.
• A person employed by or under contract to the Board to perform a special task, such as a secretary, a clerk, the Board attorney, or auditor, for the period of such performance as an employee or contractor.

ASDB officials who meet the criteria listed above will have access to a student’s records if they have a legitimate educational interest in doing so [34 C.F.R. 99.32]. A "legitimate educational interest" is the person’s need to know in order to:

• Perform an administrative task required in the school employee’s position description approved by the Board.
• Perform a supervisory or instructional task directly related to the student’s education.
• Perform a service or benefit for the student or the student’s family, such as health care, counseling, student job placement, or student financial aid.

Records of students placed in special educational programs will be under the direct supervision of the Principals. All persons collecting or using personally identifiable information in records of students determined to be a student with a disability will receive training or instruction regarding Arizona’s policies and regulations for the protection of these records at the collection, storage, disclosure, and destruction stages in accordance with FERPA and IDEA [34 C.F.R. 300.623].

ASDB will maintain for public inspection a current listing of the names and positions of employees who have access to personally identifiable information maintained on students placed in special education [34 C.F.R. 300.623]. When the information maintained in these records is no longer needed to provide educational services to the student, ASDB will notify the parents of their right to have the personally identifiable information destroyed [34 C.F.R. 300.624]. However, a permanent record of a student’s name, address, phone number, grades, attendance record, classes attended, grade level completed, and year completed will be maintained [34 C.F.R. 300.624]. Destruction of records will be accomplished in accordance with the requirements of Arizona law and regulations of the Department of Library, Archives, and Public Records [34 C.F.R. 300.623].

ASDB will release information from or permit access to a student’s education records only with a parent’s or eligible student’s prior written consent, except that the Superintendent or a person designated in writing by the Superintendent may permit disclosure [34 C.F.R., 99.30, 99.31, 99.34, and 99.37]:

• When a student seeks or intends to enroll in another school or a postsecondary school, ASDB will not further notify parents or eligible students prior to such a transfer of records. Parents and student have a
right to obtain copies of records transferred under this provision. See Exhibit JR-EC.

- When certain federal and state officials need information in order to audit or enforce legal conditions related to federally supported education programs in ASDB.

- To parties who provide or may provide financial aid to a student to:
  - Establish the student's eligibility for the aid.
    - Determine the amount of financial aid.
    - Establish the conditions for the receipt of the financial aid.
    - Enforce the agreement between the provider and the receiver of financial aid.

- If a state law adopted before November 19, 1974, required certain specific items of information to be disclosed in personally identifiable form from student records to state or local officials.

- If a state law adopted before November 19, 1974, required certain specific items of information to be disclosed in personally identifiable form from student records to state or local officials of the juvenile justice system and the officials certify in writing that the information will not be disclosed to any other party, except as provided under state law, without prior written consent of the parent or the eligible student.

- When ASDB has entered into a written agreement or contract for an organization to conduct studies on ASDB’s behalf to develop tests, administer student aid, or improve instruction.

- To accrediting organizations to carry out their accrediting functions. To parents of an eligible student if the parents claim the student as a dependent as defined by the Internal Revenue Code of 1954.

- To comply with a judicial order or lawfully issued subpoena. ASDB will make a reasonable effort to notify the parent or the eligible student before making a disclosure under this provision unless directed otherwise by a court of competent jurisdiction.

- To comply with an ex parte order from a court of competent jurisdiction requiring ASDB to permit the U.S. Attorney General or U.S. Attorney General’s designee to collect education records in the possession of ASDB that are relevant to an authorized investigation or prosecution of an offense listed in 18 U.S.C. 2332b(g)(5)(B) for an act of domestic or international terrorism as defined in 18 U.S.C. 2331. An ex parte order is an order issued by a court of competent jurisdiction without notice to the adverse party. A disclosure pursuant to an ex parte order will not be recorded as a disclosure of information from a student’s education records by ASDB.

- If ASDB initiates legal action against a parent or student, ASDB may disclose to the court, without a court order or subpoena, the education records of the student that are relevant for ASDB to proceed with the legal action.
• If a parent or eligible student initiates legal action against ASDB, ASDB may, without a court order or subpoena, disclose the student’s education records that are relevant for ASDB to defend itself.

• To comply with the request of authorized law enforcement officials conducting an investigation of acts of terrorism.

• The disclosure is in connection with a health or safety emergency.

• Time is an important and limiting factor in determining whether the disclosure is in connection with a health or safety emergency. ASDB will permit any school official to make the needed disclosure from student education records in a health or safety emergency if:
  o The official deems the disclosure is warranted by the seriousness of the threat to the health or safety of the student or other persons.
  o The information is necessary and needed to address the emergency.
  o The persons to whom the information is to be disclosed are qualified and in a position to deal with the emergency.

• ASDB may release student attendance, disciplinary, and other education records to a law enforcement agency and county attorney pursuant to an intergovernmental agreement between ASDB, the law enforcement agency, the county attorney, and other state, local, or tribal government agencies to create a local or tribal juvenile justice network for the purpose of:
  o providing appropriate programs and services to intervene with juveniles currently involved in the juvenile justice system
  o providing appropriate programs and services designed to deter at-risk juveniles from dropping out of school or other delinquent behavior
  o increasing the safety and security of the community and its children by reducing juvenile crime.

• Education records provided pursuant to an intergovernmental agreement entered into in accord with the above provisions shall be used solely for the purposes of the agreement and shall not be disclosed to any other party, except as provided by law.

An ASDB school official may release information from a student’s education records, other than directory information, to a third party if the parent or the eligible student gives prior written consent for the disclosure and the third party agrees that the information will not be disclosed to any other party without the prior consent of the parent or eligible student. The written consent must include at least:

• A specification of the records to be released. The reasons for the disclosure.

• The person or the organization or the class of persons or organizations to whom the disclosure is to be made.

• The signature of the parent or eligible student.

• The date of the consent and, if appropriate, a date when the consent is to be terminated.
The parent or the eligible student may obtain a copy of any records disclosed under this provision, unless otherwise provided.

Records of Requests for Access and Disclosures Made from Education Records

ASDB will maintain an accurate record of all requests for it to disclose information from or to permit access to a student’s education records, and of information it discloses and access it permits, with some exceptions as listed below. This record will be kept with, but will not be a part of, each student’s cumulative school records. It will be available only to the record custodian, the eligible student, the parent of the student, or to federal, state, or local officials for the purpose of auditing or enforcing federally supported educational programs [34 C.F.R. 99.32]. See Exhibit JR-EE.

The record will include at least:

- The name of the person, organization or agency that made the request.
- The interest the person, organization or agency had in the information.
- The date the person, organization or agency made the request.
- Whether the request was granted and, if it was, the date access was permitted or the disclosure was made.

ASDB will maintain this record as long as it maintains the student’s education records. The record will not include requests for access or access granted to:

- the parent or eligible student,
- authorized law enforcement officials conducting an investigation of acts of terrorism,
- school officials who have a legitimate educational interest in the student,
- requests for or disclosures of information contained in the student's education records if the request is accompanied by or authorized by the prior written consent of the parent or eligible student, or
- for requests for or disclosures of directory information designated for that student.

Procedures to Seek to Correct Education Records
[34 C.F.R. 99.20 and 99.21]

Parents of students and eligible students have a right to seek to change any part of the student’s record they believe is inaccurate, misleading, or in violation of student rights [34 C.F.R. 300.618 and 99.20]. (Note: Under the FERPA, ASDB may decline to consider a request to change the grade a teacher assigns for a course.)

For the purpose of outlining the procedure to seek to correct education records, the term incorrect will be used to describe a record that is inaccurate, misleading, or in violation of student rights. The term correct will be used to describe a record that is accurate, not misleading, and not in violation of student rights. Also, in this section, the term requester will be used to describe the parent of a student or the eligible student who is asking ASDB to correct a record.
To establish an orderly process to review and correct education records for a requester, ASDB may make a decision to comply with the request for change at several levels in the procedure [34 C.F.R. 300.618 and 99.20].

**First-level decision.** A parent of a student or an eligible student who finds an item in the student’s education records that appears to be inaccurate, misleading, or in violation of student rights should immediately ask the record custodian to correct it. If the record is incorrect because of an obvious error and it is a simple matter to make the record change at this level, the record custodian will make the correction. However, if the record is changed at this level, the method and result must satisfy the requester.

If the custodian cannot change the record to the requestor’s satisfaction or the record does not appear to be obviously incorrect, the custodian will:

- Provide the requester a copy of the questioned record at no cost.
- Ask the requester to initiate a written request for the change.
- Follow the procedure for a second-level decision.

**Second-level decision.** The written request to correct a student’s education records through the procedure at this level should specify the correction the requester wishes ASDB to make. It should at least identify the item thought to be incorrect and state whether the requester believes the item:

- Is inaccurate and why,
- Is misleading and why, or
- Violates student rights and why.

The request will be dated and signed by the requester.

Within two (2) weeks after receiving a written request, the record custodian will study the request, discuss it with other school officials (the person who made the record or those who may have a professional concern about ASDB’s response to the request), make a decision to comply or decline to comply with the request, and complete the appropriate steps to notify the requester or move the request to the next level for a decision.

If, as a result of this review and discussion, a decision is reached that the record should be corrected, the record custodian will affect the change and notify the requester, in writing, of that action. Each such notice will include an invitation for the requester to inspect and review the student’s education records to make certain the record is in order and the correction is satisfactory.

If a decision is reached that the record is correct, the custodian will make a written summary of any discussions with other officials and of the findings in the matter. This summary and a copy of the written request will be transmitted to the Superintendent.

**Third-level decision.** The Superintendent will review the material provided by the record custodian and, if necessary, discuss the matter with other officials such as the school attorney or the Board (in executive session unless otherwise requested by parent[s]). The Superintendent will then make a decision concerning the request and
complete the steps at this decision level. Ordinarily, this level of the procedure should be completed within two (2) weeks. If it will take longer, the Superintendent will notify the requester in writing of the reasons for the delay and a date when the decision will be made.

If the Superintendent decides the record is incorrect and should be changed, the record custodian will be advised to make the changes. The record custodian will advise the requester of the change.

If the Superintendent decides the record is correct, a letter to the requester will be prepared that will include [34 C.F.R. 300.619 and 99.20]:

ASDB's decision that the record is correct and the basis for the decision.

- A notice to the requester explaining the requester's right to ask for a hearing to present evidence that the record is incorrect and that ASDB will grant such a hearing.
- Instructions for the requester to contact the Superintendent to discuss acceptable hearing officers, convenient times, and a satisfactory site for the hearing. (ASDB will not be bound by the requester's position on these items but will, as far as possible, arrange the hearing as the requester wishes.)
- Advice that the requester may be represented or assisted in the hearing by other parties, including an attorney, at the requester's expense.

Fourth-level decision. After the requester has submitted (orally or in writing) any wishes concerning the hearing officer and the time and place for the hearing, the Superintendent will, within one (1) week, notify the requester when and where ASDB will hold the hearing and whom it has designated as the hearing officer [34 C.F.R. 300.621, 99.21, 99.22, and 99.34].

At the hearing, the hearing officer will provide the requester a full and reasonable opportunity to present material evidence and testimony to demonstrate that the questioned part of the student's education records is incorrect as shown in the requester's written request for a change in the record (second level).

Within one (1) week after the hearing, the hearing officer will submit to the Superintendent a written summary of the evidence submitted at the hearing. Along with the summary, the hearing officer will submit recommendations, based solely on the evidence presented at the hearing, that the record should be changed or should remain unchanged.

The Superintendent will prepare ASDB's decision within two (2) weeks after the hearing. That decision will be based on the summary of the evidence presented at the hearing and on the hearing officer's recommendation. However, ASDB's decision will be based solely on the evidence presented at the hearing. Therefore, the Superintendent may overrule the hearing officer if the hearing officer's recommendation is deemed inconsistent with the evidence presented. As a result of ASDB's decision, the Superintendent will take one (1) of the following actions:

- If the decision is that ASDB will change the record, the Superintendent will instruct the record custodian to correct the record. The record custodian will
correct the record and notify the requester as at the second-level decision [34 C.F.R. 300.620 and 99.21].

- If the decision is that ASDB will not change the record, the Superintendent will prepare a written notice to the requester that will include [34 C.F.R. 300.620 and 99.21]:
  
  - ASDB's decision that the record is correct and will not be changed.
  - A copy of a summary of the evidence presented at the hearing and a written statement of the reasons for ASDB's decision.
  - Advice to the requester that an explanatory statement may be placed in the student's education records stating the reasons for disagreeing with ASDB's decision and/or the reasons for believing the record to be incorrect.

Final administrative step in the procedure. When ASDB receives an explanatory statement from a requester after a hearing, it will maintain that statement as part of the student's education records as long as it maintains the questioned part of the record. The statement will be attached to the questioned part of the record and whenever the questioned part of the record is disclosed the explanatory statement will also be disclosed [34 C.F.R. 300.620 and 99.21].

Annual Notification to Parents Regarding Confidentiality of Student Education Records [34 C.F.R. 300.612]

Dear Parent:

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. The Board has established written policies regarding the collection, storage, retrieval, release, use, and transfer of student educational information collected and maintained pertinent to the education of all students to ensure the confidentiality of the information and to guarantee parents' and students' rights to privacy. These policies and procedures are in compliance with:

The Family Education Rights and Privacy Act; Title 20, United States Code, Sections 1232g and 1232h; and the Federal Regulations (34 C.F.R., Part 99) issued pursuant to such act;

Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (USA PATRIOT ACT);

No Child Left Behind Act of 2001 (NCLB)

The Individuals with Disabilities in Education Act; 20 U.S.C. Chapter 33; and the Federal Regulations (34 C.F.R. Part 300); and

Arizona Revised Statutes, Title 15, sections 141 and 142.

Student education records are collected and maintained to help in the instruction, guidance, and educational progress of the student, to provide information to parents and employees, to provide a basis for the evaluation and improvement of
school programs, and for legitimate educational research. The student's records maintained by ASDB may include - but are not necessarily limited to - identifying data, report cards and transcripts of academic work completed, standardized achievement test scores, attendance data, reports of psychological testing, health data, teacher or counselor observations, and verified reports of serious or recurrent behavior patterns.

These records are maintained in the office of ASDB under the supervision of the school Principal/Director and are available only to the teachers and employees working with the student. Upon request, ASDB discloses education records without consent to officials of another school in which a student seeks or intends to enroll. Otherwise, records are not released to most agencies, persons or organizations without prior written consent of the parent [34 C.F.R. 99.7].

You shall be informed when personally identifiable information collected, maintained, or used is no longer needed to provide educational services to your child. The information must be maintained for five (5) years after the date your child was last enrolled in ASDB.

You have the right to inspect and review any and all records related to your child within forty-five (45) days of the day of receiving a request for access, including a listing of persons or organizations who have reviewed or have received copies of the information [34 C.F.R. 99.7]. Parents who wish to review their children's records should contact the Principal/Director for an appointment or submit to the Principal/Director a written request that identifies the record(s) you wish to inspect. ASDB employees will make arrangements for access and notify you of the time and place where the records may be inspected. ASDB employees will be available to explain the contents of the records to you. Copies of student education records will be made available to parents when it is not practicable for you to inspect and review the records at the school. Charges for the copies of records will be costs of copying unless the fee prevents the parent from exercising rights to inspect and review those records.

You have the right to request that an amendment be made to the student's education records and to add comments of your own if you believe information in the record file is inaccurate or misleading [34 C.F.R. 99.7(a)(1)]. You should write the Principal/Director, clearly identify the part of the record you want changed, and specify why it is inaccurate or misleading. If ASDB decides not to amend the record as requested by you, ASDB will notify you of the decision and advise you of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to you when notified of the right to a hearing.

You have the right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by ASDB as an administrator, supervisor, instructor, or support employee (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom ASDB has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student.
serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Copies of ASDB student education records confidentiality policies and regulations may be reviewed in the assigned office in each school [34 C.F.R. 99.7(a)(5) and 99.7(b)]. You have the right to file a complaint with the Family Educational Rights and Privacy Act Office in Washington, D.C., concerning alleged failures by ASDB to comply with the requirements of FERPA [34 C.F.R. 99.7]. RESIDENCE LIFE
(Resident Live Ins and Driver Live Ins)

The Superintendent is charged with the responsibility of providing a living environment that fosters the physical and emotional well-being of its students. The adults who work with students are expected to conduct themselves in such a way as to be positive models, reflecting the values and standards of ASDB, community, and society. At all times consideration of the student's right to appropriate influences will be put above an employee's desire to pursue a course of behavior which is contrary to the philosophy of ASDB. Knowing this, any person desirous of residing on campus or seeking employment, must be prepared to sacrifice personal interest in deference to student interest when the two are in conflict. Responsibility lies with the Resident Live-In and Driver Live-In to seek clarification from his/her supervisor when appropriateness of behavior or course of action is in doubt. The term Live-In includes both Residential Staff Live-Ins and Driver Live-Ins.

Moving In
A Live-In will be issued the necessary keys in the Accounting Office only when the following has been completed:

- An executed Live-In contract is on file with the Accounting Office.
- The $100 cleaning deposit has been paid in full.
- The department supervisor has filled out a Key Assignment Request Form.

No Live-In may make alterations, additions, or improvements to his/her apartment without prior written consent from the Facilities Manager.

ASDB may inspect a Live-In's room during the contract year to insure the contract conditions are being adhered to. The Live-In will be present during such inspection.

ASDB may enter a Live-In's apartment to make repairs as necessary. A Live-In should complete a Work/Repair Order form, as he/she deems necessary.

For a fee of $50 per week, a Live-In may remain on campus during the summer vacation, and may be required to move to a more central campus location. No meals will be provided during these times.

No Live-In shall have a pet(s) on campus.

Duties and Responsibilities
A Live-In shall perform the following:

- Twelve (12) - Fifteen (15) hours of work per week for the school.

Residential Staff Live-Ins or Driver Live-Ins may be required by the Dean or Transportation Manager to assist the night supervisor should a problem or emergency occur.
Live-Ins shall be present at ASDB for forty (40) hours to participate in the orientation activities, which shall commence one (1) week prior to the beginning of the fall school semester.

No Live-In may designate another person to perform his/her duties without the prior consent of: for Driver Live-Ins -- the Transportation Supervisor and/or the Master Driver Live-In; for Residential Staff Live-Ins -- the Master Live-In and/or the Dean of Students.

Other duties and responsibilities may be assigned to a Live-In by: for Driver Live-Ins -- the Transportation Supervisor and/or the Master Driver Live-In; for Residential Staff Live-Ins -- the Master Live-In and/or the Dean of Students; and/or the Director and Superintendent.

**Contract Termination**

The Live-In contract may be terminated by ASDB upon notice to the Live-In by the Deans or the Transportation Manager (whichever may be applicable), and/or the Superintendent.

A Live-In may terminate his/her contract by giving ASDB four (4) weeks prior written notice. The $100 deposit will be forfeited if the Live-In moves out prior to the end of the school year.

**Moving Out**

The move-out date is specified in each Live-In's contract. The $100 deposit will be refunded to the Live-In ONLY when the ENTIRE living area has been cleaned and meets the Custodial Supervisor's approval. The deposit will be forfeited if the Live-In moves out prior to the end of the school year.

**Procedure for Moving Out**

The Deans and the Transportation Manager will provide the Custodial Supervisor with a list of Live-In move-out dates, including their location, at least two (2) weeks prior to the move-out date.

It is the responsibility of the Live-In to notify the Custodial Supervisor prior to the move-out date to arrange a cleaning inspection time.

The Deans or Transportation Manager will notify the Accounting Office as to whether the Live-In may receive his/her deposit.

On the specified move-out date, the Live-In will return his/her key(s) to the Accounting Office and receive his/her deposit if the cleaning inspection has been approved.

On the first working day after the specified move-out date, the Custodial Supervisor will perform a room check to verify the room is vacant. All property left after the move-out date becomes the property of ASDB.

No exceptions will be made regarding this policy.

**Guidelines for Guests**

Guests of the Live-In employee will be expected to comply with the following:

- Park in designated visitor areas.
• Refrain from using telephone, supplies, recreational, or cooking equipment when they are visiting.

• Follow the rules established for Live-Ins regarding use of alcohol or drugs, and interaction with students and employees.

Visiting hours
Guests must register in the Middle School Building Office during school hours or with Security after school hours. Guests are expected to leave the Live-In's residence hall or building at 1:00 a.m., and vacate the campus, unless permission is received from his/her supervisor.

Parents, siblings, or friends may be permitted to stay overnight in the Live-In's room upon the approval of: for Driver Live-Ins—the Transportation Manager and for Residential Staff Live-In—upon the approval of the Dean of Students.

If permission is given, the Live-In will supply information regarding the visitor's vehicle make and license number to the Transportation Manager, or to the Dean of Students (whichever is applicable) upon their arrival so that it may be conveyed to ASDB security.

Guidelines for Alcohol and Drugs
Possession or use of alcoholic beverages, illegal drugs, or public intoxication on campus is against the laws of the State of Arizona. Violation of this law may result in immediate termination.

Personal Conduct
Live-Ins are encouraged to develop friendships and a positive rapport with the students in ASDB; nevertheless, it is imperative that these relationships retain a professional, employee/student tenor. It is possible at times for students to misunderstand an employee's intention, and the onus is on the employee to maintain an appropriate and healthy relationship with the Students.

The Transportation Manager is responsible for the daily supervision of Driver Live-Ins. The Deans are responsible for the daily supervision of Residential Staff Live-Ins. Questions and suggestions must be directed to these individuals.

If resolution is not reached, all formal complaints shall be referred to the Superintendent for investigation. The employee involved shall be given an opportunity, at each administrative level at which the matter is reviewed, for explanation, comment, and presentation of facts, either formally or informally. KF: Community Use of ASDB Facilities

Leasing (renting)

ASDB facilities and property may be leased to extended day resource programs and any person, group or organization for any lawful purpose in the interest of the community. The purposes include but are not limited to the following:

- recreational,
- educational,
- political,
- economic,
- artistic,
- moral,
- scientific,
- social,
- religious,
- other civic,
- or governmental.

A reasonable use fee shall be charged for the lease of ASDB facilities and property and this fee may be offset by goods contributed or services rendered by the lessee. "Reasonable use fee" means an amount that is at least equal to the cost for utilities, services, supplies and/or staff members provided to the lessee pursuant to the terms of the lease.

Uncompensated Use

The Superintendent or designee may permit the uncompensated use of facilities and property by any school related group, including student political organizations, or by any organization whose membership is open to the public and whose activities promote the educational function of ASDB. "Education function" means uses that are directly related to the educational mission of ASDB as adopted by the ASDB Board and includes the educational mission related uses of parent - teacher organizations, youth organizations and school staff member organizations. Use of facilities or property by organizations indicated above that will require a substantial ASDB cost for utilities, services, supplies and/or staff may be permitted only if goods contributed, services rendered or payments are made to reimburse these costs to ASDB.

The mission of ASDB is found in section A of the policy manual. The mission statement and the group’s or organization’s promotion of the educational function through the activity, as interpreted by the Superintendent or designee in good faith, will be the basis upon which uncompensated use of ASDB facilities and property shall be approved or denied.

Generally

The Superintendent or designee shall annually recommend a fee schedule to the ASDB Board for the lease of ASDB property and such schedule shall include a procedure for determining the value of goods and services being provided as compensation for the use of ASDB property. The schedule shall include a designation of those groups whose activities promote the
educational function of ASDB as determined in good faith by the Superintendent or designee and presented for ASDB Board review.

Property not associated with the use of facilities is covered in section E of the policy manual. ASDB will use its best efforts to avoid conflicts with approved use of the facilities and property but no lease or use provision shall be effective if the Principal of the facility finds that it would cause delay, cancellation, or rescheduling of a school-sponsored activity.

Proof of liability insurance shall be required for the use or lease of school property pursuant to A.R.S. 15-1105. ASDB and the ASDB Board, staff members, and agents shall be named as additional insured under the liability insurance policy during the use of the facilities and property.

ASDB and its staff members, including the ASDB Board, Superintendent or designee, are immune from civil liability with respect to all decisions made and actions taken to allow the lease or use of ASDB property, unless ASDB or its staff members are guilty of gross negligence or intentional misconduct. This does not limit any other immunity provisions that are prescribed by law.

The Superintendent or designee shall establish such rules and regulations as are needed to implement this policy as well as to assure the preservation of ASDB property.

The lessee of ASDB facilities must affirm knowledge of and enforce the requirements and restrictions set out in Chapter 28.1 of A.R.S Title 36 related to medical marijuana.

The lessee of ASDB facilities to be used for athletic activities must confirm knowledge of and compliance with the requirements and restrictions for such use as set out in ASDB Board Policy JJIB.

Adopted: March 1, 2018

- ASDB reserves the right to require, if it should deem it necessary, a cash bond of five hundred dollars ($500), or more to cover any damages that might be done to any equipment, furniture, or facility.
- All wages earned by ASDB employees on duty for approved facilities use shall be paid by ASDB. No ASDB employees shall be paid directly by any group using the facilities.
- The availability of cafeteria kitchens and other special subject or usage areas may be restricted to specific times or activities. Special fees may be charged for the use of those facilities.
- When more than one (1) applicant requests the use of a facility for the same time, the applicant filing first shall be given first consideration. If a school program or calendar changes, the school program may take priority, even if the activity has been scheduled. Every effort will be made

- The issuance of keys to facilities is to be discouraged. However, if no alternative is suitable, facility keys will be issued and retrieved according to the ASDB key-control procedures.

Solicitation of staff members, parents, and/or students by any profit, nonprofit, or charitable groups, institutions, or organizations must have the approval of the Superintendent or designee in advance.

ASDB shall not use an automated system that plays recorded messages or sends text messages to solicit persons to purchase goods or services or requests survey information if the results are to be used directly for the purpose of soliciting persons to purchase goods or services unless the message was sent with prior express invitation or permission by the recipient or the recipient has an existing business relationship with the sender.

ASDB shall strive to safeguard the staff members, students and their parents from money-raising plans of outside organizations, commercial enterprises, and individuals. This policy shall apply particularly to ticket sales and sales of articles or services except those directly sponsored by school authorities or school organizations.

Definitions

Solicitation is any activity which might be considered or interpreted as being for the promotion, sale, or transfer of products, services, or memberships, or for the participation in and venture of any kind, including organizational or grievance activities.
